The action of the Chicago & North Western in increasing its dividend rate on the common stock is also an outgrowth of large earnings. It will be remembered that last January the company was obliged to reduce the semi-annual payment on the common shares from 3 per cent to 2½ per cent, and that in July a further reduction to 1½ per cent was made. Now the company has increased the dividend again to 2½ per cent. We referred last week to the very heavy gain in earnings which the road had reported for October. It is much too early to have the figures for November, but it seems likely that the improvement for that month will also be very striking, as the Chicago, Milwaukee & St. Paul for the same month has enlarged its gross in amount of no less than $897,674. As showing what

remarkable additions to receipts even the smaller roads are making, we may note that the Burlington Cedar Rapids & Northern reports gross of $501,663 for November 1895 against only $345,105 for November 1894, an increase of $156,558, or over 45 per cent.

We have had frequent requests for the returns of earnings of the Colorado Midland. These requests we have found it impossible to comply with, because the receiver was unwilling to furnish the figures for publication. We did give, however, in our issue of November 16 some data obtained from a private source. We are glad to be able to say that the receiver has now changed his policy, and that as a consequence we are able to present our readers with the following comparisons of the results for each month since the 1st of July.

COLORADO MIDLAND.

	Gross Earnings.		
Month—	1895.	1894.	Increase.
	$	$	$
July	142,479	128,445	14,034
August	161,429	146,757	14,672
September	164,462	117,536	46,926
October	175,435	150,946	24,489
Total	643,805	543,684	100,121

It will be seen that there has been an increase every month, and that for the four months to October 31 the aggregate of this increase reaches $100,121.

Last week's bank statement showed a further reduction in loans to $490,028,800, a loss of $32,670,100 since September 14, when the maximum of the year, $522,698,900, was recorded, and they are now not quite $10,000,000 above the minimum, the lowest this year being $480,438,300 April 6. The specie has gradually increased since October 12, when it was at the lowest of the year, $60,861,900, though the gain has been comparatively small, amounting to only $5,289,600, and at the same time the legal tenders have fallen off partly through withdrawals for exchange for gold, and these are now $82,658,800, against $73,894,600 March 30, the lowest of the year, and $119,883,500 August 17, the highest. Deposits are now $520,788,000, against $500,822,300 April 6, the lowest, and $577,223,300 August 17, the highest, and the surplus reserve is $18,613,300 against $13,413,450 March 30, the lowest, and $45,880,450, January 26, the highest. These figures show an unusually low condition of the banks for the season, and they will in great measure account for the present state of the money market.

Money on call, representing bankers' balances, has this week loaned in small amounts at 1½ and at 3 per cent, but generally at 2 and at 2½, averaging about 2½ per cent, with the market moderately active, owing to the daily shifting of loans. The banks and trust companies quote 2½ per cent as the minimum and some obtain 3 per cent. There is a little better demand for time loans, which has resulted in marking up the quotations by lenders, and there is a feeling among some of the institutions that money will soon command better rates. The business reported is small, commission houses generally continuing to rely upon the call loan branch of the market for accommodation. Quotations are 2½ per cent for thirty days, 3 per cent for sixty to ninety days, 3½ per cent for four to five and 4@4½ per cent for six to seven months on good Stock Exchange collateral. The demand for first-class commercial paper is good while the supply is small, though slightly increasing, and rates are higher at 4@4½ per cent for sixty to ninety day endorsed bills receivable, 4½@4¾ per cent for four months' commission house names, 4½@5 per cent for prime four months' single names, 4¾@5½ per cent for prime six months and 6 per cent and above for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ¾ of 1 per cent. The open market rate at Paris is 1½ per cent and at Berlin and Frankfort it is 2½@3 per cent. According to our special cable from London the Bank of England gained £1,733,434 bullion during the week and held at the close of the week the unprecedentedly large sum of £44,338,765. Our correspondent further advises us that the gain was due to the import of £2,178,000 (of which £1,663,000 were from the United States, £509,000 were bought in the open market and £6,000 from Holland), to an export of £270,000 (of which £160,000 were to the Argentine Republic, £50,000 to the Cape, £35,000 to Uruguay and £25,000 to Malta), and to £175,000 sent to the interior of Great Britain.

The foreign exchange market has been dull and steady to firm this week. Bankers report a little better supply of commercial bills against cotton and breadstuffs, and some say that the drafts against the first-named staple have been larger than at any time this season. But the demand has been sufficient to absorb the offerings at high prices and to leave the market almost bare. Much of the current inquiry for bills is to cover short contracts in exchange, some of which are reported to have been made during the Bond Syndicate operations and extended from time to time, while others were made in anticipation of the movement of cotton. It is thought, however, that these short contracts will be closed before the end of the year. There was a steady market for exchange on Monday with rates for actual business unaltered compared with Friday of last week, at 4 87½@4 88 for sixty-days 4 89@4 89½ for sight and 4 89¾@4 89½ for cable transfers, and long sterling was firmly held in consequence of easier discount rates in London. No change was made on Tuesday or Wednesday, when the tone was firm, with a moderate supply of commercial bills and a good demand for remittance. Muller, Schall & Co. on the last-named day shipped $500,000 American gold coin to Buenos Ayres. On Thursday, Brown Bros. advanced the posted rate for long sterling to 4 89, in consequence of the easy discount rate in London, but no change was made by the other drawers, and the market was steady to firm, with rates for actual business unaltered. Yesterday the same conditions ruled, the close being steady. The withdrawals for shipment to-day were $1,100,000 by L. von Hoffman, & Co., $1,300,000 by Lazard Freres and $200,000 by Baring, Magoun & Co., the latter being bought in the open market. This makes the total shipments for the week $3,100,000. The following table shows the daily posted rates for exchange by leading drawers:

		Fri., Nov. 29.	Mon., Dec. 2.	Tues., Dec. 3.	Wed., Dec. 4.	Thurs., Dec. 5.	Fri., Dec. 6.
Brown Bros.	60 days	88¾	88¾	88¾	88¾	89	89
	Sight	90	89	90	90	90	90
Baring, Magoun & Co.	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90
Bank British No. America	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90
Bank of Montreal	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90
Canadian Bank of Commerce	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90
Heidelbach, Ickelheimer & Co.	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90
Lazard Freres	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90
Merchants' Bk. of Canada	60 days	88¾	88¾	88¾	88¾	88¾	88¾
	Sight	90	90	90	90	90	90

The market, as stated, closed steady on Friday at 4 88¾ @4 89 for sixty day and 4 90 for sight. Rates for

actual business in sterling were 4 87½@4 88 for long, 4 89@4 89½ for short and 4 89½@4 89½ for cable transfers. Prime commercial bills were 4 87½@4 87½ and documentary 4 86½@4 87.

We have already referred above to the fact that bank clearings for November make a much smaller percentage of gain than in the months preceding, the increase being 13·6 per cent, against 22·1 per cent in October. Owing to the reduced gains here in the East, the percentages of improvement for the different sections do not this time show such wide extremes as in some of the earlier months. For the Middle States the increase is 16·0 per cent, for the New England group 14·0 per cent, for the Southern group 9·6 per cent, for the Far Western group 9·2 per cent and for the Pacific group 11·7 per cent. In the Middle Western group, however, the gain is only 5·0 per cent. The result in that group is largely controlled by the result for Chicago, which point has only 4·0 per cent gain. The following is our usual summary of the monthly aggregates.

MONTHLY CLEARINGS.

Besides the small gain at Chicago—4 per cent—alluded to in the foregoing, we may note that at both Baltimore and Cincinnati there is actually a small decrease. Below we furnish a comparison for four years for a number of leading cities.

As regards the business on the Stock Exchange this was quite moderate in November. In number the share sales were somewhat larger than in November, 1894, but the aggregate market value of the same was somewhat less, as will appear by the following.

SALES OF STOCKS AT THE NEW YORK STOCK EXCHANGE.

The Atchison Topeka & Santa Fe makes a rather poor exhibit of earnings for October, having lost $79,198 in gross and $222,554 in net. The Louisville & Nashville, on the other hand, has $114,403 gain in gross and $24,917 gain in net, and the Denver & Rio Grande $52,302 gain in gross and $25,315 gain in net. The following compares the October gross and net earnings for four years of a number of roads.

Name of Road		October Earnings. 1895.	1894.	1893.	1892.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Dec. 6, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	5,067,000	$3,554,000	Gain. $1,513,000
Gold	429,000	411,000	Gain. 18,000
Total gold and legal tenders	$5,496,000	$3,965,000	Gain. $1,531,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending Dec. 6, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$5,496,000	$3,965,000	Gain. $1,531,000
Sub-Treas. oper. and gold exports	14,100,000	18,850,000	Loss. 4,750,000
Total gold and legal tenders	$19,596,000	$22,815,000	Loss 3,219,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	December 5, 1895. Gold.	Silver.	Total.	December 6, 1894. Gold.	Silver.	Total.

HOW TO CURE OUR FINANCIAL DERANGEMENT.

No one will fail to read the President's urgent and impressive appeal to Congress in behalf of the country's disturbing and critical financial and currency situation. His message also refers at considerable length to our foreign relations; but the financial discussion takes up the larger part of the message, and that portion will be found to-day in full, together with extracts from the earlier part with reference to foreign affairs, on pages 1015 to 1020. Business classes for the time being can feel little interest in any other than the currency problem; its sweep and gravity have made it absorbing. Or, using in substance the President's ideas, it has become the engrossing thought because it is the topic of deepest domestic concern and because it affects the basis of our credit everywhere, at home and abroad.

Mr. Cleveland's appeal likewise compels conviction. The subject is presented so as to bring out clearly the defective working of our money system, the need there is for a thorough and complete revision and so as to lead up to a simple and apparently feasible plan for remedying the country's embarrassment. But besides that the message suits the conditions under which any financial legislation to become a law must be perfected this year, because it shows by word and spirit perfect willingness to join in any other mode of adjustment which Congress may suggest. We like particularly the method of introducing his proposal by giving a useful historical review since 1879 of the country's various experiences and experiments in the descent to the existing derangement. Throwing light in this way on the road down which we have traveled helps materially to disclose the steps to be retraced. These experiences too reveal the truth that it was the legal-tender feature of the Government notes that completed the Treasury's discomfiture—an enforced issue of paper money which as soon as discredited could not fail to exhaust any fund created for its redemption.

To illustrate how this endless chain has worked the President presents a notable contrast. He states that from the first of January 1879, when the country resumed specie payments, to the 14th of July 1890, the date of the passage of the law for the increased purchase of silver, a period of eleven and a-half years, there were only 28 million dollars of gold withdrawn from the Treasury in redemption of the legal-tender notes, whereas from July 14 1890 to the first day of December 1895 nearly 375 millions were so withdrawn. Mr. Cleveland puts these facts in still another form. Taking the whole period, he says that nearly 327 million dollars of gold thus withdrawn has been paid out on these United States notes and more than 76 million dollars in gold on the 1890 legal tenders. "In other words the Government has paid in gold more than nine-tenths of its United States notes and still owes them all. It has paid in gold about one-half of its notes given for silver purchases without extinguishing by such payment one dollar of these notes." Both kinds are still outstanding in their full amount prepared to join hands "in future raids upon the Treasury gold reserve."

There is one point in the foregoing which needs elaborating and explaining. We do this not because there is anything lacking in Mr. Cleveland's statement so far as his argument goes, but because as it stands it may mislead some. What we refer to is the fact that only 28 million dollars of gold were withdrawn from the Treasury in the redemption of legal-tender notes during the 11½ years ending with July 14 1890. Inasmuch as up to the 1st of July 1890 there had been coined 369,426,266 silver dollars, and all but about 16 millions of them were in active circulation either in the form of dollars or silver certificates, it seems at first sight strange that these dollars should have done so little apparent harm. The surprise is increased when we find that after the addition of only 155 million dollars in silver notes under the 1890 law, and indeed before that issue had reached a third of that amount, the old as well as the new legal tenders became such active agents in repelling gold. That is to say, the $346,681,016 of greenbacks were apparently dormant while 369,426,266 silver dollars were being coined, but almost as soon as another issue of legal tenders had begun to be put into circulation both together were discredited and pressed for redemption.

This apparent anomaly is very easily accounted for. In an article we wrote February 9 1889, pages 171–173 of the CHRONICLE, we presented a summary of the currency changes which had taken place within the 10 years then just ended since specie payments were resumed. On that occasion we also answered the question why it was that up to that time the silver-dollar coinage in progress had ostensibly made so little disturbance. Any one interested in that investigation will find it useful to read the article. We can only state here that our examination showed there was no mystery about the matter. The apparent lack of disturbing influence existed, notwithstanding the silver-coinage in progress, because (1) the period started with a contracted currency and a sudden expansion of business activity; (2) during the 10 years national bank notes had decreased about 100 million dollars; (3) that although we had imported gold in large amounts in the early years, we found in 1889 that about $279,000,000 had been hoarded and was no where visible; (4) that the gold holdings of the Treasury had been materially increased through 1885, 1886, 1887 and 1888, reaching in the latest two years an average of over 200 million dollars, fluctuating thereafter about 190 millions until September 1890, when the Treasury stock suddenly dropped to $147,981,732; (5) that in 1889 there was also an accumulation in the Treasury of about 20 million dollars in half dollars, which the silver dollars and dollar certificates had supplanted. These changes, together with an apparent hoarding of old legal-tender notes, we in 1889 showed had left an unoccupied place which the silver dollars and certificates filled and so were kept actively at work. Besides, the very large gold reserve from 1886 to 1890 served of itself to prevent distrust. It should also be added that subsequent to 1889 and until 1891 the total of the national bank notes afloat continued to decrease, reaching in October of the last year named 171 million dollars, showing a loss since October 1879 (when the amount in circulation was 335 million dollars) of about 164 million dollars. These conditions very naturally served for the time being to suspend the harmful influence of the silver-coinage law.

In the latter part of 1890 and in 1891 every influence changed to the opposite direction; that is, every agency tended to give full play to the harmful action of an over-valued silver currency. Even the national bank notes again increased, the amount outstanding

having reached Dec. 1 1895 about 213¾ million dollars. Of course also the Government under the requirement of the 1890 law emitted month by month the specified instalment of additional legal tenders. Besides that the price of silver bullion began to decline rapidly in 1891 and continued to drop until it touched a lower figure than had previously been thought possible. But what proved in its immediate effect of almost greater influence than all the other changes mentioned was that in 1891 the then Secretary of the Treasury reversed the Government policy as to the Treasury gold balance. We have referred to the sudden drop in September 1890 to 147 million dollars; in June 1891 the net reserve was down to 117¼ million dollars; the next year, in July 1892, it touched 110¼ million dollars. The course of the Treasury gold reserve since that date we all know.

We have said above that the President in his message presented a simple and apparently feasible plan for remedying the country's embarrassment. It is unnecessary to take the space here to state its features further than to say it calls for the funding of all legal-tender notes into a long-date bond and the issue of national bank notes in their place. This no doubt would be an effective cure, and we are heartily in favor of the proposal if there is a fair prospect of its enactment. We fear, with the Senate constituted as it now is, there is not. It possesses to be sure the quality of being the only scheme hitherto brought before Congress for funding the notes which could gather a considerable body of adherents, for it does not propose any new bank-note system but takes advantage of one already existing and one in high favor throughout the country as the agent to carry the plan into effect. If any law of this nature could pass, a statute which embodied the President's suggestion is the one that looks most promising. Since writing the above we notice that Mr. Walker of Massachusetts has introduced into the House what appears to be an ingenious scheme for the retirement of all the legal tenders and furnishing a substitute. We have not seen the bill, only a notice of it in the daily press, and cannot judge of its merits.

But the uncertainty, and there is uncertainty, at the present moment as to the success of such a measure as the President's, and in any event the length of time its enactment would require, seem to make it desirable that some less radical measure and one which might be more speedily perfected should be devised and passed at once. The financial situation is critical; it is already having a depressing influence on general business, and if not arrested that influence will increase. Our review has shown that even with a large amount of silver currency in circulation, and even with the old legal tenders outstanding, there was for years little apparent discredit. At the present time compared with that period there is only about 150 millions added to the aggregate of our Government currency. If we could withdraw and fund this latest instalment of legal tenders; or, in case nothing better can be secured, even if those notes could in large part be taken into the Treasury and kept there until the increased activity of business throughout the country should find a use for them, something would be gained. We would not by any means have what we want—only what for the time being we could get. Having secured that, the agitation of our currency defects should not cease until the Government was wholly taken out of the paper money business and a good bank-note system substituted.

LIMITATIONS OF INDEPENDENT AUDIT.

A few weeks ago (Chronicle of October 12, pages 635 to 637) we published an article on the subject of the Independent Audit of Railway Accounts. This article has attracted considerable attention and been widely commented upon by the press in Europe and in this country. We have also received a large number of letters and communications bearing on the subject from investors and others interested in United States railroads on both sides of the Atlantic, and giving the writers' views as to various phases of the question. All this attests the great interest felt in the matter, and certainly the subject is a very important one, and affects vast interests. In view of this fact, some further remarks on the subject will not be out of place.

Among those who have written us is Mr. J. Alfred Fisher, of London. Mr. Fisher gives it as his opinion that if the suggestion of an independent audit for American railways were carried out, and if at the same time the accounts of our railroads could be simplified as to capital and revenue liabilities and assets, it would greatly increase the credit and market value of our securities on the other side—a statement which no one who knows what stress is laid upon an independent audit in Great Britain will be inclined to dispute. We take particular pleasure in noticing Mr. Fisher's communication because he is the author of an exceedingly useful work on railway accounts.* This work has gone through two editions, the first in 1891, and the second in 1893, and it is without doubt a very meritorious book, as it furnishes a complete insight into the management of the English railways and their system of bookkeeping and accounting. Covering every branch of the service, the methods of check and control over both income and expenditure are described in the introductory notes in each section of the work, while the system pursued in conducting an independent audit is set out in an appendix at the end in a series of articles taken from "The Accountant" and reprinted with the permission of that periodical. To the English railway manager we should think the book would be invaluable, and even to American railroad managers it ought to furnish useful suggestions and hints. The railroad systems in the two countries are widely different in some respects, but they are not so much unlike that the method of accounting in England can not be adapted to the conditions in the United States.

Quite erroneous ideas exist as to what can be accomplished by means of an independent audit. In our previous article we noted that as stockholders in this country rarely exercise their voting rights, but give the proxies on their shares to the managers, these latter would control the election of the auditor, and therefore could select any one to suit themselves. This was not intended as throwing doubt on the honesty and integrity of railroad managers in the United States, nor as a reflection upon the vast body of accountants, but simply to show that *if* a management were not above a resort to questionable acts in the administration of the property under their charge, the existence of an independent audit, with the auditor named by the managers and not inclined to scrutinize the accounts too closely, would not necessarily be a protection to the shareholders or lead to the disclosure of the questionable

* Railway Accounts and Finance.—An exposition of the principles and practice of railway accounting in all its branches. By J. Alfred Fisher, London: Bemrose & Sons, limited, 23 Old Bailey. Price, in cloth, 10s. 6d.; half calf, 15s.

acts. In brief, the object of an independent audit would in such cases be defeated. On the other hand, where the auditor was really independent and the system was applied in the way intended, it could not fail to be very useful. Under it an over-statement of earnings continued for several years, as practiced by the late executive of the Atchison, would be rendered out of the question.

At the same time it is well to remember, as said on the previous occasion, that a deliberate misstatement of the accounts is an exceedingly rare thing in American railroad management, the Atchison case standing practically alone. It is also well to remember that an outside audit cannot protect shareholders against mistakes of policy or errors of judgment on the part of the management, nor yet can it protect investors against errors of judgment on their part in buying securities of a property having no intrinsic merit. All this is important, for the call for a separate audit which is made with so much insistency may be ascribed very largely to the unfortunate results attending many investments in American railroads. No one understands the limit of an audit of accounts better than the professional auditor, and he would be the last person to make exceptional claims for it. But the general public has a totally different conception of the operation. They seem to think that when a separate audit is made the auditor goes into all the details of the management of the property, that for instance in the matter of expenditures he certifies not only that the money has been expended as shown by the books, but that it has been wisely and judiciously expended; that he determines whether road bed, track and equipment have been kept in full repair; that he ascertains whether the property has been cheaply and economically managed, that there has been no waste or prodigality, and a thousand and one other things.

As the system of independent audit is not well known in this country, it being peculiarly an English institution, it will be well to note some of its limitations. For this purpose the description of the system as given in Mr. Fisher's book referred to above will prove very serviceable. At the very outset we note the statement that "in the audit of a railway company's accounts it would be a physical impossibility for a chartered accountant to check every transaction." That seems elementary and certainly is self evident. Then we are told that the checking and control of expenditures must of necessity rest with the directors and heads of departments of the roads, that the independent auditor can not go into the details of either revenue or expenditure. "Responsibility does not rest with him, but with the railway accountant, for the correctness of certified returns of traffic furnished by stations." * * "Neither could it be regarded as the professional auditor's duty to enquire whether the charges in tradesmen's and other accounts certified for payment are correct, fair or reasonable. These are matters for the administration. But there can be no question that his responsibility commences with these certified accounts and returns of traffic, and it is clearly a part of his duty to see that they are correctly summarized and recorded in the books and published accounts and balance sheet of the company."

This latter shows at once well defined limits to the work of the special auditor and what the duties of the professional accountant chiefly are. But there are other limitations. It is his duty to see that expenditures are properly apportioned as between capital and revenue accounts, but "in connection with the wages of an army of railway men, it would not be possible for a professional auditor to examine the weekly signatures; nor, perhaps, even the certificates of station-masters and pay-clerks that amounts entered on the pay bills, and signed for by the men, had 'been paid as expressed.'"

In the matter of the share and loan capital accounts the outside auditor is expected, of course, properly to verify all the entries, and to apply such further checks as he may consider desirable in order to prove their general accuracy. But we read that "when a detailed and continuous audit of the Secretary's registers devolves on the company's accountant, and he is held responsible for the accuracy of the entries made, it is not necessary for the professional auditor to do more than we have indicated. In fact, in the absence of some special arrangement to the contrary, we could scarcely suppose that the fees ordinarily voted to him would compensate for the time which would be occupied by a detailed check of these books, containing, as they frequently do, tens of thousands of transfer and other entries." He is expected, however, to verify the cash balances in connection with this branch of his investigation, and to see that the amounts actually paid in agree with the certified summaries in the Secretary's books.

But what will perhaps interest American readers most is the view taken of the duty of the professional auditor in determining the amount available in dividends for distribution to the shareholders. It is in that particular that the system of an independent audit has always been regarded as possessing special merit. But the limitations here are fully as marked as in the other directions. Thus it is pointed out that while it is the duty of the auditor to examine the balance available for dividend, "it is questionable how far, if at all, it is an auditor's duty to go into such questions as the proper maintenance of the railway, works, working stock, or machinery. The company's engineers and mechanical superintendents, whose certificates are attached to the published accounts, would free the auditor from responsibility in these matters. Where such certificates are given, and repairs, renewals and replacements out of current revenue are constantly going on, questions of depreciation do not arise. If repairs or renewals fall into arrear, provision for prospective expenditure may properly be made, but this is a factor which directors and permanent officials claim to determine; and in this case the responsibility of the professional auditor does not necessitate his going behind the certificates referred to above."

From the foregoing we get an idea of what in Great Britain is considered outside the province of an independent auditor. Of course to any one who has given the subject a moment's thought it is apparent that the work of a professional accountant must necessarily be carried on within well defined limits. Perhaps those limits are now seen to be much narrower than most persons had supposed they were. Be that as it may, and be the limits what they may, within those limits the independent audit has a very useful function to perform. Obviously an accountant might enter a railroad office and besides calling into requisition the clerks already in the service of the company employ an army of clerks of his own. It would then be possible for him to go into all the details. But that would be a very costly proceeding; if by circumscribing the

limits of his work he is prevented from making any but a general examination of the books and accounts, there are nevertheless numberless checks and devices he can employ to prove the accounts and establish their accuracy and regularity.

The important fact to remember is that whether there be an independent audit or not the company must itself have a complete system of checks on its employes and its books and accounts. Mr. Fisher's excellent work furnishes a description of these checks as far as the English roads are concerned, and also makes numerous suggestions regarding the same. Our own roads, it is needless to say, have also been obliged to adopt very elaborate and comprehensive systems of checks. This they have been forced to do to guard against fraud, peculation and irregularities on the part of their employes. A system of independent audit means simply an additional check. In some respects it would be the best check of all, for as it is supposed to be made by a reliable and irreproachable outside party, it is calculated to command special confidence and give a greater feeling of security. In this sense, to adopt it confers a distinct advantage upon a company. Furthermore, when we observe the magnitude of the railroad system, with its yearly gross income of 1,200 million dollars and its capitalization of nearly 12,000 million dollars, it becomes evident that there cannot be too many checks and safeguards. It should always be borne in mind, however, that an independent audit can not ensure good management. Security holders must look to that themselves. The independent auditor can do no more than establish the accuracy and reliability of the accounts, and even there the field of his investigations is limited, as we have seen.

THE ATLANTA EXPOSITION AND COTTON-MANUFACTURING IN THE SOUTH.

The Cotton States Exposition now progressing so successfully at Atlanta, Ga., aside from its utility in drawing attention to the industrial development in the South, is expected to be of special benefit to that section in further stimulating enterprise. Those who have kept in touch with affairs at the South recognize the fact that the Cotton Exposition held in Atlanta in the fall and winter of 1881 marked the beginning of a new era in the development of Southern resources, and that the Augusta National Exposition of 1889 was an important supplementary influence of like tendency. Having in mind, therefore, the advantages derived from these early efforts it is but natural to suppose that the present Exposition will fall far short of expectations if it does not again focus the attention of investors on the wide and promising field still awaiting development. As is well known, prior to the Civil War that section of the country was almost wholly given over to the cultivation of cotton. The manufacture of the staple was carried on to a very limited extent. Since the war the whole aspect of affairs has changed. Of course climatic conditions and the nature of the soil still make cotton the logical product of the country, but it is not so much as heretofore the exclusive crop, though the yield has been very largely increased of late years. It is, however, in the manufacturing of cotton fabrics that the greatest progress has latterly been made.

In our Annual Cotton Crop Report, issued early in September, we gave the more important results of our inquiries into the manufacturing branch of that industry during 1894-95. But within the limits of such a review we were naturally unable to devote to the subject the space which under existing circumstances it demands. According to the Census of 1860 there were at the South 167 cotton factories, but their total spinning power was only 303,551 spindles, or an average of barely 1,800 spindles per factory, and consumption aggregated scarcely 100,000 bales, or but little more than 2 per cent of the amount produced by the cotton States. Furthermore, between 1850 and 1860 there had been no increase whatever in the aggregate number of mills, although in the preceding nineteen years —1831 to 1850—the number had risen from 7 to 168. The war of course paralyzed all enterprise during its continuance, and many if not most all of the mills were either destroyed or considerably damaged. Yet five years after the war had closed—in the Census year 1869-70—the South had more than fully recovered the lost ground, the enumeration showing a total of 344,586 spindles, or 41,035 more than in 1860, even though the number of establishments in which they were contained was but 154, or 13 less than at the preceding Census. They did not however consume as much cotton as was reported in 1860. Between 1870 and 1880 further progress was made, the returns of 1879-80 giving a total of 561,360 spindles distributed among 164 factories and consuming 188,748 bales of the raw material. Although development thus far had been encouraging, it was decidedly more gratifying in the next decennial period, the first Atlanta Exposition being the particular force which gave the new start. This event of 1881 impressed upon certain Northern capitalists, who were already engaged in the manufacture of cotton goods, the fact that in their own particular line the South opened up a splendid field for profitable investment. They concluded that at least in the manufacture of the lines of goods fashioned from the coarse counts of yarn there could be greater profit realized from establishments built in the midst of cotton fields—the raw material passing directly "from field to factory"—than could be obtained by transporting the staple to the North and working it up there.

How phenomenal was the growth in the ten years from 1879 80 to 1889-90 is best set forth by stating that in the interval spindles increased threefold, and the same is practically true of consumption, the result of our own census in the fall of 1890 being a total of 271 establishments, containing 1,624,335 spindles and consuming 549,478 bales of the raw material. Each year since, down to and including 1894-95, the census which we have taken has given evidence of steady progress so far as additions to spinning capacity are concerned, though the volume of consumption suffered a slight check in the disastrous year of 1893 94. We need not give the details for intervening years. The comparison is sufficient if, starting with 1889 90, we confine the results to 1894-95. By way of explanation it is perhaps well to remark that in the last season —as in fact in all others since we began the work—our investigations were of the most exhaustive character. We did not confine ourselves merely to following up mills fully equipped and actually at work, but were at great pains to inquire into every project announced during the year and are now in position to know the exact condition of the industry at the close of last August. The result of our investigations was as follows:

	Mills.		Spindles.
Number of mills actually working during all or part of 1894-95	322	in which were operated " " idle	2,379,281 53,967
			2,433,248
Number of mills wholly idle	43	containing	109,821
Number of new mills practically completed and intended to be put in operation between Sept. 1 and Jan 1	16	containing	166,701
Other new mills in course of erection or about to be constructed	57	to contain about	499,580
Total	438		3,209,350
Proposed additions to existing plants			500,249
			3,709,599

The foregoing does not include projected mills whose ultimate success was, at the time the inquiries were made, shrouded in doubt. Nor was any addition to the number of mills made by considering and counting new buildings put up by previously existing corporations as new factories. The spinning power of all such additions is fully represented in the total of spindles. We are not at liberty to go into details with regard to the proposed additions to existing plants referred to above, but have no hesitancy in stating that the aggregate given (500,249 spindles) is made up from reports made to us by the mill officials. Aside from the fifty-seven establishments included under the head of "other new mills" there is a vast number of projects under consideration, many of which, of course, will never mature. Should, however, these projects be added to the total 438 mills given above we should have an aggregate of over 500 mills, with more than 4,000,000 spindles, as representing the actual and prospective cotton-manufacturing power of the South. What proportion of this large number of new spindles will be put in operation before the close of August, 1896, is another question. That depends not so much upon celerity in completing the buildings as upon ability to secure the necessary machinery with which to equip them. It is at least certain that our next enumeration will show a material increase in spindles and consumption as compared with 1894-95.

Thus far we have confined ourselves to a general consideration of Southern cotton-manufacturing, but before leaving the subject some attention should be paid to its local aspects. In 1831 all the factories, seven in number, were located in Virginia, but collectively they contained only 9,844 spindles. The Census of 1860 discloses the fact that of the 303,551 spindles then in operation only a little more than half were to be credited to the Carolinas and Georgia, and the enumeration of 1869-70 exhibited about the same relative result. Furthermore, in 1860 Virginia was second only to Georgia in spinning capacity and Alabama outranked South Carolina. But what a change the later years have seen. The factories in the single State of either North Carolina or South Carolina contained in 1894 95 more spindles than there were in the whole South fifteen years ago, and Georgia almost as many, and the mills of the two Carolinas operated more spindles than the whole South operated in a year as late as 1887 88. Without further comment, we present a compilation showing the number of spindles in the more important manufacturing States at various periods from 1831 down to the present, the results for 1831, 1860, 1869-70 and 1879-80 being those of the United States Census, and those since 1889 90 our own returns.

Spindles.	N. Car.	S. Car.	Georgia.	Oth. States.	Total all.
1831				9,844	9,844
1860	41,334	30,896	85,156	145,961	303,551
1869-70	29,497	34,010	85,992	194,147	344,586
1879-80	92,385	82,334	177,956	117,985	561,360
1889-90	364,598	274,859	424,958	462,312	1,524,336
1890-91	415,000	415,158	465,811	459,178	1,755,047
1891-92	475,723	467,425	485,484	499,402	1,928,034
1892-93	548,000	503,059	509,103	541,711	2,092,197
1893-94	589,446	509,043	515,712	544,011	2,167,242
1894-95	612,503	619,849	551,806	595,123	2,379,281

We here see what has been the result of the awakening of enterprise and the infusion of capital into the Southern half of the country. A feature of interest is to note the tendency constantly developing towards the construction of larger mills. This tendency has been gradual but none the less steady. The seven mills of 1831 contained on the average but 1,400 spindles each and in 1860 the average per mill was but 1,800 spindles. In 1869 70 the average had risen to 2,237, in 1879-80 it was 3,423 and in 1889-90 reached 5,994. The 283 factories working in 1890 91 operated on the average 6,205 spindles each, in 1891-92 the average rose to 6,616, in 1892 93 it was 6,631, and for 1893-94 it was 6,751. Finally, in the season lately closed the average number of spindles per mill was 7,389. Stated in brief, between the dates of the first Atlanta Exposition and that now being held the average capacity of Southern cotton mills has more than doubled.

Another point worthy of attention is the consuming power per spindle. In this direction through improved equipment, etc., there has been much progress. On the basis of the Census returns of 1869 70 the average consumption per spindle at that time was but about 110 pounds, or less than in earlier years, which would seem to prove conclusively that the machinery reported was far from being fully employed. The 1879-80 enumeration, however, furnished more reliable results and gave an average of 156 pounds. Passing along to 1889 90 we find that in that year the consumption per spindle was but 154¼ pounds, or slightly less than at the end of the previous decade, but in the interim the tendency had been toward the production of a finer average count of yarn, which more than makes up for the small decrease in amount of cotton used. Although producing a still finer count in 1890-91 the average consumption per spindle rose to 158½ pounds, and in the succeeding year it was 163 pounds, the count of yarn being practically the same as in 1890 91. The following season, 1892 93, witnessed a further rise in the count of yarn, but consumption continued at 163 pounds. In 1893 94 there was a drop to 155 pounds, which is mainly attributable to the large number of spindles that was idle part of the time. The season of 1894-95 exhibited a marked increase in the average, for although the count of yarn spun was one-half a number higher than in 1893-94 consumption per spindle rose to 168⅞ pounds; but to some extent the increase was due to the working of some of the mills in the Carolinas to their full capacity night and day. The changes in consumption per spindle from year to year in a number of the States have been as follows:

	North Carolina.	South Carolina.	Georgia.	All others.	General average.
1860	142¼	128⅜	163¼	160	154
1869-70	106¼	136	127⅛	90	110
1879-80	129	149⅛	170	140⅛	156
1889-90	151⅜	170	162⅛	138	154⅛
1890-91	151⅛	182⅛	162⅝	138⅛	158⅛
1891-92	153½	183	168	148	163
1892-93	152¼	183⅜	174⅜	143⅜	163
1893-94	148½	160	158⅜	152	155
1894-95	160⅜	174	197	148½	168⅞

We have shown above the increase from period to period in the spinning capacity of the mills, but only slight reference has thus far been made to their aggregate consumption. As any analysis of Southern mill workings would be incomplete without such an exhibit we subjoin a statement which covers the total consumption during each Census year from 1831 to 1889-90, using our own ascertained results for 1889-90 and giving in addition our figures for the years 1890-91 to 1894 95, inclusive. For purposes of comparison a column covering Northern consumption is appended.

As the net weights of bales vary in different years the results are stated in pounds, greater accuracy thus being attained.

Consumption.	North Carolina.	South Carolina.	Georgia.	All others.	Total South.	Total North.

1891-92	142,180,814	166,984,818	143,224,390	88,416,207	401,706,255	847,153,995

The above compilation is an excellent indication of the rapidity with which cotton-manufacturing has developed at the South. Confining our attention to the years since 1869-70 we find that the gain in the first decennial period was nearly 140 per cent, between 1879-80 and 1889-90 there was a further increase of 187 per cent and 1894-95 exhibits an excess over 1889-90 of nearly 60 per cent. Furthermore, during the quarter of a century between 1869-70 and 1894-95 the gain was approximately 1,000 per cent, Northern consumption advancing during the like period only 148 per cent. Expressed in weight, the consumption at the South has risen 314,095,366 pounds since 1879-80, against an increase at the North of only 234,420,903 pounds. While in 1894 95 Southern mills turned into goods 150,140,844 pounds cotton more than in 1889 90, the concurrent excess at the North was but 40,119,995 pounds.

A feature of our latest returns that has been but lightly touched upon as yet is the matter of new mills. Among the sixteen that were practically completed and intended to be put in operation before the close of 1895 may be mentioned the Concord (N. C.) mills, containing 25,000 spindles, the Dwight Manufacturing Company, Alabama City, Ala., 26,000 spindles, and the Camden (S. C.) mills and the Marble Falls (Texas) mill, each 10,000 spindles. The fifty-seven new mills in course of erection or about to be constructed are in large part to be credited to the Atlantic States, only eleven of these projected mills being located in other sections of the South.

Such are the main facts so far as they can be brought out with regard to the development of cotton-manufacturing at the South. We should naturally prefer to go more into the details of the subject, but the reports are made to us in confidence, which precludes the possibility of our making public any results except the State aggregates. Some of the mills do not object to their individual statements being published, but they are the exceptions. We have, however, presented enough facts to demonstrate not only that cotton-manufacturing at the South has developed very rapidly of late years but that its immediate future advancement is likely to be even more rapid.

COURSE OF TRUNK-LINE INCOME.

For many years we have made it a practice to bring together the earnings of the great east-and-west trunk lines for the year ending September 30. This period was selected because it was originally the fiscal year of several of the leading roads, namely the New York Central, the Baltimore & Ohio and the Erie. The first two roads have since then changed their years to end on June 30. This leaves only the Erie with the old fiscal year, and possibly that company too may change now that the property has been sold and a new company organized. It seems desirable, however, to continue the use of the original year, since in that way we can carry the comparisons back for a long period of time.

We have accordingly had the figures compiled for the twelve months ending September 30 1895, thus bringing the results forward for another year. In undertaking the compilation this time we have encountered a difficulty in the fact that the Erie has made no annual report for the late year, nor has the company furnished any monthly returns since last July—an omission doubtless explained by the circumstance that the property was undergoing reorganization. The company makes quarterly returns to the New York State Railroad Commissioners, and the return for the September quarter was filed last week. But the figures in these statements are on a different basis from those in the annual reports, and hence are not available for our purpose. We have succeeded, however, in procuring the gross earnings on the right basis, both for the Erie itself and the New York Pennsylvania & Ohio. The expenses we have had to estimate in both cases, but as we have had as a guide in making our estimates the returns to the New York State Railroad Commissioners we do not think the figures can be far astray. Before presenting the results for each of the trunk lines separately, we give below a summary of the grand aggregates of them all. We extend the comparisons on these aggregates back to 1879-80, the first year after the resumption of gold payments. It is proper to say that the roads included are, besides the Erie, the New York Pennsylvania & Ohio and the New York Central, the Pennsylvania Railroad (lines east of Pittsburg and Erie), the Lake Shore & Michigan Southern, the Baltimore & Ohio and the Nickel Plate.

TRUNK LINE EARNINGS YEAR ENDING SEPTEMBER 30.

Year.	Gross.	Net.	Year.	Gross.	Net.
	$	$		$	$
1879-80	134,146,555	56,934,659	1887-88	164,952,935	53,399,116
1880-81	159,240,219	53,484,491	1888-89	166,704,836	54,168,552
1881-82	139,152,307	50,848,487	1889-90	181,611,083	56,559,240
1882-83	152,717,243	58,189,286	1890-91	188,836,811	60,447,878
1883-84	142,637,078	50,552,871	1891-92	194,649,910	59,367,814
1884-85	127,654,896	40,052,945	1892-93	201,836,676	59,447,184
1885-86	142,093,929	50,799,413	1893-94	173,291,266	52,620,052
1886-87	159,440,389	56,113,773	1894-95	1-1,484,863	54,441,897

Thus we find just what we should expect to find—that is, a small recovery after a very heavy loss in the twelve months preceding. The year 1893-94, as we all know, was a phenomenally bad year, and was marked by a combination of adverse circumstances, agencies and conditions seldom if ever before experienced. After the settlement of the trunk line war in 1885 the gross revenues of these trunk lines had steadily risen in good and bad years alike until in 1892-93 the aggregate of the same had reached the very large total of over 201¾ million dollars—in exact figures $201,836,676. The panic and other adverse influences caused a drop in 1893-94 to $173,291,266. This has now been followed in 1894-95 by an upward reaction to $181,484,863. In certain important respects the conditions in the late year were better than in the year preceding. Thus the later months witnessed a decided revival in trade, and there was at the same time an absence of many of the special disturbing agencies which had marked the course of the previous year. On the other hand, some of the conditions in the late year were distinctly unfavorable. Among these we may mention the crop failure sustained in 1894, and also the general demoralization in rates which prevailed for most of the twelve months. Under the circumstances no very striking gains could be looked for, and whereas in 1893-4 the loss had been roughly 28¼ million dollars the gain in 1894-5 has

been but a little over 8 million dollars. In the net the results have been much the same. In 1893-4 there was a drop from $59,467,134 to $52,620,062; in 1894 5 there has been a recovery to $54,441,887. We now give the gross and net earnings for the separate roads for the last six years, this being all the years that the width of our columns will permit us to incorporate.

† Including taxes on property.
(b) Taxes not included.
(c) Does not include operations of New York Pennsylvania & Ohio; but amounts due other leased lines operated on a percentage basis are deducted from earnings.

There is not a road here but that makes unfavorable comparisons with one or more of the previous years. On the other hand, with the exception of the Erie, every one of the roads shows a gain on the low totals of gross from 1893-4. In order to facilitate comparisons between the last two years as to both gross and net, we furnish the following additional statement.

* Rough estimates.

It will be observed from this that while the Erie shows a loss in gross for the twelve months the New York Pennsylvania & Ohio, its Western extension, records a gain, and that this gain is in ratio the largest of any of the companies, reaching 12·72 per cent. In the previous year this road had shown the largest percentage of decline of any road. The Pennsylvania comes next after the New York Pennsylvania & Ohio in ratio of gain for the late year, its percentage being 8·56 per cent. The New York Central records only 2·23 per cent increase. In the previous year, when the Pennsylvania had shown 14·93 decrease, the loss for the New York Central was but 10·14 per cent. Having suffered least in 1893–4, naturally its gain is correspondingly smaller for the late year. The differences in the ratios of change between the two companies in both years we may say arose chiefly out of the differences in the character of the traffic of the respective systems. The Pennsylvania has an extraordinarily large traffic in coal and coke. With the New York Central, the coal traffic forms a much smaller proportion of the whole. It so happens that this coal traffic underwent an especially marked falling off in 1893 4, and has likewise exhibited a particularly marked gain in 1894-5. For the Baltimore & Ohio the ratio of increase in gross for the late year is 4·89 per cent, for the Lake Shore only 1·70 per cent, but for the Nickel Plate it is 6·28 per cent.

In the case of the net earnings the Erie shows a large loss and the New York Central a small loss. The latter road had recorded only a comparatively slight falling off in 1893-4, when the other roads had very heavy decreases as a rule. The loss on the Erie is in addition to a very heavy contraction in the net in the previous year. But this does not signify much, as the road, being in receivers' hands, the outlays have naturally been exceptionally heavy. The Pennsylvania has enlarged its net 7·95 and the Baltimore & Ohio 7·73 per cent. The Nickel Plate in 1893 4 had lost $335,160, or 25·67 per cent. It now has $199,661 or 20·57 per cent gain. The New York Pennsylvania & Ohio reports $308,306 increase (25·87 per cent) after no less than $868,266 decrease, or 42·15 per cent, the previous year.

DIMINISHING PUBLIC LAND SALES.

A variety of causes has contributed to reduce the public land sales in recent years and thus make them of small r consequence as a factor in the agricultural development of the United States than they were not so very long since. But while the importance of these sales has diminished, it is always interesting to see their magnitude and extent, and moreover present totals serve to point the contrast in this respect with former periods. For this reason we have obtained from Mr. Lamoreux, the Commissioner, the statistics relating to the Government's late fiscal year, and take occasion in this article to make them the subject of an annual review, the same as in other years.

It appears that the aggregate of land entered for cultivation and settlement in the late year was less than 5½ million acres—in precise figures 5,429,517 acres. When we speak of land entered for cultivation and settlement we mean the disposals for cash and under the homestead and timber-culture laws. Large amounts of land are each year patented to the States or certified to the railroads, but these, involving merely a change in possession (the lands yet remaining to be disposed of by their new owners), are not included by us in our totals. The idea is to show the amount of public land which has passed into the hands of parties who have presumably taken it for occupation and development, and to that end all disposals not of that character are eliminated. This method we have pursued in other years, and hence the results admit of accurate comparisons for a long term. We may say that we also exclude the takings in Alaska; these are of only trifling extent, the total for the late year

having been only 441 acres. Computed in this way the total of the disposals in the late year was the smallest of any twelve-month period for the last eighteen years. The takings have been dwindling for a considerable length of time. Still, they had been ranging between eight and nine million acres in the four years immediately preceding. On the other hand in 1887 88 they amounted to 16,319,076 acres, in 1888 9 to 12,461,604 acres and in 1886-87 and 1885 86 to 17,4[illegible],658 acres and 18,309,942 acres respectively. Thus the entries now in area are only a little more than one-quarter what they were when the movement was at its height.

The reasons for this decline form an interesting study by themselves. There are quite a number of them, as pointed out by us on former occasions. Those not familiar with the subject might be inclined to think that the explanation was very plain and was found in an approaching exhaustion of the Public Domain. But the Commissioner of the Land Office, in his annual report, submitted to Congress by the Secretary of the Interior, shows that on June 30 1895 the area of vacant public land was, according to the best estimates, 599,063,407 acres, or nearly one million square miles. Obviously, therefore, the Public Domain is far from being exhausted. It is true, however, that in many of the States where the takings were exceptionally large eight or nine years ago, the best and most desirable lands have been disposed of. Of the character of the 599 million acres still in the possession of the United States it must be admitted very little is known. About one-half the whole has not even been surveyed yet. Part of the land is certainly mountainous, for that is evident from its location. Another part is arid, but this can be reclaimed by irrigation. Doubtless the greatest drawback is found in the fact that much of the land has not as yet been made accessible by railroads. And here we find a fundamental difference between the present period and past periods. In the earlier years the railroads were building enormous amounts of new mileage through undeveloped regions, and thus opening up new territory all the time. During the last few years railroad building, especially through unopened sections, has almost entirely ceased, the times not being propitious, and there being indeed no inducement for the prosecution of such enterprises. As a consequence there has been very little addition in this way recently to the available land in the Public Domain, whereas a decade or more ago the additions of that kind were very large.

As an influence in the falling off in the entries, it must also be remembered that there has been within the decade a great change in the agricultural situation. Formerly it was thought that too much land could not be brought under cultivation for agricultural purposes in the United States. There seemed to be an unlimited demand for our products, while at the same time the harvests here were good, and we had the rare combination of large crops and high prices, making the results to the farming classes very profitable. On the other hand, during the last few years the conditions have been unusually trying to the agricultural population. In some parts of the West there were until the present year successive crop failures, while contemporaneously prices, especially for wheat, dropped to extraordinarily low figures; other countries had gone into the business of raising food products extensively, thus diverting from us to them part of the foreign demand. As a consequence, much land in the newer sections could be obtained very cheaply, and thus the inducement to go to the remoter sections to take up land where there were no railroads was very greatly lessened, and doubtless this had its effect.

Lastly, it must not be forgotten that it is no longer possible for a party to obtain public lands in so many different ways as before, nor to acquire so much in the aggregate. By the act of March 3, 1891, both the timber culture and the pre-emption laws were repealed, and since then those wishing to acquire ordinary farming or agricultural land have been restricted to the method provided in the homestead laws. As stated by us last year, formerly it was possible for a party to make both a pre-emption and a timber-culture entry of 160 acres each in addition to a homestead entry, giving 480 acres together; as the law now stands a homestead entry of 160 acres is the maximum, and neither a pre-emption nor a timber culture entry can be initiated.

In view of this change in the law, a division of the sales from year to year among the three leading heads referred to above becomes desirable, and accordingly we present the following table, which furnishes a comparison for the last six years of the disposals, in the aggregate, and also separately the disposals for cash, and under the homestead and timber-culture laws.

PUBLIC LANDS SALES.

Year end'g June 30.	1895.	1894.	1893.	1892.	1891.	1890.
	Acres.	*Acres.*	*Acres.*	*Acres.*	*Acres.*	*Acres.*
Sales for cash.....	416,437	612,448	1,404,857	1,571,426	2,142,539	3,302,571
Homest'd entries.	5,009,491	8,046,968	6,808,791	7,716,062	5,040,394	5,531,678
Timb.-culture ent.	3,589	4,209	10,989	41,375	969,006	1,787,403
Total.....	5,429,517	8,663,625	8,224,637	9,328,863	8,151,939	10,621,652

The effect of the repeal of the timber-culture and pre-emption laws is here very apparent. The timber-culture entries had been diminishing along with those of other classes even before the repeal of the law; now they have almost entirely disappeared, the trifling amounts still reported representing presumably proceedings initiated while the law was still in effect. In the earliest year given in the foregoing—that is, in 1889-90, the year before the repealing act was passed—these timber-culture entries amounted to a little over 1¾ million acres. In 1885-6, the year when the public land sales attained their maximum, the timber-culture entries were over 5½ million acres. For the late fiscal year the aggregate was only 3,589 acres. The disposals under the old pre-emption law appear under the head of "sales for cash." It will be seen from the above that the aggregate of these cash sales of all kinds has declined in each and every one of the years contained in the table, and for 1894-5 was only 416,437 acres, as against 3,302,571 acres in 1889-90; in 1887-8 the cash sales had been almost six million acres—5,907,-155 acres.

Proceeding a step further in our analysis we find that almost the whole of the disposals now consist of homestead entries, these contributing in the late year 5,009,491 acres out of the total of 5,429,517 acres. At the same time these homestead entries have themselves been declining. But the decline has not been so striking or significant as in the other cases. At 5,009,491 acres for 1894-95, the amount compares with 8,046,968 acres for the year before and with 9,145,135 acres for 1885-86, which was the maximum.

It is desirable also to know how the takings of public lands are distributed among the different States and territories and which of them show the largest or smallest decline. For the purpose of such a comparison we shall take the aggregate of the three kinds of

entries, that is the sales for cash, the disposals under the homestead law and the entries under the timber-culture act. The aggregate for 1894-95, as we have already seen, was 5,429,517 acres, as against 8,663,625 acres for the year preceding. While the falling off extends pretty well through the list of States, examination of the figures shows that the Oklahoma Territory is responsible for the bulk of the decrease, the takings there having been only 981,455 acres in the late year, as against 3,770,496 acres in 1893 94. The reason for the decrease in this instance is of course perfectly obvious. The total in the previous year had been entirely exceptional, the takings in that year having been swelled to unusual proportions by the opening to settlement, on September 16 1893, by the President's proclamation, of the Cherokee Outlet. The scenes on that occasion—the rush to secure favored sections, the creation of towns over night, &c.—will be readily recalled. The movement having been due to this special event, it was of course obvious that last year's total would not be duplicated. Outside of Oklahoma the changes have on the whole not been very important, though a continuation of the tendency towards reduced totals is observable in a great many cases. In the following we show the takings for the last seven years in each of the public land States and Territories.

DISPOSALS OF PUBLIC LANDS FOR CASH AND UNDER THE HOMESTEAD AND TIMBER-CULTURE LAWS BY FISCAL YEARS FROM JULY 1, 1888, TO JUNE 30, 1895.

States & Ter's.	1888-89.	1889-90	1890-91.	1891-92.	1892-93	1893-94	1894-95.

The foregoing furnishes some striking contrasts, but hardly as striking as would be the case if our columns were wide enough to permit us to extend the comparisons further back. Excepting Oklahoma no State or Territory records aggregate disposals of as much as 400,000 acres. In Kansas the land entered in the late year comprised but 58,571 acres; in 1887-88 the takings in the same State had been 2,552,530 acres, in 1886 87 3,719,441 acres, and in 1885-86 5,541,251 acres. In the two Dakotas the disposals in the late year were 608,952 acres; in the old Dakota Territory they were 6,069,307 acres in 1883-84, or more than the takings in all the States and Territories combined the present year. In Colorado, as against 273,046 acres disposed of in the late year, the takings in 1887-88 were 2,629,113 acres and in 1886-87 2,526,699 acres; and in Nebraska, as against disposals of only 189,840 acres in 1894-95, the takings in 1886 87 were 2,513,620 acres and in 1885-86 3,037,714 acres. While this large movement in settlement of the Public Domain was going on in the earlier years the railroads, of course, were greatly favored. The importance of the falling off now lies in the fact that this special source of advantage is shown no longer to exist, or at least not to the old degree. But there is no occasion for uneasiness on that score. There is abundant room for growth and development in the territory already opened up.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO DECEMBER 1.

The marketing of cotton during November has been on a less liberal scale than for the corresponding month of any year since 1883, and compared with last year the falling off is of course very heavy. To what extent the smaller movement is due to a disposition on the part of planters to hold on to their crop it is of course difficult to determine. According to our statements 1,321,097 bales came into sight through the ports, interior towns and the rail movement overland in November this year, or some 400,000 bales less than in October, against 2,197,167 bales in 1894 and 1,704,608 bales in 1893. The aggregate for the three months of 1895 is 3,585,613 bales, against 4,977,500 bales for the like period a year ago and 3,853,436 bales in 1893. Northern spinners have taken 308,933 bales during the month, but their total takings for the season to date exhibit a decrease of 331,718 bales compared with last year.

OVERLAND MOVEMENT TO DECEMBER 1.

The *gross* shipments overland have been less during the month than in the like period of any of the preceding three years, reaching 235,300 bales, against 434,786 bales last year, 306,526 bales in 1893 and 273,754 bales in 1892. The season's total is now 278,283 bales less than in 1894 but 17,493 bales greater than for 1893. The *net* overland for November is likewise much less than for the month of 1894 having been only 183,338 bales, against 370,826 bales, and there is a decrease of 43,504 bales compared with 1893, when the aggregate was 226,842 bales. For the three months the aggregate net is 362,508 bales, a decrease from 1894 of 250,225 bales, and compared with two years ago the gain is 32,525 bales. Presented in our usual form the results for the past three seasons are as follows:

OVERLAND FROM SEPTEMBER 1 TO DECEMBER 1.

	1895.	1894.	1893.
Amount shipped—			
Via St. Louis	224,918	383,638	224,894

Charleston, inland and local mills	3,071	6,286	3,442
N. Carol'a ports, inland and local mills	405	425	350
Virginia ports, inland and local mills	3,118	1,172	10,122
Total to be deducted	96,925	124,988	111,957
Leaving total net overland*	362,508	612,733	329,983

* This total includes shipments to Canada by rail, which since September 1 in 1895 amounted to 22,073 bales in 1894 were 30,966 bales and in 1893 were 15,597 bales.

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

Receipts at the ports for the month, in common with the overland, have been less free than of late years, reaching but 912,759 bales, against 1,607,662 bales last year and 1,272,766 bales in 1893. The aggregate for the three months is consequently 1,249,983 bales less than for the same period in 1894 and 462,348 below the total for two years ago. The outward movement of cotton has been of only fair proportions in November this year, the total foreign shipments having been 694,771 bales, against 1,154,511 bales a year ago, and for the season to date the aggregate exports have been 1,436,384 bales, or 842,511 less than for the corresponding period of 1894. Our usual table of receipts, exports and stocks is as follows:

Movement from Sept. 1, 1895, to Dec. 1, 1895.	Receipts since Sept. 1, 1895.	Receipts since Sept. 1 1894.	EXPORTS SINCE SEPT. 1, 1895 TO— Great Britain*	France.	Continent.	Total.	Stock Nov. 30, 1895.

* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1, this year and the two previous years is as follows.

	1895.	1894.	1893
Receipts at the ports to Dec. 1....bales.	2,499,105	3,749,088	2,961,453
Net shipments overland during same time	362,508	612,733	329,983
Total receipts.....bales.	2,861,613	4,361,821	3,291,436
Southern consumption since September 1	259,000	230,000	218,000
Total to Dec. 1.....bales	3,120,613	4,591,821	3,509,436

The amount of cotton marketed since September 1 in 1895 is thus seen to be 1,471,208 bales less than in 1894 and 388,823 bales below the total for 1893. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to December 1, 1895, as above.....bales.		3,120,613
Stock on hand commencement of year (Sept. 1, 1895)—		
At Northern ports	169,527	
At Southern ports	110,536	280,063
At Northern interior markets	5,782	285,845
Total supply to December 1, 1895		3,406,458
Of this supply there has been exported to foreign ports since Sept. 1, 1895	1,430,384	
Less foreign cotton included	15,951	1,420,133
Sent to Canada direct from West	22,073	
Burnt North and South	1,434	
Stock on hand end of month (Dec. 1, 1895)—		
At Northern ports	240,855	
At Southern ports	763,937	1,004,792
At Northern interior markets	10,365	2,459,127
Total takings by spinners since September 1, 1895		947,331
Taken by Southern spinners		259,000
Taken by Northern spinners since September 1, 1895		688,331
Taken by Northern spinners same time in 1894		1,020,049
Decrease in takings by Northern spinners this year..bales.		331,718

The above indicates that Northern spinners had up to December 1 taken 688,331 bales, a decrease from the corresponding period of 1894 of 331,718 bales and a gain over the same period of 1893 of 122,136 bales.

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on December 1 compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns less stock held by them at the beginning of the season. In this manner we find the result for three years on December 1 to be as follows:

	1895.	1894.	1893
Total marketed, as above....bales.	3,120,613	4,591,821	3,509,436
Interior stocks in excess of Sept. 1.	465,000	385,679	344,000
Total in sight.....bales.	3,585,613	4,977,500	3,853,436

This indicates that the movement up to November 1 of the present year is 1,391,887 bales less than in 1894 and 267,823 bales less than in 1893.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

Months.	1895	1894	1893.	1892.
September.....	542,394	633,703	511,273	522,552
October.....	1,722,122	2,116,640	1,637,555	1,465,067

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to December 1 we give below our usual table of weight of bales. We give for comparison the figures for the same time in the two previous years.

	Three months ending Dec. 1, 1895			Same peri'd in 1894	Same peri'd in 1893.
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight.	Average Weight.
Texas	523,123	283,149,531	535·13	539·50	519·64
Louisiana	809,195	418,248,620	516·87	518·39	497·00
Alabama	96,916	48,748,748	503·01	515·00	504·00
Georgia*	476,484	231,266,274	485·36	500·89	489·04
South Carolina.	188,582	91,364,207	484·48	498·20	485·90
Virginia	216,384	106,019,505	489·96	490·93	490·47
North Carolina.	106,757	52,493,484	491·71	500·24	498·55
Tennessee, &c..	697,172	348,586,000	500·00	498·90	495·00
Total....	3,120,613	1,579,876,429	506·27	512·12	497·66

* Including Florida.

It will be noticed that the movement up to Dec. 1 shows a decrease in the average weight as compared with the same period of last year, the average this year being 506·27 lbs. per bale, against 512·12 lbs. per bale for the same time in 1894 and 497·66 lbs. in 1893.

THE DRY GOODS TRADE DURING NOVEMBER.

The dry goods trade has passed through a month contrasting unfavorably with those immediately preceding it. Under the adverse influences of unseasonable weather and a fluctuating cotton market, with a preponderating downward tendency, buyers early became much more reserved than for a considerable time before and business shrank within restricted limits in all staple lines and in strictly seasonable fancies. As the month advanced the tone became easier in the former, prices developing an irregularity first in outside makes and latterly in many leading lines also, resulting in an average decline of fully $\frac{1}{8}$c. per yard in brown goods, frequently $\frac{1}{4}$c. per yard in coarse colored cottons and sometimes $\frac{1}{4}$c. per yard in bleached. The demand for spring specialties opened during the

month was much more satisfactory than in staple and seasonable lines, and in them a good business has been done on a generally steady range of prices.

The above prices are—For cotton, low middling uplands at New York; for printing cloths, manufacturers' net prices; for sheetings and ginghams, agents' prices, which are subject to an average discount of 5 per cent, except when otherwise stated; Southern sheetings *net*.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the aggregate of 9·6 per cent. So far as the individual cities are concerned New York exhibits an increase of 13 per cent, and the gains at other points are: Boston 1·4 per cent, Philadelphia 15·8 per cent, Chicago 3·2 per cent, St. Louis 4·7 per cent, and New Orleans 0·5 per cent. Baltimore records a loss of 0·8 per cent.

CLEARINGS. Returns by Telegraph.	Week Ending December 7.		
	1895.	1894.	Per Cent.
New York	$583,171,491	$516,050,256	+13·0
Boston	88,607,052	85,422,540	+ 1·4
Philadelphia	71,367,892	61,540,875	+15·8
Baltimore	12,824,841	12,937,028	- 0·8
Chicago	93,917,168	90,165,870	+ 3·2
St Louis	23,850,104	22,769,324	+ 4·7
New Orleans	12,684,682	12,603,743	+ 0·5
Seven cities, 5 days	$886,423,930	$801,489,640	+10·2
Other cities, 5 days	139,207,613	145,492,761	+ 9·4
Total all cities, 5 days	$1,042,841,903	$946,982,701	+10·1
All cities, 1 day	185,761,391	173,650,500	+ 7·0
Total all cities for week	$1,228,603,294	$1,120,633,201	+ 9·6

Another table, our usual monthly detailed statement of transactions on the various New York Exchanges, has also been crowded off of the first page. The results for the eleven months of the current year are, however, given below and for purposes of comparison the figures for the corresponding period of 1894 are also presented.

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Nov. 23, 1895.

At a meeting at Brighton on Tuesday evening Lord Salisbury read a letter from the Sultan in which that potentate complains of the doubts thrown on his sincerity to carry out the promised reforms in the Prime Minister's Guild Hall speech, pledges his honor that he will perform his engagements, and requests Lord Salisbury to make known the substance of the letter at another public meeting. The letter is quite unprecedented and has made a favorable impression throughout Europe, as it seems to show that the Sultan at last recognizes the necessity for restoring order. At the same time it seems clear that the Sultan's authority has been shaken, and as he is utterly without money there is much doubt whether he can fulfil his promises, however desirous he may be of doing so just now.

Another important announcement has been made by the semi-official organ of the Vienna Foreign office. Contradicting a rumor to the effect that Russia had withdrawn from the concert of the Powers, the Vienna paper states that Russia is as anxious as any other Power to maintain the concert, adds that the Austro-Hungarian Chancellor had proposed that each Power should send a squadron to the Levant, that each should also send a second guard ship to the Bosphorus, and that the Ambassadors of the six Powers at Constantinople should be authorized to do whatever may be necessary. As a matter of fact the squadrons have been sent and application has been made to the Sultan to admit a second guard ship to the Bosphorus. But Russia objected to the proposal to authorize the Ambassadors to do what is necessary, preferring that the governments of the six Powers should themselves decide what is to be done. European opinion generally seems to be in favor of the Russian suggestion. Nothing is known yet as to any further step; but Sir Philip Currie, the British Ambassador at Constantinople, who has been at home on sick leave for some time, will arrive in Constantinople today. On the way he has consulted with the French and the Austrian Foreign Ministers, and it is expected that when he arrives in Constantinople he will take some important step.

All these various announcements have tended to calm public opinion, but for all that there continues a very uneasy feeling, for everywhere it is recognized that however anxious the Powers may be to work together it is an extremely difficult and delicate thing to carry through the necessary measures.

In the meantime money is hardening here. On Thursday discount houses and bill brokers raised the rates they allow upon deposits to ¾ per cent for money at call and 1 per cent for money at notice, and the discount rate has ranged during the week from 1⅛ per cent to nearly 1¾ per cent. Partly this is due to political and financial apprehensions but largely it is the result of the scarcity of money in Paris caused by the large remittances on account of China to the Bank of England. The money is locked up in the Bank of England and for the time being is not available. Furthermore, the collection of the revenue is now going on upon a very large scale.

The silver market is rather weaker, as the impression gains ground that neither Japan nor China will buy much in the early future. It is understood that the Japanese Government has already placed orders for ships with Clyde firms of the total value of about 2⅛ millions sterling, and that as soon as the strike or lock-out will end further orders amounting to about as much more will be placed. The general impression therefore is that Japan will spend far the greater part of the indemnity money in Europe.

Early in the week there was a return of alarm. Prices fell rapidly and disquieting rumors of all kinds circulated here and upon the Continent. Gradually, however, a better feeling has sprung up, as all the governments give assurances that they are working in concert, and as further it is now believed that there will not be serious failures in Paris. A M. Leon, a very great speculator in Paris, was believed to be in difficulties early in the week. Some relatives had previously failed and in conjunction with them he had suffered heavy losses. Besides he had himself open an immense account in all kinds of foreign securities as well as in mining shares. But his principal holdings were in foreign securities, and the fall in these had caused very heavy losses Accordingly he began to sell on an enormous scale. But it was announced on Thursday that assistance had been given to him by the Messrs. Rothschild and that the difficulties were terminated. This seems probable, as forced selling from Paris has come to an end.

Monday and Tuesday reports from Paris reached London to the effect that three or four important firms in the Parquet, or official Bourse, were in difficulties. The Syndic of the Agents de Change telegraphed on Tuesday evening to the President of the Stock Exchange here contradicting the report, and on Wednesday morning a letter from him was posted on the Stock Exchange emphatically contradicting the report. Still there was not much recovery until Thursday afternoon when forced selling from Paris having stopped a better feeling sprang up and prices somewhat recovered.

The general impression now is that at the fortnightly settlement, which will begin here on Monday morning, there will be no important failures. That there are heavy differences is certain, and that some members of the Stock Exchange are embarrassed can hardly be doubted. But the belief is that all of them who have good credit will receive the assistance they require, and that though there may be some small failures no important house will be refused help. The monthly settlement in Paris will begin on Monday week, and the best opinion is that there will be no important failures. That most of the houses in the Coulisse, or unofficial market, have suffered very heavy losses, and that many of them are seriously embarrassed, is everywhere admitted. But it is believed that they have sufficient security to pay all their engagements if they are given time; and the great bank-

ers are combining to render assistance. The losses in the Parquet are understood not to be very serious. Besides, there is a large reserve fund upon which to draw even if any of the houses are unable directly to pay. Upon the whole the week is closing with more general confidence than has been felt for a month past.

One other reassuring circumstance is an official telegram from South Africa giving a favorable account of the first fortnight's crushings of the Geldenhuis Deep Level mine. An unofficial telegram was received early in the week saying that the crushings were very bad, and the market generally concluded from that that deep level mining would prove a failure. The company in consequence telegraphed out for information and the answer is very satisfactory. Even for the first month the crushings will pay; and it is universally recognized that the first month is not a fair test.

The alarm which prevailed so generally practically stopped buying early in the week in all departments, the American market sharing in the general neglect. But the weakness has been almost entirely in mining and international securities, and mainly it has been due to the embarrassments in Paris. Here in London no important house is involved But in Paris there is no question that there are serious embarrassments, though everybody believes that the difficulties will be tided over.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates. Bank Bills. Three Months	Four Months	Six Months	Trade Bills. Three Months	Four Months	Six Months	Interest allowed for deposits by Joint Stock Banks	Disc't Hse At Call.	Disc't Hse 7 to 14 Days.

—Attention is called to the offering by Messrs. A. D. Mather & Co., Utica, N. Y., of the bonds of the Utica Belt Line Street Railroad Co. Very full particulars concerning the property and its earnings for several years will be found in the advertisement on page VIII. The total fixed charges and rentals are $40,640 per annum, and the surplus over these charges for the past four years, the bankers states has been more than sufficient to pay 6 per cent on the stock.

—The Bank of America on the morning of December 2 had loans and discounts of $15,532,811 82, and cash items $3,856 052 14, the total resources being $29,012,609 36. The liabilities included capital stock, $1,500,000; surplus fund, $2,250,000, and due depositors, $15,974,288 16. The quarterly statement will be found in the advertising department of the Quotation Supplement, following the bank stock tables.

—Messrs. Robston & Bass, who have been located at 20 Broad Street for many years, removed during the week to Nos. 16 an 18 Broad Street. "Investment bonds a specialty" has long been a feature of this firm's business, and having two memberships in the New York Stock Exchange they are in a position to execute orders there promptly.

—The Union Trust Company has created two new offices, which have been filled by the election of Mr. Augustus W. Kelley as Third Vice-President and Mr. C. C. Rawlings as "Trust Officer," to have charge of the company's trusts. Mr. John V. B. Thayer succeeds Mr. Kelley as Secretary and Mr. E. R. Merritt was made Assistant Secretary.

—Messrs. Taintor & Holt offer for sale a limited amount of Cincinnati Hamilton & Dayton Railroad Co. second mortgage 4½ per cent gold bonds, being subject to prior liens of only $2,800,000, and becoming an absolute first mortgage in 1905. Surplus for year 1894, after paying interest on junior securities, applicable to dividends, $694,468.

—Mr. F. J. Lisman, 10 Wall Street, advertises in another column a number of securities which he is desirous of trading in, specifying amount and price. Most of the securities are very little known, and the advertisement is interesting in itself on account of the information it contains.

—Gas stocks, industrials, trust stocks, Postal Telegraph-Cable, and other quotable unlisted securities, are dealt in by Tobey & Kirk, 8 Broad Street. Their weekly list of specialties will be found in the advertising columns of the Chronicle.

WALL STREET, FRIDAY, DEC. 6, 1895.—5 P. M.

The Money Market and Financial Situation.—Legitimate business in Wall Street has been exceptionally dull and featureless during the week. In the foreign exchange market rates continue firm at the gold-exporting point, and gold is being shipped to supply the demand for bills.

The President's message to Congress contains some excellent recommendations for financial legislation, which if acted upon will doubtless result in a most decided improvement in the financial situation.

The announcement on Thursday of an increase in the North Western semi-annual dividend rate is one of the favorable incidents of the week and foreshadows the possibility of better returns on other granger stocks in the near future.

The low price of corn has a tendency to retard its movement, and the traffic returns on some of the corn-carrying roads have been disappointing. But this enormous crop must find a market sooner or later, and when moved will tax the capacity of the roads to carry it. Then it is not unlikely we may see the October experience of St. Paul repeated by the Rock Island, Burlington & Quincy and other corn roads.

It is expected by those in position to know the facts in the case that the Reading plan will be announced next week.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1¼ to 3 per cent. To-day rates on call were 2 to 2½ per cent. Prime commercial paper is quoted at 4 to 4½ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £1,775,134, and the percentage of reserve to liabilities was 56·90, against 59·43 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 3,150,000 francs in gold and 1,700,000 francs in silver.

The New York City Clearing-House banks in their statement of Nov. 30 showed a decrease in the reserve held of $2,077,300 and a surplus over the required reserve of $18,613,300, against $5,794,950 the previous week.

Foreign Exchange.—The foreign exchange market has ruled firm and steady through the week. The limited supply of commercial bills has been supplemented by the sale of security bills, and no gold has been sent to Europe thus far this week, though the exports (including $2,600,000 engaged for to-morrow and $500,000 sent to Buenos Ayres on Wednesday) are $3,100,000.

To-day's actual rates of exchange were as follows: Bankers' sixty days sterling, 4 87½@4 88; demand, 4 89@4 89½; cables, 4 89½@4 89¾.

Posted rates of leading bankers are as follows:

December 6.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 84½	4 90
Prime commercial	4 87½@4 87½	.....
Documentary commercial	4 86¾@4 87	.....
Paris bankers' (francs)	5 17½@16¾/16	5 15⅝@15 5/16
Amsterdam (guilders) bankers	40 1/16@40⅛	40 1/16@40⅛
Frankfort or Bremen (reichmarks) b'kers'	95 1/16@95 3/16	95 1/16@95⅛

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 1-16 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, par; commercial $.75@$2 00 per $1,000 discount; Chicago, 70c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $180,000 4s, reg., 1907, at 110⅞ to 111; $8,000 4s, coup., 1925, at 120½; $20,000 4s, coup., 1907, at 112, and $1,000 5s, coup., at 115. Closing quotations are as follows:

State and Railroad Bonds.—Sales of State bonds at the board include $11,000 Virginia fund. debt 2-3s 1991 at 61⅞ to 62½, $1,000 Alabama class C at 101¼ and $15,000 So. Carolina 6s, non-fund. at 1.

The railway bond market has reflected the dullness which generally prevails in financial circles. Such activity as is noted relates chiefly to the low-priced issues, and changes are in most cases to a lower level of prices. Mo. Kan. & Texas bonds have been strong on the announcement of a favorable arrangement with the International & Great Northern whereby the two lines will control the Galveston Houston & Henderson. This insures to the M. K. & T. its own line of railway from St. Louis to the Gulf of Mexico. Other issues which have advanced during the week include Rio Grande Western, Ohio Southern and Mobile & Ohio.

The list of bonds which have declined during the week includes Atchison 1st rects., 2d rects. and Adj. 4s (w. i.), Ore. Short Line 6s, St. Louis Southwest., Texas & Pacific and most of the Reading issues.

Railroad and Miscellaneous Stocks.—The market for railway shares has been dull and heavy and prices are generally lower. Some of the high-priced coalers are exceptions to the rule and have scored an advance, although Central of N. J. has declined over a point. The Rock Island report for November showed a very small increase over last year's traffic and has had a depressing influence on the granger stocks. North West. has been relatively strong on the dividend announcement. Louisville & Nashville, St. Paul and other shares have been freely sold for foreign account, and in the absence of any spirited demand are naturally lower. Lake Shore has lost the advance of 2 points noted last week. Baltimore & Ohio dropped 5 points on the offering of a few shares. Manhattan Elevated showed some strength in the early part of the week but has declined to 101. Mo. Kan. & Texas was favorably affected by the announcement of a new outlet to the Gulf.

The industrial list has been conspicuous for activity and speculative manipulation. The transactions in Am. Sugar amounted to over 150,000 shares on Tuesday, when the price was run up to 106⅜, and notwithstanding the commencement of an action against the Trust by the Attorney-General of the State the stock closes at a net advance of 6⅛ points. Am. Tobacco is the next most active stock and declined to 76½ on Thursday, a part of which it has recovered. Chicago Gas has fluctuated between 61⅝ and 69¼, at which point it closes, a gain of 7⅞ points since the close last week. Distilling has been dull and weak. Pacific Mail advanced over 2 points on the expectation that the agreement with the Panama Railroad would be signed. U. S. Leather preferred had gained nearly 3 points on Tuesday when it sold at 65⅞, but it has reacted, closing at 64¼. U. S. Rubber has been unusually active, and while the preferred has advanced the common has declined. General Electric, Western Union and Tenn. Coal & Iron have been relatively steady.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending DECEMBER 6, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

For the month of November 57 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of November.	1895.	1894.	Increase.	Per Cent.
	$	$	$	
Gross earnings (57 roads)	34,062,752	31,733,257	2,329,495	7·34

It will be seen there is a gain on the roads reporting in the amount of $2,329,495, or 7·34 per cent.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of November 23, 1895. The next will appear in the issue of December 21, 1895.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.
† Earnings increased largely on account of G. A. R. encampment in Louisville.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of November 23. The next will appear in the issue of Saturday, December 21.

Wheeling & Lake Erie Railway.

(Report for year ending June 30, 1895.)

President Frank R. Lawrence says in part:

Access to Cleveland.—The important negotiation pending at the time of the last annual report for the acquirement by this company of an entrance into the city of Cleveland has been brought to a most satisfactory termination. Without obligating this company for any guaranty we have acquired the right for ninety-nine years to use the Valley line [now the Cleveland Terminal & Valley Ry.—EDS.], including access to its important terminal facilities at Cleveland with its system of docks and warehouses, and with the added right to this company to establish, at its option, its own terminal facilities at Cleveland, and connect them with the Valley tracks. These connections require the payment only of a fair compensation for the privileges used, proportioned to the amount of business actually done. The above arrangement is soon to go into effect, and is to be reciprocal so far as concerns the use by the Valley Company of this company's line between Valley Junction and Wheeling, the tonnage over which portion of your railway will thus be materially increased. This entrance into the city of Cleveland, if fully availed, of can scarcely be over-estimated in its bearing upon the company's future prosperity.

Net Earnings since July 1, 1895.—In marked distinction to the net revenues for the past fiscal year are the results for so much of the present year as has yet elapsed. The net earnings for the first four months of the present fiscal year have reached an amount which, after providing for fixed charges and taxes, are substantially equivalent to a preferred stock dividend at the rate formerly paid. For July, 1895, the net earnings were $50,255; for August, $46 088; for September, $42,499; for October, $51,483; total, $190,325.

General Manager Blair speaks as follows:

General Results.—At the beginning of the year the company was involved in the American Railway Union strike to an extent which not merely impaired traffic but for a short time, and at one of the busiest periods of the year, substantially suspended our operations. While the actual duration of the strike was comparatively brief, it disorganized our forces, and as a result materially increased the cost of doing business and reduced the net earnings for a much longer period.

The great part of the year, after this interruption had been overcome, showed a marked improvement in the volume of business. During the last two months, May and June, 1895, the national strike of coal miners suspended coal traffic, and this again greatly reduced the volume of tonnage. Notwithstanding these interruptions the gross tonnage carried shows an increase of more than 33 per cent, which evidences both the return of general business prosperity and also the capacity of your road to handle a largely increased traffic when offered.

Physical Condition.—The physical condition of the railway has been fully maintained. More than 28 per cent of the gross earnings were applied to maintenance and a better general condition of equipment. From 10 to 20 per cent more during the last fiscal year has been expended in the various items to improve the physical condition of the railway. This will enable it more safely and economically to perform its work. As to particular improvements the report says:

Six miles of new industrial tracks have been provided to secure additional business. Several wooden bridges have been taken down and steel bridges upon masonry have been put in their place. The average number of tie renewals have been made by putting in 100,000 new ties. Two locomotives and 600 coal cars of large capacity have been purchased, which add about 15 per cent to the company's car equipment.

Increase of General Tonnage.—The growth of general business upon your line is encouraging. During the fiscal year the coal tonnage represented less than 54 per cent of the total freight carried while two years ago it was more than 65 per cent. From this it will be understood that while the coal tonnage has increased, other freight tonnage has increased more largely.

Ohio Coal Association.—The organization in March last of the Ohio Coal Association, from which good results are now beginning to be realized, will undoubtedly be maintained and improved in the immediate future.

Operations, Earnings, Charges, Etc.—Statistics for four years have been compiled for the CHRONICLE as follows:

EARNINGS, EXPENSES AND CHARGES.

Chicago Junction Railways & Union Stock Yards.

(Supplemental Report of Oct. 31, 1895.)

President Chauncey M. Depew says in his report:

Results for Four Months—The customary annual report was made last July, at the end of the fifth fiscal year of the company. Hereafter the annual report will be submitted at the shareholders' meeting in November. Since the report of July 1, 1895, the earnings of the Union Stock Yards & Transit Company show an increase, particularly during September and October, and indicate that the receipts during the next eight months will afford a substantial gain over the corresponding period of 1894-95. For the four months ending Oct. 31 the receipts of live stock were:

	Cattle.	*Calves.*	*Hogs.*	*Sheep.*	*Horses.*	*Cars.*
1895	1,051,011	61,453	2,089,352	1,329,935	30,500	90,314
1894	1,077,828	70,427	2,045,648	1,014,845	27,043	90,137

The earnings and expenses of the Union Stock Yards & Transit Company for the four months ending Oct. 31 were:

4 mos. end. Oct. 31—	*Gross earnings.*	*Operating expenses.*	*Net earnings.*
1895	$1,083,452	$405,235	$678,217
1894	1,059,869	394,988	664,881

The net earnings during the sixteen months ending Oct. 31, 1895, show an increase of $325,734 over the corresponding period ending Oct. 31, 1894. The directors feel justified in congratulating the shareholders upon the results of their investment. These figures cover probably the most disastrous period in the history of railroads in America.

Improvements—Constant efforts are being made to develop the business and to increase the facilities at the yards. Many repairs and improvements have been completed during the last four months. An important incident is the receipt of 500 cars of stock from Oregon, a section which has not hitherto contributed to the Chicago Yards. This is believed to be the commencement of large shipments from the extreme Northwest.

The problem of the elevation of the tracks in Chicago is also receiving the careful consideration of the directors. Several of the railroads have already raised their tracks, and the elevated tracks of the Lake Shore and Rock Island roads have reached the point of intersection with our lines.

Dividends, Etc.—The Treasurer's report shows a cash balance on hand of $102,366. The directors have adopted the policy of paying quarterly divinends of 1½ per cent each (6 per cent per annum) upon the preferred stock. This, if found practicable, will be continued.

Income Account and Balance Sheet.—The income account and balance sheet of the Chicago Junction Railways & Union Stock Yards Company have been as follows:

INCOME AND EXPENDITURE ACCOUNT FOUR MONTHS ENDING OCT. 31, '95.

Bal. forward July 1, '95	$23,621	*To General Expenses—*	
Dividends rec'd on Union Stock Yard & Tr'st Co. stk	130,243	Taxes, salaries, rent, etc.	$21,231

North Shore Traction Company.

(Report for the year ending September 30, 1895.)

President Cassius M. Wicker, in his report for the North Shore Traction Co., says in part:

Payment of Floating Debt, etc.—During the year ending Sept. 30, 1895, the floating debt, which at the time of the last annual report amounted to upwards of $2,750,000, was paid, and your company is to-day free of debt. The balance sheet as of October 1st shows current assets $298,771, and, as aforesaid, no liabilities. Besides liquidating the floating debt, your company paid to its preferred shareholders in May, 1895, the entire arrears of dividends, amounting to 12 per cent; also paid the regular dividend due Oct. 1. Your management confidently believes that dividends on this stock will be paid regularly hereafter.

Earnings of Lynn & Boston RR—The stock of the Lynn & Boston Railroad company being the principal asset of your company, a report of the operation of that road is appended, a table of the increase of the gross and net earnings since 1885 showing the steady growth of the business of the company. The increase in the past two years has been between 11 and 12 per cent per annum, and it is safe to say that the gross earnings on the existing mileage for the fiscal year just begun will approximate an increase of 8 per cent, or about $1,500,000, and may exceed that amount, and the fixed charges should not exceed those of the year just closed.

Directors.—The new board, as elected by the stockholders at the annual meeting is as follows: Isaac N. Seligman, Cornelius C. Cuyler, Emanuel Lehman, Frederick Edey,

James W. Hunnig, Frederick Strauss and Cassius M. Wicker, of New York; Walther Luttgen, of Linden, N. J; Edward W. Clark, Jr., and John P. Ilsley, of Philadelphia, and Gordon Abbott, of Boston.

Stock Listed.—The larger shareholders desiring to have the stock of this company listed in Boston, application was accordingly made to the Boston Exchange and the stocks were listed.

North Shore Traction Co.—The balance sheet Oct. 1, 1895, was as follows:

BALANCE SHEET OCT. 1, 1895.

Assets.		*Liabilities.*	
Property & investments	$5,570,239	Pref. stock, 6 p. c. cum.	$2,000,000
Office furniture	129	Common stock	4,000,000
Due from Lynn & Boston RR. Co.	221,100	Accounts payable	1,841
Boston & Revere Elec. St. Ry. stock	48,500	Bills payable	48,500
Bonds owned	81,235	Profit and loss account	88,459
Accounts receivable	30,221		
Deposit with Old Colony Trust Co. for Lynn & Boston bonds	20,000		
Cash on hand	167,316		
Total	$6,138,789	Total	$6,138,799

American Cotton Oil.—At the annual meeting of the stockholders at Guttenburg, N. J., on the 6th inst., the following named directors, whose terms of service had expired, were re elected: Charles Lanier, James A. Garland, J. Fred'k Chamberlain, J. Kennedy Tod, William Barbour, T. R. Chaney, R. F. Munro, E. Urquhart, J. H Maxon, M. Frank. These ten directors, with the five named below, whose terms hold over, constitute the entire board: Edward D Adams, George A. Morrison, Charles F. Clark, R. T. Wilson, Garrett A. Hobart. At a meeting of the Board of Directors, held later for

the purpose of organization, the following officers were elected: Chairman of the Board, George A. Morrison; Finance Committee, George A. Morrison, J. Fred'k Chamberlain, R. F. Munro; President, F. R. Chaney; Vice President, R. F. Munro; Secretary and Treasurer, Justus E. Ralph; Assistant Secretary and Assistant Treasurer, F. Busse. Mr. Adams resigns the Chairmanship of the Board of Directors on account of the pressure of other duties.—V. 61, p. 831.

American Sugar Refining.—*Litigation.*—Papers in the suit to restrain the company from doing business in New York State were served on John E. Searles, Treasurer of the company, on Wednesday.—V. 61, p. 857.

Asbury & Belmar Street Ry.—*Receiver.*—On Tuesday William L. Dayton was appointed receiver of this company.—V. 61, p. 793.

Atchison Topeka & Santa Fe RR.—*New Directors.*—At the meeting of the Reorganization Committee Monday Aldace F. Walker was elected Chairman of the Board of the new company. Mr. Walker is a well-known railroad man. At present he is one of the two Atchison receivers, and in the past he has served at the head of the association of railroads, under the "Agreement among gentlemen," and as a member of the Inter-State Commerce Commission. The following Board of Directors was elected:

Edward P. Ripley, Aldace F. Walker, Edward J. Berwind, Benjamin P. Cheney, H. Rieman Duval, Thomas P. Fowler, Edward N. Gibbs, Charles S. Gleed, George G. Haven, R. Somers Hayes, Cyrus K. Holliday, Victor Morawetz, George A. Nickerson, Thomas A. Osborn, William Rotch.

On Wednesday the following Finance Committee was chosen: Aldace F. Walker, E. P. Ripley, Benjamin P. Cheney, George G. Haven, R. Somers Hayes, Victor Morawetz and William Rotch.

St. Louis & San Francisco Bondholders' Suit.—Suits were filed Tuesday by St. Louis & San Francisco consolidated mortgage bondholders seeking to delay the sale of the Atchison, which is set for Dec. 10, and to establish their rights as holders of such bonds. One of these suits was instituted in St. Louis, another in Topeka, Kan., by holders of consols to the amount of $1,800,000, and a third by Dwight Bramar, of Boston. The Atchison representatives in this city express the belief that these suits will not cause a postponement of the sale, but as a matter of record we give the following facts from the St. Louis *Globe-Democrat* regarding the contentions in the second of the suits above mentioned.

The complainants are holders of the consolidated mortgage bonds of the St. Louis & San Francisco road to the amount of $1,800,000. Their petition alleges that the Atchison Company, through its large holdings of the stock of the St. Louis & San Francisco Road, has conducted the business of the corporation in such a manner as to injure the Frisco Company, imposing burdens upon it, diverting its business and depriving it of vast sums of money. In 1892, it is claimed, an agreement was made for the settlement of the affairs of the two companies by which the Atchison was to guarantee the principal and interest of the consolidated bonds of the Frisco, and receive in consideration of the guaranty and for said indebtedness consolidated mortgage bonds to the amount at par of $9,877,700. It is charged that this plan of settlement was merely a fraudulent scheme; that the indebtedness held by it against the Frisco was fictitious, and that the consolidated bonds were obtained and held without right or title.

Complainants ask that the so called settlement of 1892 be declared to have been fraudulently obtained, that the consolidated mortgage bonds of the Frisco, when held in alleged consideration for its guarantee, or in alleged charge of said fictitious indebtedness, be delivered up for cancellation; that the consolidated mortgage bonds of the Frisco company held by the Atchison at the time the receivers were appointed be likewise delivered up for cancellation; and that for the amount of said consolidated mortgage bonds of the Frisco company, issued by the Atchison in exchange for the first preferred stock of the Frisco, as well as the amount of all other said consolidated bonds wrongfully procured by the Atchison Company, and which the company or its receivers can not so deliver for cancellation, a lien be adjudged, prior to the general mortgage of the Atchison Company upon the property embraced in the general mortgage of the Atchison Company, and that the same be paid, with interest, out of said mortgaged property or the proceeds of sale thereof prior to application or distribution to the general mortgage bonds.—V. 61, p. 966.

Brooklyn Queens County & Suburban RR.—*Quarterly.*—Earnings for the quarter ending September 30 have been reported as follows:

3 months ending Sept. 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, deficit.
1895	$180,540	$81,242	$2,895	$84,499	$362
1894	172,815	63,604	12,227	84,202	8,371

Loans and bills payable Sept. 30, 1895, $191,000, against $35,500 in 1894.—V. 61, p. 793.

Buffalo Traction—Buffalo, N. Y.—*Franchise.*—By a unanimous vote the Board of Aldermen last week promised to give the Buffalo Traction Company a franchise for its projected system. Tom L. Johnson, of Cleveland, is at the head of the new company.—V. 61, p. 880.

Central of Georgia Ry.—Montgomery & Eufaula RR.—*Foreclosure Sale.*—The adjourned sale of the Montgomery & Eufaula takes place to-day, Dec. 7.—V. 61, p. 966.

Centralia & Chester RR.—*Extension.*—This road will be extended in the near future from Centralia north to Salem, a distance of about ten miles, where connection will be made with the Ohio & Mississippi. The company have been given the right of way between the two places.—V. 61, p. 195.

Central Washington—Northern Pacific.—*Foreclosure and Reorganization.*—The Bondholders' Committee of the Central Washington having failed to come to an agreement with the Northern Pacific Company propose to proceed with the foreclosure of the mortgage and reorganize as an independent company. This, it is thought, will take about six months to consummate. The Knickerbocker Trust Company has been substituted as trustee in place of the Farmers' Loan & Trust Company as trustee of the Central Washington mortgage.—V. 61, p. 704, 925, 966.

Charleston Clendennin & Sutton RR.—*Construction.*—The contract for the completion of this line from Clay Court House, W. Va., to Sutton, the terminus of the proposed line, it is said, will be let during the coming month. The road is almost completed from Charleston to Clay Court House, and for most of that distance is in operation.—V. 60, p. 1103.

Duluth & Iron Range.—Minnesota Iron.—*Earnings.*—The October earnings of the Duluth & Iron Range show $244,788 gross and $149,266 net. The results for the ten months of the calendar year, Jan. 1 to Oct. 31, 1895, show as follows:

Gross earnings	$2,054,615
Net earnings	1,193,942
Interest, ten months	237,436
Rentals, ten months	10,450
Surplus	$946,076

All the stock of the Duluth & Iron Range being owned by the Minnesota Iron Co., the above surplus reverts to that company, and the officials say that dividends, which have been suspended since April, 1893, will propably be resumed, beginning with April, 1896. The company is building some new steel vessels and barges to be ready for next season's business.—V. 61, p. 966.

Chattanooga Southern Ry.—*Reorganization notice.*—The modified plan of reorganization of November 4, 1895, having received the approval of the requisite number of bondholders, has been declared operative. Notice is given that the time for assenting to the plan is extended to December 10, 1895, after which date the non-assenting bondholders will forfeit all right to participation therein. The first instalment of the subscription to the new securities is payable at the Mercantile Trust Company, New York, December 16th inst.—V. 61, p. 880.

Chicago Gas.—*Injunction Denied.*—At Chicago, on Thursday, Dec. 5, Judge Showalter denied the application of William Pitt Barrows for an injunction to restrain the Chicago gas companies from consolidating. The Court ruled that there was nothing in the law to prevent consolidation. Mr. Barrows was a bondholder, and as a bondholder the Court could not see how his rights would be jeopardized by a combination of the gas companies. In any case, said Judge Showalter, the laws of Illinois gave recourse, without being obliged to resort to the United States courts. An action of *quo warranto* could be brought, and in fact an action of a somewhat similar character was now pending in the State courts.

The amended plan for the reorganization of the Chicago Gas Trust is now in Attorney General Moloney's hands.—V. 61, p. 924.

Chicago & South Side Rapid Transit RR. (Alley Elevated)—*Reorganization Plan.*—A plan has been prepared to which, it is said, Mr. Leiter has given his approval. It will probably be issued in a few days. According to the Chicago papers' report it provides for an issue of $10,000,000 new 2-5 per cent bonds to retire the present bonds—the 5s of 1889 to receive par and the 5s of 1893 to receive 85 per cent of their par value in the new plan. The new bonds, it is proposed, shall bear 2 per cent interest for either two or three years, then 3 per cent for six years, then 4 per cent for eight years, thereafter 5 per cent. The stock will be assessed $25 a share, preferred stock to be given for the assessments, and the proceeds, $1,875,000, to be used for extension, electrical equipment, etc.—V. 61, p. 661.

Choctaw Oklahoma & Gulf RR.—*Listing.*—On the Philadelphia Stock Exchange have been listed $1,097,000 income mortgage 5 per cent bonds, interest payable (if earned, non-cumulative) Feb. 1, yearly, beginning Feb. 1, 1897. This company was incorporated under Act of Congress October 3, 1894, to build and operate a railroad in Indian and Oklahoma territories and to mine and sell coal. It has 216 miles of main line and 4 miles of branches. Its equipment owned embraces: Locomotives, 13; cars in passenger service, 12; in freight service, &c., 111; and its equipment leased: Coal cars, 892; other cars, 80. Its capitalization now consists of: Prior lien gold 6 per cents, $1,000,000, all outstanding, due Oct. 1, 1919, redeemable any time after Oct. 1, 1899, at company's option at 105; general mortgage gold 5s, due Oct. 1, 1919, authorized $5,500,000, issued $4,141,000, reserved for prior lien bonds $1,000,000, for construction and equipment, $359,000; income bonds, $1,100,000; capital stock (in voting trust till July 1, 1899), $3,750,000. No floating debt. Beginning Oct. 1, 1895, the company is to provide for the *income bonds* a cumulative sinking fund of $20,000 out of the net earnings, and in case of failure to provide same in any one year said amount must be made good subsequently before payment of a dividend on the stock. The proceeds of this fund are to be applied to redemption of bonds drawn by lot at par and interest, if not purchasable at less than par.—V. 61, p. 610.

Columbus & Western RR.—Savannah & Western RR.—*Payment of Bonds.*—The Farmers' Loan & Trust Company gives notice that upon presentation it will pay the Columbus & Western bonds, principal and interest, in accordance with the decree of the United States Circuit Court for the Middle District of Alabama. By the same trust company is also payable on the certificates of deposits for the bonds the amount collected by the Rolston Bondholders' Committee, less expenses, &c.—V. 61, p. 708.

Dallas Consolidated Street Ry. (Dallas, Tex.)—*Reorganization Plan.*—Holders of the first mortgage bonds of this company are reported to have agreed upon a plan of reorganization providing for an assessment of 20 per cent on the $250,000 bonds, holders of present first mortgage bonds to receive for each bond a $1,000 new bond and $1,000 in new stock.

Deer Creek & Susquehanna.—*Sale.*—This road, partly graded between Belair, Md., and the Susquehanna River, has been sold by order of the Court to George M. Jewett, of Glenville, Md.—Vol. 61, p. 538.

Detroit Lansing & Northern RR.—*Reorganization Plan.*—The managers now expect to issue their plan for readjusting the company's finances some time next January.—V. 61, p. 824.

Englewood & Chicago Electric Ry.—*Change of Control.*—The franchise of this street railway company has been acquired by Isaac L. Rice as trustee. The route is some 27 miles in length in South Chicago, extending from a connection with the Alley L through the city limits to Blue Island. It is expected to complete the road by next May. It will be equipped as a storage battery line.—V. 61, p. 470

Erie RR.—*New Company in Possession.*—At 12 o'clock Saturday night the property of the New York Lake Erie & Western RR. Company was turned over by the receivers to the new corporation, the Erie Railroad Company, which, under the reorganization plan, is to become the owner of a continuous line from New York to Chicago.

Change of Mortgage Trustee.—Judge Andrews, of the Supreme Court, in this city Wednesday relieved the Farmers' Loan & Trust Company of its trust as trustee under the first consolidated mortgage of the Erie road and appointed the State Trust Company in its stead. This action was taken in compliance with the New York Stock Exchange request that a trustee should represent only one mortgage on a property.—V. 61, p. 871, 925, 968.

Indiana Decatur & Western RR.—*Meeting of Indianapolis Decatur & Springfield Bondholders.*—The committee consisting of Henry W. Smith, Theodore W. Morris, Francis S. Smithers, Henry L. Thornell and Chas. Robinson Smith gives notice to the holders of Central Trust Company Certificates for the first mortgage 6 and 7 per cent. bonds of the Indianapolis Decatur & Springfield R'y Co. that, pursuant to the agreement of bondholders dated Oct. 1, 1895, a meeting will be held at the office of Butler, Stillman & Hubbard, 54 Wall Street, New York, on Monday, Dec. 9, 1895, at 11 o'clock a. m. At such meeting the bondholders' committee will make a report, and will submit plans for the future treatment of the property and its reorganization.—V. 61, p. 794.

Jarvis Conklin Mortgage Trust—North American Trust—*Sale of Securities.*—Securities of the Jarvis-Conklin Company of the face value of $1,775,000, were sold at public sale on Thursday to the North American Trust Company for $736,000. Before being sold in bulk, the securities were sold in separate lots, in which manner $110,000 more were realized than when afterwards sold in bulk. The Court which ordered the sale will determine which sale shall stand. The North American Company also secured nearly all the separate lots.—V. 61, p. 871.

Lehigh Valley Railway of New York.—*Quarterly.*—This company comprises the Lehigh Valley RR. lines in New York, 253 miles. Earnings for the quarter and the twelve months ending September 30 have been reported as follows:

3 months ending Sept. 30.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1895	$1,[illegible]	$[illegible]	$[illegible]	$[illegible]
1894	999,565	304,437	175,797	128,640
12 months—				
1894-95	$4,075,317	$1,318,491	$768,920	$349,761
1893-94	3,473,049	975,191	723,161	252,030

—V. 61, p. 471.

Loans and bills payable Sept. 30, 1895, were $200,319, against $185,819 on June 30, and interest due and accrued was $67,387, against $51,402 on June 30, which items constitute the principal changes in the balance sheet.

Long Island Traction.—*Sale Postponed.*—The sale of the collateral securing the collateral trust notes which was advertised to take place on Wednesday has been postponed till Dec. 12, pending a hearing on Dec. 10 of a suit brought by Emma T. O'Connor, a stockholder, to set aside the decree of sale. In addition Patrick H. Flynn has begun an action as the owner of bonds of the Brooklyn Queens County & Suburban Railroad Company, asking to have the property sold in pieces instead of in bulk. The sale, however, it is thought, will occur Dec. 12.—V. 61, 924.

Missouri Kansas & Texas Ry.—International & Great Northern Ry.—*Settlement as to Galveston Houston & Henderson RR.*—A compromise has been reached between the Missouri Kansas & Texas and the International & Great Northern railway companies in their long standing struggle regarding the lease of the Galveston Houston & Henderson Railroad. The compromise provides that the Missouri Kansas & Texas shall transfer to the International & Great Northern 4,999 shares of the capital stock of the Galveston Houston & Henderson Railroad (par value $100 per share), this being one-half of the company's entire capital stock less one share. The M. K. & T. will retain 4,999 shares and the two remaining shares will be placed with some person agreed upon by both the contending parties so as to secure the impartial execution of the terms of the agreement. The I. & G. N. surrenders the 99-year lease made in 1888, by which it has held exclusive possession of the G. H. & H. property and franchises, and a new contract will be made by the M. K. & T. and I. & G. N. for the joint use, on precisely similar terms, of the Galveston Houston & Henderson between Galveston and Houston. This agreement, which will be put into immediate effect, affords the M. K. & T. its desired outlet to tidewater without the expense of building an independent line.—V. 60, p. 1058; V. 61, p. 967.

Middlesex Valley RR.—Lehigh Valley RR.—*Purchase and Guaranty.*—The purchase of the Middlesex Valley Road by the Lehigh Valley, which was reported pending last June, has been consummated, possession of the road having been taken on Wednesday. The Lehigh Valley guarantees the principal and interest of $600,000 of 5 per cent bonds, due 1923, by an endorsement on each. The Middlesex road extends from Naples to Geneva, N. Y., a distance of 29 miles.—V. 60, p. 1146; V. 61, p. 750.

Norfolk & Western RR.—*Reorganization Plan.*—The CHRONICLE is informed that the reorganization committee expects to bring out its plan in January next.

Purchase of Bonds.—Notice is given that the *Southside RR. consolidated mortgage* third preferred 6 per cent bonds for $100,000 maturing Jan. 1, 1896 will be purchased at par, at maturity, for account of Messrs Vivian, Gray & Co., London, at the office of Messrs. E. W. Clark & Co., bankers, Bullitt Building, Philadelphia, Pa. After purchase they will be extended until July 1, 1900, at 5 per cent per annum.—V. 61, p. 925.

Ohio Southern RR.—*Coupon Payment.*—The first mortgage coupons due Dec. 1 were paid at maturity at the Central Trust Company, it is said out of earnings.—V. 61, p. 936.

Oregon Improvement.—*Reorganization Notice.*—The holders of a majority of the consols having become parties to the preliminary agreement, it is announced that application will be made to the Stock Exchange at once to list the certificates of deposit of the Manhattan Trust Company. The time for depositing the company's securities without penalties has been extended to Dec. 12.—V. 61, p. 968.

Oregon Ry. & Navigation.—*Sale of Collateral.*—The adjourned trustees' sale of the collateral securing the collateral trust bonds, which was advertised for this week, has been adjourned for the eighth time until Dec. 24.—V. 61, p. 872.

Oregon Short Line & Utah Northern Ry.—*Coupon payments.*—Notice is advertised of the payment announced last week of the February, 1895, coupon on the *Oregon Short Line* 6s, with interest to Dec. 1. The coupons are payable at the Central Trust Co., New York, or the Old Colony Trust Co., Boston.

On *Utah & Northern* bonds the Union Pacific receivers began paying yesterday through Treasurer James G. Harris in Boston, and the Union Trust Company in New York, the January and July, 1895, coupons on the *first mortgage sevens*, with 6 per cent interest on the coupons during the default. Interest on the coupons due January 1, 1894, and July 1, 1894, for the time they also were in default may be collected. See advertisement in another column.

New Committee.—As stated in the CHRONICLE of Nov. 23, a new consolidated mortgage committee is to be formed, but the names of the committee will not be publicly announced until the negotiations with the representatives of the first mortgage have been completed. The pending negotiations involve a plan of reorganization.

Earnings of Short Line Division.—The report of Special Master Cornish, which recommended payment of the coupon due February 1, 1895, on the *Oregon Short Line Sixes* contained the following statement regarding the division covered by the 6s:

Gross earnings from October 13, 1893, to July 31, 1895...	$4,549,186
Operating expenses and taxes.....	3,149,610
Net earnings	$1,399,576
Feb ruary and August, 1894, coupons paid	895,280
Surplus	$504,016
Credit in hands of receivers of other roads for carrying company freight	83,900
Estimated net earnings for August and September, $110,927 each month	221,654
Total available for interest October 1, 1895	$809,571

To the above official statement the following unofficial additions and deductions may be made:

Deduct—Interest payment on 6s made December 2, 1895...	$480,255
Add—Net earnings (estimated) for October and November	220,000
Balance estimated available for August coupons	$549,316

It is said that application will soon be made for the payment of the August, 1895, coupon.—V. 61, p. 968.

Paducah Tennessee & Alabama—Tennessee Midland.—*Sale Confirmed.*—Judge Linton, at Memphis, has confirmed the sale of these roads to J. W. Phillips, of St. Louis. It is thought the Louisville & Nashville may control the roads when reorganized, possibly through its allied road, the Nashville Chattanooga & St. Louis.—V. 61, p. 872.

Panama RR.—Pacific Mail SS.—*Agreement.*—A new agreement between these companies has been prepared, and it is expected will be signed within a few days.—V. 61, p. 599, 795.

Philadelphia & Reading RR.—*Car Trust Payments.*—The receivers give notice that on Dec. 10 the Provident Life & Trust Company, Trustee, will pay the car trust certificates, series D, which matured Nov. 1, 1894, amounting to $210,000, and those that matured Nov. 1, 1895, amounting to $310,000, with interest at 6 per cent from Nov. 1, 1895, to Dec. 10, 1895, when the certificates will cease to bear interest.

Reorganization Plan.—At a meeting of the full committee held yesterday the reorganization plan was unanimously adopted. Copies of the plan went abroad by to-day's steamer. It will be published simultaneously in New York and London on the 16th inst.—V. 61, p. 968.

Portland & Cape Elizabeth RR.—*New Bonds.*—At Portland, Me., Dec. 5, this company filed a trust mortgage to secure $450,000 of 5 per cent bonds, to be dated November 1, 1895. The company proposes to operate a road between Cape Elizabeth and Portland.

Poughkeepsie & Eastern RR.—*Application for Receiver.*—At Poughkeepsie, N. Y., on Saturday, Nov. 23, Joseph Merschauser applied for the appointment of a receiver for this road. A judgement against the company for $500 and costs has not been paid. The Court granted a stay of two weeks, providing security be furnished.

Providence & Springfield—*Sale of Stock.*—The Treasurer of the company, in a circular letter to the minority stockholders dated November 27, 1895, states those who so desire may deliver their stock to the agent of the New York New Haven & Hartford RR. Co. at Providence, on or before December 31, and receive therefor $100 per share. Most of the stock, it will be remembered, was purchased last June at $90 per share, in the interest of the New England RR. Co., and so is already controlled by the New Haven Road.—V. 60, p. 1059.

Reading Traction—*United Traction.*—A special telegram to the *Times*, dated Reading, Nov. 25, says: "All lines operated by the Reading Traction Company at present, including the Black Bear line and the Reading & Womelsdorf Railway, will be merged into the United Traction Company, and application for a charter for the new organization will be made on Dec. 17 by Richmond L. Jones, the solicitor. The names of the incorporators are William R. McIlvain, Henry C. England, James A. O'Reilly, Samuel E. Rigg and Oliver S. Geiger. The company will be capitalized at $400,000.

Rhode Island Perkins Horse Shoe Co.—*Change of Charter.*—When this company was incorporated the Rhode Island Legislature not being in session a charter was taken out under the laws of New Jersey. This has been found unnecessarily expensive and steps are being taken to change to a Rhode Island charter. A circular issued to the stockholders under date of Oct. 31 gives the facts.

Richmond Nicholasville Irvine & Beattyville RR.—*Committee Appointed.*—The stockholders of the Richmond & Irvine Construction Co at a meeting Nov. 28, in Louisville, with reference to the Richmond Nicholasville Irvine & Beattyville RR., appointed the following committee to protect their interests: Bennett H. Young, Chairman; Thomas W. Bullitt, Henry L. Stone, James Guthrie, E. R. Sparks and A. R. Burnham. The railroad will be sold under decree of court, it is said, in about a month, the upset price being $550,000. Vol. 61, p. 663.

Rio Grande Southern RR.—Denver & Rio Grande RR.—*Receiver Discharged.*—At midnight, Nov. 30, the receiver of the Rio Grande Southern was discharged, and the property was turned over to the company, of which E. T. Jeffery is President. The reorganization has been in the highest degree successful, holders of *all* the bonds having assented to the reduction in the rate of interest from 5 per cent to 3 per cent for three-years and 4 per cent thereafter. A majority of the company's capital stock is now owned by the Denver & Rio Grande, and has been placed by it in the hands of a trustee. (See particulars V. 61, p. 421).—V. 61, p. 871, 872.

Seattle Lake Shore & Eastern RR.—*Foreclosure Decree.*—At Seattle, Wash., on Friday, Nov. 22, Judge Sanford, of the United States District Court, signed the decree of foreclosure against this road in proceedings instituted by the Union Trust Company of New York, the mortgage trustee. The amount involved in principal and interest is $6,488,980 and is to be paid by Feb. 3, 1896, or the property will be sold as an entirety. The Court finds that bonds for $5,675,000 were issued, that $117,000 have been redeemed, that $5,304,000 have been deposited with the Manhattan Trust Co. and $254,000 are outstanding, holders unknown.

The Northern Pacific Company failed in its efforts to establish its claims ahead of the mortgage, but are given to February 3 to redeem the property, after which date the road is to be sold on thirty days' advertising, free of all liens outside of the first mortgage.

The Bondholders' Committee expects within thirty days to announce a plan of reorganization, most of the bonds having been deposited, as indicated above, under the preliminary agreement.—V. 61, p. 795.

Sioux City & Northern RR.—*Receivers' Report.*—The receivers have filed a report which says that business has been good, the number of cars of grain moved this year being nearly four times that moved last year. The property is reported in good condition, needing few repairs. The gross earnings for the two years (less two days) ending Sept. 30, 1895, were $423,439; operating expenses, $313,786; net earnings, $108,654; other receipts, $21,797; total net income, $130,451.—V. 60, p. 1060.

St. Joseph & Grand Island RR—*Reorganization Notice.*—The Olcott Committee give notice that a decree of foreclosure has been granted under which the road is to be sold at an early date. Bonds may be deposited with the Central Trust Company of New York, 54 Wall Street, or the Old Colony Trust Company of Boston, on the conditions of the committee's previous advertisement up to and including December 31, 1895, after which date no bonds will be received except on such terms as the committee may impose.—V. 61, p. 831.

Steinway Ry.—*Sale of Control.*—The report is confirmed that a syndicate of Philadelphia capitalists has acquired the entire street railway system and electric-lighting plant of Long Island City, embracing the Steinway Railway and the Long Island City & Newtown. A Philadelphia press despatch states that a new company will be formed, probably under the caption of the Kings County & Long Island City Traction Co.—a name suggestive of a general consolidation of Brooklyn and Long Island City interests, which is quite within the range of possibilities.—V. 61, p. 795.

Utica Belt Line Street RR.—*Quarterly.*—Earnings for the quarter ending Sept. 30 have been reported as follows:

3 months end Sept. 30.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1895	$45,597	$14,463	$10,854	$3,609
1894	42,284	20,876	10,729	10,147

—V. 60, p 437.

Union Gas (Brooklyn).—The Nassau Gas-Light Company is reported to have awarded $575,000 of the 5 per cent consolidated mortgage gold bonds, due 1945, of the Brooklyn Union Gas Company, to Frank D. Beers, at 106·82½ and interest.—V. 61, p. 968.

Union Pacific Ry.—*Reorganization—Coupons.*—The Union Pacific reorganization committee held a meeting Monday at which a statement was submitted showing that between five and six millions first mortgage bonds and a considerable amount of stock had been received for deposit, and that deposits were increasing daily. The committee agreed that the *coupons* on *Omaha Bridge 5 per cent renewal bonds* shall be purchased upon the deposit of the bonds. The publication of a circular letter to security holders was decided upon, setting forth the position of both bond and share holders, copies of which circular can be had upon application to the depositaries. The circular says in substance:

Preserving Integrity of Railway.—To preserve the integrity of the Union Pacific Railway has been one of the controlling considerations in formulating the present plan of reorganization. A dismemberment of the main property would renew the disastrous situation which prompted the original consolidation in 1880. The policy of maintaining the unity of the property has thus far received the consistent sanction of the Court by the continued possession of common receivers in all the foreclosure suits now pending. The result is that the progress of disintegration, originally unopposed, has been checked, and the present situation leaves open to security holders the integral reorganization of the Union Pacific Railway proper, the common interest requiring that the separate foreclosures now pending shall be controlled and pursued in aid of a single and defined reorganization upon which security holders may unite.

First Mortgage Bonds.—The plan of reorganization has been prepared upon the theory of attributing to the first mortgage bondholders an assured and impregnable position as to the security of the principal and interest of their bonds. The plan makes immediate cash provision for the defaulted interest upon first mortgage railway bonds, and it makes further cash provision for future interest as it becomes due, at the full present rates, down to dates which are in no cases short of the maturity of the present bonds, thus anticipating the full ultimate claims of first mortgage bondholders with respect to interest. In exchange for the principal of their bonds, which are subject at maturity to payment, the plan offers securities of the reorganized company, yielding, upon the basis of average past operation, the same annual return for an extended period of fifty years.

On a conservative valuation the new first mortgage bonds and the new preferred stock offered in exchange for the principal of the present first mortgage bonds will be found to merit such market price as to make the exchange clearly desirable from the standpoint of realization value.

Indebtedness to the United States.—Ample provision has been made to settle this indebtedness upon a fair and reasonable basis, and it is reasonable to expect that at an early day wise counsel will prevail in the framing of legislation by Congress which shall enable this committee, as the authorized representative of the security holders, to make an adjustment with the Government in a manner having regard for protection of the interests of the latter as well as for the protection of security holders.

Stockholders.—The financial burdens of the railway for a period of years have been of so much greater extent than the requirements under the Plan, that the dividend possibilities of the proposed new common stock are materially advanced over those of the present shares. Preferred stock of the reorganized corporation will be issued for the full amount of the assessment of $15 per share, materially reducing the actual contribution to be made by stockholders.

Penalty on Deposits after Dec. 31.—While the deposits of securities are already very considerable, and appear to assure the contemplated combination of bond and share holders, the importance of early deposits by all the security holders is emphasized by the likelihood of Congressional legislation in the near future and the requirement imposed upon the committee to press in the courts the proceedings which must be accomplished in aid of reorganization. The committee has therefore determined to impose a penalty on deposits after Dec. 31, 1895, as contemplated in the published Plan of Reorganization. The committee, moreover, may at any time decline to receive further deposits of securities.

Coupon Payments.—Under the heading Oregon Short Line & Utah Northern will be found a statement as to the payment this week of coupons on Oregon Short Line 6s, due Feb. 1, and on the Utah & Northern first 7s, due Jan. 1 and July 1. These payments make toward $875,000 disbursed by the receivers this month on account of coupons.—V. 61, p. 872, 968.

☞ For other Investment Items see pages 1022.

Reports and Documents.

PRESIDENT'S MESSAGE AND REPORTS.

We give below extended extracts from the President's Message and brief extracts from the report of the Comptroller of the Currency. The report of the Secretary of the Treasury will not be submitted until next week. Mr. Carlisle, it is stated, has not yet completed writing the document.

PRESIDENT'S MESSAGE.

To the Congress of the United States:

The present assemblage of the legislative branch of our Government occurs at a time when the interests of our people and the needs of the country give especial prominence to the condition of our foreign relations and the exigencies of our national finances. The reports of the heads of the several administrative departments of the Government fully and plainly exhibit what has been accomplished within the scope of their respective duties, and present such recommendations for the betterment of our country's condition as patriotic and intelligent labor and observation suggest.

I therefore deem my executive duty adequately performed at this time by presenting to the Congress the important phases of our situation as related to our intercourse with foreign nations, and a statement of the financial problems which confront us, omitting, except as they are related to these topics, any reference to departmental operations.

I earnestly invite, however, not only the careful consideration, but the severely critical scrutiny, of the Congress and my fellow countrymen to the reports concerning these departmental operations. If justly and fairly examined, they will furnish proof of assiduous and painstaking care for the public welfare. I press the recommendations they contain upon the respectful attention of those charged with the duty of legislation, because I believe their adoption would promote the people's good.

* * * * * *

COMPETITION WITH GERMANY.

Our relations with the States of the German Empire are, in some aspects, typical of a condition of things elsewhere found in countries whose productions and trade are similar to our own. The close rivalries of competing industries; the influence of the delusive doctrine that the internal development of a nation is promoted and its wealth increased by a policy which is undertaking to reserve its home markets for the exclusive use of its own producers necessarily obstructs their sales in foreign markets and prevents free access to the products of the world; the desire to retain trade in time-worn ruts, regardless of the inexorable laws of new needs and changed conditions of demand and supply, and our own halting tardiness in inviting a freer exchange of commodities, and by this means imperilling our footing in the external markets naturally open to us, have created a situation somewhat injurious to American export interests not only in Germany, where they are perhaps most noticeable, but in adjacent countries. The exports affected are largely American cattle and other food products, the reason assigned for unfavorable discrimination being that their consumption is deleterious to the public health. This is all the more irritating in view of the fact that no European State is as jealous of the excellence and wholesomeness of its exported food supplies as the United States, nor so easily able, on account of inherent soundness, to guarantee these qualities.

Nor are these difficulties confined to our food products designed for exportation. Our great insurance companies, for example, having built up a vast business abroad and invested a large share of their gains in foreign countries in compliance with the local laws and regulations then existing, now find themselves within a narrowing circle of onerous and unforeseen conditions, and are confronted by the necessity of retirement from a field thus made unprofitable, if indeed they are not summarily expelled, as some of them have lately been from Prussia.

It is not to be forgotten that international trade cannot be one-sided. Its currents are alternating and its movements should be honestly reciprocal. Without this it almost necessarily degenerates into a device to gain advantage or a contrivance to secure benefits with only the semblance of a return. In our dealings with other nations we ought to be open-handed and scrupulously fair. This should be our policy as a producing nation, and it plainly becomes us as a people who love generosity and the moral aspects of national good faith and reciprocal forbearance.

These considerations should not, however, constrain us to submit to unfair discrimination nor to silently acquiesce in vexatious hindrances to the enjoyment of our share of the legitimate advantages of proper trade relations. If an examination of the situation suggests such measures on our part as would involve restrictions similar to those from which we suffer, the way to such a course is easy. It should, however, by no means be lightly entered upon, since the necessity for the inauguration of such a policy would be regretted by the best sentiment of our people, and because it naturally and logically might lead to consequences of the gravest character.

I take pleasure in calling to your attention the encomiums bestowed on those vessels of our new navy which took part in the notable ceremony of the opening of the Kiel Canal. It was fitting that this extraordinary achievement of the newer German nationality should be celebrated in the presence of America's exposition of the latest developments of the world's naval energy.

THE BERING SEA CLAIMS.

Our relations with Great Britain, always intimate and important, have demanded during the past year even a greater share of consideration than is usual.

Several vexatious questions were left undetermined by the decision of the Bering Sea arbitration tribunal. The application of the principles laid down by that august body has not been followed by the results they were intended to accomplish either because the principles themselves lacked in breadth and definiteness or because their execution has been more or less imperfect. Much correspondence has been exchanged between the two Governments on the subject of preventing the exterminating slaughter of seals. The insufficiency of the British patrol of Bering Sea, under the regulations agreed on by the two Governments, has been pointed out, and yet only two British ships have been on police duty during this season in those waters.

The need of a more effective enforcement of existing regulations, as well as the adoption of such additional regulations as experience has shown to be absolutely necessary to carry out the intent of the award, have been earnestly urged upon the British Government, but thus far without effective results. In the meantime the depletion of the seal herds by means of pelagic hunting has so alarmingly progressed that unless their slaughter is at once effectively checked their extinction within a few years seems to be a matter of absolute certainty.

The understanding by which the United States was to pay, and Great Britain to receive, a lump sum of $425,000 in full settlement of all British claims for damages arising from our seizure of British sealing vessels unauthorized under the award of the Paris tribunal of arbitration was not confirmed by the last Congress, which declined to make the necessary appropriation. I am still of the opinion that this arrangement was a judicious and advantageous one for the Government, and I earnestly recommend that it be again considered and sanctioned. If, however, this does not meet with the favor of Congress it certainly will hardly dissent from the proposition that the Government is bound by every consideration of honor and good faith to provide for the speedy adjustment of these claims by arbitration as the only other alternative.

A treaty of arbitration has therefore been agreed upon, and will be immediately laid before the Senate, so that in one of the modes suggested a final settlement may be reached.

Notwithstanding that Great Britain originated the proposal to enforce international rules for the prevention of collisions at sea, based on the recommendations of the maritime conference at Washington, and concurred in suggesting March 1, 1895, as the date to be set by proclamation for carrying these rules into general effect, Her Majesty's Government, having encountered opposition on the part of British shipping interests, announced its inability to accept that date, which was consequently canceled. The entire matter is still in abeyance, without prospect of a better condition in the near future.

THE DISPUTE BETWEEN GREAT BRITAIN AND VENEZUELA.

It being apparent that the boundary dispute between Great Britain and the Republic of Venezuela concerning the limits of British Guiana was approaching an acute stage, a definite statement of the interest and policy of the United States as regards the controversy seemed to be required both on its own account and in view of its relations with the friendly powers directly concerned. In July last, therefore, a dispatch was addressed to our Ambassador at London for communication to the British Government, in which the attitude of the United States was fully and distinctly set forth. The general conclusions therein reached and formulated are in substance that the traditional and established policy of this Government is firmly opposed to a forcible increase by any European power of its territorial possessions on this Continent; that this policy is as well founded in principle as it is strongly supported by numerous precedents; that, as a consequence, the United States is bound to protest against the enlargement of the area of British Guiana in derogation of the rights and against the will of Venezuela; that, considering the disparity in strength between Great Britain and Venezuela, the territorial dispute between them can be reasonably settled only by friendly and impartial arbitration, and that the resort to such arbitration should include the whole controversy, and is not satisfied if one of the Powers concerned is permitted to draw an arbitrary line through the territory in debate and to declare that it will submit to arbitration only the portion lying on one side of it. In view of these conclusions, the dispatch in question called upon the British Government for a definite answer to the question whether it would or would not submit the territorial controversy between itself and Venezuela in its entirety to impartial arbitration. The answer of the British Government has not yet been received, but is expected shortly, when further communication on the subject will probably be made to the Congress.

AFFAIRS IN CUBA.

Cuba is again gravely disturbed. An insurrection in some respects more active than the last preceding revolt, which continued from 1868 to 1878, now exists in a large part of the eastern interior of the island, menacing even some populations on the coast. Besides deranging the commercial exchanges of the island, of which our country takes the predominant share, this flagrant condition of hostilities, by arousing sentimental sympathy and inciting adventurous support among our people, has entailed earnest effort on the part of this Government to enforce obedience to our neutrality laws and to pre-

vent the territory of the United States from being abused as a vantage ground from which to aid those in arms against Spanish sovereignty.

Whatever may be the traditional sympathy of our countrymen as individuals with a people who seem to be struggling for larger autonomy and greater freedom, deepened as such sympathy naturally must be in behalf of our neighbors, yet the plain duty of their Government is to observe in good faith the recognized obligations of international relationship. The performance of this duty should not be made more difficult by a disregard on the part of our citizens of the obligations growing out of their allegiance to their country, which should restrain them from violating as individuals the neutrality which the nation of which they are members is bound to observe in its relations to friendly sovereign States. Though neither the warmth of our people's sympathy with the Cuban insurgents nor our loss and material damage consequent upon the futile endeavors thus far made to restore peace and order, nor any shock our humane sensibilities may have received from the cruelties which appear to especially characterize this sanguinary and fiercely conducted war, have in the least shaken the determination of the Government to honestly fulfil every international obligation, yet it is to be earnestly hoped on every ground that the devastation of armed conflict may speedily be stayed, and order and quiet restored to the distracted island, bringing in their train the activity and thrift of peaceful pursuits.

One notable instance of interference by Spain with passing American ships has occurred. On March 8 last the Alliance, while bound from Colon to New York, and following the customary track for vessels near the Cuban shore, but outside the three-mile limit, was fired upon by a Spanish gunboat. Protest was promptly made by the United States against this act as not being justified by a state of war nor permissible in respect of vessels on the usual paths of commerce, nor tolerable in view of the wanton peril occasioned to innocent life and property. The act was disavowed, with full expression of regret, and assurance of nonrecurrence of such just cause of complaint, while the offending officer was relieved of his command.

Military arrests of United States citizens in Cuba have occasioned frequent reclamations. Where held on criminal charges their delivery to the ordinary civil jurisdiction for trial has been demanded and obtained in conformity with treaty provisions, and where merely detained by way of military precaution under a proclaimed state of siege, without formulated accusation, their release or trial has been insisted upon. The right of American consular officers in the island to prefer protests and demands in such cases having been questioned by the insular authority, their enjoyment of the privilege stipulated by treaty for the consuls of Germany was claimed under the most-favored-nation provision of our own convention and was promptly recognized.

The long-standing demand of Antonio Maximo Mora against Spain has at last been settled by the payment, on the 14th of September last, of the sum originally agreed upon in liquidation of the claim. Its distribution among the parties entitled to receive it has proceeded as rapidly as the rights of those claiming the fund could be safely determined.

The enforcement of differential duties against products of this country exported to Cuba and Puerto Rico prompted the immediate claim on our part to the benefit of the minimum tariff of Spain in return for the most favorable treatment permitted by our laws as regards the production of Spanish territories. A commercial arrangement was concluded in January last securing the treatment so claimed.

Vigorous protests against excessive fines imposed on our ships and merchandise by the customs officers of these islands for trivial errors have resulted in the remission of such fines in instances where the equity of the complaint was apparent, though the vexatious practice has not been wholly discontinued.

AFFAIRS IN TURKEY.

Occurrences in Turkey have continued to excite concern. The reported massacres of Christians in Armenia and the development there and in other districts of a spirit of fanatic hostility to Christian influences naturally excited apprehension for the safety of the devoted men and women who, as dependents of the foreign missionary societies in the United States, reside in Turkey under the guarantee of law and usage and in the legitimate performance of their educational and religious mission. No efforts have been spared in their behalf and their protection in person and property has been earnestly and vigorously enforced by every means within our power.

I regret, however, that an attempt on our part to obtain better information concerning the true condition of affairs in the disturbed quarter of the Ottoman Empire by sending thither the United States Consul at Sivas to make investigation and report, was thwarted by the objections of the Turkish Government. This movement on our part was in no sense meant as a gratuitous entanglement of the United States in the so-called Eastern question, nor as an officious interference with the right and duty which belong by treaty to certain great European Powers, calling for their intervention in political matters affecting the good government and religious freedom of the non-Mussulman subjects of the Sultan, but it arose solely from our desire to have an accurate knowledge of the conditions in our efforts to care for those entitled to our protection.

The presence of our naval vessels which are now in the vicinity of the disturbed localities affords opportunities to acquire a measure of familiarity with the condition of affairs, and will enable us to take suitable steps for the protection of any interests of our countrymen within reach of our ships that might be found imperiled.

The Ottoman Government has lately issued an imperial irade exempting forever from taxation an American college for girls at Scutari. Repeated assurances have also been obtained by our envoy at Constantinople that similar institutions maintained and administered by our countrymen shall be secured in the enjoyment of all rights, and that our citizens throughout the empire shall be protected.

The Government, however, in view of existing facts, is far from relying upon such assurances as the limit of its duty. Our Minister has been vigilant and alert in affording all possible protection in individual cases where danger threatened or safety was imperiled. We have sent ships as far toward the point of actual disturbance as it is possible for them to go, where they offer refuge to those obliged to flee, and we have the promise of other Powers which have ships in the neighborhood that our citizens as well as theirs will be received and protected on board those ships. On the demand of our Minister orders have been issued by the Sultan that Turkish soldiers shall guard and escort to the coast American refugees.

These orders have been carried out, and our latest intelligence gives assurance of the present personal safety of our citizens and missionaries. Though thus far no lives of American citizens have been sacrificed, there can be no doubt that serious loss and distruction of mission property have resulted from riotous conflicts and outrageous attacks.

By treaty, several of the most powerful European powers have secured a right and have assumed a duty not only in behalf of their own citizens and in furtherance of their own interests, but as agents of the Christian world. Their right is to enforce such conduct of Turkish Government as will restrain fanatical brutality, and if this fails their duty is to so interfere as to insure against such dreadful occurrences in Turkey as have lately shocked civilization. The Powers declare this right and this duty to be theirs alone, and it is earnestly hoped that prompt and effective action on their part will not be delayed.

THE NATIONAL FINANCES.

As we turn from a review of our foreign relations to the contemplation of our national financial situation we are immediately aware that we approach a subject of domestic concern more important than any other that can engage our attention, and one at present in such a perplexing and delicate predicament as to require prompt and wise treatment.

We may well be encouraged to earnest effort in this direction when we recall the steps already taken toward improving our economic and financial situation, and when we appreciate how well the way has been prepared for further progress by an aroused and intelligent popular interest in these subjects.

By command of the people, a customs revenue system, designed for protection, * * and which * * impeded our entrance to the markets of the world, has been superseded by a tariff policy * * which, while encouraging our intercourse and trade with other nations, recognizes the fact that American self-reliance, thrift and ingenuity can build up our country's industries and develop its resources more surely than enervating paternalism.

The compulsory purchase and coinage of silver by the Government, unchecked, and unregulated by business conditions, and heedless of our currency needs, which for more than fifteen years diluted our circulating medium, undermined confidence abroad in our financial ability, and at last culminated in distress and panic at home, have been recently stopped by the repeal of the laws which forced this reckless scheme upon the country.

The things thus accomplished, notwithstanding their extreme importance and beneficent effects, fall far short of curing the monetary evils from which we suffer as a result of long indulgence in ill-advised financial expedients.

THE GREENBACKS A SOURCE OF TROUBLE.

The currency denominated United States notes and commonly known as greenbacks was issued in large volume during the late civil war, and was intended originally to meet the exigencies of that period. It will be seen by a reference to the debates in Congress at the time the laws were passed authorizing the issues of these notes that their advocates declared they were intended only for temporary use and to meet the emergency of war. In almost, if not all, of the laws relating to them, some provision was made contemplating their voluntary or compulsory retirement. A large quantity of them, however, were kept on foot and mingled with the currency of the country, so that at the close of the year 1874 they amounted to $381,999,073.

Immediately after that date, in January, 1875, a law was passed providing for the resumption of specie payments, by which the Secretary of the Treasury was required, whenever additional circulation was issued to national banks, to retire United States notes equal in amount to 80 per cent of such additional national bank circulation until such notes were reduced to $300,000,000. This law further provided that on and after the 1st day of January, 1879, the United States notes then outstanding should be redeemed in coin, and in order to provide and prepare for such redemption the Secretary of the Treasury was authorized not only to use any surplus revenues of the Government, but to issue bonds of the United States and dispose of them for coin, and to use the proceeds for the purposes contemplated by the statute.

In May, 1878, and before the date thus appointed for the redemption and retirement of these notes, another statute was passed forbidding their further cancellation and retirement. Some of them had, however, been previously redeemed and canceled upon the issue of national bank circulation, as permitted by the law of 1875, so that the amount outstanding at the time of the passage of the act forbidding their further retirement was $346,681,016.

The law of 1878 did not stop at distinct prohibition, but contained, in addition, the following express provision:

And when any of said notes may be redeemed or be received into the Treasury, under any law, from any source whatever, and shall belong to the United States, they shall not be retired, canceled or destroyed, but they shall be reissued and paid out again and kept in circulation.

This was the condition of affairs on the first day of January, 1879, which had been fixed upon four years before as the date for entering upon the redemption and retirement of all these notes, and for which such abundant means had been provided.

The Government was put in the anomalous situation of owing to the holders of its notes debts payable in gold on demand which could neither be retired by receiving such notes in discharge of obligations due the Government nor canceled by actual payment in gold. It was forced to redeem without redemption and to pay without acquittance.

There had been issued and sold $95,500,000 of the bonds authorized by the resumption act of 1875, the proceeds of which, together with other gold in the Treasury, created a gold fund deemed sufficient to meet the demands which might be made upon it for the redemption of the outstanding United States notes. This fund, together with such other gold as might be, from time to time, in the Treasury available for the same purpose, has been since called our gold reserve, and $100,000 000 has been regarded as an adequate amount to accomplish its object. This fund amounted on the first day of January, 1879, to $114,193,369, and though thereafter constantly fluctuating, it did not fall below that sum until July, 1892. In April, 1893, for the first time since its establishment, this reserve amounted to less than $100,000,000, containing at that date only $97,011,330.

In the meantime, and in July, 1890, an act had been passed directing larger Governmental monthly purchases of silver than had been required under previous laws, and providing that in payment for such silver Treasury notes of the United States should be issued, payable on demand in gold or silver coin, at the discretion of the Secretary of the Treasury. It was however declared in the act to be "the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law." In view of this declaration it was not deemed permissible for the Secretary of the Treasury to exercise the discretion in terms conferred on him, by refusing to pay gold on these notes when demanded, because by such discrimination in favor of the gold dollar the so-called parity of the two metals would be destroyed, and grave and dangerous consequences would be precipitated by affirming or accentuating the constantly widening disparity between their actual values under the existing ratio.

It thus resulted that the Treasury notes issued in payment of silver purchases under the law of 1890 were necessarily treated as gold obligations at the option of the holder. These notes on the 1st day of November, 1893, when the law compelling the monthly purchase of silver was repealed, amounted to more than $155,000,000.

The notes of this description now outstanding added to the United States notes still unliquidated by redemption or cancellation constitute a volume of gold obligations amounting to nearly $500,000,000. These obligations are the instruments which, ever since we have had a gold reserve, have been used to deplete it.

THE GOLD RESERVE DEPLETIONS.

This reserve, as has been stated, had fallen in April, 1893, to $97,011,330. It has from that time to the present, with very few and unimportant upward movements, steadily decreased, except as it has been temporarily replenished by the sale of bonds.

Among the causes for this constant and uniform shrinkage in this fund may be mentioned the great falling off of exports under the operation of the tariff law until recently in force, which crippled our exchange of commodities with foreign nations and necessitated to some extent the payment of our balances in gold; the unnatural infusion of silver into our currency, and the increasing agitation for its free and unlimited coinage, which have created apprehension as to our disposition or ability to continue gold payments; the consequent hoarding of gold at home and the stoppage of investments of foreign capital; as well as the return of our securities already sold abroad, and the high rate of foreign exchange, which induced the shipment of our gold to be drawn against as a matter of speculation.

In consequence of these conditions, the gold reserve on the 1st day of February, 1894, was reduced to $65,438,377, having lost more than $31,000,000 during the preceding nine months, or since April, 1893. Its replenishment being necessary, and no other manner of accomplishing it being possible, resort was had to the issue and sale of bonds provided for by the resumption act of 1875. Fifty millions of these bonds were sold, yielding $58,634,295 71, which was added to the reserve fund of gold then on hand. As a result of this operation, this reserve, which had suffered constant and large withdrawals in the meantime, stood, on the 6th day of March, 1894, at the sum of $107,446,803. Its depletion was, however, immediately thereafter so accelerated that on the 30th day of June, 1894, it had fallen to $64,873,025, thus losing by withdrawals more than $42,000,000 in five months, and dropping slightly below its situation when the sale of $50,000,000 in bonds was effected for its replenishment.

This depressed condition grew worse, and on the 24th day of November, 1894, our gold reserve being reduced to $57,669,701, it became necessary to again strengthen it. This was done by another sale of bonds, amounting to $50,000 000, from which there was realized $58,538,500, with which the fund was increased to $111,142,021, on the 4th day of December, 1894.

CONGRESS INACTIVE.

Again disappointment awaited the anxious hope for relief. There was not even a lull in the exasperating withdrawals of gold. On the contrary they grew larger and more persistent than ever. Between the fourth day of December, 1894, and early in February, 1895, a period of scarcely more than two months after the second reinforcement of our gold reserve by the sale of bonds, it had lost by such withdrawals more than $69,000,000, and had fallen to $41,340,181. Nearly $43,000,000 had been withdrawn within the month immediately preceding this situation.

In anticipation of impending trouble, I had, on the twenty-eighth day of January, 1895, addressed a communication to the Congress fully setting forth our difficulties and dangerous position, and earnestly recommending that authority be given the Secretary of the Treasury to issue bonds bearing a low rate of interest, payable by their terms in gold, for the purpose of maintaining a sufficient gold reserve, and also for the redemption and cancellation of outstanding United States notes and the Treasury notes issued for the purchase of silver under the law of 1890. This recommendation did not, however, meet with legislative approval.

In February, 1895, therefore, the situation was exceedingly critical. With a reserve perilously low and a refusal of Congressional aid, everything indicated that the end of gold payments by the Government was imminent. The results of prior bond issues had been exceedingly unsatisfactory, and the large withdrawals of gold immediately succeeding their public sale in open market gave rise to a reasonable suspicion that a large part of the gold paid into the Treasury upon such sales was promptly drawn out again by the presentation of United States notes or Treasury notes, and found its way in the hands of those who had only temporarily parted with it in the purchase of bonds.

In this emergency, and in view of its surrounding perplexities, it became entirely apparent to those upon whom the struggle for safety was devolved not only that our gold reserve must, for the third time in less than thirteen months, be restored by another issue and sale of bonds bearing a high rate of interest and badly suited to the purpose, but that a plan must be adopted for their disposition promising better results than those realized on previous sales.

AGREEMENT WITH THE BOND SYNDICATE.

An agreement was therefore made with a number of financiers and bankers whereby it was stipulated that bonds described in the resumption act of 1875, payable in coin thirty years after their date, bearing interest at the rate of 4 per cent per annum, and amounting to about $62,000,000 should be exchanged for gold, receivable by weight, amounting to a little more than $65,000,000.

This gold was to be delivered in such instalments as would complete its delivery within about six months from the date of the contract, and at least one half of the amount was to be furnished from abroad. It was also agreed by those supplying this gold that during the continuance of the contract they would, by every means in their power, protect the Government against gold withdrawals. The contract also provided that if Congress would authorize their issue, bonds payable by their terms in gold and bearing interest at the rate of 3 per cent per annum, might, within ten days, be substituted at par for the 4 per cent bonds described in the agreement.

On the day this contract was made its terms were communicated to Congress by a special Executive message, in which it was stated that more than $16,000,000 would be saved to the Government if gold bonds bearing 3 per cent interest were authorized to be substituted for those mentioned in the contract.

The Congress having declined to grant the necessary authority to secure this saving, the contract, unmodified, was carried out, resulting in a gold reserve amounting to $107 571,230 on the eighteenth day of July, 1895. The performance of this contract not only restored the reserve but checked for a time the withdrawals of gold, and brought on a period of restored confidence and such peace and quiet in business circles as were of the greatest possible value to every interest that affects our people. I have never had the slightest misgiving concerning the wisdom or propriety of this arrangement, and am quite willing to answer for my full share of responsibility for its promotion. I believe it averted a disaster the imminence of which was, fortunately, not at the time generally understood by our people.

FURTHER WITHDRAWALS OF GOLD.

Though the contract mentioned stayed for a time the tide of gold withdrawal its good results could not be permanent. Recent withdrawals have reduced the reserve from $107,571,230, on the eighth day of July, 1895, to $59,333,966. How long it will remain large enough to render its increase unnecessary is

only a result of exportation, though quite large withdrawals for shipment in the immediate future are predicted in well-informed quarters. About $16,000,000 has been withdrawn during the month of November.

The foregoing statement of events and conditions develops the fact that after increasing our interest-bearing bonded indebtedness more than $162,000,000 to save our gold reserve, we are nearly where we started, having now in such reserve $79,743,864, as against $65,438,377 in February, 1894, when the first bonds were issued.

Though the amount of gold drawn from the Treasury appears to be very large, as gathered from the facts and figures herein presented it actually was much larger, considerable sums having been acquired by the Treasury within the several periods stated without the issue of bonds. On the twenty-eighth day of January, 1895, it was reported by the Secretary of the Treasury that more than $172,000,000 of gold had been withdrawn for hoarding or shipment during the year preceding. He now reports that from January 1, 1879, to July 14, 1890, a period of more than eleven years, only a little over $28,000,000 was withdrawn, and that between July 14, 1890, the date of the passage of the law for an increased purchase of silver, and the first day of December, 1895 or within less than five and one-half years, there was withdrawn nearly $375,000,000, making a total of more than $403,000,000 drawn from the Treasury in gold since January 1, 1879, the date fixed in 1875 for the retirement of the United States notes.

Nearly $247,000,000 of the gold thus withdrawn has been paid out on these United States notes; and yet every one of the $346,000,000 is still uncanceled and ready to do service in future gold depletions.

More than $76,000,000 in gold has, since their creation in 1890, been paid from the Treasury upon the notes given on the purchase of silver by the Government; and yet the whole, amounting to $155,000,000, except a little more than $16,000,000, which have been retired by exchanges for silver at the request of the holders, remains outstanding and prepared to join their older and more experienced allies in future raids upon the Treasury's gold reserve.

NOTES NOT CANCELED.

In other words, the Government has paid in gold more than nine-tenths of its United States notes, and still owes them all. It has paid in gold about one-half of its notes given for silver purchases without extinguishment by such payment of one dollar of these notes.

When added to all this we are reminded that to carry on this astounding financial scheme the Government has incurred a bonded indebtedness of $95,500,000 in establishing a gold reserve, and of $162,315,400 in efforts to maintain it; that the annual interest charge on such bonded indebtedness is more than $11,000,000; that a continuance in our present course may result in further bond issues, and that we have suffered or are threatened with all this for the sake of supplying gold for foreign shipment or facilitating its hoarding at home, a situation is exhibited which certainly ought to arrest attention and provoke immediate legislative relief.

LONG-TERM BONDS RECOMMENDED.

I am convinced the only thorough and practicable remedy for our troubles is found in the retirement and cancellation of our United States notes, commonly called greenbacks, and the outstanding Treasury notes issued by the Government in payment of silver purchases under the act of 1890.

I believe this could be quite readily accomplished by the exchange of these notes for United States bonds of small as well as large denominations, bearing a low rate of interest. They should be long-term bonds, thus increasing their desirability as investments, and because their payment could be well postponed to a period far removed from present financial burdens and perplexities, when with increased prosperity and resources they would be more easily met.

To further insure the cancellation of these notes and also provide a way by which gold may be added to our currency in lieu of them, a feature in the plan should be an authority given to the Secretary of the Treasury to dispose of the bonds abroad for gold if necessary to complete the contemplated redemption and cancellation, permitting him to use the proceeds of such bonds to take up and cancel any of the notes that may be in the Treasury or that may be received by the Government on any account.

The increase of our bonded debt involved in this plan would be amply compensated by renewed activity and enterprise in all business circles, the restored confidence at home, the reinstated faith in our monetary strength abroad and the stimulation of every interest and industry that would follow the cancellation of the gold-demand obligations now afflicting us. In any event the bonds proposed would stand for the extinguishment of a troublesome indebtedness, while in the path we now follow there lurks the menace of unending bonds with our indebtedness still undischarged and aggravated in every feature. The obligations necessary to fund this indebtedness would not equal in amount those from which we have been relieved since 1884 by anticipation and payment, beyond the requirements of the sinking fund, out of our surplus revenues.

BANK NOTE CIRCULATION.

The currency withdrawn by the retirement of the United States notes and Treasury notes, amounting to probably less than $346,000,000, might be supplied by such gold as would be issued on their retirement or by an increase in the circulation of our national banks. Though the aggregate capital of those now in existence amounts to more than $664,000,000, their outstanding circulation based on bond security amounts to only about $190,000,000. They are authorized to issue notes amounting to 90 per cent of the bonds deposited to secure their circulation but in no event beyond the amount of their capital stock, and they are obliged to pay 1 per cent tax on the circulation they issue.

I think they should be allowed to issue circulation equal to the par value of the bonds they deposit to secure it, and that the tax on their circulation should be reduced to one-fourth of 1 per cent, which would undoubtedly meet all the expenses the Government incurs on their account. In addition they should be allowed to substitute or deposit in lieu of the bonds now required as security for their circulation those which would be issued for the purpose of retiring the United States notes and Treasury notes.

The banks already existing, if they desired to avail themselves of the provisions of law thus modified, could issue circulation in addition to that already outstanding, amounting to $478,000,000, which would nearly or quite equal the currency proposed to be canceled. At any rate, I should confidently expect to see the existing national banks or others to be organized avail themselves of the proposed encouragements to issue circulation, and promptly fill any vacuum and supply every currency need.

It has always seemed to me that the provisions of law regarding the capital of national banks which operate as a limitation to their location fails to make proper compensation for the suppression of State banks, which came near to the people in all sections of the country and readily furnished them with banking accommodations and facilities. Any inconvenience or embarrassment arising from these restrictions on the location of national banks might well be remedied by better adapting the present system to the creation of banks in smaller communities or by permitting banks of large capital to establish branches in such localities as would serve the people—so regulated and restrained as to secure their safe and conservative control and management.

But there might not be the necessity for such an addition to the currency by new issues of bank circulation as at first glance is indicated. If we should be relieved from maintaining a gold reserve under conditions that constitute it the barometer of our solvency, and if our Treasury should no longer be the foolish purveyor of gold for nations abroad or for speculation and hoarding by our citizens at home, I should expect to see gold resume its natural and normal functions in the business affairs of the country and cease to be an object attracting the timid watch of our people and exciting their sensitive imaginations.

I do not overlook the fact that the cancellation of the Treasury notes issued under the silver-purchasing act of 1890 would leave the Treasury in the actual ownership of sufficient silver, including seigniorage, to coin nearly $178,000,000 in standard dollars. It is worthy of consideration whether this might not, from time to time, be converted into dollars or fractional coin and slowly put into circulation, as in the judgment of the Secretary of the Treasury the necessities of the country should require.

Whatever is attempted should be entered upon fully appreciating the fact that by careless, easy descent we have reached a dangerous depth, and that our ascent will not be accomplished without laborious toil and struggle. We shall be wise if we realize that we are financially ill and that our restoration to health may require heroic treatment and unpleasant remedies.

THE NATIONAL CREDIT.

In the present stage of our difficulty it is not easy to understand how the amount of our revenue receipts directly affects it. The important question is not the quantity of money received in revenue payments but the kind of money we maintain and our ability to continue in sound financial condition. We are considering the Government's holdings of gold as related to the soundness of our money and as affecting our national credit and monetary strength.

If our gold reserve had never been impaired, if no bonds had ever been issued to replenish it, if there had been no fear and timidity concerning our ability to continue gold payments, if any part of our revenues were now paid in gold, and if we could look to our gold receipts as a means of maintaining a safe reserve, the amount of our revenues would be an influential factor in the problem. But unfortunately all the circumstances that might lend weight to this consideration are entirely lacking.

In our present predicament no gold is received by the Government in payment of revenue charges nor would there be if the revenues were increased. The receipts of the Treasury, when not in silver certificates, consist of United States notes and Treasury notes issued for silver purchases. These forms of money are only useful to the Government in paying its current ordinary expenses, and its quantity in Government possession does not in the least contribute toward giving us that kind of safe financial standing of condition which is built on gold alone.

If it is said that these notes if held by the Government can be used to obtain gold for our reserve, the answer is easy. The people draw gold from the Treasury on demand upon United States notes and Treasury notes, but the proposition that the Treasury can on demand draw gold from the people would be regarded in these days with wonder and amusement. And even if this could be done, there is nothing to prevent those thus parting with their gold from regaining it the next day, or the next hour, by the presentation of the notes they received in exchange for it.

The Secretary of the Treasury might use such notes taken from a surplus revenue to buy gold in the market. Of course he could not do this without paying a premium. Private holders of gold, unlike the Government, having no parity to maintain, would not be restrained from making the best bargain possible when they furnished gold to the Treasury, but the moment the Secretary of the Treasury bought gold on any terms above par he would establish a general and universal premium upon it, thus breaking down the parity between gold and silver which the Government is pledged to maintain, and opening the way to new and serious complications.

In the meantime the premium would not remain stationary, and the absurd spectacle might be presented of a dealer selling gold to the Government, and with United States notes or Treasury notes in his hand immediately clamoring for its return and a re-sale at a higher premium.

It may be claimed that a large revenue and redundant receipts might favorably affect the situation under discussion by affording an opportunity of retaining these notes in the Treasury when received, and thus preventing their presentation for gold. Such retention, to be useful, ought to be at least measurably permanent; and this is precisely what is prohibited, so far as United States notes are concerned, by the law of 1878, forbidding their further retirement. That statute in so many words provides that these notes, when received into the Treasury, and belonging to the United States, shall be "paid out again and kept in circulation."

It will, moreover, be readily seen that the Government could not refuse to pay out United States notes and Treasury notes in current transactions when demanded, and insist on paying out silver alone, and still maintain the parity between that metal and the currency representing gold. Besides, the accumulation in the Treasury of currency of any kind exacted from the people through taxation is justly regarded as an evil, and it cannot proceed far without vigorous protest against an unjustifiable retention of money from the business of the country, and a denunciation of a scheme of taxation which proves itself to be unjust when it takes from the earnings and income of the citizen money so much in excess of the needs of Government support that large sums can be gathered and kept in the Treasury. Such a condition has heretofore in times of surplus led the Government to restore currency to the people by the purchase of its unmatured bonds at a large premium, and by a large increase of its deposits in national banks, and we easily remember that the abuse of Treasury accumulation has furnished a most persuasive argument in favor of legislation radically reducing our tariff taxation.

Perhaps it is supposed that sufficient revenue receipts would in a sentimental way improve the situation by inspiring confidence in our solvency and allaying the fear of pecuniary exhaustion. And yet, through all our struggles to maintain our gold reserve there never has been any apprehension as to our ready ability to pay our way with such money as we had; and the question whether or not our current receipts met our current expenses has not entered into the estimate of our solvency. Of course the general state of our funds, exclusive of gold, was entirely immaterial to the foreign creditor and investor. His debt could only be paid in gold, and his only concern was our ability to keep on hand that kind of money.

THE EXPORTS OF GOLD.

On July 1, 1892, more than a year and a half before the first bonds were issued to replenish the gold reserve, there was a net balance in the Treasury, exclusive of such reserve, of less than $13,000,000, but the gold reserve amounted to more than $114,000,000, which was the quieting feature of the situation. It was when the stock of gold began rapidly to fall that fright supervened and our securities held abroad were returned for sale and debts owed abroad were pressed for payment. In the meantime extensive shipments of gold and other unfavorable indications caused restlessness and fright among our people at home. Thereupon the general state of our funds, exclusive of gold, became almost immaterial to them, and they, too, drew gold from the Treasury for hoarding against all contingencies. This is plainly shown by the large increase in the proportion of gold withdrawn which was retained by our own people as time and threatening incidents progressed. During the fiscal year ending June 30, 1894, nearly $85,000,000 in gold was withdrawn from the Treasury and about $77,000,000 was sent abroad, while during the fiscal year ending June 30, 1895, over $117,000,000 was drawn out, of which only about $66,000,000 was shipped, leaving the large balance of such withdrawals to be accounted for by domestic hoarding.

Inasmuch as the withdrawal of our gold has resulted largely from fright, there is nothing apparent that will prevent its continuance or recurrence, with its natural consequences, except such a change in our financial methods as will reassure the frightened and make the desire for gold less intense. It is not clear how an increase in revenue unless it be in gold can satisfy those whose only anxiety is to gain gold from the Government's store.

It cannot therefore be safe to rely upon increased revenues as a cure for our present troubles.

BONDS ISSUED TO MAINTAIN CREDIT.

It is possible that the suggestion of increased revenue as a remedy for the difficulties we are considering may have originated in an intimation or distinct allegation that the bonds which have been issued ostensibly to replenish our gold reserve were really issued to supply insufficient revenue. Nothing can be further from the truth. Bonds were issued to obtain gold for the maintenance of our national credit. As has been shown, the gold thus obtained has been drawn again from the Treasury upon United States notes and Treasury notes. This operation would have been promptly prevented if possible, but these notes having thus been passed to the Treasury, they became the money of the Government, like any other ordinary Government funds, and there was nothing to do but to use them in paying Government expenses when needed.

At no time when bonds have been issued has there been any consideration of the question of paying the expenses of the Government with their proceeds. There was no necessity to consider that question. At the time of each bond issue we had a safe surplus in the Treasury for ordinary operations, exclusive of the gold in our reserve. In February, 1894, when the first issue of bonds was made, such surplus amounted to $18,000,000; in November, when the second issue was made, it amounted to more than $42,000,000, and in February, 1895, when bonds for the third time were issued, such surplus amounted to more than $100,000,000. It now amounts to $98,072,420 30.

Besides all this the Secretary of the Treasury had no authority whatever to issue bonds to increase the ordinary revenues or pay current expenses.

I cannot but think there has been some confusion of ideas regarding the effects of the issue of bonds and the results of the withdrawal of gold. It was the latter process and not the former that by substituting in the Treasury United States notes and Treasury notes for gold increased by their amount the money which was in the first instance subject to ordinary Government expenditures.

SILVER PURCHASES.

Although the law compelling an increased purchase of silver by the Government was passed on the 14th day of July, 1890, withdrawals of gold from the Treasury upon the notes given in payment on such purchases did not begin until October, 1891. Immediately following that date the withdrawals upon both these notes and United States notes increased very largely, and have continued to such an extent that since the passage of that law there has been more than thirteen times as much gold taken out of the Treasury upon United States notes and Treasury notes issued for silver purchases as was thus withdrawn during the eleven and a-half years immediately prior thereto, and after the 1st day of January, 1879, when specie payments were resumed.

It is neither unfair nor unjust to charge a large share of our present financial perplexities and dangers to the operation of the laws of 1878 and 1890, compelling the purchase of silver by the Government, which not only furnished a new Treasury obligation upon which its gold could be withdrawn, but so increased the fear of an overwhelming flood of silver and a forced descent to silver payments that even the repeal of these laws did not entirely cure the evils of their existence.

FREE SILVER COINAGE.

While I have endeavored to make a plain statement of the disordered condition of our currency and the present dangers menacing our prosperity, and to suggest a way which leads to a safer financial system, I have constantly had in mind the fact that many of my countrymen whose sincerity I do not doubt, insist that the cure for the ills now threatening us may be found in the single and simple remedy of the free coinage of silver. They contend that our mints shall be at once thrown open to the free, unlimited and independent coinage of both gold and silver dollars of full legal tender quality, regardless of the action of any other Government, and in full view of the fact that the ratio between the metals which they suggest calls for 100 cents' worth of gold in the gold dollar at the present standard, and only 50 cents in the intrinsic worth of silver in the silver dollar.

Were there infinitely stronger reasons than can be adduced for hoping that such action would secure for us a bimetallic currency, moving on lines of parity, an experiment so novel and hazardous as that proposed might well stagger those who believe that stability is an imperative condition of sound money.

No Government, no human contrivance or act of legislation, has ever been able to hold the two metals together in free coinage at a ratio appreciably different from that which is established in the markets of the world.

Those who believe that our independent free coinage of silver at an artificial ratio with gold of 16 to 1 would restore the parity between the metals, and consequently between the coins, oppose an unsupported and improbable theory to the general belief and practice of other nations, and to the teaching of the wisest statesmen and economists of the world, both in the past and present, and, what is far more conclusive, they run counter to our own actual experiences.

Twice in our earlier history our law-makers, in attempting to establish a bimetallic currency, undertook free coinage upon a ratio which accidently varied from the actual relative values of the two metals not more than 3 per cent. In both cases, notwithstanding greater difficulties and cost of transportation than now exist, the coins whose intrinsic worth was undervalued in the ratio gradually and surely disappeared from our circulation and went to other countries where their real value was better recognized.

Acts of Congress were impotent to create equality where natural causes decreed even a slight inequality.

Twice in our recent history we have signally failed to raise by legislation the value of silver. Under an act of Congress passed in 1878 the Government was required for more than twelve years to expend annually at least $24,000,000 in the pur

chase of silver bullion for coinage. The act of July 14, 1890, in a still bolder effort, increased the amount of silver the Government was compelled to purchase, and forced it to become the buyer annually of 54,000,000 ounces, or practically the entire product of our mines. Under both laws silver rapidly and steadily declined in value. The prophecy, and the expressed hope and expectation of those in the Congress who led in the passage of the last-mentioned act, that it would re-establish and maintain the former parity between the two metals, are still fresh in our memory.

In the light of these experiences, which accord with the experiences of other nations, there is certainly no secure ground for the belief that an act of Congress could now bridge an inequality of 50 per cent between gold and silver at our present ratio, nor is there the least possibility that our country, which has less than one-seventh of the silver money in the world, could by its action alone raise not only our own but all silver to its last ratio with gold. Our attempt to accomplish this by the free coinage of silver at a ratio differing widely from actual relative values would be the signal for the complete departure of gold from our circulation, the immediate and large contraction of our circulating medium and a shrinkage in the real value and monetary efficiency of all other forms of currency as they settled to the level of silver monometallism. Every one who receives a fixed salary and every worker for wages would find the dollar in his hand ruthlessly scaled down to the point of bitter disappointment if not to pinching privation.

A change in our standard to silver monometallism would also bring on a collapse of the entire system of credit which, when based on a standard which is recognized and adopted by the world of business, is many times more potent and useful than the entire volume of currency, and is safely capable of almost indefinite expansion to meet the growth of trade and enterprise. In a self-invited struggle through darkness and uncertainty our humiliation would be increased by the consciousness that we had parted company with all the enlightened and progressive nations of the world, and were desperately and hopelessly striving to meet the stress of modern commerce and competition with a debased and unsuitable currency and in association with the few weak and laggard nations which have silver alone as their standard of value.

All history warns us against rash experiments which threaten violent changes in our monetary standard and the degradation of our currency. The past is full of lessons teaching not only the economic dangers but the national immorality that follows in the train of such experiments. I will not believe that the American people can be persuaded, after sober deliberation, to jeopardize their nation's prestige and proud standing by encouraging financial nostrums, nor that they will yield to the false allurements of cheap money, when they realize that it must result in the weakening of that financial integrity and rectitude which thus far in our history has been so devotedly cherished as one of the traits of true Americanism.

Our country's indebtedness, whether owing by the Government, or existing between individuals, has been contracted with reference to our present standard. To decree by act of Congress that these debts shall be payable in less valuable dollars than those within the contemplation and intention of the parties when contracted would operate to transfer, by the fiat of law and without compensation, an amount of property and a volume of rights and interests almost incalculable.

GOLD THE ONLY STANDARD OF MONEY.

Those who advocate a blind and headlong plunge to free coinage in the name of bimetallism, and professing the belief, contrary to all experience, that we could thus establish a double standard and a concurrent circulation of both metals in our coinage, are certainly reckoning from a cloudy standpoint. Our present standard of value is the standard of the civilized world, and permits the only bimetallism now possible, or at least that is within the independent reach of any single nation, however powerful that nation may be. While the value of gold as a standard is steadied by almost universal commercial and business use, it does not despise silver, nor seek its banishment. Wherever this standard is maintained, there is at its side in free and unquestioned circulation a volume of silver currency, sometimes equaling and sometimes even exceeding it in amount, both maintained at a parity, notwithstanding a depreciation or fluctuation in the intrinsic value of silver.

There is a vast difference between a standard of value and a currency for monetary use. The standard must necessarily be fixed and certain. The currency may be in divers forms and of various kinds. No silver-standard country has a gold currency in circulation, but an enlightened and wise system of finance secures the benefits of both gold and silver as currency and circulating medium by keeping the standard stable and all other currency at par with it. Such a system and such a standard also give free scope for the use and expansion of safe and conservative credit, so indispensable to broad and growing commercial transactions and so well substituted for the actual use of money. If a fixed and stable standard is maintained such as the magnitude and safety of our commercial transactions and business require, the use of money itself is conveniently minimized.

Every dollar of fixed and stable value has through the agency of confident credit an astonishing capacity of multiplying itself in financial work. Every unstable and fluctuating dollar fails as a basis of credit, and its use begets gambling speculation and undermines the foundations of honesty and enterprise.

I have ventured to express myself on this subject with earnestness and plainness of speech because I cannot rid myself of the belief that there lurks in the proposition for the free coinage of silver, so strongly approved and so enthusiastically advocated by a multitude of my countrymen, a serious menace to our prosperity and an insidious temptation of our people to wander from the allegiance they owe to public and private integrity. It is because I do not distrust the good faith and sincerity of those who press this scheme that I have imperfectly, but with zeal, submitted my thoughts upon this momentous subject.

I cannot refrain from begging them to re-examine their views and beliefs in the light of patriotic reason and familiar experience, and to weigh again and again the consequences of such legislation as their efforts have invited. Even the continued agitation of the subject adds greatly to the difficulties of a dangerous financial situation already forced upon us.

In conclusion, I especially entreat the people's representatives in the Congress, who are charged with the responsibility of inaugurating measures for the safety and prosperity of our common country, to promptly and effectively consider the ills of our critical financial plight. I have suggested a remedy which my judgment approves. I desire, however, to assure the Congress that I am prepared to co-operate with them in perfecting any other measure promising thorough and practical relief, and that I will gladly labor with them in every patriotic endeavor to further the interests and guard the welfare of our countrymen whom in our respective places of duty we have undertaken to serve.

GROVER CLEVELAND.

Executive Mansion, Dec. 2, 1895.

REPORT OF THE COMPTROLLER OF THE CURRENCY.

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, December 2, 1895.

SIR: I have the honor, pursuant to law, to herewith submit for the consideration of Congress the report of the Comptroller of the Currency for the year ended October 31, 1895. * * * *

The records of this office show that from the date of the granting of the first certificate of authority on June 20, 1863, to the close of the year embraced in this report the total number of national banks organized has been 5,023, making an average for each year of 152. Of this total number there were in active operation on October 31 last 3,715, having an authorized capital stock of $664,136,915, represented by 285,190 shareholders, making for each bank in the system an average capital stock of $178,772, the number of shares to each 2,136 and shareholders 77. The total amount of their circulating notes outstanding was $213,847,630. Of this amount $190 180,961 was secured by United States bonds and $23,706,669 by lawful money deposited with the Treasurer of the United States.

The net increase in the amount of circulation secured by bonds during the year was $10,779,597, and the gross increase in the total circulation $6,322,540.

On September 23, 1895, the date of their last report of condition, the total resources of the 3,712 banks then reporting was $3,423,629,343 63, of which $3,059,408,402 27, represented their loans and discounts and $356,577,530 61 money of all kinds in bank.

Of their liabilities, $1,701,653 521 23 represented individual deposits, $336,888,350 86 surplus and net undivided profits, and $182,481,610 50 outstanding circulating notes secured by bonds. * * * *

There were organized during the report year 43 banks, located in 20 different States, with an aggregate capital stock of $4,890 000. * * * *

The number of banks organized was less than 30 per cent of the yearly average.

The corporate existence of 71 national banks, in sixteen States, with a capital stock of $10,662,000 and a total circulation of $3,226,275, has been extended during the year.

The number of banks leaving the system during the year through voluntary liquidation was 51, having a capital stock of $6,093,100 and circulation of $1,152,000.

It has been found necessary to appoint receivers for 36 banks during the year. Their aggregate capital stock was $5,235,020 and circulation $1,003,402. Of this number 2, with a capital stock of $450,000, were reported last year as being in voluntary liquidation, and 9, with a capital stock of $2,750 000, were of the number of banks which closed their doors in 1893 and subsequently resumed business, but through continued business depression and a slow character of their assets were unable to meet their obligations, and were thus compelled to go into insolvency. * * * *

A comparison of the data of this year with that set forth in the report of this Bureau for the year 1894 shows the number of active banks to have decreased 41, with a corresponding decrease in capital stock of $6,438,120.

ANALYSIS OF REPORTS OF 1895.

An analysis of the reports of condition submitted during the year shows at each date a greater or less change from the preceding one in each item constituting the same.

Individual deposits declined from $1,723,418,819 on Oct 2, 1894, to $1,667,843,286 on March 5, 1895; rose to $1,736,022,006

on July 11, and declined on Sept. 28 to $1,701,653,521. The number of banks holding these deposits on Oct 2, 1894, was 3,755 with a capital stock of $666,861,847. and on Sept. 28, 1895, 3,712, with a capital stock of $657,135 498.

On Oct. 2, 1894, the surplus fund was $245,197,517 and net undivided profits $88,923,564, which items had on Sept. 28, 1895, increased to $246,448,426 surplus fund and $90,439,924 net undivided profits.

National bank notes outstanding, secured by bonds deposited, on Oct. 2, 1894, were $172,331,978, which decreased to $169,337,071 on Dec. 19, 1894, and afterward gradually increased until Sept 28, 1895, when the amount was $184,481,610.

United States bonds to secure circulation on Oct 2, 1894, were $199,644,500; decreased on Dec. 19, 1894, to $195,735,950, after which the amount gradually increased to $202,684,765 on Sept. 28, 1895.

United States bonds other than those securing circulation held by the banks amounted on Oct. 2, 1894, to $25,888,200; increased to $51,520,890 on March 5, 1895, after which date the amount gradually decreased to $36,118,350 on Sept. 28, 1895.

The amount invested in stocks, securities, etc., which on Oct. 2, 1894, was $193,300,072, increased on Dec. 19, 1894, to $197,328,334; decreased by May 7, 1895, to $193,841,727, and afterward lightly increased again to $195,028,085 on Sept. 28, 1895.

Exchanges for Clearing House, which on Oct. 2, 1894, amounted to $88,524,052, decreased to $77 343,972 on March 5, 1895, then increased to $83,833,118 on May 7, stood at $82,868,297 on July 11, and decreased on Sept 28 to $57,596,757

The specie held by the banks on October 2, 1894, was $237,250,754. On December 19, 1894, it decreased to $218,041,222. It then increased on March 5, 1895, to $220,936,641, but gradually decreased to $214,427,194 on July 11, and by September 28 had further decreased to $196,237,311, the smallest amount held at any report date since July 12, 1893, when the amount was $186,761,173.

The amount of legal tender notes and United States certificates of deposit for such notes on Oct. 2, 1894, aggregated $165,644,028, gradually decreased to $ 44,936 623 on March 5, 1895, then gradually increased to $168,515,173 on July 11, 1895, but by Sept. 28 had again decreased to $143,866,685. In other words, the lawful money reserve held by the banks, composed of specie, legal tender notes and United States certificates of deposit for legal tender notes, which on Oct 2 1894, was $402,594,652, decreased on May 7, 1895, to $364,105,757, then increased on July 11 to $382,942,366, but by Sept. 28 had sharply decreased to $340,103,996, the smallest amount of lawful money reserve held since July 12, 1893, when it amounted to $329,254,850.

[For statement of all the items of each return as issued see COMMERCIAL AND FINANCIAL CHRONICLE, Vol. 60, pages 255, 704, 1140; Vol. 61, pages 463, 915]

EARNINGS AND DIVIDENDS.

The law requiring dividend reports from national banks went into effect in March, 1869, and since that date the abstracts for semi-annual periods have been incorporated in the annual reports issued by this Bureau. * * * *

The average annual capital and surplus for the twenty-six years were $548,256,187 and $1,53,611,141, respectively; the average annual dividends paid amount to 44,424,765 and the net earnings to $44,865,257. The rate per cent of dividends paid varies from 10 5 in the year ended on March 1, 1870, to 6·8 in 1894, the average for the twenty-six years being 8·4. The total amount of dividends paid and the net earnings for the period referred to are shown to amount to $1,155,147,903 and $1,426,498,670, respectively.

By means of a special circular addressed to national banks an effort has been made to ascertain what percentage of current expenses paid by the banks during the year ended September 1, 1895, was represented by taxes paid, and the result of such information as has been obtained will be found in the table below, showing ratios of net earnings, losses, expenses, taxes and gross earnings respectively, to capital and surplus for the year ended September 1, 1895.

It will be observed from this table that great variations in the figures showing these ratios appear. The explanations are accounted for as follows: In the matter of taxes paid the ratio in some cases represents the tax on circulating notes only, in others to this is added taxes on real estate held, and in others again the tax on shares is paid by the banks for these shareholders, while in other cases the tax is paid by each shareholder individually and not by the bank * * * *

The table herewith given sets forth the results as they were collected by this office. * * * *

PERCENTAGES OF NET EARNINGS, LOSSES, EXPENSES, TAXES AND GROSS EARNINGS, RESPECTIVELY, TO CAPITAL AND SURPLUS FOR THE YEAR ENDED SEPTEMBER 1, 1895.

States, &c.	Net earnings. Per ct.	Losses. Per ct.	Expenses. Per ct.	Taxes. Per ct.	Gross earnings. Per ct.

INSOLVENT NATIONAL BANKS.

The number of banks placed in the hands of receivers during the year was 36, located in 15 States, having an aggregate capital stock of $5,245,029 and circulation of $1 093,402, of which amount $205,146 has been destroyed and $788,256 is yet outstanding * * * *

The number, capital, assets and liabilities of national banks in each State which failed during the past year are shown in the following table:

State.	Banks.	Capital.	Assets. Estimated good	Estimated doubtful.	Estimated worthless	Total.	Liabilities.
		$	$	$	$	$	$
New Hampshire	1	100 000	112,052	65,170	10,588	187,808	174,076
Connecticut	1	100 000	133 614	149 279	115 167	397 060	338 202
New York	2	200 000	505,191	288 603	313 794	1,107 588	976,351

RECEIVERSHIPS.

The difficulties attendant upon the liquidation of banks now in the hands of receivers have been largely augmented during the year by the character of the assets to be realized and the complications arising from the business depression of the past two years. In the majority of instances no bank closes its doors while it is possessed of quickly convertible paper, and therefore there comes into the possession of the Comptroller only that which is slow, doubtful, bad, or absolutely worthless. It thus follows that with little or no cash received, but debts which are slow of payment and much involved in or necessitating litigation, the closing of trusts is prolonged and the expense attendant thereon increased. The records of the office, however, show that such expense, as compared with any other class of receiverships, is greatly less and the results attained far more substantial. Notwithstanding the conditions which have followed the year 1893 there were paid in dividends to creditors of failed banks in 1894 the sum of $5,124,577 94, and during the year just closed $3,380,552 65, represented by 101 dividends.

AMENDMENTS RECOMMENDED.

In the reports of this Bureau heretofore submitted have been suggested amendments to the laws governing national banks which, if made, it is believed would tend to the better-

ment of the system. All of the suggestions of this character for several years last past yet remain unacted upon. It is respectfully suggested that, as the General Government is in complete control of this system of banks, its legislative branch should give to the system the benefit of all proper enactments. In this view of the case the attention of Congress is again called to the following suggested amendments and action looking toward their incorporation into the banking laws strenuously urged:

First. That the Comptroller, with the approval of the Secretary of the Treasury, be empowered in all proper cases to remove officers and directors of national banks for violations of law and mismanagement, first according them a hearing on charges preferred.

Second. That the loans of any bank to its executive officers and employes be restricted and made only upon the approval of the board of directors, a separate written record thereof being kept.

Third. That the assistant cashier in the absence of the cashier be authorized to sign the circulating notes of the bank and reports of condition.

Fourth. That some class of public officers be empowered to administer the general oaths required by the national-bank act.

Fifth. That bank examiners be required to take an oath of office and execute a bond before entering upon the discharge of their duties.

Sixth That upon a day in each year, to be designated by the Comptroller, the directors of national banks shall be required to make an examination of the affairs of the banks and submit to the Comptroller a report thereon upon blanks to be furnished for such purpose.

Seventh That the Comptroller be authorized to issue to national banking associations circulating notes to the par value of the bonds deposited by them with the Treasurer of the United States to secure such notes.

Eighth. That the semi-annual tax levied on account of the circulating notes of national banks be reduced so as to equal but one-fourth of 1 per cent per annum. * * * *

JAMES H. ECKELS,
Comptroller of the Currency.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

Union Traction (Philadelphia).—*Trust Certificates.*—The Pennsylvania Annuity Company has notified the Stock Exchange that the 4 per cent trust certificates issued on certain terms in lieu of Electric and People's Traction companies stock are nearly ready for delivery. Brokers are requested to send the Pennsylvania Company temporary receipts, on and after Monday, December 9, to be exchanged for the trust certificates designated in the receipts.—V. 61, p. 795.

Watertown & Brownville (Street) RR.—*Receiver Appointed.*—On Wednesday Justice McLellan, in Syracuse, appointed Joseph A. Lawyer receiver of this company in mortgage foreclosure proceedings brought by the Central Trust Company of New York.

West End Street Ry.—*Refunding Bonds.*—The stockholders have authorized the directors to issue the bonds of the company for the purpose of funding its indebtedness secured by mortgage on real estate and for refunding purposes. The old directors were re-elected with the exception of E. D. Jordan, deceased, and H. M. Whitney.—V. 61, p. 518.

Wisconsin Central Lines.—The following table gives various statistics relating to tracks, bridges, train-loads and equipment of the Wisconsin Central *Company* and the *Railroad* to June 30, 1895:

Road—	1895	1894.
Main line & br's ow'd	551	551
Do do leas'd	183	183

Total length of bridges, etc.—	*June 30, 1895.*	*Sep. 27, 1893.*
Iron bridges (feet)	8,889	6 653
Wooden bridges (ft.)	3,297	5,859
Trestles (feet)	61,055	72,341

—On the last page of the QUOTATION SUPPLEMENT accompanying to-day's CHRONICLE will be found the December Circular of Redmond, Kerr & Co., 41 Wall St., New York, and 421 Chestnut St., Philadelphia, a copy of which will be mailed regularly on application. More detailed information regarding the securities offered in this circular will be furnished when requested.

—The Mosler Safe Company, operating the Mosler & Corliss Safe factories, are now the sole owners of the Mosler & Corliss patents. Their offices are at 305 Broadway, corner Duane St., New York, where a large assortment of safes are kept in stock and plans and estimates can be had on all kinds of bank vault and safe deposit work.

—Galveston Houston & Henderson bonds have advanced sharply on the agreement between the M. K. & T. and the International & Great Northern, and are now quoted at 80 bid, as against 68 when the QUOTATION SUPPLEMENT went to press.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, December 6, 1895.

The opening of the 54th Congress and publication of the President's Annual Message were noteworthy events of the week. The views expressed by the President upon financial questions were favorably received, and the course of legislation is awaited with keen interest by the mercantile community. The handling of bulk parcels of merchandise has been moderate, and careful operators generally desirous to confine negotiations to absolute necessities until the opening of the new year. The markets have been free from violent fluctuations and speculation in staple merchandise was upon a conservative scale. Latest advices report sufficient moisture and generally favorable conditions for fall-sown grain.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	Nov. 1, 1895.	*Dec. 1, 1895.*	*Dec. 1, 1894*
Pork ..... bbls.	12,689	12,609	11,088
Lard ..... tcs.	11,143	11,803	10,190
Tobacco, domestic ..... hhds.	18,939	14,546	16,917
Tobacco, foreign ..... bales.	45,538	37,794	57,610
Coffee, Rio ..... bags.	250,579	291,033	175,928
Coffee, other ..... bags.	88,570	91,644	11,500
Coffee, Java, &c ..... mats.	35,425	43,981	32,089
Sugar ..... hhds.	745	499	426
Sugar ..... bags, &c.	724,851	772,548	406,606
Molasses, foreign ..... hhds.	215	215	None.
Hides ..... No.	84,500	125,100	58,800
Cotton ..... bales.	172,196	183,250	99,252
Rosin ..... bbls.	30,749	33,294	19,327
Spirits turpentine ..... bbls.	1,203	1,710	1,522
Tar ..... bbls.	707	1,151	735
Rice, E. I ..... bags.	15,500	8,500	10,750
Rice, domestic ..... bbls.	1,600	2,800	2,500
Linseed ..... bags.	None.	None.	None.
Saltpetre ..... bags.	5,200	2,900	5,350
Jute butts ..... bales.	2,300	2,300	None.
Manila hemp ..... bales.	7,846	8,846	11,771
Sisal hemp ..... bales.	6,564	19,086	8,551
Flour ..... bbls. and sacks.	116,800	137,300	157,600

The demand for lard on the spot has continued slow and under free offerings prices have further declined, closing easy at 5·60c. for prime Western, 5·20@5·25c. for prime City and 6c. for refined for the Continent. There has been no speculation in the local market for lard futures and nominal prices have been quoted lower in response to weaker advices from the West and under heavy receipts of swine at primary points, closing easy.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	*Mon.*	*Tues.*	*Wed.*	*Thurs.*	*Fri.*
December ..... c.	5·65	5·60	5·60	5·60	5·60	5·60

A moderately active demand has been reported for pork, but at lower prices, closing at $9@9 50 for mess. Cutmeats have been quiet and easier. Tallow has been steady. Cotton seed oil has been quiet and unchanged, closing at 29@29½c. for prime yellow and 26c. for prime crude. Butter has been in good demand for the choice grades and firm. Cheese has been fairly active and steady. Fresh eggs have been in fair request and firm.

Coffee continued weak in tone and further declined under pressure to realize, especially on Brazilian grades. Rio quoted 14½c. for No. 7, good Cucuta 18c. and standard quality Java 26 @ 26½c. Contracts were liquidated freely, which served to further depress values, closing, however, at some recovery from bottom prices on a demand from "shorts" to cover contracts. The following were the final asking prices:

Dec ..... 13·80c.	March ..... 13·55c.	June ..... 12·75c.
Jan ..... 13·80c.	April ..... 13·25c.	July ..... 12·55c.
Feb ..... 13·70c.	May ..... 13·05c.	Sept ..... 12·15c.

Raw sugars found quick, active demand at advancing prices, closing firm and holders offering stock indifferently. Centrifugal quoted 3½c. for 96-deg. test, and muscovado at 3⅛c. for 89-deg. test. Refined sugars active and higher; granulated quoted 4⅝c. Teas dull and heavy.

The demand for Kentucky tobacco was slow, but the supply of desirable grades was small, and for such prices were firm, closing at 2½@5c. for lugs and 5@14c. for leaf. Seed leaf tobacco has sold slowly but prices for the better grades have been firmly maintained; sales for the week were 940 cases, including 100 cases 1892 crop, New England Havana, 16@36c.; 100 cases 1893 crop, New England Havana, 6@9c.; &c., &c.; also 850 bales Havana, 67c.@$1 10, and 150 bales Sumatra, 65c.@$3 in bond.

The speculative dealings in the market for Straits tin have been quiet, and prices have declined in response to weaker advices from abroad, closing easy at 14·05c. Ingot copper has also declined and the close was quiet at 10·75c for Lake. Lead has made a slight further advance, and the close was steady at 3·27½@3·30c. for domestic. Spelter has been quiet but steady, closing at 3·50@3·60c. for domestic. Pig iron has been in moderate demand and steady, closing at $12 00@$14 50 for domestic.

Refined petroleum has been easier, closing at 7·50c. in bbls., 5·00c. in bulk and 8 25c. in cases; crude in bbls. has been nominal; naphtha unchanged at 8·25c. Crude certificates have declined, closing at $1 31 bid. Spirits turpentine has also declined, closing at 27½@27¾c. Rosins have been dull but steady, closing at $1 72½@$1 77½ for common and good strained. Wool has been quiet but steady. Hops have been dull and without change.

COTTON.

FRIDAY NIGHT, December 6, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 227,001 bales, against 199,583 bales last week and 312,429 bales the previous week, making the total receipts since the 1st of Sept., 1895, 2,687,551 bales, against 4,100,467 bales for the same period of 1894, showing a decrease since Sept. 1, 1895, of 1,412,916 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

Total 1893	231,501	36,270	90,791	16,066	374,628	824,891

Speculation in cotton for future delivery at this market has been moderate and again very largely of a liquidating character. The absence of important fresh investment demand led many holders of "long" engagements to sell, but the decline in price served as an attraction for "shorts" to cover, with neither interest finding encouragement to renew their deals. Saturday's market was adversely influenced by tame advices from abroad and evidence of a slight increasing tendency of crop movement, but after losing 14 points recovered to a net loss of 10 points. Much the same general influences were renewed on Monday and after considerable irregularity closing rates recorded a further decline of 5@6 points. On Tuesday morning European advices were firmer and that served to open our market 5 points higher, but demand soon failed, prices reacted and finally closed at a net loss for the day of 8@9 points. On Wednesday free offerings served to temporarily depress the value line 7@9 points, but a covering demand set in and stimulated sharp reaction, leaving final rates at 2@3 points net advance. Yesterday, however, buying was very indifferent again, and after some irregularity prices closed at 12 points net loss. To-day a slight improvement in foreign advices induced shorts to cover and strengthened prices 9@10 points. Cotton on the spot quiet at 8⅜c. for middling uplands.

The total sales for forward delivery for the week are 1,221,700 bales. For immediate delivery the total sales foot up this week 14,230 bales, including —— for export, 930 for consumption, —— for speculation and 13,300 on contract. The following are the official quotations for each day of the past week—November 30 to December 6.

Rates on and off middling, as established Nov. 23, 1893, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	0. 1¼ on.	Good Ordinary	0. 1⅛ off
Middling Fair	⅞ on.	Good Middling Tinged	Even
Strict Good Middling	½ on.	Strict Middling Stained	7₃₂ off.
Good Middling	3₁₆ on.	Middling Stained	7₁₆ off.
Strict Low Middling	3₁₆ off.	Strict Low Mid. Stained	29₃₂ off.
Low Middling	7₁₆ off.	Low Middling Stained	1⅛ off
Strict Good Ordinary	13₁₆ off.		

On this basis the prices for a few of the grades would be as follows.

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary	7 7/16	7 7/16	7 3/8	7 3/16	7 1/4	7 1/4

☞ The imports into Continental ports the past week have been 157,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 481,775 bales as compared with the same date of 1894, a falling off of 408,915 bales over the corresponding date of 1893 and a decrease of 438,544 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to December 6, 1895. Receipts. This week.	Since Sept. 1, '95.	Shipm'ts This week.	Stock Dec. 6	Movement to December 7, 1894. Receipts. This week.	Since Sept. 1, '94	Shipm'ts This week.	Stock Dec. 7.

* Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 38,570 bales and are now 48,665 bales *more* than at same period last year. The receipts at all the towns have been 133,771 bales *less* than same week last year and since Sept. 1 are 1,098,754 bales *less* than for same time in 1894.

DAILY PRICES AND SALES OF FUTURES FOR EACH MONTH.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Dec. 6	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston	8 5/16	8 1/4	8 1/8	8 1/16	8 1/16	8 1/16

Louisville	8 5/16	8 5/16	8 5/16	8 3/8	8 3/8	8 1/4

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	7 15/16	Little Rock	7 5/8	Newberry	...
Columbus, Ga.	7 1/4	Montgomery	7 3/4 @ 7 7/8	Raleigh	7 3/4
Columbus, Miss	7 3/8	Nashville	8	Selma	8
Eufaula	7 11/16	Natchez	7 13/16	Shreveport	7 1/2

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns			Receipts from Plant'ns.		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.
Nov. 1	231,762	431,445	324,360	338,725	364,301	359,310	480,905	236,607	
" 8	236,111	226,662	199,271	402,158	415,175	347,736	444,564	248,412	
" 15	220,5[illegible]	1[illegible]1,442	209,749	388,5[illegible]6	402,219	451,026	345,089	262,574	261,664
" 22	224,[illegible]08	2[illegible]1,845	224,[illegible]25	436,[illegible]89	436,[illegible]43	471,914	412,619	258,162	253,317
" 29	2[illegible]4,[illegible]01	2[illegible]5,[illegible]47	2[illegible]2,[illegible]26	443,[illegible]14	494,118	520,79[illegible]	392,703	221,787	
Dec. 6	231,[illegible]08	241,[illegible]37	241,[illegible]89	434,[illegible]28	492,[illegible]66	530,587	392,48[illegible]	265,671	

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 3,187,539 bales; in 1894 were 4,547,155 bales; in 1893 were 3,670,347 bales.

2.—That although the receipts at the outports the past week were 237,091 bales, the actual movement from plantations was 265,671 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 392,109 bales and for 1893 they were 330,757 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Dec. 6 and since Sept. 1 in the last two years are as follows.

December 6.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	28,695	249,710	61,057	444,695
Via Cairo	9,553	111,401	19,151	167,513
Via Parker City	80	8,997	2,491	12,000
Via Evansville	24	24	21	1,408
Via Louisville	4,195	70,376	9,425	89,196
Via Cincinnati	6,010	30,978	11,707	79,708
Via other routes, &c.	2,784	28,322	7,956	63,709
Total gross overland	51,141	499,808	111,808	849,529
Deduct shipments—				
Overland to N. Y., Boston, &c.	7,191	82,565	27,767	112,203
Between interior towns	9	1,562	1,098	11,281
Inland, &c., from South	2,575	20,626	3,580	33,949
Total to be deducted	9,775	104,747	32,445	157,433
Leaving total net overland*	41,366	395,061	79,363	692,096

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 41,366 bales, against 79,363 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 297,035 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Dec. 6	237,091	2,687,551	351,451	4,100,467
Net overland to Dec. 6	41,366	395,061	79,363	692,096
Southern consumption to Dec. 6	22,000	278,000	20,000	250,000
Total marketed	260,457	3,360,612	450,814	5,042,563
Interior stocks in excess	4[illegible],379	429,[illegible]88	41,009	426,688
Came into sight during week	328,837	.....	491,823	.....
Total in sight Dec. 6	.....	3,860,600	.....	5,469,251
North'n spinners' tak'gs to Dec. 6	74,441	744,9[illegible]3	112,490	1,132,467

It will be seen by the above that there has come into sight during the week [illegible],457 bales, against 189,323 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 1,608,651 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports by telegraph to us to-night indicate that rain has fallen in most districts of the South during the week, but that the precipitation has not as a rule been heavy. Picking has been practically completed in all but a few localities.

Galveston, Texas.—Cotton is about all picked. In isolated places there is a little left, but all will be gathered in two or three days. The weather has been and still is unfavorable for field work, as ground is wet and temperature low. We have had rain on two days during the week, the precipitation being twenty-one hundredths of an inch. The thermometer has averaged 56, the highest being 74 and the lowest 37. November rainfall five inches and ninety-five hundredths.

Palestine, Texas.—There has been rain on one day of the week, the precipitation reaching seventy-four hundredths of an inch. The thermometer has averaged 46, ranging from 25 to 68. Month's rainfall, four inches and twenty-three hundredths.

Huntsville, Texas.—We have had rain on two days of the week, the rainfall reaching fifty-three hundredths of an inch. The thermometer has ranged from 30 to 73, averaging 51. Rainfall for November four inches and ninety-one hundredths.

Dallas, Texas.—There has been rain on one day during the week, the precipitation being thirty hundredths of an inch. Average thermometer 46, highest 68 and lowest 24. During the month of November the rainfall reached three inches and eighty four hundredths of an inch.

San Antonio, Texas.—The late frost killed what little cotton remained. It has rained on two days of the week, the precipitation reaching ten hundredths of an inch. The thermometer has averaged 52, the highest being 74 and the lowest 31. November rainfall three inches and thirty-eight hundredths.

Luling, Texas.—We have had rain on one day during the week, to the extent of fifteen hundredths of an inch. The thermometer has averaged 50, ranging from 29 to 70. Rainfall for the month of November three inches and forty-eight hundredths.

Columbia, Texas.—There has been rain on two days of the past week, the rainfall being one inch and thirty-five hundredths. The thermometer has ranged from 30 to 77, averaging 54. During the month of November the rainfall was seven inches and nineteen hundredths of an inch.

Cuero, Texas.—We have had rain on one day of the week, to the extent of three hundredths of an inch. Average thermometer 54, highest 75 and lowest 32. During November the rainfall reached three inches and eighty-three hundredths.

Brenham, Texas.—We have had rain on two days during the week, the precipitation being thirty hundredths of an inch. The thermometer has averaged 50, the highest being 70 and the lowest 31. November rainfall two inches and forty-seven hundredths.

Belton, Texas.—There has been rain on two days of the week, the rainfall reaching thirty-three hundredths of an inch. The thermometer has averaged 50, ranging from 30 to 70. Rainfall for the month of November three inches and thirty-five hundredths.

Fort Worth, Texas.—We have had rain on one day of the week, to the extent of thirty hundredths of an inch. The thermometer has ranged from 24 to 68, averaging 46. During the month of November the rainfall reached two inches and forty-five hundredths.

Weatherford, Texas.—There has been rain on one day of the past week, the rainfall being twenty hundredths of an inch. Average thermometer 46, highest 67 and lowest 25. November rainfall two inches and sixty-six hundredths.

New Orleans, Louisiana.—There has been one shower during the week, the rainfall reaching two-hundredths of an inch. The thermometer has averaged 53. During November the rainfall was sixty-nine hundredths of an inch.

Shreveport, Louisiana.—It has rained on two days of the week, such rainfall to the extent of fifty-four hundredths of of an inch. The thermometer has ranged from 27 to 71, averaging 47. November rainfall six inches and six hundredths.

Columbus, Mississippi.—We have had rain on one day the past week, the rainfall being twenty-five hundredths of an inch. Average thermometer 47, highest 70 and lowest 21. November rainfall two inches and two hundredths.

Leland, Mississippi.—We have had rain during the week, the rainfall being one inch and eighty-five hundredths. The thermometer has averaged 49, the highest being 78 and the lowest 22. November rainfall four inches and seven hundredths.

Vicksburg, Mississippi.—We have had rain on one day during the week to the extent of fifty-five hundredths of an inch. The thermometer has averaged 46, ranging from 25 to 69. November rainfall two inches and seventy-four hundredths.

Helena, Arkansas.—The weather has been quite cold this week, with snow on one day. There has been light rain on two days, the precipitation being eighty-two hundredths of an inch. Average thermometer 40. November rainfall four inches and ninety-eight hundredths.

Little Rock, Arkansas.—Rain has fallen on one day of the week, the precipitation reaching sixty-nine hundredths of an

inch. The thermometer has ranged from 17 to 66, averaging 41.

Memphis, Tennessee.—We have had rain on three days during the week, the precipitation being one inch and thirty-six hundredths. The thermometer has averaged 39, the highest being 64 and the lowest 20·1. November rainfall five inches and forty-four hundredths.

Nashville, Tennessee.—Rainfall for the month of November two inches and fourteen hundredths.

Selma, Alabama.—We have had rain on one day during the week, the rainfall reaching twenty hundredths of an inch. The thermometer has averaged 42, the highest being 63 and the lowest 20.

Mobile, Alabama.—There has been rain on one day of the week, the rainfall reaching nineteen hundredths of an inch. The thermometer has ranged from 28 to 70, averaging 49. During the month of November the rainfall reached sixty hundredths of an inch.

Montgomery, Alabama.—Rain has fallen on one day of the week, to the extent of sixteen hundredths of an inch. Frost on three days in this vicinity. Average thermometer 47, highest 66, lowest 38.

Madison, Florida.—Telegram not received.

Columbus, Georgia.—We have had rain on one day during the week, the precipitation reaching twenty-five hundredths of an inch. The thermometer has ranged from 23 to 60, averaging 42.

Savannah, Georgia.—There has been no rain the past week. Average thermometer 50, highest 74 and lowest 20. November rainfall three inches and seventy-four hundredths.

Augusta, Georgia.—It has rained on two days of the week, the precipitation reaching two hundredths of an inch. The thermometer has averaged 46, the highest being 67 and the lowest 21. November rainfall two inches and one hundredth.

Charleston, South Carolina.—Rain has fallen on two days of the week to the extent of eight hundredths of an inch. The thermometer has averaged 50, ranging from 30 to 70. Rainfall for November two inches and forty-four hundredths.

Stateburg, South Carolina.—There has been light rain on one day of the week, the rainfall reaching two hundredths of an inch. Hard freeze on Wednesday. The thermometer has ranged from 25 to 66, averaging 45·8. During the month of November the rainfall reached one inch and seventy-seven hundredths.

Greenwood, South Carolina.—There has been rain on two days during the week, to the extent of seventy-three hundredths of an inch. The thermometer has averaged 42. November rainfall, three inches and eighty-four hundredths.

Wilson, North Carolina.—We have had rain on one day of the week to the extent of ten hundredths of an inch. Average thermometer, 45, highest 66 and lowest 26.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock December 5, 1895, and December 6, 1894.

		Dec. 5, '95.	Dec 6, '94.
		Feet.	Feet.
New Orleans	Above zero of gauge.	2·6	2·9
Memphis	Below zero of gauge.	1·3	0·3
Nashville	Above zero of gauge.	1 8	*1·2
Shreveport	Below zero of gauge.	0·9	5·4
Vicksburg	Below zero of gauge.	2·2	3·2

* Below zero of gauge.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO DEC. 1.—In our editorial columns to-day will be found our usual overland movement report brought down to December 1.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Dec. 5.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Sept. 1.
1895	1,000	19,000	20,000	2,000	84,000	86,000	59,000	287,000
1894	.....	.....	.....	5,000	19,000	24,000	13,000	60,000
1893	1,000	16,000	17,000	7,000	75,000	82,000	23,000	144,000
1892	2,000	1,000	1,000	5,000	67,000	72,000	25,000	103,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 46,000 bales and an *increase* in shipments of 20,000 bales, and the shipments since Sept. 1 show an *increase* of 64,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Cocoanada.

	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1895.....	.....	1,000	1,000	4,000	5,000	9,000
1894.....	.....	.....	.....	3,000	2,000	5,000
Madras—						
1895.....	2,000	1,000	3,000	14,000	11,000	25,000
1894.....	.....	.....	.....	12,000	9,000	21,000
All others—						
1895.....	1,000	.....	1 000	14,000	21,000	35,000
1894.....	2,000	.....	2,000	12,000	18,000	30,000
Total all—						
1895.....	3,000	2,000	5,000	32,000	37,000	69 000
1894.....	2,000	.....	2,000	27,000	29,000	56,000

The above totals for the week show that the movement from the ports other than Bombay is 3,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895.		1894.		1893.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	20,000	86,000	.....	24 000	17,000	82,000
All other ports	5,000	69,000	2,000	56,000	4,000	63,000
Total	25,000	155,000	2,000	80,000	21,000	145,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Brocchi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, December 4.	1895.	1894.	1893.
Receipts (cantars*).....			
This week.....	260,000	250,000	270,000
Since Sept. 1.	2 703,000	1,913,000	1,916,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	9,000	135,000	15,000	105,000	15,000	101,000
To Continent†.....	10,000	91,000	14,000	103,000	10,000	76,000
Total Europe.....	19,000	226.000	29,000	208,000	25,000	177,000

* A cantar is 98 pounds.

† Of which to America in 1895, 13,950 bales; in 1894, 13,600 bales; in 1893, 2,621 bales.

This statement shows that the receipts for the week ending Dec. 4, were 260,000 cantars and the shipments to all Europe 19,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings, in consequence of American news. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.					1894.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Dec. 6) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Dec. 6.	1895.		1894.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894.
Savannah.....	4,509	48,330	3,780	43,215	13,144	13,322

Total 1894..	5,844	814	6,658	12,513	2,210	14,723	2,322	18,750

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Dec 6 at Savannah, for Floridas, common, 11¾c.; medium fine, 15c.; choice, 17c.

Charleston, Carolinas, medium fine, 23 to 28½c.; fine, 25c.; fully fine, 26c.; extra fine, 35 to 40c.

NEW ORLEANS COTTON EXCHANGE ANNUAL ELECTION.—At the annual election of the New Orleans Cotton Exchange held on Monday, Dec. 2, the following ticket was elected.—President, Andrew Stewart; Vice-President, Felix Couturie; Treasurer, Maurice Stern; Directors: Norman Eustis, J. W. Labouisse, T. D. Mather, Julius Weis, O. L. Putnam, Thomas Holford, W. H. Longsfield, J. H. Williams, F. B. Hayne, E. Darier, A. Brittin and C. L. DeFuentes. With one exception, the substitution of Mr. Labouisse for Mr. DeBuys, the board officers stands the same as last year.

GALVESTON COTTON EXCHANGE ANNUAL ELECTION.—The annual election of the Galveston Cotton Exchange was held on Monday, Dec. 2, and resulted as follows: President, W. F. Ladd; Vice-President, J. D. Skinner; Treasurer, George Sealy; Directors, Robert Bornefeld, J. D. Rogers, C. Rodewald Byrne, U. Muller, Julius Runge, Thomas Taylor and I. H. Kempner.

JUTE BUTTS, BAGGING, &C.—The demand for jute bagging has been extremely light during the week under review. In a jobbing way quotations are 3⅞c. for 1¾ lbs., 4¼c. for 2 lbs. and 4⅝c. for standard grades. Car load lots of standard brands are quoted at 3⅞c. for 1¾ lbs., 4¼c. for 2 lbs., and 4⅛c. for 2¼ lbs., f. o. b. at New York. Jute butts on the spot have been dull on the basis of 1 1-16c. for paper quality and 1½c for mixing. The deliveries of jute butts and rejections at New York and Boston during November were *nil* against 4,750 bales for the same month last year, but for the eleven months the deliveries reached 411,373 bales against 230,659 bales in 1894. The aggregate stock in the hands of importers and speculators at New York and Boston on November 30 was 2,300 against *nil* at the corresponding date in 1894, and the amount afloat for the United States reaches 167,682 bales against 141,218 bales last year.

EAST INDIA CROP.—The second general memorandum for the season of 1895 was issued under date of Simla, October 25, as follows:

The area sown is below the area of the previous year, but the decrease is generally small and is due chiefly to the long break in the rains during the sowing season. In Madras the decrease is only 2·3 per cent and in Berar the deficiency is 3·6 per cent; but in the Central Provinces the area in the important cotton-growing districts shows an increase which counterbalances the diminished area in other districts of the province. In Bombay and Sindh, though the area is not expected to equal that of the preceding year, it is generally in excess of the normal, except in the early districts of the Deccan, where the area is less by 9 per cent than either the normal or last year's area. In the Punjab and the North-Western Provinces and Oudh the area is less than that of last year by 8·5 and 5 per cent, respectively.

The rainfall in the early part of the season was not favorable, and the crop appears to have suffered more or less from the long break in the rains which occurred in June and August. In Madras the rainfall was very favorable in some parts, while in others it was either excessive or in defect, but recent rains have improved prospects. In Bombay and Sindh the rainfall was generally deficient and retarded sowing, and though the season has subsequently proved beneficial, more rain is still needed. In the Punjab also rain was plentiful, but the crops have not suffered much in consequence and the prospects are generally satisfactory. The season in the North-Western Provinces and Oudh was favorable and the weeding of the crop was satisfactorily carried out. In the Central Provinces also very favorable weather prevailed and prospects are decidedly good, but in Berar the long break in the rains did some harm. The recent rainfall has, however, greatly improved the condition of the crop, which is on the whole fair.

The probable out-turn may be said to be fair to good in Madras and fair in Bombay and Berar. In the Punjab the out-turn is expected to be equal to the average, and in the North-western Provinces and Oudh it is only very slightly below the average. A full out-turn is anticipated in the Central Provinces if the present favorable conditions continue.

THE ATLANTA EXPOSITION AND COTTON MANUFACTURING AT THE SOUTH.—In our editorial columns to day will be found an article under this caption.

THE EXPORTS OF COTTON from New York this week show a decrease compared with last week, the total reaching 9,784 bales, against 16,443 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1895, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1895.

BREADSTUFFS.

FRIDAY, December 6, 1895.

The market for wheat flour has shown further improvement during the past week. The amount of business transacted has been moderately large, and while no advances have been made in prices full quoted values have been obtained, whereas formerly there was a disposition shown to quietly shade quotations to make sales. A moderate inquiry has been reported for city mills at steady prices. Rye flour has been in fairly good request at unchanged prices. Corn meal has been quiet and without change. To-day the market for wheat flour was moderately active and firm.

Speculation in the market for wheat futures has been moderately active, but the course of prices has been somewhat irregular; early in the week there was an advance in response to stronger foreign advices, accompanied with buying orders mainly to cover short contracts. Then came a reaction under increased offerings, prompted by a continued heavy crop movement in the Northwest and a weaker turn to foreign markets, but subsequently advices from abroad again became stronger, and as they also brought buying orders it stimulated a demand from shorts to cover contracts, particularly for the near-by deliveries, and prices rallied. In the spot market shippers have been moderate buyers at steady prices. The sales yesterday included No. 2 red winter for delivery December 12 at 1½c. over May f. o. b. afloat and No. 1 Northern at May price f. o. b. afloat. To-day the market was weaker during early 'Change in response to easier closing foreign advices, but later general buying, stimulated by stronger advices from the Northwest and war rumors from Europe, caused an advance. The spot market was firm but quiet. The sales included No. 2 Northern at 2c. under May f. o. b. afloat.

July delivery.....c.	67 3/4	68 3/8	67 5/8	67 1/2	68 1/8	68 3/4

In the market for Indian corn futures speculation has been quiet and prices have fluctuated within a very narrow range, though during the latter part of the week prices made fractional advances in sympathy with the improvement in wheat. A fairly large business has been transacted in the spot market for export but at easier prices. The sales yesterday included No. 2 mixed at 36⅞c. f. o. b. afloat, steamer mixed at 34⅞c. in elevator and steamer yellow at 36⅛c. in elevator. To-day the market was dull but steady. The spot market was moderately active and steady. The sales included old No. 2 mixed at 35 13-16@36c delivered, steamer yellow at 36¼c. in elevator and steamer mixed at 34¾c. in elevator.

May delivery .....c.	35 3/8	35 3/8	35 1/4	35 1/8	35 1/2	35 1/2

Oats for future delivery have continued dull, and in the absence of new features of importance prices have made very little change. In the spot market business has been moderately active and prices have held fairly steady. The sales yesterday included No. 2 mixed at 23¾c. in elevator and No. 2 white at 23¾@24c. in elevator. To-day the market closed a trifle higher in sympathy with the advance in wheat. The spot market was moderately active and firmer. The sales included No. 2 mixed at 23¾@23⅞c. in elevator and No. 2 white at 24@24¼c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., December 6, 1895.

The market at first hands has again been very dull this week in all lines of staple cottons and in seasonable cotton dress fabrics. In the former there has been further irregularity in prices, the tendency being distinctly in favor of buyers. Agents are reluctant to make open changes in prices, but there are few at the close of the week not willing to make concessions from previous top limits in order to effect sales, even where they are still sold more or less ahead. The course of the cotton market, coupled with the conservatism of buyers, has exercised an unfavorable influence, and an open break of 1/16c. in a leading line of low-grade bleached cottons has had a bad effect on the general tone. There has been less doing also on spring account in fancy cotton fabrics, but sales of these are still on a fair scale, and with the improved weather conditions now prevailing an expansion in business in both light and dark specialties may be looked for. There have been no developments in the woolen goods departments changing the situation. New lines coming upon the market in heavy-weights still show irregular price conditions. Collections are less regular, with complaints of slow payments by the purchasers of woolen goods.

WOOLEN GOODS.—With the colder weather this week there has been a slight improvement in the demand for light-weight woolen and worsted suitings and trouserings, but the business is still disappointing and prices barely steady. New heavy-weight suitings and trouserings are still in limited display and little doing outside of Clay worsted and a few staple lines in woolen goods. New heavy-weight overcoatings have proved in irregular request during the week, and the tendency has been more general to adopt last season's prices as the basis of business, where declines have not actually occurred, as in the instance of some makes of rough-faced goods. The demand for cloakings is indifferent. Cotton-warp fabrics are quiet but generally steady. Business in flannels and blankets is limited at previous prices. In dress goods Atlantic J. cashmeres, an all-wool fabric, has been reduced to 20c. per yard net, but otherwise the situation is unchanged.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending December 2 were 2,771 packages, valued at $183,157, their destination being to the points specified in the table below:

NEW YORK TO DEC. 2.	1895. Week	1895. Since Jan. 1.	1894. Week.	1894. Since Jan. 1.

Total	2,771	206,720	2,791	223,398

* From New England mill points direct.

The value of the New York exports for the year has been $8,390,101 in 1895 against $10,683,338 in 1894.

The demand for brown goods by both jobbers and converters continues slow, but there have been occasional fair sales on export account. Prices are easy throughout, and though not quoted lower are generally 1/16c. to 1/8c. below previous best. Bleached cottons also have passed through an inactive week. Fine and medium grades show no change in quotations but are irregular, whilst low grade goods in 64 squares have broken to 4 3/4c. per yard for 36-inch makes. The demand for denims is erratic and prices tend in favor of buyers. Ticks are slow, but generally steady, whilst other coarse colored cottons move indifferently in an easy market. Kid-finished cambrics sell slowly and are weak in price. Wide sheetings, cotton flannels and blankets, white goods, quilts, etc., dull and featureless. Dark fancy calicoes and other prints dull at steady prices, but wide specialties for spring are in fair demand. Spring ginghams are quiet in all grades but napped lines in domets and fancy effects sell readily at firm prices. Print cloths continue inactive, another blank week being reported in extras, which close with sellers asking 3 1/16c. but no bids over 3 1/16c.

Stock of Print Cloths—	1895. Nov. 30.	1894. Dec. 1.	1893. Dec. 2.
At Providence, 64 squares	101,000	40,000	122,000
At Fall River, 64 squares	50,000	15,000	134,000
At Fall River, odd sizes	73,000	75,000	
Total stock (pieces)	224,000	130,000	256,000

FOREIGN DRY GOODS.—This division of the market has been dull throughout for regular seasonables lines, with prices irregular. Holiday goods in fair demand. Business for spring has been moderate, with no new feature of importance developed.

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)	$25 00
One Month	(4 times)	11 00	Six Months	(26 times)	43 00
Two Months	(8 times)	18 00	Twelve Months	(52 times)	58 00

The above terms for one month and upward are for standing cards.

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

MUNICIPAL BOND SALES IN NOVEMBER.

Our usual monthly compilation of municipal bond sales shows that the total amount of the new issues marketed during November was $6,524,901. This aggregate is to be compared with $4,549,580 issued in the corresponding month of last year, $7,300,770 issued in November of 1893 and $5,176,012 in November 1892.

That the market for this class of securities has remained firm during the past month is shown by the prices paid for the bond issues of the larger cities, and the close competition in bidding for all the most desirable loans is a good indication of the market's activity.

Referring to our record of bond sales during November, 1894, it will be noticed that Long Island City then reported a sale of 4½ per cent ten-year bonds at par, while last month the price obtained for similar securities issued by the same city was 104·75. This instance, however, is not indicative of a corresponding change since a year ago in the general market for municipals, but is probably attributable to a little better financial standing of the particular city in question. The market in general shows no such decided change during the twelve months.

In the following table we give the prices which were paid for November loans to the amount of $3,995,901, issued by 29 municipalities. The aggregate of sales for which no price was reported is $2,529,000 and the total sales for the month $6,524,901. In the case of each loan reference is made to the page of the Chronicle where a full account of the sale is given.

Chicago's Financial Embarrassment.—Owing to a technical question as to the legality of certain warrants which Chicago has been attempting to float, none of the securities have been taken and the city is sadly in need of funds for current expenses. Mayor Swift is quoted as saying that unless speedy relief can be had he will be compelled to close certain bridges and viaducts that are in want of repair. He claims also that the police and health departments are crippled for want of funds to such an extent that public safety is threatened.

Commenting on the city's financial condition, the Mayor shows that Chicago's floating debt is small in comparison with that of many Eastern cities, and that the net revenues of the city derived from its municipal property alone and exclusive of its revenues from taxes and licenses, are greater by over $1,000,000 than the interest on the combined bonded debt of the City of Chicago, Sanitary District of Chicago and Cook County. The principal items of this revenue of Chicago are receipts from water works above operating expenses and rentals of real estate.

Duluth, Minn.—City Clerk C. E Richardson has issued leaflet under date of November 18, 1895, in which he sets forth the following facts regarding the city's financial condition.

Total bonded debt, $1,920,250 (at 4, 4½ and 5 per cent interest); floating debt in addition to bonded debt, $397,382 52 (represented by city orders unpaid and subject to call), secured by assessments uncollected; special assessment debt not included in total bonded debt and secured by direct lien upon the property benefitted, $311,746 16; value of sinking fund, $45,700 05; assessed value for 1895, personal property, $4,855,550; assessed value for 1895, real property, $36,157,713; total assessed value, $41,013,263; city tax rate, 9·6 mills; general tax rate, 27·9 mills; total city income from local and other sources, not including assessments, $781,247 83; population by State Census, 1895, is 59,396; population by Government Census, 1890, including territory subsequently acquired, 37,979; increase, 57 per cent.

Galveston, Tex.—According to a special report of the City Auditor of Galveston, Tex., made October 23, 1895, the total bonded debt of the city on that date was $3,132,700. The sinking funds amounted to $512,078, leaving a net bonded debt of $2,538,622; floating debt was $339,518; total net debt, $2,878,140. The assets of this city are figured at $3,779,084, including uncollected taxes, $615,314; stocks at current market value, $538.870; public squares and parks, $236,000; fire department property, $110,000; water-works plant, $1,500,000; city hall markets and grounds, $113,000, and public schools and grounds, $521,000. The assessed valuation of this city for 1895 is $25,391,552, real value being estimated at $60,000,000. The population, according to the Census of 1890, was 29,084, and it is now estimated between 45,000 and 50,000.

Indiana County Ditch Bonds Invalid.—It is reported this week that the Circuit Court of Pulaski County, Ind., has pronounced unconstitutional the law of 1891, authorizing co un-

ties in Indiana to issue ditch bonds. In reference to this decision a news dispatch from Logansport says:

The ditch upon which the decision was made was known as the "Hendrie ditch." Bonds for its construction were floated by Pulaski County to the amount of $16,000, and bonds in other cases bring the aggregate up to nearly $100,000. By the ruling of the Court the county will have to cease collecting the assessments for the construction of the ditches. The loss will therefore fall upon the bondholders, most of whom are Eastern capitalists.

Tacoma, Wash.—The Supreme Court at Olympia, Wash., has rendered a decision in which it holds that the water and light bonds of Tacoma are a legal and valid obligation of that city.

Owing to the failure of the bank in which Tacoma's interest fund was deposited, the city was left almost without funds to meet its coupons to the amount of $52,000, which matured on December 1st, and to avoid a default $30,000 was raised by personal subscription.

West Cleveland, O.—West Cleveland is now a part of the city of Cleveland and the West Cleveland debt has been assumed by the city. According to the last report made to us the amount of West Cleveland bonds outstanding was $65,000 and there was also a floating debt of $58,182. The assessed valuation of West Cleveland in 1893 was $1,470,325 and its population in 1890 was 4,117.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale

Allegheny County, Pa.—*Bond Call.*—The County Comptroller of Allegheny County gives notice that coupon compromise bonds numbered 434, 439, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 456; also registered compromise bonds numbers 650, 651, all bearing date of January 1, 1863, and maturing January 1, 1913, will be paid, together with interest to January 1, 1896 upon presentation at the office of the County Comptroller at Pittsburg, Pa., at which time all interest will cease.

Andrew County, Mo.—*Bond Election.*—The people of this county will vote Dec. 10 on issuing bonds.

Astoria, Oregon.—*Bond Offering.*—Proposals will be received until December 15 for the purchase of $30,000 of 6 per cent bonds.

Attleborough, Mass.—*Bond Offering.*—Proposals will be received until Dec. 20 for the purchase of $12,000 of 20 year water bonds and $50,000 of 10 year bonds. Both loans bear interest at the rate of 4 per cent.

Bond Call.—Bonds of fire district No. 1, dated Sept. 1, 1885, will be paid Jan. 1, 1896.

Bay County, Mich.—*Bonds Authorized.*—The citizens of this county have voted in favor of issuing bonds to the amount of $115,000.

Belleville, N. J.—*Bonds Authorized.*—Bonds to the amount of $4,000, payable part yearly in from 11 to 14 years, will be issued for school purposes.

Blunt, S. D.—*Bond Offering.*—Proposals will be received until Dec 9, 1895, by the Board of Supervisors of Blunt Township for the purchase of $5,000 of 7 per cent irrigation bonds. The securities will be dated Jan. 1, 1896, interest will be payable annually and the principal will mature Jan. 1, 1906, with option of call after Jan 1, 1901. Both principal and interest will be payable at the First National Bank of Chicago.

The township has no indebtedness except school bonds for $4,100. The assessed valuation is $165,000 and the population is estimated at 450.

Brocton, Mass.—*Bond Sale.*—On November 29 $10,000 of 4 per cent 1 to 10 year registered school bonds were sold to Messrs. Brewster, Cobb & Estabrook, of Boston, at 101·27. Other bids were: R. L. Day & Co., 101·079; J. W. Longstreet & Co., 101·07; Blake Bros. & Co., 100·830; Bledger, Merritt & Co., 100·80; E. H. Rollins & Sons, 100·730; N. W. Harris & Co., 100·576; S. A. Kean, Chicago, 100·125.

Brooklyn, N. Y.—*Bond Sale.*—On December 2 City Comptroller George W. Palmer awarded $492,000 of Brooklyn bonds to Messrs. Kountze Bros. and R. L. Day & Co. on their joint bid of 103·569.

The securities are described as follows:

LOANS—	When Due.
Flatbush Sewer Bonds—	
3½s, F. & A., $1,000	Aug. 1, 1910
" " 1,000	Aug. 1, 1911
" " 6,000	Aug. 1, 1912
" " 6,000	Aug. 1, 1913
" " 30,000	1914-1919
($8,000 due yearly on Aug. 1.)	
3½s, F. & A., 96,000	Aug. 1, 1920

Flatbush Sewer Assessment Bonds—	
3½s, F. & A., $20,000	1903-1906
($5,000 due yearly on Aug. 1.)	
3½s, F. & A., $40,000	1907-1910
($10,000 due yearly on Aug. 1.)	
Local Improvement Bonds—	
3½s, J. & J., $100,000	Jan. 1, 1914
School Building Bonds—	
3½s, J. & J., $282,000	Jan. 1, 1916

Principal and interest of the bonds will be payable in gold coin of the United States, and the securities will be exempt from all taxation except for State purposes.

Certificates Proposed.—A resolution authorizing the issuance of tax certificates for $1,000,000 to refund similar securities maturing this month has been referred to the Finance Committee.

Calmar, Iowa.—*Bond Sale.*—The town of Calmar, Ia., has sold $4,000 of 6 per cent water-works bonds to J. D. Cleghorn & Co. for a premium of $43 50 and the blank bonds. Two other bids were received for the loan.

Cape May, N. J.—*Bond Sales.*—It is reported that $10,000 of 5 per cent 20-year bonds were sold on December 2 to local purchasers.

Charlotte, N. C.—*Bond Election.*—The citizens of Charlotte will vote Feb. 18, 1896, on issuing $500,000 of 5 per cent water-works bonds.

Charlotte, Mich.—*Bonds Authorized.*—A vote taken November 25, on issuing $12,000 of water-works bonds, resulted in favor of the proposition.

College Point, N. Y.—*Loan Authorized.*—The Board of Trustees has decided to borrow $10,000 for the purpose of paying the current expenses of the village.

Columbia County, N. Y.—*Loan Authorized.*—A loan not to exceed $14,000 bearing interest at the rate of 4 per cent has been authorized.

Conneaut, Ohio.—*Bond Offering.*—Proposals will be received until December 19, 1895, by J. R. Stenson, Village Clerk, for the purchase of $20,000 of bonds. The loan will mature November 16, 1915.

Dallas, Tex.—*Bonds Proposed.*—The City of Dallas will issue court-house, jail and bridge funding bonds to the amount of $321,000.

Dawson, Ga.—*Bonds Authorized.*—This municipality will soon offer for sale bonds to the amount of $10,000.

Denver, Col.—*Bond Offering.*—Proposals will be received until to-day for the purchase of $95,000 of 6 per cent 10-15-year viaduct bonds.

Ellensburgh, N. Y.—*Bonds Authorized.*—Four per cent bridge bonds to the amount of $8,500 will be issued.

Fall River, Mass.—*Bond Sale.*—On December 5 City Treasurer Charles P. Brightman sold $75,000 of public library bonds to Messrs. Blake Bros. & Co. of Boston at 112·19. The securities will be dated December 1, 1895, interest at the rate of 4 per cent will be payable semi-annually, June and December, and the principal will mature December 1, 1925. The loan is to be secured by a sinking fund and issued in the form of registered bonds for $1,000 each, or a multiple thereof. Other bids for the loan were as follows:

Bidders.	*Price offered.*
Brewster, Cobb & Estabrook, Boston	111·799
N. W. Harris & Co., Boston	111·63
R. L. Day & Co., Boston	111·419
E. C. Stanwood & Co., Boston	111·40
Farson, Leach & Co., New York	111·35
Geo. M. Hahn, New York	111·05
Bledger, Merritt & Co., Boston	110·91
E. H. Rollins & Sons, Boston	110·81
S. A. Kean & Co., Boston	110·69
Geo. A. Fernald & Co., Boston	109·05
J. W. Longstreet & Co., Boston	107·05

On October 1, 1895, the net city debt was $1,712,293 06, net water debt (additional) $1,497,562 74. The assessed valuation of the city for 1895 is $61,234,173 and the population, according to the State Census taken this year, is 89,203.

Far Rockway, N. Y.—*Bond Election.*—The citizens of Far Rockaway have voted to expend $75,000 for a sewerage system. Bonds will be issued.

Flatlands, N. Y.—*Bond Offering.*—Proposals will be received until to-day by John L. Ryder, Supervisor of the Town of Flatlands, 26 Court Street, Brooklyn, N. Y., for the purchase of $25,000 of 6 per cent Island avenue assessment bonds. Interest will be payable semi-annually on June 2 and December 2, and the principal will mature in three equal instalments in two, three and four years from date.

Forsyth County, N. C.—*Bonds Authorized.*—Six per cent bonds of this county to the amount of $50,000, $20,000 payable in 2 years, $20,000 in 4 years and $10,000 in 6 years, have been authorized.

Gila County, Ariz.—*Bond Offering.*—At a meeting of the Board of County Commissioners, to be held on Dec. 16, bids will be considered for $40,000 of 5 per cent 47-year Territorial gold funding bonds. These securities were first offered for sale some time since and have not yet been disposed of. Interest on the securities will be payable semi-annually at the office of the New York Guaranty & Indemnity Company, or at the office of the Territorial Treasurer, at the option of the purchaser. These bonds are issued in pursuance of an act of the Legislative Assembly of the Territory of Arizona entitled: "An act for the relief of Gila County, and authorizing the Territorial Treasurer to exchange Territorial funding bonds for certain warrants." The faith and credit of the Territory is pledged for the redemption of the securities should the county fail to fulfil its obligations.

Grand Junction, Colo.—*Bond Sale.*—Mayor M. L. Allison reports to the CHRONICLE that water bonds to the amount of $200,000 have been taken by the Colorado Fuel & Iron Co., of Denver, to whom the contract for the construction of a water works system has been awarded.

Gravesend, N. Y.—*Bond News.*—An effort will be made to get a bill through the next Legislature, making the city of

Brooklyn responsible for a large part of the old town debt of Gravesend.

Hamilton County, Tenn.—*Bonds Proposed.*—Bonds of this county to the amount of $25,000 are under consideration.

Harrisburg Pa.—*Bonds Proposed.*—Refunding bonds to the amount of $70,000 will probably be issued.

Harrisville, W. Va.—*Bonds Proposed.*—The citizens of this municipality have voted in favor of issuing $10,000 of bonds.

Highlands, Col.—*Bond Offering.*—Proposals will be received until to-day for the purchase of $40,000 of 5 per cent viaduct bonds.

Hogansville, Ga.—*Bonds Authorized.*—Bonds of this town have been authorized.

Houston, Tex.—*Bond Offering.*—On December 18, 1895, the Mayor and Finance Committee of Houston, Tex., will offer at public sale $100,000 of 5 per cent street paving gold bonds. Interest will be payable semi-annually and the bonds will mature in 40 years from date of issue. Both principal and interest will be payable at the Union Trust Company, New York City. The successful bidder will be required to deposit a certified check for $2,500, made payable to the order of John T. Browne, Mayor. Sealed bids may be submitted to be opened in public at noon on the day of sale. The securities have been duly approved by the Attorney-General of Texas, and are issued in strict conformity with the charter of the City of Houston and the Constitution and laws of the State of Texas.

The Mayor's official advertisement will be found elsewhere in this Department.

Humestone, Iowa.—*Bonds Voted.*—It is reported that jail bonds for $25,000 have been authorized by popular vote.

Lincoln, Neb.—*Bonds Postponed.*—City Clerk E. B. Stephenson reports to the CHRONICLE that the $534,500 of Lincoln funding bonds recently authorized will not be offered for sale for some time.

Lynchburg, Va.—*Bond Offering.*—Proposals will be received until December 9, 1895, by N. C. Manson, Jr., Chairman of Finance Committee, for the purchase of $10,000 of 5 per cent coupon bonds. The securities will be dated January, 1896, and will run thirty-four years. Bids are asked for the loan to be exempt from taxation by the city, also to be subject to taxation.

Mackey, Iowa.—*Bonds Authorized.*—It is reported that water-works bonds of this city to the amount of $10,000 will be issued.

Magoffin County, Ky.—*Bond Offering.*—Proposals will be received for the purchase of $13,500 of 6 per cent 5-20 year county bonds.

Malvern, Ohio.—*Bonds Authorized.*—It is reported that electric-light bonds of this municipality will be issued.

Mansfield, Ohio—*Bond Offering*—Proposals will be received until December 23, 1895, by F. M. Remy, City Clerk, for the purchase of $6,000 of 6 per cent 1 to 5 year street improvement bonds.

McKeesport, Pa.—*Bonds Authorized.*—A loan of $20,000 has been authorized for water purposes.

Bonds Proposed.—Water bonds for $25,000 will be issued for the purpose of establishing a drivewell system.

Melrose, Mass.—*Bonds Proposed.*—This town will petition the Legislature for authority to issue $50,000 of sewer extension bonds.

Milwaukee, Wis.—*Bonds Proposed.*—Milwaukee City bonds to the amount of $75,000 for bridge construction are under consideration, and school bonds to the amount of $200,000 will probably be issued.

Morristown, N. J.—*Bonds Authorized.*—Bonds of this town have been authorized for public road repairs and for the erection of a building.

Narberth, Pa.—*Bond Offering.*—Proposals will be received by A. P. Redifer, Town Clerk, for the purchase of $12,500 of improvement bonds, the loan to bear interest at the rate of 4 per cent.

Natick, Mass—*Bond Sale.*—It is reported that nine bids were received on Nov. 30 for the $25,000 of 4 per cent sewerage bonds offered for sale. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1925. Both principal and interest will be payable at Boston.

New York City.—*Bond Offering.*—Proposals will be received until December 10, 1895, by Ashbel P. Fitch, Comptroller, for the purchase of $47,000 of 3 per cent gold stock of the City of New York. Interest will be payable semi-annually on May 1 and November 1 and the principal will mature November 1, 1914. The securities are exempt from city and county tax, but not from State taxation, and are issued for the procuring of new grounds and the erection thereon of buildings for the use of the College of the City of New York.

Orange, Conn.—*Bond Offering.*—Proposals will be received until Dec. 16, 1895, by the Selectmen at the Town Hall, West Haven, Conn., for the purchase of $100,000 of 4 per cent registered gold funding bonds. The securities will be dated Jan. 1, 1896, interest will be payable semi-annually on Jan. 1 and July 1 at National Tradesmen's Bank of New Haven, and the principal will mature Jan. 1, 1916.

The assessed valuation of the town of Orange is $2,532,756, actual value being estimated at $5,000,000. Orange has at present no bonded debt but the floating debt represented by town notes amounts to $104,850 97. The town's population in 1890 was 4,537 and is now estimated between 5,000 and 6,000. The Borough of West Haven, one of the largest suburbs of the City of New Haven, is a part of the town of Orange.

Owensboro, Ky.—*Bonds Authorized.*—Bonds of this city have been voted for electric lights, sewers, etc.

Pottsville, Pa.—*Bond Sale.*—Pottsville has sold $30,000 of school bonds to local bidders, prices ranging from 102 to 102⅛. Interest at the rate of 4 per cent will be payable semi-annually and the bonds are to be redeemed at any time after Dec. 1, 1889, at the option of the School Board. A special tax of one-half mill will be levied to pay interest and taxes on the loan, the residue to be applied to a sinking fund for the payment of the bonds.

Reading School District, Pa.—*Bond Offering.*—It is reported that bids will be received until December 26 for the purchase of $65,000 of 5 per cent 1 to 6 year bonds.

Rutland, N. Y.—*Bonds Proposed.*—Bonds to the amount of $13,000 will probably be issued.

San Antonio, Tex.—*Bonds Proposed.*—The Attorney-General of Texas has been asked for his approval on an issue of San Antonio refunding bonds to the amount of $42,000.

Sanford, Fla.—*Bond Offering.*—Proposals will be received until Jan. 28, 1896, for the purchase of $45,000 6 per cent bonds.

Sauk Rapids, Minn—*Bonds Authorized.*—The citizens of Sauk Rapids have voted to issue bonds for $25,000 for the purpose of building a dam across the Mississippi.

Smithville, Tex.—*Bonds Approved.*—The Texas Attorney-General has approved of Smithville school bonds to the amount of $6,500.

Spokane, Wash.—*Bonds Proposed.*—Two to twenty year funding bonds of this city to the amount of $315,000 are under consideration.

Springwells School District No. 2, Mich.—*Bond Sale.*—Six per cent 10-year bonds of this district to the amount of $12,000 have been sold for $12,500.

Tampa, Fla.—*Bond Election.*—It is reported that the people of Tampa will vote December 27 on issuing $300,000 of bonds for street improvements.

Texas.—*Warrant Call.*—State Treasurer W. B. Wortham has issued a call for Texas warrants to the amount of $30,000. The numbers of the called warrants run up to and include No. 7,000.

Toledo, Ohio—*Bond Offering.*—It is reported that bids will be received until December 10, 1895, by M. S. Wright, City Auditor, for the purchase of $7,084 of 5 per cent 1 to 5 year street improvement bonds, and until December 11, 1895, for the purchase of $10,000 4½ per cent 20-year general improvement bonds.

Bonds Authorized.—It is reported that bonds of Toledo to the amount of $30,600 have been authorized, $9,600 of the amount to be issued for street improvements and $10,000 to refund university bonds past due.

Trenton, Mich.—*Bonds Authorized.*—The people of Trenton voted December 2 in favor of issuing $10,000 of water-works bonds.

Ukiah, Calif.—*Bonds Authorized.*—Sewerage bonds to the amount of $25,000 have been voted.

Washington.—*State Warrants.*—A question as to whether or not the State Capitol Commission has the authority to issue warrants for $930,000 is being discussed by the Washington State officials.

Wayne, Mich.—*Bonds Authorized.*—A vote taken on issuing $15,000 of water-works bonds resulted in favor of the proposition.

Westwood, Ohio.—*Bond Offering.*—It is reported that bids will be received until Dec. 26 for the purchase of 6 per cent sidewalk bonds.

Wilson, N. C.—*Bonds Authorized.*—An election held November 25 on issuing $17,000 of sewerage bonds resulted in favor of the proposition.

Winona, Minn.—*Bond Sale.*—On November 29th $18,000 of 4½ per cent Winona school bonds were awarded to Messrs. N. W. Harris & Co. on their bid of $18,849 60. The securities will be dated November 20, 1895, interest will be payable semi annually on May 20 and November 20, and the principal will mature at the rate of $5,000 yearly from November 20, 1910, to November 20, 1912, and $3,000 November 29, 1913, both principal and interest to be payable at the office of the City Treasurer.

Other bids for the loan were as follows:

S. A. Kean, Chicago, $17,640.
Deposit Bank Winona, $18,050 and furnish the blank bonds.
W. J Hayes & Sons, Cleveland, Ohio, $18,528.
Farson, Leach & Co., Chicago, $18,435 60.
Mason, Lewis & Co., Chicago, $18,402.
James W. Longstreet & Co., Boston, $18,120 60.
First National Bank of Winona, $18,500.
Dietz, Denison & Pryor, Cleveland, Ohio, $18,360.

Worth County, Ga.—*Bond Election.*—The citizens of this county will vote Dec. 10 on issuing court-house bonds to the amount of $20,000.

Yonkers, N. Y.—*Bonds Authorized.*—It is reported that an ordinance providing for the issuance of $16,500 of street and sewer bonds has been passed by the Council.

Youngstown, Ohio.—*Bond Offering.*—Proposals will be received until Dec. 23, 1895, by City Clerk J. Howard Edwards for the purchase of $5,000 of 5 per cent sidewalk bonds. Interest on the securities will be payable semi-annually at the office of the City Treasurer and the principal will mature at the rate of $1,000 yearly from Oct. 1, 1897, to Oct. 1, 1901, both inclusive.

STATE AND CITY DEBT CHANGES.

		subject to call after	May 1, 1899

INTEREST and principal of the above bonds are payable at the Chemical National Bank in New York.

TOTAL DEBT.—The following shows the State's bonded debt floating debt and sinking fund on the dates named:

	Nov. 1, '95.	Jan. 1, '94.	Nov. 1, '90
Bonded debt	$815,807	$795,807	$689,807
Floating debt	130,000	.....	.....
Sinking fund	20,000	.....	.....

ASSESSED VALUATION.—The State's assessed valuation (about ½ half actual value, has been as follows:

Years.	Real Estate.	Personal Property.	Total Ass. Valuation.
1895	$69,696,738	$25,785,584	$94,792,322
1894	.....	.....	87,630,353
1893	.....	.....	82,351,987
1892	.....	.....	80,805,087
1891	.....	.....	88,189,673
1890	65,181,177	23,021,867	88,203,044
1889	.....	.....	66,857,436

The State tax rate per $1,000 in 1893, 1894 and 1895 was $4·50.

Tacoma, Wash.—Edward S. Orr, Mayor. This statement has been corrected to March 1, 1895, by means of a special report to the CHRONICLE from E. V. Benham, City Comptroller.

Tacoma is the county seat of Pierce County.

LOANS—	When Due.	FUNDING BONDS—	
BRIDGE BONDS—		6g., A&O, $350,000, g.	Apr. 15, 1911
5g., J&D, $100,000, g.	June 1, 1913	WATER AND LIGHT BONDS—	
CITY HALL BONDS—		5g., J&D, $2,080,000, g.	J'ne 1, 1913
6g., A&O, $200,000, g.	Apr. 15, 1911		

PAR VALUE.—Bonds are for $1,000 each.

INTEREST on the City Hall and funding bonds is payable at the office of the Mercantile Trust Company, New York; on other bonds at the National Union Bank, New York.

TOTAL DEBT.—The following statement shows Tacoma's total bonded debt, the floating debt, the sinking funds held by the city, and the net debt, on each of the dates indicated:

	Nov. 1, '95.	Mar. 1, '95.	Nov. 1, '93.
Bonded debt	$2,730,000	$2,730,000	$2,630,000
Floating debt	902,622	1,162,065	*440,314
Total debt	$3,632,622	$3,892,065	$3,070,314
Sinking fund assets	21,404	21,404	21,405
Net debt	$3,611,218	$3,870,661	$3,048,909
Water debt (included in total)	$2,080,000	$2,142,267	$2,080,000

* Less uncollected taxes.

ASSESSED VALUATION.—The city's assessed valuation (about 60 per cent of actual value) and tax rate have been as follows in the years named:

	Assessed Valuation.			City Tax
Years.	Real.	Personal.	Total.	Per $1,000
1896	$24,052,086	$2,453,145	$26,505,231	$11 00
1895	22,849,490	3,603,322	26,452,812	13 50
1894	36,603,986	.....	.....	5 00
1893	37,553,445	4,070,030	41,623,475	10 00
1892	39,955,293	4,945,162	44,900,455	12 00
1891	.....	.....	32,218,944	11 50

The total tax rate for 1895-96 is $30 70 per $1,000, and includes State tax, $6 25; county tax, $7 85; city tax proper, $11 00, and school tax, $5 60.

POPULATION.—The population in 1890 was 63,006; in 1880 it was 1,098. According to local estimate the population for 1895 is 52,000.

1850. 1895.

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the one great secret of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, December 14, have been $1,122,522,521 against $1,024,230,420 last week and $1,024,230,420 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending December 14. 1895.	1894.	Per Cent.
New York	$588,727,684	$483,189,826	+ 9·0
Boston	82,621,508	77,808,736	+ 6·2
Philadelphia	52,015,051	50,570,104	+2·6
Baltimore	11,500,674	11,324,634	+ 1·6
Chicago	82,190,712	77,601,151	+ 5·9
St. Louis	23,487,420	20,256,034	+15·8
New Orleans	11,890,570	10,585,316	+11·6
Seven cities, 5 days	$777,572,619	$711,374,825	+ 9·3
Other cities, 5 days	157,091,724	138,051,723	+15·4
Total all cities, 5 days	$934,834,343	$847,426,548	+10·3
All cities, 1 day	188,167,978	176,803,872	+ 6·4
Total all cities for week	$1,122,522,521	$1,024,230,420	+ 9·6

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, December 7, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of about two hundred and ninety-three million dollars, but at New York alone the gain is one hundred and seventy-four millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 9·9 per cent. Compared with the week of 1893 the current returns record an excess of 23·1 per cent and the loss from 1892 is 8·7 per cent. Outside of New York the gain over 1894 is 6·4 per cent. The excess over 1893 reaches 17·3 per cent, and making comparison with 1892 the loss is seen to be 2·9 per cent.

Clearings at—	Week ending December 7. 1895.	1894.	1895. P. Cent.	1893.	1892.

THE FINANCIAL SITUATION.

It is the Denver Railroad this week that registers the current industrial progress. Last week it was the North West. A little while ago all the announcements were of dividends suspended. Now they have begun to be of dividends resumed. Some, who seldom seem to hear favorable news and discredit most any reports except of a funereal nature, say this is all the result of the big corn crop we have raised, and that the influence of that will soon be on the wane, as prices of corn are so low there is no money in it for the farmer. It happens that neither statement is true; the crop does not begin to move in any volume until January, and is an important feature for a whole twelve months. Besides, these steps are taken by the roads named because of results already secured—they are evidence of fruition not hope. They tell us that agricultural classes have at least surplus enough to buy goods and that railroads are carrying them. Another prominent event and of an opposite character, in a very different department of investments, has been the substantial collapse in the American Tobacco stock, said to be on news made public last Saturday of a decision to pass the February dividend. This action is no indication of the state of general business, but probably was in great part due to wasteful management, especially to a wasteful fight, which has been so long and bitterly carried on and ought long ago to have been settled. The development no doubt has had considerable influence through the week on Stock Exchange values and especially has had a tendency to discourage holders of all industrials.

Some features in the bank returns and in the Treasury gold holdings are worthy of attention. Comparing the bank statement of November 9 and December 7, in which interval $17,660,000 gold was withdrawn from the Treasury and exported—$16,660,000 for England and $1,000,000 for South America—there was a gain by the associated banks of $2,952,600 gold. Presumably none of this came from the Treasury, since the net gold reported by the Government on November 9 was $92,766,674 and on December 7 it was $79,014,741, or nearly 4 million dollars more than it would be if all the withdrawals were deducted. This better Treasury condition than the withdrawals called for is probably explained by the fact that the date of the report of Dec. 7 does not include Friday's movement December 6, when there was $2,400,000 gold withdrawn, and also does not allow for the deposit of gold for legal tenders in the Sub-Treasury by individuals and banks. It shows, nevertheless, a very important feature, and that is how entirely the distrust in our currency on the present occasion is confined to Europe and what absolute confidence our people feel in the ability and determination of the Administration to keep our two kinds of dollars convertible. Not only are none of our financial institutions drawing out gold, but the people and banks are actually depositing it in small amounts.

It may be asked, where did the banks' additional gold holdings come from? That is accounted for by the fact that the Clearing-House institutions have been for some time accumulating gold in the form of Assay Office receipts. These receipts are cashed for the bullion dealer through whose hands the domestic gold bullion passes. Another feature of the bank returns has excited remark, and that is the recent gains in the currency they report in the face of the large withdrawals of legal tenders for exchange for gold required for export. Indeed, while the gold exports above mentioned have been in progress (from Nov. 9 to Dec. 7) the aggregate loss of legal tenders has only been $3,480,700. The reason which the banks assign for this small loss is that at this season of the year the retail merchants of this city and also of Brooklyn and Jersey City collect in their dealings larger amounts of currency than the ordinary, and these are deposited in our banks either directly or through the local banks and so augment the currency holdings of the Clearing-House institutions. Usually the withdrawals of currency in a week over the counter about average the deposits, and our interior movement is made up on that basis. Recently, and in the manner stated, the deposits are said to have exceeded the withdrawals, and hence our interior movement has failed to show correctly the changes in currency which have taken place.

As noted above, the Denver & Rio Grande has determined to resume the payment of dividends on its preferred stock, having this week declared a dividend of one per cent, payable January 15. The Denver is a very conservatively managed property, and was the first to stop the payment of dividends in 1893 when the outlook for the Colorado silver-mining industry was so greatly changed by the decline in the price of the metal under the important events of that year. The record of the road since then has been a notable one. In the year ending June 30 1894 the gross earnings, as the result of the depression in silver mining and the panic, fell off over 30 per cent and net earnings nearly 40 per cent, and yet notwithstanding this tremendous reduction in receipts—gross having dropped from $9,317,647 to $6,476,044, and net from $4,035,562 to $2,503,493—the company, according to its report for that year, was able to show all its fixed charges earned, with a small surplus left over. In the year ending June 30 1895 affairs began to improve again, and it was demonstrated that Colorado was not so exclusively dependent upon silver mining as had been generally supposed. The result was that some portion of the previous year's very large loss was recovered, and consequently for that period of twelve months the company found it possible to report a surplus of $528,690 above the charges. In the current year thus far there has been further improvement, and for the four months to October 31, as shown by us in our earnings department last week, there was a surplus above the charges for that period in amount of $446,425, against a similar surplus in the corresponding four months of 1894 of only $259,619. Moreover, the general revival of trade, and the special activity in gold mining which has latterly developed in Colorado, give promise of continued betterment for some time to come. It will be remembered that the management were sharply criticised when they suspended dividends in 1893. Subsequent events amply justified their course, and indeed showed that they had possessed rare foresight. They are not likely to be criticised for having resumed dividends when the returns show so clearly that dividends are being earned. Of course the action of the Board also indicates that in their judgment there is a reasonable prospect that some payment on the preferred shares can now be made as a regular thing, which to the stockholders will be the most welcome part of the announcement. To guard against misapprehension, however, it is proper to observe that the company's advertisement does not speak of the dividend as a "quarterly" dividend.

The somewhat quieter conditions ruling in the iron and steel trades are reflected in the monthly statement of pig iron production issued this week by the "Iron Age." It will be remembered that on the 1st of October the weekly product for the first time reached 200,000 tons, the "Age" reporting 232 furnaces in blast with a weekly capacity of 201,414 tons; that on the 1st of November there was a further increase to 239 furnaces with a capacity of 217,306 tons, and that the "Age" then thought that there would be some further small additions, bringing the total up to about 220,000 tons as the maximum. The statement now issued for December 1 shows that there was an increase in the number of furnaces in operation from 239 to 242, but that the aggregate capacity of the larger number of furnaces on December 1 was slightly less than the smaller number on November 1, the figures being 216,797 tons, against 217,306 tons. This indicates that the furnaces that went out of blast during the month had a larger aggregate capacity than those that started work. At the same time we notice that there was also during the month a trifling increase in the total of stocks on hand, sold and unsold. Previously these stocks had been steadily drawn down for a great many months, in face of the constantly expanding output; the increase now is from 396,669 tons on November 1 to 404,395 tons on December 1. The change in both this case and in that of the weekly product is really insignificant, and indicates nothing except that the weakening in prices has had the effect of checking further expansion. The product still remains extraordinarily large, being at the rate of over 11 million tons a year, while the stocks remain exceptionally small. As a matter of fact the lower prices and the check on the output are alike healthy signs, for it looked at one time, as if the "boom" in the trade was going to reach dimensions which must prove seriously hurtful to all business interests. Unless the currency situation through Congressional neglect gives our industries a set-back, the demand for iron is certain to remain large for a long time.

The political situation in Europe improved after Tuesday, when it was announced that the Sultan had decided to issue firmans for additional guardships in the Bosphorus. Later it was stated that the Ambassadors of the Powers would not immediately take advantage of the permission, but on Thursday the English gunboat Dryad and the Italian gunboat Archimede passed the Straits of the Dardanelles, owing as stated to a disturbance at Stamboul. This news appeared to have no unfavorable influence upon the European markets, and the depression on that day was due almost wholly to the preparations for the semi-monthly settlement in London, accompanied by reports of serious difficulty in obtaining laborers in the Transvaal mines; and also by selling of mining stocks for account of speculators in Paris, where it was reported a large bull line had been closed.

Money on call, representing bankers' balances, has loaned this week at the Stock Exchange at 1½ and at 2½ per cent, with the average and the bulk of the business at 2 per cent. Banks and trust companies report a good demand for money on call, and the feature in many cases is that the borrower seeks the lender, and the loans over the counter have been comparatively large with some of the down-town banks at 2½ per cent. The inquiry for time contracts is reported as small, but lenders maintain full rates, which are 2½ per cent for thirty days, 3 per cent for sixty to ninety days, 3½ per cent for four to five and 4@4½ per cent for six to seven months on good marketable collateral. The demand for commercial paper is irregular, some banks buying freely of such names as are offered, while others are indisposed to take any but the choicest. Some exceptionally fine Eastern mill paper is being placed here, and it is reported that bankers in Eastern cities have taken considerable paper out of this market. The supply of first-class names is small, and quotations are 4@4½ per cent for sixty to ninety day endorsed bills receivable, 4½@5 per cent for four months' commission house and prime four months' single names, 4½@5½ per cent for prime six months' and 6 and above for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety-day bank bills in London ⅞@⅞ of 1 per cent. The open market rate at Paris is 1⅞ per cent and at Berlin and Frankfort it is 3½ per cent. According to our special cable from London the Bank of England gained £385,816 bullion during the week and held at the close of the week £44,724,581. Our correspondent further advises us that the gain was due to the import of £719,000—of which £711,000 was bought in the open market (American coin) and £8,000 came from France—to the shipment of £270,000 (of which £200,000 was sent to the Cape, £31,000 to Roumania and £39,000 miscellaneous) and to £63,000 sent to the interior of Great Britain.

The foreign exchange market has been easier this week, influenced by a lighter demand for remittance and by a little better supply of bills, chiefly drawn against cotton; there have also been some drafts against scattering lots of securities placed abroad. The market has been dull, as is usual in this month, and the inquiry for mercantile remittance has been quite light. On Monday Heidelbach, Ickelheimer & Co. reduced the short rate for sterling to 4 89½, and the market was easy, with rates for actual business 4 87¾@4 88 for sixty day; 4 88¾@4 89 for sight and 4 89@4 89¼ for cable transfers, these figures being one quarter of a cent lower for short and cables than the closing rates on Friday of last week. On Tuesday Brown Bros. reduced the rate for long sterling to 4 88½ and for short to 4 89½, but no change was made by the other drawers and the market was reported dull and steady. The tone on Wednesday was slightly easier, though not quotably lower, and in the afternoon of that day it was announced that L. von Hoffmann & Co. would ship $1,000,000 in gold bars to Germany by the steamer sailing on the following day. It was reported that this export was on special order, but it was also said that the shipment was largely due to the fact that discounts in Berlin were high and that exchange at that point on London was at a rate which would draw gold from that centre. The market was still easier on Thursday, when rates for actual business were reduced to 4 87½@4 87¾ for long, 4 88½@4 88¾ for short and 4 88¾@4 89 for cable transfers. There is some difference of opinion as to whether gold can be shipped at a profit at these figures. It is claimed, and no doubt truly, that gold bars at 1-16 of 1 per cent premium will yield much better returns than an average quality of gold coin, and that as bars can be procured, the gold exporting point has been practically lowered some say from one-quarter to one-half of a cent per

pound sterling. The Berlin cable on Thursday reported money becoming dearer and that there was a possibility of gold coming from London or America. The inference from this is that more gold was expected from New York, and there may be some truth in the rumor current here that orders for a larger amount of gold for Germany are expected to be placed for next week. The only shipment of gold this week has been the $1,000,000 withdrawn on Wednesday by L. von Hoffman & Co. It was announced this week that there was an export of $500,000 gold coin to South America by Müller, Schall & Co. on last Saturday, which, however, was not taken from the Sub-Treasury. The market yesterday closed easier on the offering of some gold bills against shipments of gold to be made next week. The following table shows the daily posted rates for exchange by the leading drawers.

		Fri., Dec. 6.	Mon., Dec. 9.	Tues., Dec. 10.	Wed., Dec. 11.	Thurs., Dec. 12.	Fri., Dec. 13.

The market closed easy on Friday at 4 88½ for sixty day and 4 89½@4 90 for sight. Rates for actual business were 4 87½@4 87¾ for long, 4 88½@4 88¾ for short and 4 88¾@4 89 for cable transfers. Prime commercial bills were 4 87@4 87½ and documentary 4 86½@4 86¾.

When the Norfolk & Western was placed in the hands of receivers early in the year the company's monthly statements of net earnings were discontinued; the weekly returns of gross earnings have been issued the same as before. This week the company has furnished a report of the gross and net earnings for October and the ten months to October 31. For October gross is $971,595, against $967,570, and net $207,173, against $260,140; while for the ten months gross is $7,828,733, against $8,552,510, and net $1,708,048, against $2,216,709. The Southern Pacific (including the affiliated lines) reports for October $92,291 decrease in gross and $14,094 increase in net. The Alabama Great Southern for the same month has gross of $173,177 against $156,003, and net of $71,572 against $61,900; the Union Pacific Denver & Gulf gross of $332,813 against $296,752, and net of $124,178 against $90,867; the Minneapolis & St. Louis gross of $245,797 against $220,205, and net of $123,339 against $119,198; the Mexican National gross of $424,338 against $406,872, and net of $211,456 against $190,618; the Louisville New Albany & Chicago gross of $317,950 against $292,528, and net of $121,455 against $109,138, and the Buffalo Rochester & Pittsburg gross of $237,687 against $284,774, and net of $30,945 against $105,388.

Name of road—		October Earnings. 1895.	1894.	1893.	1892.
		$	$	$	$
Buffalo Roch. & Pitts	Gross	237,687	284,774	276,183	309,322

Southern Pacific	Gross	4,839,935	4,693,208	4,711,760	4,860,951
	Net	2,100,266	1,8 6,771	2,173,046	2,146,969

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Dec. 18, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	5,254,000	$2,987,000	Gain $2,267,000
Gold	342,000	324,000	Gain. 18,000
Total gold and legal tenders	$5,596,000	$3,311,000	Gain. $2,285,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending Dec. 13, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$5,596,000	$3,311,000	Gain. $2,285,000
Sub-Treas. oper. and gold exports.	13,400,000	17,250,000	Loss. 3,850,000
Total gold and legal tenders	$18,996,000	$20,561,000	Loss. 1,565,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	December 12, 1895. Gold.	Silver.	Total.	December 13, 1894. Gold.	Silver.	Total.
	£	£	£	£	£	£

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

Note.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

THE REAL NEED.

There is danger that the public and Congress may lose sight of the real need of the country in the movement to effect a cure of the present currency crisis. We express this fear because so much stress seems to be laid on the necessity of enlarging the Government revenue and because so many seem to think that act would sufficiently relieve, if not correct, the financial derangement. Our legislators—those on whom our people are wont to depend—confess they have made mistakes in the past; that palliatives and compromises, which were tried with hope, have failed; they have so far confessed this as to have reversed their action in the most important instance and repealed the 1890 silver-purchase law. Do not then let us run into any mistake in this case. Let the 1893 action be followed up by similar heroic legislation, and from that moment the advance of this country will surpass the expectations of the most sanguine.

There are three facts which can be easily established. One is that it is very doubtful whether the Government really needs any more revenue. Another is that even if legislation of that character could be attained, it can only be after a long, uncertain and extremely disturbing struggle between the believers in the two opposite economic theories of revenue, while business interests are suffering from the lack of prompt relief. And finally, even if the attempt is successful and abundant revenue is gained, our industries will have secured not at all a cure but merely a very partial palliative. Let us study these matters and see if the positions taken are not all correct.

With reference to additional revenue we claim, as we did on the 9th of November (Chronicle, Nov. 9, 1895, page 811, etc.), and several times before, that it is not required, but if it could be obtained without too much delay or discussion would be desirable. It may be considered desirable because as yet the receipts

have not equaled the disbursements. Still it is far from having been proved to be an essential; in truth, the present promise is that before the current fiscal year is ended the revenue will be all sufficient unless the renewed business activity should be allowed to peter out through neglect of Congress to correct our currency dislocation. We do not mean to belittle the good effects of a surplus. If ever so small it would be a source of strength, while a deficit so long as it lasts is obviously a source of weakness. Its strength, however, so far as the currency is concerned, lies mainly in the fact that a surplus would in its full extent allow an accumulation of the legal tenders in the Treasury. In other words, it would allow the Government to contract the currency under the authority of a statute which in substance enjoins the President to protect the gold reserve.

It is so important to understand what is the exact and limited nature of the assumed benefit the currency can receive from more taxation that a few additional words in explanation are manifestly desirable. We have seen that its service would be merely temporary, and as long as its usefulness continued it would act solely in the direct line of the permanent remedy the President has proposed. The contraction or withdrawal of the currency it would effect would exist only when the Government collected outstanding legal tenders by means of its surplus income, and saw fit to retain in its vaults the portion of them thus included in its receipts. The method of operation would be simply (1) through a withdrawal, and consequent scarcity of such notes, until the contraction had gone far enough to have left the amount in circulation so small as to be insufficient to supply demands for legal tenders to present to the Treasury in exchange for gold, and (2) through the higher rates of interest which this scarcity would cause, and the consequent flow of foreign capital to New York which these higher rates would tend to set in motion. But the legal tenders though withdrawn and withheld from circulation would exist all the time, and be in sight piled up in the Treasury, and constantly liable to be let out at the will of any Secretary so disposed. This could be done, if in no other way, by a call of bonds for redemption, as the gold surplus was so unwisely dissipated by Mr. Carlisle's predecessor. For these reasons we repeat that a surplus revenue as a cure for the currency dislocation would be merely a temporary expedient and at best of restricted benefit.

Moreover, as already stated, it is doubtful whether any more revenue is really needed; that is, whether the existing taxes will not soon prove to be sufficient. For the moment there is a deficit to about the extent of the interest payments, and it is likely to continue, though decreasing in amount; probably through this fiscal year it will not be turned into a permanent surplus. But the facts show that the receipts of the two chief departments of taxation are making good progress towards that end, and before legislation could be perfected it is not unreasonable to assume that the need for further objects of taxation will be gone. It will be of service to study the Customs and Internal Revenue figures faithfully and critically to see if the results of past years and the existing tendency towards expansion, taken in connection with the changes made by the legislation of the last Congress, do not promise such a result. Below we give a brief compilation of these two departments of revenue for each month during the last four years.

*11 months.

The foregoing affords the opportunity of having in view the development that has already been disclosed and of reaching a fair estimate of what will be the extreme productiveness of the Customs duties and internal receipts as the laws now stand. We shall not explain them at any length for we have done that so many times; besides we think that the naked figures as they stand enforce the truth too plainly to need any lengthy interpretation.

What can one want better as an index to the prospective yield of current internal revenue taxes—that is, the yield when a corresponding degree of business activity prevails—than the productiveness of the internal revenue taxes under the McKinley bill with twenty cents per gallon added to the whiskey tax? We can see no objection to that test. The two laws in their internal revenue features are substantially the same except for the additional duty on whiskey. It will be seen above that the internal revenue receipts in 1892 were $161,628,000; if we add twenty cents a gallon to the whiskey withdrawn that year, the receipts would be increased nearly 3 million dollars a month or 24 million dollars a year, making the total internal revenue receipts 185½ million dollars. Or take the average of the yield of the internal taxes for the four years from 1890 to 1893 inclusive; that average is $151,896,000, which, reinforced by the 24 million dollars of new taxation, the indicated average yield for the coming four years, would bring the yield nearly up to 176 million dollars; that is provided business continues to develop. Can there be any more revenue wanted than we have the promise of here in this single department of Federal taxation?

For a moment consider similarly the Customs receipts. To do that most intelligently we shall have to introduce another brief compilation. Of course no one knows accurately what percentage of Customs revenue the present tariff duties will produce, calculated on the total imports. The only actual guide is the imports and Customs receipts for the months of this year while the new law has been in force. We give below the results obtained in this manner and the results also in 1892 obtained in the same manner.

	Imports Merchandise. 1895. $	*Customs Receipts.* 1895. $	*Av. rate of duty.* 1895. *per cent.*	*Imports Merchdise.* 1892. $	*Customs Receipts.* 1892. $	*Av. rate of duty.* 1892. *per cent.*

Nov	.....	.....	.....	67,699,040	14,269,000	·2108
Dec.....	.....	.....	.....	65,126,356	16,308,000	·2504
Total....	.....	.....	.....	840,930,955	191,360,000	·2275

This method is of course a rough way of reaching the result we seek. And yet we notice that the Government in its annual reports gives the average percentage

collected on the imports (dutiable and free) at 23·49 per cent for the fiscal year 1893 and 21·26 for the fiscal year 1892, against our result of 22·75 per cent for the calendar year of 1892. It will be observed that we make the average percentage for the 10 months of 1895 for which we have returns 20·98. This average is probably less than it will be another year. That seems likely from the fact that certain important dutiable articles have formed a smaller part of the total imports in 1895 than was the case a year ago. Imports of sugar for instance in the first nine months were about 30 per cent less in quantity than in 1894. Assuming, however, that in 1896 we shall have a call for imports as large as in 1892, and assuming that above p rcentage represents the percentage of imports that year as it has this year, the total revenue from Customs for 1896 would be 176½ million dollars.

But we have spent more time than was our purpose on this part of our subject. The analysis seemed desirable, for the facts and figures were required to make the conclusion clear that for the fiscal year of 1896 97 a surplus revenue might be anticipated under the law as it now stands. At the same time even were this not true the imposition of further taxes could in no sense be claimed as necessary inasmuch as the cash holdings of the Treasury are abundant to enable the Government to meet its obligations not only now but so long as the present administration shall be in office. It is not to-day a matter of solvency; it is the gold reserve that is threatened; it is the ability of the Government to keep the two kinds of dollars convertible that is questioned and is the source of anxiety. The net Treasury balance on the first of December was $77,406,387 over and above the 100 million dollars reserve. The presumption is it will not be less than 70 million dollars on the first of February and not below 60 million dollars on the 30th of June 1896. Hence we repeat that the reasonable conclusion is the present administration has money enough with its current income to meet all outgoes so long as it is in power. Besides that, if Congress does nothing to reconstruct our currency system, another bond sale or rather another purchase of gold to replenish the Treasury stock will shortly be made inevitable and that will further add to the balance.

The important thought is then that even should the Government's receipts from taxes under the present law or through new legislation become so abundant as to leave a monthly surplus, and the surplus be so managed by the Secretary as in some measure to relieve the currency situation as already described, the action would after all be nothing more than a temporary make-shift. Present distrust might for the time being be held in suspense and business revival progress in a hesitating, half-hearted way; but confidence would not be restored. There can be but one full and complete remedy, one road to absolute soundness, one method for freeing enterprise from existing restrictions and giving the energies of the people free rein, and that is through the withdrawal and cancellation of the legal tenders. The method suggested by the President of using the national banking law and its currency system to supply their place as far as needful is so unobjectionable and so in accord with the suggestions made by conservative men of both parties in and out of Congress in former years, that its adoption would appear to be a matter almost of form by any one earnestly seeking to relieve the country's embarrassment.

*A GOOD SOUND MONEY BOOK.**

We are so constantly receiving letters asking to be directed to some book containing the facts with relation to the various experiments of the United States in Government paper money and bank-note issues that we take special pleasure in referring to a very useful and convenient volume which Mr. Horace White, of the *Evening Post*, has recently prepared and published on "Money and Banking." It is convenient because, among other things, the text is so concise that the work has been kept within small compass instead of taking on the bulky form in which so many of the publications covering these subjects appear. At the same time it is more than ordinarily useful in that it deals chiefly with the monetary history of the United States for illustrating the defects and disturbing character of any but the best currency.

We would not be understood as indicating that the historical facts relating to gold and silver coinage in other countries are omitted. That is not the case. The book is divided into two parts. The first part opens with introductory chapters of a general character with reference to "real money." These seek to show the "evolution of money;" that is out of what conditions and by what stages systems of coinage grew. In this connection the author has brought together a great many interesting and instructive facts drawn from the early struggles of the United States; also the salient facts relating to the coinage in England, France, Germany, Holland, Austria and India, these latter being given quite fully and yet without unnecessary and tedious detail. So too in this part of the book mention is made of the three monetary conferences which have been held in Europe and at each of which the United States was represented; the record of the latest one, the Brussels conference, is more extended, its proceedings and the schemes brought before it being noticed at considerable length.

But in our view the most interesting portion of the work is the Second Part, on "Representative money." This may be regarded as most interesting because it bears a closer relation to the American want and throws special light on our present currency struggles. Even all the earlier part of the book teaches and illustrates by "concrete examples" the lessons which the concluding part distinctly and specifically applies to the United States. That is to say the author having collected in treating of "real money" all the light history briefly reviewed had to shed on the currency problem, here continues his plan by focusing what has been thus collected on our own recent experiments. His method is first a discussion of "fiat money" and after that of "Banks." To "fiat money" ten chapters are devoted; among these are included a chapter on "Colonial Paper Money;" another on the "Continental Money," or the money in use during the period of our Revolution; another "The Greenbacks;" another the "Confederate Currency;" another "Silver Dollars," etc. The facts in relation to banking are brought together and treated in the same comprehensive way, nineteen chapters being given to their exposition.

What Mr. White publishes is always readable. He does not know how to write in a dull way. He has, too, in this case made himself thoroughly familiar with his subject. One may not at times agree with

*Money and Banking Illustrated by American History; by Horace White. Boston, U. S. A., and London, Ginn & Company, Publishers.

his views or with his interpretation or application of facts. In a work on currency and banking that would hardly be possible, perhaps not desirable. He has certainly collected a mass of information, brought it together in an intelligent interesting and instructive way, and given it to the public in a very useful form. We are confident the book will supply a widely felt want.

RIGHT OF REDEMPTION AFTER FORECLOSURE.

With so many railroads in process of foreclosure, or actually foreclosed, the question of what are the rights of redemption of the junior security holders where the property is sold under foreclosure of an antecedent lien, is an important as well as an interesting one. The length of time allowed for redemption and the conditions under which redemption may be exercised are matters that depend upon the discretion of the judge having jurisdiction of the foreclosure, upon the statutory regulations of the State under whose laws a company may be organized and upon the provisions of the company's charter. But certain general principles govern in all cases, and these were prominently brought out in a recent decision of the United States Supreme Court.

The question came up in the case of Simmons vs. Burlington Cedar Rapids & Northern Railway Company, decided a few weeks ago, and which decision was noted by us at the time in our railroad news columns. As far as the case has attracted attention at all in public, it has been discussed merely in its bearing upon the company whose title to its property it was sought to upset. To that company the decision means the termination of a long period of litigation for which there never seemed any sound basis and which yet, because of the peculiar circumstances of the case, served to throw a cloud upon the status of the company.

In that regard the decision finally and effectually disposes of the questions at issue adverse to the complainants, and is a great triumph for the Burlington Cedar Rapids & Northern company. But some of the points raised in the suit were of much general importance, and in that sense the ruling of the Court possesses wide interest outside the circle of the parties directly involved. It seems desirable therefore not to rest with a mere statement of the result of the contest, but to consider it more at length and note the views of the Court on the broad general questions presented for its determination.

We have said that the circumstances of the case were peculiar. The Burlington Cedar Rapids & Northern took title to its property over nineteen years ago, having been organized as successor to the Burlington Cedar Rapids & Minnesota, sold in foreclosure June 22 1876. All the various interests were parties to the foreclosure suit, and the reorganization plan under which the property was bought in also made definite provision for each of these various interests. Seven years thereafter, on April 13 1883, certain holders of the income and equipment bonds of the old company who had until then remained inactive claimed the right of redemption of the property and began an action with that end in view against the new company. It does not seem difficult to divine what prompted this long-delayed step. In 1876 the road was undoubtedly and utterly bankrupt. In 1883 it had reached a considerable degree of prosperity. The bondholders referred to had discovered what they imagined was a flaw in the foreclosure decree entered October 1875. So long as the road was doing poorly there was obviously no inducement to contest the foreclosure and demand a right of redemption. But when earnings had very greatly increased and the property was beginning to show actual merit, there seemed a possibility that value could be given to the old income bonds by asserting an unfulfilled right of redemption. The Farmers' Loan & Trust Company, the trustee under the income and equipment mortgage, had resigned its functions, and hence the bondholders petitioned the District Judge of the United States for the Southern District of Iowa for the appointment of Charles E. Simmons as trustee, which petition was granted. The new trustee at once began suit, and in one way or another the matter has continued in the courts ever since until it has now been disposed of by the court of last resort.

Justice Shiras, who delivered the opinion of the Court, went into a discussion of these various unique features of the case. After stating that the record shows that all the parties to be affected by the decree were before the Court at the time of its issuance, and that it would naturally be the desire to have the foreclosure proceedings eventuate in such a way as to dispose of the questions raised in the several cases and to vest in the purchasers an unencumbered title to the property, he says that the pleadings and evidence establish that such a plan of sale was apparently pursued, and that it resulted in the organization of a new company, whose mortgage bonds and stock were distributed among the original bondholders upon terms satisfactory to all, including a number of those who likewise held bonds secured by the income mortgage. The sales were reported to the Court, and with the deeds in pursuance thereof were duly approved. The new company went into possession and management of the railroad and branches, and increased largely their value by important extensions. The bonds and stock of the new company, it is safe to presume, argues Justice Shiras, have gone largely into new hands. The possession and title of the company remained undisturbed and unchallenged until April 1883, a period of seven years, "when the petition of certain alleged bondholders under the income mortgage was filed, asking leave to file what is termed 'an amended and supplemental cross-bill in the nature of a bill of revivor and supplement, the avowed purpose of which is to have the title of the Burlington Cedar Rapids & Northern Railway Company declared subject to the lien of the income mortgage, to have the mortgage issued in pursuance of the plan of reorganization declared void as respects the main line, and to hold that company to account for the earnings during the period of its possession." The opinion well says that to constrain a court of equity to grant relief so apparently inconsistent with the previous proceedings, and so destructive of the rights of persons who have since become interested, the case presented should be clear and free from doubt.

Upon what then did the bondholders rest their claims that the proceedings should be reopened and they be allowed to redeem the property? One of their main contentions was that the decree of foreclosure did not contain an express provision calling upon the income bondholders to exercise or else forfeit their redemption right, and that the absence of such provision left them in possession of said redemption right; in brief, that as the decree of October 1875 contained

no declaration or recital that the trustee under the mortgage was barred of the equity of redemption, and that as no time was fixed for the trustee to redeem from the first mortgagees, the rights of the trustee and of the income bondholders were wholly unaffected by the decree and by the sales in accordance therewith. In other words, the novel proposition was advanced that in a decree which orders a sale of property to pay the first mortgage debt, an express order cutting off the equity of redemption of a junior mortgagee, although a party to the suit, is necessary to divest the latter of his lien and of his right of redemption.

The Court disposes of this contention in short order, saying it is unwilling to accept it as a sound statement of the law, or at all events to concede it as invariably true. "Where a junior mortgagee is a party defendant to a foreclosure bill in which, as in the present case, there is a prayer that he be decreed to redeem, and where the priority of the plaintiff's mortgage is found or conceded, and a sale is ordered in default of payment, declaring the right of the debtor to redeem to be forever barred, we do not deem a similar order as to right of redemption by the junior mortgagee to be substantially, or even formally, necessary. He has of course a right to redeem, but if he chooses not to assert such right, and stands by while the sale is made and confirmed, he must in equity be deemed to have waived his right." Reference is had to various cases where the Court has taken this position, among others to the case of Railroad Company vs. Fosdick, where Justice Matthews said that "in case the proceeding results finally in a sale of the mortgaged premises, the sale is made free from the equity of redemption of the mortgagee and all holders of junior incumbrances if made parties to the suit" * * * and "conveys a clear and absolute title as against all parties to the suit."

The other main point upon which the income bondholders undertook to rest their claim was that their rights were saved by the terms of the foreclosure decree. The decree contained the following: "And this decree is made subject to the rights of any intervening creditors now before this Court, and the claim of the Farmers' Loan & Trust Company in the income and equipment mortgage to any of the cars and machinery named in that mortgage is to be submitted to this Court in term time or vacation, as soon as counsel can agree on the facts in relation thereto." The bondholders also cited in support of their contention the language of a subsequent order of the Court on October 26 1876, in which after affirming the sales and conveyances it is said that the order "shall in no wise be taken to affect any claim, right, interest or lien upon or to the property sold and conveyed by said master's deeds, now pending in this Court, but that the said claims, rights, interests and liens are merely reserved, subject to future adjudication; and the said grantees in said deeds take the property hereby conveyed subject thereto."

To those familiar with the facts this part of the Court's order was perfectly clear and not at all open to misconstruction. There was a dispute as to whether the income and equipment mortgage or the main line mortgage had a prior lien on certain cars and engines, and the Court evidently intended to reserve that question for subsequent consideration. On this point, however, Justice Shiras, in his opinion, grants that the language is capable of quite a broad interpretation and says that "the construction sought to be put upon this language, namely that the Court thereby intended to make a future disposition of the claims of the income and equipment mortgage one of the terms of the sale, is an admissible one." But it is pointed out that the plaintiffs are deprived of the benefit of such a construction because of their failure to urge it "by timely action." "As we have seen, those interested under the income and equipment mortgage not only failed to embrace the opportunity afforded to redeem as against the first mortgagees, but suspended all action for a period of more than seven years. The condition of the record as it existed before the filing of the amended and supplemental cross-bill disclosed no intention to ask for a redemption, and even if the condition of the case prior to the sale and the terms of the decree left it a debatable matter whether the Court intended to bar any right of redemption on the part of the junior mortgage, we think the contemporaneous and subsequent conduct of those interested in that mortgage deprives them of any right, after so long a period, to demand the assistance of a court of equity as against the purchasers and those who may have become interested with them."

The opinion observes that the ruling here laid down has been often vindicated and applied by the Court and hardly needs to be re-enforced by arguments and citations. Justice Shiras quotes, however, from 2 Pom. Eq. Jur., §965, where it is said that "when a party with full knowledge, or at least with sufficient notice or means of knowledge of his rights, and of all the material facts, freely does what amounts to a recognition of the transaction as existing, or acts in a manner inconsistent with its repudiation, or lies by for a considerable time and knowingly permits the other party to deal with the subject matter under the belief that the transaction has been recognized, or freely abstains for a considerable length of time from impeaching it, so that the other party is thereby reasonably induced to suppose that it is recognized, there is acquiescence, and the transaction, although originally impeachable, becomes unimpeachable in equity. Even where there has been no act nor language properly amounting to an acquiescence, a mere delay, a suffering time to elapse unreasonably, may of itself be a reason why courts of equity refuse to exercise their jurisdiction."

All this seems elementary enough. But in disregard of it the lower court actually decided in favor of the income bondholders, and for a period of ten years or more the title derived under a conclusive and perfectly valid foreclosure has been left in a position of doubt. The experience in this case will, of course, be useful in others, and the plain and emphatic declaration of the Supreme Court will tend to prevent a repetition of such an unfortunate occurrence hereafter.

A WAY OUT OF THE TURKISH DIFFICULTY.

An agreeable and encouraging feature of the situation in the East is that the Powers have been successful in extorting the desired firman from the Sultan. The distinctive feature of this concession is that although it was not obtained without severe and persistent pressure it was secured without an open recourse to arms. It would have been an easy matter, if there had been entire unanimity among the Powers as to the use of open force, to take at any moment what the Sultan has granted them; but as the use of force would have precipitated the conflict which all were anxious to avoid, the result so far must be regarded as a gain,

and seems at least to lend encouragement to the belief in a final amicable settlement.

It is too soon as yet to be told, as some of our recent dispatches have had it, that the "representatives of the Powers do not intend to make practical use of the firman granted for the passage of additional guardships into the Bosphorus." Much depends upon the course pursued by the Sultan and his advisers. If there is sufficient evidence of an honest desire to carry out promised reforms, and if it is made plain that the Ottoman Government has power to give effect to this desire, it is reasonable enough to conclude that the representatives will be content to be watchful spectators on board their respective ships—Russia in the Black Sea, and the more western Powers in the Dardanelles or immediate neighborhood. It is absolutely essential, however, that something be done and done quickly; that evidence of a convincing kind be given to the world at large both of the willingness and of the ability of the Sultan's government to carry out reform. If the massacres should be repeated on any large scale, if the missionaries or their premises should be subjected to any further manifestations of the spirit of persecution, if, in other words, there should be any unnecessary delay in commencing and commencing vigorously the work of reform, the firman will be found extremely convenient; and the importance of the concession will be seen when the Bosphorus is crowded with foreign ships of war. The passage of the British torpedo boat Dryad and the Italian despatch boat Archimede, each mounting six guns, shows that there is no disposition on the part of the Powers to neglect the privileges which have been secured.

In view of what has happened during the last seventeen years it is not wonderful that doubts should be expressed as to the fitness of the Sultan to carry out reform. There is doubt as to his honest sentiments in the matter of improvement; and there is more than doubt as to his ability to give effect to a reform movement, even in the event of his being willing. By article 61 of the treaty of Berlin the Sublime Porte undertook to carry out, without further delay, the ameliorations and reforms demanded by local requirements in the provinces inhabited by the Armenians, to guarantee their security against the Circassians and Kurds and periodically to make known the steps taken to this effect to the Powers, who would superintend their application. It is notorious that these promises have not been carried out. We do not say that attempts have not been made to make the promises good. But the attempts were feeble; and although the Porte has been frequently reminded of its duty by the contracting Powers, especially by Great Britain, the condition of things in Turkey has improved in nothing since 1878.

What has been the cause of failure? It must have been the absence of sincerity in the making of the arrangements or the want of ability—or of both. What guarantee have we, should the Turk be left to himself, that the future would be any improvement on the past. One thing is plain. The present Sultan, Hamed, the second of the name, has had opportunities offered him again and again in most favorable circumstances; but he has failed to turn them to any good account. He has been successful only in demonstrating his own incompetency. His reign of over nineteen years has been inglorious in the extreme. But he has learned no wisdom. By carrying out his own suggestions, by conforming in a reasonable way to the requirements of modern times, he might have won general sympathy, and preserved his empire more or less intact. As it is, his own fate and the fate of the Empire are at the mercy of the Powers. Things cannot be allowed to remain as they are. The sentiment of the entire civilized world has been outraged by these later Turkish barbarities. So much is this the case that the Powers have come in for a large share of blame for what has seemed unreasonably dilatory conduct. Now that the firman has been granted, now that they can appear with imposing force in the Bosphorus, and in full view of the inhabitants of Constantinople, they must do something. A necessity is laid upon them. If the Sultan does not show more ability for the situation, there is a strong presumption that he will or at least ought to be set aside, and his work put in other hands.

We have said that the Sultan and his empire are equally at the mercy of the Powers. What are the likely circumstances in the case? There are three courses possible in the circumstances. It is competent for the Powers to decide that the royal bird be cut and divided among them for a Christmas dinner. It is competent for them to depose the Sultan and appoint in his place an abler man—some man who will to a reasonable extent command the confidence of his subjects, and who is honestly and earnestly in favor of reform. It is also competent for them to give the present Sultan a further trial, assuring him of encouragement and assistance within certain limits. Of these three possibilities we may dismiss one for the present. Turkey is not yet, in the opinion of the Powers, quite ready for carving. Before the final cutting up takes place, there must be a better understanding regarding the particular portions to be given to each contracting Power. The removal of the Sultan and the appointment of another in his stead may not take place immediately, but it seems to point to the most immediate solution of the difficulty. An experiment may be made with the man now in power. Giving him what backing they can, the representatives of the different Governments may allow him to show what he can do. If we are to judge from prevailing opinion no one seems to have any faith in him. Should he fail, it will be the duty of the Powers to set him aside, and with the aid of the Turkish people themselves to put a more competent man in his place. This will be the easiest and gentlest course; and there is a strong probability that this is the course which has been decided upon.

RAILROAD GROSS EARNINGS FOR NOVEMBER.

As was the case in October, our statement of railroad gross earnings for November reflects the presence of a prominent adverse influence. For while the statement is distinguished for quite a good many very large gains in earnings, and the gains on the whole greatly outnumber the losses, there are at the same time a few heavy losses. These losses are explained by the great falling off in the cotton movement, which for the late month was a strikingly important factor in the affairs of Southern and Southwestern roads.

Very few persons, we think, except those who make a study of the statistics, have any idea of the extent of this falling off in the cotton movement during November. We all know of course that the cotton crop the present year is short, while last year it was exceptional-

ally large, and the difference in the yield in the two seasons has produced a most noteworthy contrast in the volume of the shipments of the staple over the railroads and to market. Aside from the shortage in product, too, the reaction in prices which occurred during October and November, seems to have induced some of the planters to hold back their supplies in the hope that a recovery may ensue and enable them to obtain higher figures again later on. The effect altogether is seen in receipts of only 871,414 bales at the Southern outports in November the present year, against 1,553,871 bales in November last year, a loss of but little less than seven hundred thousand bales. At the same time the gross shipments overland were only 235,300 bales, against 434,786 bales, giving a further loss of nearly two hundred thousand bales. Combining the two the falling off as compared with last year reaches nearly nine hundred thousand bales—in exact figures, 881,943 bales. Taking the average weight of the bale as roughly 500 pounds, this falling off represents a loss to the various transportation interests of over 220,000 tons of freight, from which one can judge of its importance in the affairs of the roads chiefly affected. To show that the falling off has been very general, we give the following table in our usual form.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN NOVEMBER AND FROM JANUARY 1 TO NOVEMBER 30, IN 1895, 1894 AND 1893.

Ports.	November.			Since January 1.		
	1895.	1894.	1893.	1895.	1894.	1893.
Galveston.....bales.	153,680	358,792	287,514	937,414	1,090,474	818,324

Total.....	871,414	1,553,871	1,294,328	4,694,709	5,231,873	4,220,860

To the planter the higher level of prices ruling the present year (even after the late reaction) furnishes at least part compensation for the shortage in yield. But the railroads have no such way of making good the loss. Under the circumstances it is not wonderful that those of them which have suffered most from the contraction in the movement of this staple should be obliged to report considerable reductions in their earnings. Thus the Missouri Kansas & Texas has $271,598 decrease, the Texas & Pacific $150,247 decrease, the St. Louis Southwestern $129,779 decrease, the Atchison $120,701 decrease, the International & Great Northern $91,542 decrease and the Kansas City Fort Scott & Memphis $47,236 decrease. But these half dozen roads comprise all that have lost as much as $30,000, and on the whole it is really surprising that the losses should be comparatively so few. Doubtless if it were not for the large grain crops in the same sections and the improvement in general trade, the decreases would have been much more numerous and also much larger. In the case of the Atchison Topeka & Santa Fe the loss has occurred entirely on the Gulf Colorado & Santa Fe (the Texas division of the system) where the earnings have fallen off as much as $231,808, showing that on the rest of the system there was a gain of over a hundred thousand dollars for the month.

It is worth noting that the roads here enumerated as having suffered large losses are all Southwestern lines—that is, lines lying west of the Mississippi, in Texas and Arkansas. It was these roads that were particularly favored last year by an extraordinarily heavy yield of cotton in the section traversed by them, some of the Texas roads then reporting the largest November earnings in their history; and it is the same section and the same roads which the present year have had to contend with an exceptionally small yield of that staple. On the distinctively Southern roads—we mean those east of the Mississippi—there are no losses of large amount among the roads reporting to us, though in that section also, as we have seen, there was a great contraction in the cotton movement the present year. The reason probably is that these roads have derived important benefits from the activity of general business and particularly from the revival of the iron trade, which in the South has become an expanding industry. At the same time, also, the Atlanta Exposition must have been a favoring agency with many of them. We know that large delegations have gone to visit the Exposition from this vicinity and from other parts of the North, and the attendance from the different parts of the South has evidently also been large. An incident illustrating this came under our notice in telegraphing for the figures of the Nashville Chattanooga & St. Louis this week. The return of that road is usually ready on the 12th of the month, but this time Comptroller J. D. Maney wires us that his clerical force having permission to visit the Exposition, the earnings will not be ascertained until the 14th.

Quite in contrast with the smaller cotton movement in the South and Southwest, the grain movement in the West and Northwest has been greatly in excess of that of a year ago; and this, with the growing activity in trade, leading to increased shipments of merchandise and general freight, has produced some noteworthy gains in earnings. The expansion in the grain movement has been chiefly in the items of wheat and oats. In corn the receipts were in the aggregate no heavier than a year ago, when they were much below the total in 1893. Of wheat the receipts at the Western primary markets were, roughly, 29½ million bushels in the four weeks ending November 30, 1895, against only 16½ million bushels in the same four weeks of 1894, giving an increase of 13 million bushels. Of oats the receipts were 10 million bushels against only 5½ million bushels. Taking wheat, corn, oats, barley and rye together, the receipts foot up 54,234,893 bushels in the four weeks of 1895 against only 35,581,158 bushels in the four weeks of 1894, the increase thus being over 18½ million bushels. This gain, however, has been unevenly distributed as between the different points, benefiting chiefly the spring-wheat points like Chicago, Duluth and Minneapolis. Even at Chicago there is a sharp distinction as between the spring-wheat and the winter wheat arrivals. The latter were of small proportions, the former of very large proportions. Thus the inspection of winter wheat comprised only 622 cars in November 1895 against 2,862 cars in November 1894, while on the other hand the inspection of spring wheat embraced 9,208 cars against 199. The following will show just what points derived the largest advantage from the expansion in the grain movement.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING NOVEMBER 30 AND SINCE JANUARY 1.

Since Jan. 1.	[illegible],[illegible]42	[illegible],[illegible]41	[illegible],[illegible]78	[illegible],[illegible]61	29,[illegible],040	2,[illegible],[illegible]14

The 18½ million bushels increase in the grain receipts shown by the foregoing may be taken roughly as representing 410,000 tons of freight. It follows therefore that the gain to the Western roads from the larger grain movement was much in excess of the loss to the Southern roads from the smaller cotton movement. On the other hand the deliveries of live stock in the West seem to have been below those of a year ago, having amounted at Chicago to only 26,886 car loads in November 1895, against 29,546 car-loads in November 1894. The deliveries of hogs included in this total were somewhat larger than a year ago, being 937,479 head against 936,896 head. The following shows the grain and provisions movement at Chicago for the full month for three years.

RECEIPTS AT CHICAGO DURING NOVEMBER AND SINCE JANUARY 1.

	November.			Since January 1.		
	1895.	1894.	1893.	1895.	1894.	1893.
Wheat, bush.	5,[illegible],[illegible]00	1,[illegible],[illegible]07	1,141,[illegible]40	1[illegible],[illegible],[illegible]00	24,[illegible],[illegible]15	33,[illegible],930
Corn, bush.	9,[illegible],[illegible]01	4,[illegible],[illegible]79	1,[illegible],[illegible]13	2[illegible],[illegible],[illegible]74	59,[illegible],[illegible]41	81,[illegible],[illegible]85
Oats, bush.	7,[illegible],141	3,[illegible],[illegible]60	6,[illegible],[illegible]75	7[illegible],[illegible],[illegible]40	59,[illegible],[illegible]84	76,[illegible],[illegible]68

It will be observed from the foregoing that the total grain receipts at Chicago for the even month were over 31 million bushels against only 11¼ million bushels in 1894. This is an interesting fact because it shows that of the increase of 18½ million bushels at all the Western points for the four weeks ending November 30, almost 10 million bushels was at Chicago. We have already pointed out that the gain in wheat at least, which accounts for 4½ million bushels of this 10 millions increase, has been entirely in spring wheat and has therefore inured to the roads carrying spring wheat and not to those carrying winter wheat. The Milwaukee & St. Paul stands at the head of the list of roads reporting in that section, and shows an increase in earnings in the large sum of $897,674. While this is a very noteworthy amount of improvement, it does not appear so formidable when we remember that it follows $649,064 loss last year. The present year's total, however, has been only once exceeded in any previous November. Next after the St. Paul in amount of gain comes not a Western road, but the New York Central, with $364,743 increase; last year the Central reported $60,427 decrease. The Great Northern has $352,502 increase, and the Northern Pacific $335,028 increase, in both cases after gains last year. Other large increases the present year are $207,642 by the Canadian Pacific, $156,559 by the Burlington Cedar Rapids & Northern, $143,754 by the Minneapolis St. Paul & Sault Ste. Marie, $130,212 by the Illinois Central, $129,626 by the Mexican Central, $85,819 by the Chesapeake & Ohio, etc. The following is a full list of all gains and also of all losses above $30,000 in amount.

PRINCIPAL CHANGES IN GROSS EARNINGS IN NOVEMBER.

Increases.		Increases.	
Chic. Mil. & St. Paul...	$897,674	Norfolk & Western.....	$37,385

Col. Hock. Val. & Tol...	45,667	Total (representing 8 roads).....	$811,103
Wabash.....	40,178		

It is worth noting that the conditions and results this year and last year have been exactly reversed. Last year we had a large cotton movement and a small grain movement. The present year we have a small cotton movement and an expanding grain movement. Last year it was the Southern roads that made the best exhibits and the Northwestern roads the poorest exhibits. This year the latter roads excel all others, while Southern and Southwestern roads fall behind. The general result the present year, however, is decidedly better than in November 1894. Last year the grand aggregate of all the roads disclosed $730,190 loss, the present year we have $2,959,503 gain, or 6·42 per cent. We may say too that out of the whole 124 roads contributing returns to our statements, only 37 have losses this time while 87 have gains. The following carries the comparisons back for a number of years.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding	
November.	*Miles.*	*Miles.*	$	$	$
1891 (112 roads).....	96,953	94,544	49,487,624	45,226,208	*Inc.* 4,261,416
1892 (133 roads).....	92,[illegible]	90,[illegible]	47,225,425	45,[illegible],[illegible]	*Inc.* 1,244,019

We have already stated that the Northwestern group of roads has on the whole done better than any other. This is well illustrated by the following six-year comparison for nine well-known roads, showing larger earnings in the aggregate for 1895 than for any preceding year. What is true of the roads as a whole is not true of the roads separately, with the exception of the Great Northern and the Burlington Cedar Rapids & Northern, which alone have excelled their best previous record, though the St. Paul, as already stated, comes very close to its largest previous total.

† Includes the Kansas City Clinton & Springfield and the Current River for all the years.
‡ Colorado Midland excluded for all the years.
a Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

Southern roads, as was observed above, have generally improved on their exhibits of last year, notwithstanding the great contraction in the cotton movement, and notwithstanding also that comparison is with pretty good earnings last year, the Southern group having at that time been the only one making a gain. Only five minor roads among all those reporting from that section have sustained a falling off in earnings, and among the companies included in the following there is not one that has failed to improve on its total of 1894.

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Nov. 30, 1895.

The delay of the Turkish Government in issuing the firman to authorize the Powers to send additional guardships to the Bosphorus is weighing upon the markets everywhere. On Wednesday telegrams from Constantinople announced that the firman was to be issued immediately, and there was a general rise. On Thursday there came a contradiction and there was some decline. The Europeans in Constantinople are alarmed. Discontent is almost as general amongst the Mohammedans as amongst the Christians in that city, as well as throughout the Empire, and it is feared, therefore, that there may be an outbreak, in which case the lives of foreign Christians might be endangered, while banks and other business establishments would probably be attacked. There is a very strong feeling, therefore, among foreigners at Constantinople that the ships should be sent without delay, and evidently the governments are not without apprehension themselves.

Rumors continue to circulate that the concert among the Powers is not quite so cordial as is represented, and especially it is alleged that the German Government is holding back. Germany undoubtedly was averse to intervention in the beginning, and for some time it refused to join with the British Government, the French and the Russian. It, however, is now acting cordially in spite of all the rumors to the contrary, though it is possible that the influence of Germany is being used to act with caution. On Thursday the Italian Prime Minister and the Minister for Foreign Affairs assured the Chambers that the concert is complete, and they were especially emphatic in their statements that Italy is using all her influence to maintain a thorough accord among the Powers.

Meantime the accumulation of money in London is going on. The reserve of the Bank of England is now very nearly 34 millions sterling. Gold is still coming in from abroad, and especially from the United States, and the rates of interest and discount are therefore falling. The present impression is that rates in January will be as low as they were in the summer. Financial apprehension has died away here, and unless the political outlook grows darker there is no doubt that the money market will continue very easy.

The silver market is quiet, with a downward tendency, there being little demand for the East. But the rates of interest and discount are rising in India. All the money accumulated two years ago by the Indian Government in the reserve treasuries has now been paid out for the extension of railways, and it looks as if rates would rise. The Bank of Bengal has this week raised its rate of discount from 4 per cent to 5 per cent. The Japanese Government has not yet paid out any of the large sums standing to its credit in the Bank of England, and nothing is known as to its future intentions. All that is certain is that it has placed orders for ships at the Clyde for about 2½ millions sterling, and it is said that as soon as the strike or lockout ends, it will place further large orders. Unfortunately the conflict continues, though earnest efforts are being made to bring about an arrangement between the employers and the employed.

On Monday the fortnightly settlement on the Stock Exchange began, and it was found, as was to have been expected from the enormous selling of the past two months, that almost the whole "bull" account had been closed. There is now scarcely any speculation for the rise; in some cases, indeed, there was a "bear" account open, though not as large a one as was looked for by many. Money was exceedingly cheap; indeed, many brokers were able to repay loans previously obtained by them from the banks, and there has in consequence been a complete change of opinion and a decided advance in prices in all departments. The advance was very sharp on Wednesday, when it was thought that the Sultan had given way to the Powers. Next day there was some decline, but still prices are very much higher than they were last week.

Owing to the recovery the differences were not as large as had been anticipated, and they have been paid more generally than was expected. The settlement has ended without a single failure. The market is now in a thoroughly healthy condition. Of course several members of the Stock Exchange have had to receive help and therefore are more or less embarrassed. But taking the Stock Exchange as a whole it is much richer than it was twelve months ago, and is now thoroughly sound.

This is option day in Paris, and on Monday the regular Settlement will begin. The immediate course of the market will be largely determined by this settlement. The general opinion of the best informed in Paris is that there will be no important failures, though from time to time some will undoubtedly occur. This week, for example, one large broker had to declare himself unable to pay his differences. It is said that he owed £60,000 or £70,000 in London. But as the losses are well distributed and have fallen upon wealthy people, they have made scarcely any impression here. All the great bankers in Paris are prepared to support the market, and owing to the considerable recovery in prices this week it is believed that the differences will not be anything like so large as has heretofore been assumed. Still the losses have been very great and the embarrassments are very general, and it will be a considerable time before the Paris Bourse quite recovers. France, however, is very rich, and the revival will probably be quicker than people now generally think.

In Vienna and in Pesth it is understood that all the assistance required will also be given, and the best opinion is that nothing serious will happen. Berlin has suffered less than either Paris, Vienna or Pesth, and will come through the Settlement safely. Upon the whole, therefore, there is much more confidence than there was, and if the Paris Settlement passes over fairly well there will probably be a further advance in prices, unless, of course, anything untoward in politics happens.

There is scarcely anything doing here in the American market. Even investment in bonds is very small; and it is hardly probable that while the gold shipments go on there will be much buying. At the same time it is to be noted that there is a considerable change of feeling here. Many members of the Stock Exchange and outside operators are of opinion that it will be some months before there is real activity in the mining market; therefore they are more inclined to deal in the American market than they were, arguing, firstly, that the United States Government will borrow, if it is necessary, to replenish the reserve, and secondly, that prices have fallen so greatly of late that a recovery is almost inevitable. The more cautious, however, still hold that until something is done to restore order in the currency, speculation is too dangerous and even investment is not to be recommended. Still, the probability is that there will be more doing in the market than there has been for a considerable time past.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates. — Bank Bills. Three Months	Four Months	Six Months	Trade Bills. Three Months	Four Months	Six Months	Interest allowed for deposits by Joint Stock Banks.	Disc't H'se At Call.	Disc't H'se 7 to 14 Days.

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO DECEMBER 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes November 1, together with the amounts outstanding December 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to December 1.

National Bank Notes—		
Amount outstanding November 1, 1895		$213,798,228
Amount issued during November	$897,900	
Amount retired during November	824,932	72,968
Amount outstanding Dec. 1, 1895*		$213,871,196
Legal Tender Notes—		
Amount on deposit to redeem national bank notes Nov. 1, 1895		$23,617,267
Amount deposited during November	$609,385	
Amt. released and bank notes retired in Nov.	824,982	215,597
Amount on deposit to redeem national bank notes Dec. 1, 1895		$23,401,670

*Circulation of National Gold Banks, not included in above, $89,402

According to the above the amount of legal tenders on deposit December 1 with the Treasurer of the United States to redeem national bank notes was $23,401,670. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Depositing—	August 1.	Sept. 1.	Oct. 1.	Nov. 1.	Dec. 1.
	$	$	$	$	$
Insolv't banks	964,710	934,280	898,656	840,613	803,582
Liquid'g banks	5,185,669	5,063,115	5,065,315	4,995,461	4,954,332
Red'g under act of 1874*	18,556,096	18,241,435	18,211,388	17,781,193	17,643,756
Total	24,704,475	24,238,830	24,165,360	23,617,267	23,401,670

* Act of June 20, 1874, and July 12, 1882.

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods December 5 and for the week ending for general merchandise December 6; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods	$2,636,162	$1,149,406	$2,285,458	$2,587,916
Gen'l mer'dise	9,468,568	8,852,215	7,946,351	8,364,980
Total	$12,104,730	$10,001,621	$10,231,809	$10,952,896
Since Jan. 1.				
Dry Goods	$119,979,227	$114,716,651	$83,134,135	$136,811,846
Gen'l mer'dise	421,806,263	399,341,460	326,877,908	354,688,879
Total 49 weeks	$541,785,490	$514,058,111	$410,012,043	$491,500,725

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending December 10 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894.	1895.
For the week	$7,948,531	$6,871,566	$7,283,093	$7,778,672
Prev. reported	360,753,985	349,766,668	333,129,392	318,243,452
Total 49 weeks	$368,702,516	$356,638,234	$340,412,485	$326,022,124

The following table shows the exports and imports of specie at the port of New York for the week ending December 7 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

—The Reorganization Committee of the Union Pacific Railroad announces the deposit of very considerable amounts of the securities embraced in the reorganization and request the first mortgage bondholders of the Union Pacific and Kansas Pacific main lines, as well as the shareholders of the Union Pacific Railroad Co., to deposit their holdings prior to Dec. 31 so as not to become subject to the penalties which the company will impose. deposits to be made with the Mercantile Trust Co. of New York and the Old Colony Trust Co. of Boston, where also deposits of other securities embodied in the plan of reorganization and cash overdue coupons on first mortgage bonds should be deposited. Upon past-due coupons cashed by the committee certificates representing compound interest will be given, payable when allowed by the Court. A circular letter fully explaining the purpose of reorganization has been issued and may be obtained from either of the depositaries.

—Tax exempt three and four per cent municipal issues are advertised in our State and City Department by Messrs. Farson, Leach & Co., No. 2 Wall Street.

—Mr. F. J. Lisman announces in another column that he is prepared to trade in the securities of the Central of Georgia System.

WALL STREET, FRIDAY, DEC. 13, 1895.—5 P. M.

The Money Market and Financial Situation.—Business in Wall Street during this week has partaken largely of the characteristics of a holiday season. This condition is no doubt more largely due to other causes than to the near approach of the holidays. It must be conceded that the hopefulness and buoyancy which pervaded all business circles three or four months ago are now less conspicuous, especially in financial circles.

Such changes as have taken place in the general situation abroad have not materially affected this country, but the civilized world is looking with interest if not with anxiety for new developments in the Turkish problem. The foreign exchange market has been dull and easy, and therefore a less important factor in Wall Street than for several weeks past.

Among the interesting features of the week was the announcement of dividends on Manhattan Elevated, American Tobacco preferred, Western Union and Denver & Rio Grande stocks. These were of special interest because there had been some doubt in the mind of the public whether dividends would be declared on the two former, and the latter company has paid no dividend since May, 1893. The "boom" in Cripple Creek and other Colorado mining stocks is based partly upon the increased production of the precious ores, which is indicated by larger earnings on several of the Colorado railways.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1½ to 2½ per cent. To-day's rate on call was 2 to 2½ per cent. Prime commercial paper is quoted at 4 to 4¾ per cent.

The bank of England weekly statement on Thursday showed an increase in bullion of £285,816, and the percentage of reserve to liabilities was 39·83, against 66·39 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 875,000 francs in gold and an increase of 1,975,000 francs in silver.

The New York City Clearing-House banks in their statement of Dec. 7 showed an increase in the reserve held of $1,275,600 and a surplus over the required reserve of $20,294,275, against $18,613,300 the previous week.

Foreign Exchange. The foreign exchange market has been dull and weak. There is a better supply of commercial bills and the demand for exchange has been limited. The shipment on Thursday of $1,000,000 in gold bars is scarcely warranted by the condition of the market.

To-day's actual rates of exchange were as follows: Bankers' sixty days sterling, 4 87½@4 87¾; demand, 4 88½@4 88¼; cables, 4 88¾@4 89.

Posted rates of leading bankers are as follows:

December 13.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88½	4 89½@4 90
Prime commercial	4 87 @4 87¼	.....
Documentary commercial	4 86½@4 86¾	.....
Paris bankers' (francs)	5 17½@5 17½	5 16¼@5 15/16
Amsterdam (guilders) bankers	40 1/16@40 1/8	40 1/4@40 5/16
Frankfort or Bremen (reichsmarks) bankers	95 1/8@95 1/16	95 11/16@95 3/4

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling ⅛ premium; New Orleans, bank, par; commercial $.50 per $1,000 discount; Chicago, par@25c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $15,000 4s, coup., 1925, at 120⅞; $9,000 4s, coup., 1907, at 112⅛ to 112½; $31,000 4s, reg., 1907, at 111⅛ to 111¼; $30,000 5s, coup., at 114⅞ to 115 and $20,000 5s, reg., at 115⅛.

Following are closing quotations:

State and Railroad Bonds.—Sales of State bonds at the Board include $23,000 Virginia fund. debt 2-3s of 1991 at 68, $1,000 No. Carolina con. 4s at 105¼ and $1,000 Louisiana con. 4s at 100.

Except for a relatively heavy movement of Reading and Atchison bonds the railway bond market has been dull. The speculative issues are generally lower while high grade bonds are readily taken when offered, at or near full figures. While the Reading plan has not yet been announced its provisions affecting the bonds are pretty well understood and the gen. 4s have advanced nearly 2 points while the incomes have declined. New developments in the process of reorganizing the Savannah & Western are favorable to the 1st 5s and they advanced 2½ points in the early part of the week. Other active issues in which the decline during the week averages about a point include Union Pacific, Texas & Pacific, the Atchisons, Ches. & Ohio, Mo. Kan. & Texas, St. Louis South West. and Wisconsin Central bonds.

Some activity is noted also in Northern Pacifics, St. Louis & San Francisco, Rio Grande Western, Wabash, Duluth & Iron Range, New York New Haven & H. and Burlington & Quincy issues.

Railroad and Miscellaneous Stocks.—The market for railroad stocks has been dull in the absence of any competitive buying or general pressure to sell. Offerings have been confined chiefly to the low-priced shares, which in most cases have declined. Reading has led the list in point of activity, and had lost 3 points on Wednesday, when it sold at 7⅓. The desire to avoid the heavy assessment which the new plan imposes has stimulated the liquidation of these shares. Baltimore & Ohio dropped 3½ points on Thursday, when the ... was accompanied by reports not calculated to enhance the value of the stock. The coalers have been strong, and Central of N. J. advanced 4 points on reports that a movement was on foot to restrict the production of coal. The grangers have been neglected and changes are generally confined to fractions. North West. sold ex-dividend on Monday. Manhattan Elevated advanced nearly 2 points on the announcement of the regular quarterly dividend of 1¼ per cent. Some of the Southwestern shares have been strong.

The industrials have been the absorbing feature of stock trading during the week, with Am. Tobacco again the most active and most erratic. On Monday over 190,000 shares of this stock were dealt in at prices ranging from 72 to 68. It has steadied down somewhat since the announcement on Wednesday of the formal action of the directors in declaring the regular dividend on the preferred stock and closes at 72½. Consolidated Gas has advanced over 10 points within the week, on buying said to be for inside interests. Chicago Gas has been weak under various rumors about the probable outcome of the reorganization plan. Am. Sugar has fluctuated between 107½ and 104⅜, closing at 103 ex. div. U. S. Leather preferred declined to 59¼ on Monday, since which it has recovered 3⅝ points. Western Union has advanced on the declaration of the usual quarterly dividend of 1¼ per cent and increased earnings. Distilling, Gen. Electric and Tenn. Coal & Iron have each declined.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of November 23, 1895. The next will appear in the issue of December 21, 1895.

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes
* Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in October was $128,195, against $108,715 last year, and for ten months to October 31 $878,697, against $754,835; after adding earnings received from Federal Government net from January 1 to October 31, 1895, was $878,697, against $878,722. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

Roads.	Inter'l, rentals, &c. 1895.	1894.	Bal. of Net Earns. 1895.	1894.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in progress of reconstruction.
† Earnings increased largely on account of G. A. R. encampment in Louisville.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of November 23. The next will appear in the issue of Saturday, December 21.

Roads	Gross Earnings. 1895.	Gross Earnings. 1894.	Net Earnings. 1895.	Net Earnings. 1894.

Atchison Topeka & Santa Fe System.

(Year ending June 30, 1895.)

The CHRONICLE has been favored with official statements of earnings and expenses for the Atchison proper, the St. Louis & San Francisco and the Atlantic & Pacific, for the year ending June 30, 1895.

For the Atchison proper (6,481½ miles), the statement is as follows, the gross earnings $28,875,300 for the late year contrasting with $31,545,676 for the year 1893 94.

ATCHISON PROPER—6,481½ MILES.

(Year ending June 30, 1895.)

Gross earnings	$28,875,300	Rentals paid	$533,467
Oper. exp. and taxes	23,833,222	Discount on Mex cur..	82,628
Net earnings	$5,042,078	Total	$616,095
Miscellaneous invest.	414,312	Balance, surplus applicable to interest on bonds	$4,840,295
Total	$5,456,390		

For the St. Louis & San Francisco (1,328 miles), the statement shows as follows, gross earnings at $6,081,425 for 1894-95, contrasting with $5,173,735 in 1893-4 and $7,635,136 in 1892-3.

ST. LOUIS & SAN FRANCISCO—1,328 MILES.

(For year ending June 30, 1895).

Gross earnings from operations	$6,081,425
Operating expenses and taxes	3,751,932
Net earnings	$2,329,493
Income from miscellaneous investments	9,733
Total income	$2,339,226
Payments	
Rentals	$188,727
Interest and discount (receivers' notes, etc)	58,515
One half loss operating Wichita & Western Ry., July 1, 1894, to January 31 1895	10,411
One half Wichita & Western Ry. Co. coupons	52,110
Sinking funds	130,668
Land department	12,420
Total payments	$453,151
Surplus for year, exclusive of bond interest and interest on indebtedness to Atchison	$1,886,075

NOTE.—Interest on indebtedness to Atchison is $87,089 and interest on funded debt, including leased lines bonds, is $2,410,578, making total of $2,497,668, and taking same into account there would be a deficit from operations for year ending June 30, 1895, of $611,593.

For the Atlantic & Pacific the report shows (on 943 miles) as follows, the gross earnings at $3,508,238 in 1894-5 contrasting with $3,137,730 in 1893-4 and $3,551,045 in 1892-3.

ATLANTIC & PACIFIC—943 MILES.

(Year ending June 30, 1895).

Gross earnings	$3,508,238	Rentals	$485,371
Oper. expenses & taxes	3,128,447	Interest and discount (receivers' notes, etc.).	27,569
Net earnings	$379,791		
Income fr. L'n'd Depart	24,227		
Total income	$404,019	Total	$512,940

Deficit for year (exclusive of bond interest and interest on indebtedness to Atchison Topeka & Santa Fe Ry. Co.), $108,923.—V. 61, pp. 924, 1012.

Indiana Decatur & Western Railway.

(Report for the year ending June 30, 1895.)

As stated in another column the control of this road has passed to the Cincinnati Hamilton & Dayton, which will hereafter operate it. The present report, however, furnishes a valuable statement as to the status of the property up to the present time.

Secretary Charles Robinson Smith says in part:

History.—This property was sold under foreclosure on May 10, 1894, and on May 19 was conveyed to two corporations organized to receive it—the Indiana Decatur & Western R'y Co. of Indiana and the Decatur & Eastern Ry. Co. of Illinois. On July 16, 1895, the two companies were consolidated under the name of the Indiana company. For improvements in the way of new bridges and trestles, new locomotives, etc., there has been expended $168,689, and additional improvements

will cost about $15,000, these amounts being additional to what has been charged to operating expenses.

Pending Litigations.—Regarding pending litigation he says:

Some time after the sale of our road under the old first mortgage, the bonds and securities which had been cut off by the foreclosure were sold at auction in New York. They appear to have been bought in the name of one Elijah R Craft. In January last he filed a bill in the Edgar County Circuit Court in Illinois, claiming that there had never been any foreclosure of the Illinois part of the road, and claiming the right to redeem by paying some insignificant sum. Subsequently a holder of eight of the first mortgage bonds not deposited with the bondholders' committee filed a similar bill. Their motions for the appointment of a receiver were denied by the Court. These suits will probably come to trial on their merits. We are advised by numerous counsel that there is nothing in these claims and that our title is perfect. In August last, upon information undoubtedly lodged by the attorney for these same litigants, the county attorney of Macon County, Illinois, began *quo warranto* proceedings against the Decatur & Eastern Railway, questioning the charter of our company. We are assured by counsel that this proceeding also is incapable of affecting any of our substantial rights.

Earnings and Expenses.—The crops in Indiana and Illinois, both of wheat and corn, were very good in 1894 and have given the road a fair business. Rates, however, were low and grain prices were such that much of our produce was attracted to Chicago, thus giving the road a shorter haul than in normal times. We have charged to operating expenses the rebuilding of all the old locomotives (about $25,000), an amount in excess of the average annual requirements. To construction account we charged 35,000 ties, but only after having charged the full average annual requirements of 50,000 ties to the operating account.

EARNINGS AND EXPENSES JULY 1, 1894, TO JUNE 30, 1895.

Earnings—		*Expenses*—	
Freight	$300,961	Maintenance of way, etc...	$85,814
Passengers	136,521	Maint. of equipment.....	36,561
Mail	16,525	Conducting transport'n..	181,454

—V. 61, p. 1013.

Petersburg Railroad Company.

(Report for year ending June 30, 1895.)

President W. G. Elliott says in part:

General Results.—Notwithstanding the general depression in business and the destruction of the fruit and orange crop in Florida during the past winter, we show an increase in the net revenues over the previous year. The road has been kept in good condition, substantial additions have been made to its equipment, additional rails have been purchased and leased to manufacturing enterprises, new side tracks have been added and improvements constructed on the branch line at Petersburg, and the cost of all these has been included in the operating expenses in accordance with our usual custom in such cases. All fixed charges have been met, the usual number of bonds redeemed, and the usual dividends paid. The opening of the branch line at Petersburg for through freight business has greatly relieved the trouble which attended the handling of this business through that city.

Physical Condition.—As to maintenance and improvements the General Manager says:

The large decrease in maintenance of way and structures was chiefly due to the small purchase of steel rails compared with the very large purchase of last year. The branch line, 5·74 miles in length, extending from a point on the Richmond & Petersburg Railroad about 3 miles north of Petersburg, to a point on the Petersburg Railroad about 3 miles south of Petersburg, and skirting the western limit of the city, was opened to through freight train service on April 24, 1895. The filling of the trestle work is at this writing well advanced. The original estimate for this work was $280,000. It has cost to June 30, $226,520.

There were 7,500 lineal feet of side tracks built and 2,506 lineal feet removed, making an increase of 5,994 lineal feet in the length of sidings. The following extraordinary expenditures were charged to operating expenses:

Cost of one new locomotive, $9,154; charged to new freight equipment, $20,000; cost of 2765 tons of old rail, $3,596; cost of improvements at connection of branch line, $2,802; cost of new side tracks, $1,000; total, $41,552.

Statistics.—Results for four years were as below:

Richmond & Petersburg Railroad Company.

(Report for the year ending June 30, 1895.)

President Fred R. Scott says:

Extraordinary Expenses—The surplus for the year was expended chiefly in the purchase and cancellation of $18,500 of the old first mortgage bonds at a premium of $3,284. The operating expenses for the year include about $40,000 expended for betterments.

Improvements, Etc.—General Manager Kenly adds: The following extraordinary expenditures were included in the operating expenses: Improvements at Manchester, $14,495; 1 new passenger locomotive, $9,154; 20 new Atlantic Coast Despatch box cars, $10,320; new iron bridge over Falling Creek, $5,475; new stone culvert at Temple's, $367 Total, $39,811.

Statistics.—Results for four years were as below:

GENERAL INVESTMENT NEWS

Reorganization Plans, Etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.* for default; *Com.* for committee.

Abbeville & Waycross Rr.—*Foreclosure Sale.*—On Jan. 7, 1896, this road, extending from Abbeville to Lulaville, in Georgia, a distance of 18½ miles, will be sold in foreclosure, the upset price being $60,000.

Akron Street Railway & Illuminating.—*Incorporation.*—This company was chartered on Tuesday to operate the properties recently purchased by the Thomas syndicate. The stockholders have elected the following directors: General Samuel Thomas, J. B Clews and E. C. Gibson, of New York; J. A. Long, Aaron Wagoner, Ira Miller and F. A. Seiberling, of Akron, Ohio. It is said the power house of the old street railway will be abandoned and the power house of the electric light company will be used alone, the capacity of which will be increased to 1,200 horse-power.—V. 61, p. 965.

American Tobacco.—*Dividend on Common Stock Omitted.*—The following advertisement was published on Saturday, Dec. 7, announcing the company's decision to pay no dividend on the common stock in February of next year:

To the Stockholders of the American Tobacco Co.:

The usual quarterly dividend of 2 per cent on the preferred stock of this company will be paid in February, but no dividend will be paid at that time on its common stock.

From the earnings of the company during the ten months of the current year it is estimated that the earnings of the year will permit the addition of over one and a quarter million dollars ($1,250,000) to surplus, after paying 8 per cent on the preferred stock and 9 per cent on the common stock.

Yet, on account of the increasing volume of the company's business and the acquisitions during the year of new plants and businesses, the company requires more cash working capital than heretofore.

Therefore, in the judgment of its management, it is to the interest of the stockholders, and proper for the prudent prosecution of its growing business, that the sum necessary to pay further dividends on its common stock for this year be retained and applied to working capital.

Thus the business of the company can be properly cared for and extended without departing from its consistent policy of not borrowing money, and its assets kept as they now are, the free and unencumbered property of its stockholders. Very respectfully,

THE AMERICAN TOBACCO COMPANY.

Dec. 6, 1895.

This decision was subsequently ratified by the board of directors.

Earnings.—Based on the average estimate of a surplus for the year of $1,250,000, the result for 1895 compared with previous years would be approximately as follows:

12 Mos.	Net Earns.	Div. on 1st Pf.	Div. on Com.	Surplus.
1895	$5,484,000	(8%) $2,512,000		$1,250,000
1894	5,[illegible]16	(8%) 2,148,000		1,[illegible]16
1893	4,734,467	(8%) 2,152,500		1,225,[illegible]67
1892	4,[illegible]01	(8%) 2,1[illegible]0		1,812,501

Explanation of Company's Action.—The *New York Tribune* this week published the following:

A large holder of tobacco said:

"The tobacco war became virulent only last summer. Up to that time the company's profits were larger than ever before. Clearly in the last six months the tobacco war has resulted in enormous losses."

Secretary Josiah Brown said:

"I can't say what will be done about future dividends on the common stock. Our surplus of $7,000,000 on 1st January last was not in cash. It was represented by investments in our plant." As to whether the company intends to acquire other concerns, he had nothing to say. The company last summer paid $1,000,000 for the cigarette business in Canada, and, as reported, $250,000 for the Hall factory in New York. These two purchases equal in amount the company's estimated surplus for 1895.—V. 61, p. 923.

Atchison Topeka & Santa Fe Railroad.—*Foreclosure Sale.*—At Topeka, Kan., on Tuesday, December 10, the property and franchises of the Atchison Topeka & Santa Fe Railroad were sold in foreclosure and purchased for $50,000,000 by Edward King, Charles C. Beaman and Victor Morawetz, representing the reorganization committee. The amount due on the general mortgage under which the sale took place was $140,727,549. The sale was duly confirmed by Judge Caldwell.

New Company.—The Atchison Topeka & Santa Fe Railway Company was subsequently organized under the laws of Kansas, to succeed to the property so foreclosed. The new company, whose officers and directors are as given in the CHRONICLE of Nov. 30 and Dec. 7, will issue securities as provided in the reorganization plan, which was published at length in these columns on April 13.

St. Louis & San Francisco, etc., Suits.—Just prior to the foreclosure sale attorneys representing the minority of the bondholders of the St. Louis & San Francisco system and of $563,000 of the Chicago Santa Fe & California bonds, read a protest against the sale of the property. This action was taken to preserve their rights as litigants in the suits mentioned last week, or in other suits to be hereafter instituted. The intervening petition, to which especial reference was made a week ago was filed in the interest of the Frisco consols to the amount of $1,800,000 by Francis Peabody, Jr., of Boston, and J. Kennedy Tod and F. W. Whitridge of New York. Dwight Braman, of Boston, explaining his suit, says: "The Whitridge committee filed petitions for their bonds only. I filed my petition in order to protect any bonds held in New England. They should have equal chance to come in and join, as the claims aggregate some $7,000,000 to $9,000,000 of bonds." The real purpose of filing the intervening suits last week, it appears, was not to prevent the sale, but to notify the purchasers that claims are pending which will be maintained if possible in the courts.

Chicago Santa Fe & California Foreclosure.—At Chicago on Monday in the United States Circuit Court, the Boston Safe Deposit & Trust Co., the mortgage trustee, filed a suit for foreclosure of the $15,850,000 mortgage on this road. All the bonds except $639,000 are owned by the Atchison, they having been pledged under the general mortgage of 1889 just foreclosed. The present suit is a step in the Atchison reorganization and is taken to clear up the title to the Chicago division.—V. 61, p. 1012.

Baltimore City Passenger Ry.—*New Stock.*—The directors have agreed to recommend to the stockholders at the meeting to be held next month the issuance of 10,000 shares of stock to be sold to stockholders at par, $25 a share. The proceeds are needed to reimburse the company for betterments, including the Lauraville extension, additional equipment, etc.

Brooklyn Bridge Prospect Park & Eastern RR.—*Incorporation.*—This company has been incorporated with a capital of $500,000, of which Anthony N. Brady, of Albany, subscribes to $300,000 and Fred. S. Flower, of New York, to $187,500, to build street surface railroads in Brooklyn and Flatlands. Its organization is presumably in the interest of the Long Island Traction Company, with which the above mentioned men are identified.

Buffalo & Susquehanna RR.—*Listing.*—This company has listed on the New York Stock Exchange an additional $375,000 of its first mortgage bonds, making the total listed $1,470,000, of which $103,000 retired by the sinking fund. The new bonds represent the 25 miles of new road extending from Galeton to a connection with the Wellsville Coudersport & Pine Creek RR. The latter road, 12 miles in length, has also been acquired.—V. 61, p 793.

Called Bonds.—The following bonds have been called for payment. The numbers may be learned at the offices of the respective companies.—V. 61, p. 966.

CONTINENTAL PASSENGER (PHILA.) RAILWAY.—Twenty-six bonds will be paid Dec. 31, interest ceasing that day.

BALTIMORE & OHIO.—Eighty-nine bonds of the 5 p. c. loan due 1897 have been drawn, payable in London.

MINNEAPOLIS STREET RAILWAY.—Ten bonds will be paid on presentation, interest ceasing May 1.

Central Massachusetts RR.—Boston & Maine RR.—*Settlement.*—These companies have agreed on a settlement of their accounts by which the Boston & Maine will pay to the Central Massachusetts a certain amount in cash, out of which it is reported a dividend will be paid at an early day. The Central Massachusetts will issue $100,000 of 5 per cents, out of a total of $500,000 new bonds, to the Boston & Maine in settlement of all advances to April 1, 1895. The Central road will also, it is said, pay hereafter an agreed rental for equipment on all business exceeding $500,000 per annum, the same to be deducted from earnings.—V. 61, p. 871.

Central of Georgia Railway.—*Montgomery & Eufala RR. sold in foreclosure.*—At Montgomery, Ala., on Saturday, Dec. 7, the Montgomery & Eufaula RR. was sold in foreclosure for $500,000 to J. W. Hutchins, representing Messrs. Thomas and Ryan the Central of Georgia Reorganization Committee. The road will now be merged absolutely in the new Central of Georgia Railway.

Sav. & Western Bonds.—Chairman Simon Borg, of the Savannah & Western RR. Co. 5 per cent Bondholders' Committee, gives notice to holders of the Central Trust Company's certificates for said bonds that upon presentation of their certificates there will be paid $494 56 per bond in cash to holders who syndicated their allotment of consolidated mortgage 5 per cent bonds of the Georgia Central Railway Co. and to the certificate holders who elected to dispose of their pro rata holdings of consolidated bonds to the syndicate and had that fact stamped upon their certificates, there will be paid the sum of $465 06 per bond, and such payment will be duly stamped upon the certificates. Due notice will be given when the income bonds are ready for delivery.—V. 61, p. 1012.

Central Traction, Sioux City, Ia.—*Incorporation.*—This company has been incorporated with an authorized capital stock of $500,000, to operate street railways in Sioux City, Ia.

Chicago Kalamazoo & Saginaw RR.—*Mortgage Filed.*—This company, which owns 44 miles of road, Kalamazoo to Woodbury, Mich., has made a mortgage for $225,000 to the Union Trust Company of Detroit as Trustee. An extension to Saginaw was originally projected and may yet be built.

Chicago & Northern Pacific RR.—*Reorganization Plan.*—The Reorganization Committee at a recent meeting considered a plan of reorganization and referred it back to the subcommittee. Another meeting of the full committee has been called for Monday.—V. 61, p. 924.

Chicago & South Side Rapid Transit—*Opposition to Reorganization Plan.*—The plan prepared by the committee of which John J. Mitchell is chairman has been officially submitted to Lyman J. Gage, President of the First National Bank of Chicago, who is understood to represent a majority of the bonds, and also to the other security holders. The details of the official plan are slightly different from those published last week. The overdue interest is to receive preferred stock and the new issue of bonds to take the place of the old loans will bear interest from Oct. 1, 1895, to Oct. 1, 1896, at 2 per cent per annum, payable in preferred stock; for the next year 2 per cent in cash; for the next five years 3 per cent in cash; for the succeeding eight years 4 per cent, and thereafter for the remainder of the fifty years 5 per cent. The total issue of preferred stock, including that to be issued for the $25 assessment on the stock, will be $2,262,500, entitled to 5 per cent dividends. The fixed charges, aside from the preferred stock dividends, would be for two years $201,000 (the first year payable in preferred stock); five years, $301,500; eight years, $402,000; thirty-five years, $502,000.

Opposition Committee.—At a meeting at the office of A. O. Slaughter & Co. holders of the first mortgage bonds of 1889 voted not to accept the plan and appointed the following

committee to take measures to protect their interests: T. J. Lefens, Leslie Carter, A. S. Trude, Hugh McBirney, Charles F. Grey, Eugene S. Kimball, William Fleming and George Schneider.—V. 61, p. 1012.

Colonial Electric Street Ry. (Kingston, N. Y.)—*Foreclosure Sale.*—On Thursday this road was sold in foreclosure for $30,000 to Charles Stewart Davidson, of New York City, representing the first mortage bondholders.—V. 59, p. 1,058.

Denver & Rio Grande RR.—*Dividend.*—At a meeting of the directors held on Thursday a dividend of 1 per cent on the preferred stock was declared, payable January 15. The directors delayed action on the question of resuming dividends until there was some reasonable assurance of the ability to continue them. The results for the first four months of the fiscal year, July–October, show a surplus of earnings over fixed charges of $146 425. The dividend of 1 per cent will require $236,000. The last dividend paid was paid in May 1893.—V. 61, p. 1014.

Eastern Trunk Lines.—*Board of Arbitration.*—The Board of Control of the new Joint Traffic Association organized in New York Thursday by electing President George B. Roberts of the Pennsylvania Railroad as Chairman. The Board of Arbitration was chosen as follows: James F. Goddard, Garrett A. Hobart and Jacob D. Cox. The Board of Managers of the Association is as follows: New York Central, H. J. Hayden; Lackawanna, B. A. Hegeman; Erie, G. G. Cochran; Lehigh Valley, J. B. Garrett; Pennsylvania, D. S. Gray; Baltimore & Ohio, Orland Smith; Chesapeake & Ohio, O. G. Murray; Wabash, Milton Knight; Grand Trunk, not yet named.—V. 61, p. 924.

Erie RR.—New York Lake Erie & Western RR.—*Fourth instalment on stock.*—The reorganization committee of the New York Lake Erie & Western Railroad Company gives notice that the payment of the fourth instalment of $2 00 each per share on preferred stock and $3 00 each per share on common stock, heretofore deposited under the reorganization plan, must be paid at the office of Messrs. J. P. Morgan & Co., New York, or Messrs. J. S. Morgan & Co., London, on or before December 28. Certificates or receipts must be presented at time of payment so that same may be endorsed thereon.—V. 61, p. 1013.

Galveston Houston & Henderson RR.—Missouri Kansas & Texas Ry.—International & Great Northern RR.—*Traffic Contract.*—The recently-made traffic contract provides for the payment to the mortgage trustee of $100,000 yearly (in half-yearly instalments) to meet interest on the Galveston Houston & Henderson $2,000,000 of 5 per cent bonds and of additional rental of $24,000 yearly applicable to dividends on the stock or other purposes. The operating companies will share the cost of maintaining the Galveston road and will pay the expense of hauling their trains, &c. In case either company shall fail for sixty days to pay its share of the rentals, the agreement becomes null and void at the option of the company fulfilling its part thereof. The Galveston road will do the local business. Disputes are to be settled by arbitration.—V. 61, p. 1013.

Hagerstown & Potomac Electric Ry. (Hagerstown, Md.)—*Mortgage Filed.*—This company has filed a mortgage of $200,000 to build the railway. The Harrisburg Trust Company is the trustee.

Indiana Decatur & Western Ry.—Cincinnati Hamilton & Dayton Ry.—*Reorganization and Transfer of Control.*—The committee representing the Central Trust Company certificates issued for the first mortgage bonds of the old Indianapolis Decatur & Springfield Railway Company announce that, having reorganized the property under the corporate name of the Indiana Decatur & Western Railway Co., they have just made sale of the entire capital stock of such reorganized company to Cincinnati Hamilton & Dayton interests. The securities of the reorganized company consist of first mortgage 5 per cent bonds to the amount of $1,824,000, preferred stock for $912,000, common stock for $912,000. The bonds are being distributed by the Central Trust Company, ex January, 1896, coupon, pro rata to the holders of its certificates, namely 100 per cent of the face value of the certificates, in the new 5 per cents. The Central Trust Company certificates upon which the new bonds shall have been delivered will be stamped and returned to the holders. The property will henceforth be operated in connection with the Cincinnati Hamilton & Dayton system. Mr. M. D. Woodford has been elected President and Mr. H. F. Shoemaker Vice-President thereof. The Executive Committee consists of M. D. Woodford, Henry F. Shoemaker and William A. Read. It is understood the price paid for the stock was $676,000, and that this amount will, when paid, revert to the holders of certficates for the I. D. & S. bonds.—V. 61, p. 1013.

Jarvis-Conklin Mortgage Trust.—North American Trust.—*Sale of Assets.*—The receiver yesterday sold at auction the assets of the Jarvis-Conklin Company to the North American Trust Co. for $702,525. This sale is considered a consummation of the reorganization scheme.—V. 61, p. 1013.

Kansas City Pittsburg & Gulf RR.—*Construction.*—Rapid progress is being made with the construction work on this road. The completion of the line to Sallisaw, Indian Territory, will be accomplished early in January and will give the company a new route via the Missouri Pacific system to New Orleans. A month later the road will be completed further South to Poteau, where connection will be made with the St. Louis & San Francisco. About the same time the construction of the gap between Texarkana and Shreveport will be completed. Reference to the map in the Investors' Supplement will make intelligible these extensions, which are being built by the Arkansas Construction Company. The Kansas City Terminal Construction Company has been organized to construct the line South from Shreveport to Port Arthur and Sabine Pass on the Gulf of Mexico, a distance of some 215 miles. The Construction Company will receive the bonds and stock of the K. C. P. & G. at the rate of $35,000 for each mile of constructed road. The Construction Company is to provide the road with rolling stock to the value of $1,500 a mile. The capital stock of the Kansas City Terminal Construction Company is $3,000,000. The Kansas City Pittsburg & Gulf first mortgage bonds cover the whole line from Kansas City to the Gulf of Mexico.—V. 61, p. 794.

Keokuk & Western RR.—Des Moines & Kansas City RR.—*Purchase of Control.*—The Keokuk & Western RR. Co. has purchased the Des Moines & Kansas City RR., which extends from Des Moines, Ia., southerly to Cainesville, Mo., 112 miles. The Keokuk & Western itself owns a road 143 miles in length, running from Alexandria, near Keokuk, Ia., on the Mississippi River (with trackage rights into Keokuk), westerly to Van Wert, Ia. The new acquisition affords it access northerly to Des Moines. The Des Moines & Kansas City is a narrow-gauge line but will be made standard. There has also been talk of extending it to Kansas City. The litigation which followed the foreclosure sale of the Des Moines Iowa & Southern was settled recently by the Federal Court in Des Moines and the Des Moines & Kansas City confirmed in its title to the property.—V. 60, p. 793.

Lehigh & Hudson River Ry.—*Quarterly.*—Earnings for the quarter ending Sept. 30 have been reported as follows:

3 months end. Sept. 30.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance 3 months.
1895	$95,265	$37,848	$34,346	sur.$3,502
1894	89,306	17,025	33,778	def.16,753

Loans and bills payable Sept. 30, 1895, were $333,500, against $397,300 in 1894. Car trusts, $39,155, against $100,305 in 1894.—V. 61, p. 322.

Lehigh Valley RR.—*Bonds Sold.*—Edward B. Smith & Co., of Philadelphia, are understood to have purchased $1,500,000 of Pennsylvania & New York Canal & Railroad 4½ per cent consols, guaranteed principal and interest by the Lehigh Valley RR. Co. The new bonds are issued to retire a like amount of 7 per cent bonds maturing on June 1, 1896. By this operation the consols will become a first lien on the property covered by them, subject only to $1,500,000 of 7 per cents due in 1906, for the retirement of which at maturity consols for $1,500,000 out of the total issue of $10,000,000 are reserved. The saving in interest charges from the present refunding, if the new bonds were sold at par, will be $37,500 per annum.

New Directors.—Eugene Delano, of Brown Bros. & Co., has been elected director to succeed John R. Fell, deceased.

Election.—General Prospects.—The board of directors, as usual, has sent out a circular asking for proxies to be used for the re-election of the present board of directors at the annual meeting Jan. 1. The circular says:

> The forthcoming annual report will show to your satisfaction that not only is your entire property, including the rolling stock, in exceptionally good condition physically, but also that the finances of the company are in most excellent shape, its whole floating debt having been paid or provided for during the present year.
>
> This company has shared in the improvement of the transportation interests which the country generally has witnessed during the past year, and a satisfactory return upon the investment of our stockholders cannot fail to follow such adjustment of the anthracite producing and transporting interests as will secure a fair price for coal. The officers of this company have made repeated efforts to secure this result, and in every way have endeavored to hasten its return to the payment of dividends

Dick Bros. & Co. of Philadelphia, who represent stock and bonds of the Lehigh Valley, have sent out a circular letter regarding the approaching election. The Coal Operators' Association is also seeking representation on the Board.—V. 61, p. 1013.

Lima Northern RR.—*Construction.*—Construction on this road, which is projected from Lima, Ohio, the terminus of the Ohio Southern, to Adrian, Michigan, is progressing rapidly. It is now announced that the road will be continued north from Adrian to Detroit, a further distance of 58 miles. This additional mileage will be covered by the same mortgage as the road from Lima, bonds being issuable under that mortgage at a rate not exceeding $15,000 a mile.—V. 61, p. 925.

Litchfield Carrolton & Western RR.—*Agreement Abandoned.*—The committee, consisting of Louis Fitzgerald, Henry W. Putnam and William D. Guthrie, gives notice to holders of receipts of the Mercantile Trust Company for first mortgage bonds deposited under bondholders' agreement dated May 1, 1894, that the committee deem it expedient to proceed no further under said agreement, and that holders of said receipts are entitled to withdraw the bonds represented by such receipts on surrender of said receipts and payment to the Trust Company of $9 70 per bond as their pro rata share of the expenses of the committee.

On Oct. 26, 1895, the committee issued a circular advising the bondholders of the urgent need of funds to repair the property in order to assure a reasonable degree of safety and economy in the operation of the road, stating that unless such funds were promptly supplied the interests of the bondholders would be sacrificed, and requesting the bondholders to sub-

scribe for $50,000 of receiver's certificates. As the responses of bondholders to such circular have been entirely inadequate the committee feel constrained to withdraw from further representing the bondholders, as above stated. Bonds for $262,000 had been deposited under the agreement.

Long Island Traction.—*Foreclosure Sale*—This company's property was sold at public auction yesterday for $5,500,000 to John G. Jenkins, of the First National Bank of Brooklyn, representing the reorganization committee. This was the only bid. An injunction caused an adjournment of the sale from Thursday until yesterday.—V. 61, p. 1013.

Lynn & Boston RR.—Boston & Revere Beach.—*Lease.*—The Boston & Revere Beach road, which for two years past has been operated under contract by the Lynn & Boston road has now been formally leased to that company, which guarantees $50,000 of 5 per cent bonds, as also dividends as follows on $500,000 of stock: First year, 3 per cent; second year, 4 per cent; thereafter 5 per cent.—V. 61, p. 152.

Manchester & Augusta RR.—Atlantic Coast Line Co.—*Guaranty*—The Safe Deposit & Trust Company of Baltimore gives the following notice to holders of Manchester & Augusta bonds:

The Atlantic Coast Line Company is prepared to guarantee the payment of principal and interest of the first mortgage 5 per cent bonds of the Manchester & Augusta Railroad Company. Holders of said bonds by depositing them with the Safe Deposit & Trust Company of Baltimore, accompanied with a deposit of one dollar per bond, can have the guaranty indorsed thereon.

Milwaukee Street Ry.—*Earnings*—A sworn statement of earnings filed with the city authorities in Milwaukee shows the total passenger earnings of this company for the year ending Dec. 1, 1895, to have been $1,286,880, on which a tax of $21,987 is paid under the law passed last winter, being 1 per cent on the first $250,000, 1½ per cent on the second $250,000 and 2 per cent on the balance.—V. 61, p. 152.

Minneapolis & St. Louis RR.—*Dividend.*—The board of directors on Wednesday declared a semi-annual dividend payable out of the earnings of the road for the six months ending December 31, 1895, of 2½ per cent on the first preferred stock and a semi-annual dividend of 1¼ per cent on the second preferred stock, payable January 15, 1896, at the Central Trust Co. of New York. This is the second dividend the new company have paid on the first preferred and the first distribution the second preferred has received.—V. 61, p. 667.

National Wall Paper—*Decision of Attorney-General.*—Attorney-General Hancock on Thursday rendered in the case of this company an interesting decision regarding the right of corporations in this State to issue stock on "good will." Application had been made asking him to dissolve the company, mainly on the ground that good will had been capitalized contrary to law. The Attorney General refused to do this, saying, among other things: "There is no room for question that good will constitutes property, and property for which the capital stock of a corporation acquiring it can lawfully be issued."

New York Gas Companies.—*Rumored Agreement.*—The recent extraordinary advance in New York gas stocks has given new life to the reports of pending negotiations for a pooling of their interests. The *Evening Post* on Tuesday said that information from a reliable source was to the effect that at least four of the companies—the Equitable, the Mutual, the consolidated and the New York & East River—have entered into such an agreement. Rumors of an out and out consolidation on the part of the companies were officially denied. R. M. Gallaway, President of the Mutual Gas Company, is quoted as saying:

The report of consolidation is absurd because such a thing is absolutely prohibited by our charter. We have always worked in harmony with all the gas companies. I see that a similar denial of the report has been made by the Consolidated Gas Company. Such a proposition has never come before our board and no suggestion of the sort has ever been made.

Another suggested explanation for the advance in Mutual shares is the possible distribution to the stock of the company's surplus.

New York Pennsylvania & Ohio RR.—*Receivership.*—On Saturday, Dec. 7, upon application of holders of claims for $8,000 Judge Norris of Marion, O., appointed Daniel Babst, Jr., receiver of the New York Pennsylvania & Ohio. Subsequently the claims were settled and Babst it is understood was discharged, leaving John Todd, as before, sole receiver.—V. 61, p. 925.

New York & Queens County Ry.—Steinway Ry—*New Bonds*—The *Philadelphia Ledger* says that the New York & Queens County Ry. Co. is the corporation which will absorb in the manner stated last week all the Long Island City street railroads, including the Steinway Ry. and the other companies held in its interest, namely: The Newtown Ry. Co., Riker Avenue & Sanford's Point Ry. Co., Flushing & College Point Ry. Co., Long Island City & Newtown Ry. Co. The new corporation will make a mortgage for $3,500,000 of 5 per cent 50 year gold bonds, of which $2,000,000 will now be issued. Most of this amount is reported to have met with ready sale in Philadelphia. Bonds for $500,000 are to be reserved in the treasury. The new company it is understood will take control on January 1. In addition to controlling the street railway system of Long Island City, the Steinway Company owns an extensive electric-lighting plant, which passes also into the hands of the Philadelphia syndicate. The intention is to enlarge the lighting plant and develop the business.—V. 61, p. 795.

Northern Pacific RR.—*Receivership.*—There is no change in the anomalous condition of affairs by which four sets of receivers are in charge of this one railroad. The various circuits refuse to harmonize, though the representatives of the stock and bonds have united in their efforts to bring the property under one jurisdiction. Judge Jenkins holds that he cannot allow the claim that his Court assumed improper powers in appointing the original receivers, as so doing would invalidate their actions. United States Attorney-General Harmon, in his annual report to Congress, makes some remarks on the subject which are timely. He says:

The Northern Pacific Railroad litigation has called attention in a striking way to the necessity which has long existed of legislation to regulate the appointment of receivers and judicial sales of railroads parts of whose lines are in different circuits. Public, as well as private, interests require the preservation of the unity of such lines in their management, pending foreclosure, and in their sale. This can now be accomplished only by harmony of action among the courts of the various circuits, but the appointment of receivers and the repetition of orders in each circuit cause a multiplication of trouble and expense which can well be avoided. When, however, the different courts refuse to co-operate, not only are public and private interests in the property imperiled and costs more greatly multiplied, but there is constant risk of scandal, from which the administration of justice should be kept free.

There seems to be a general demand for relief. It can readily be afforded by providing that suits to foreclose mortgages or appoint receivers of such railroads shall be brought in the circuit where the principal operating offices are, or in the circuit in which the chief terminals are located, or in that containing the greatest length of track; or full jurisdiction might be given to the court in which suit is first brought.

It appears that either the security holders must take the property out of the hands of the receivers or of a higher court must settle the difficulty. Thus far various obstacles have prevented bringing the matter on appeal before the higher court. In consequence of the condition of receivership matters all reorganization projects are for the present at a standstill.—V. 61, p. 1012.

Ohio Southern RR—*Reorganization.*—The committee, consisting of John I. Waterbury, James D. Smith and Jules S. Bache, invites holders of *consolidated mortgage* bonds and *stock* to deposit same with the Manhattan Trust Company under a preliminary agreement providing that any depositor may withdraw his securities without expense if he is dissatisfied with the plan when issued. Copies of the agreement may be obtained from said trust company.—V. 61, p. 1013.

Omaha & St. Louis Ry.—*Foreclosure Sale*—The sale of this road under foreclosure of the first mortgage is advertised for January 27, 1896, at Council Bluffs. The sale will be subject to all indebtedness of the receiver, including any receivers' certificates outstanding. No upset price is named but a deposit of $50,000 in cash must be made at time of sale.—V 61, p. 611.

Pacific Cable Company—Mexican Telegraph—Central & South American Telegraph.—*New Company*—Parties identified with the Mexican and Central & South American Telegraph companies are organizing the Pacific Cable Co. for the purpose of laying and operating a cable between San Francisco and the Sandwich Islands, Japan, China, Australia and India. Edmund L. Baylies and James A. Scrymser are interested in the new enterprise, which, though an independent organization, will operate in close relation with the other companies named.—V. 60, p. 560; V. 61, p. 870.

Pennsylvania Midland RR.—*Receiver.*—Contractor J. W. Rutherford, of New York, a creditor for $30,000, was last week appointed receiver of this road. He asks permission to issue receiver's certificates for the payment of preferred claims of $50,000, and for the completion of the main line through Bedford County, at a cost of from $125,000 to $150,000.

Philadelphia & Reading RR.—*Reorganization plan.*—It is understood that the plan will not be issued before Tuesday or Wednesday of next week, instead of Monday, as heretofore published. The plan has been underwritten to the amount of $28,000,000 by a syndicate of American and foreign bankers.—V. 61, p. 1014.

Rapid Transit in New York City—*Commissioners' Meeting.*—The three commissioners appointed to determine whether the proposed rapid transit railway should be built will hold their first hearing at 258 Broadway on December 18. The commissioners are F. R. Coudert, G. Sherman and W. H. Gelshenen.

Litigation.—On Wednesday Franklin Bartlett, as trustee, brought suit to restrain the City Comptroller from paying any more money to the Commission which has the construction of the road in charge, on the ground that the law authorizing it is unconstitutional and void.—V. 61, p. 737.

San Diego Land & Town.—*Reorganization Plan.*—A plan has been issued.—V. 61, p. 795.

Southern Ry.—Illinois Central RR.—The rumored purchase of control by these companies jointly of the New Orleans & Northeastern is positively denied.—V. 61, p. 610.

Syracuse Gas Co. (N. Y.)—*Incorporation*—This company was incorporated on Tuesday with authorized capital of $2,500,000 to unite the gas companies of Syracuse. The company is authorized to manufacture and supply gas and electricity for light, heat and power in Syracuse and other cities, towns and villages within the State. The directors are: Robert C. Pruyn of Albany; Stephen Peabody, Emerson McMillan, Henry Seligman and A. C. Humphreys, of New York City; William L. Elkins, Jr., of Philadelphia; James J. Belden, John Danfee, Charles M. Warner, William S. Andrews, Thomas Ryan, William B. Kirk and Hamilton S. White of Syracuse.

Terre Haute Electric Ry.—*Listing.*—The first mortgage bonds of this company for $891,000 have been listed on the New York Stock Exchange.

Toledo St. Louis & Kansas City RR.—*Receiver's Certificates.*—Receiver Pierce has been authorized to purchase 500 30-ton gondola coal cars and to issue 5 per cent certificates to the amount of $150,000 towards the payment for them

Suit.—The stockholders' suit comes up on Monday at Toledo.—V. 61, p. 795.

Union Gas (Brooklyn).—*Notice to bondholders of old companies.*—The Union Gas Company notifies holders of the first mortgage bonds of the Williamsburg, People's, Metropolitan and Fulton Municipal gas companies of Brooklyn, the holders of consolidated first mortgage bonds of the Citizens and of the Union Gaslight companies of said city and the holders of the first mortgage bonds of the Union Gaslight Company, which last must first be exchanged for the consolidated bonds of the company, that it is now prepared to issue for these various issues its own first consolidated mortgage 50-year 5 per cent bonds, on the basis of bond for bond, with interest adjusted to date of the exchange. The exchanges will be made by the New York Guaranty & Indemnity Company.—V. 61, p. 1014.

Union Pacific Denver & Gulf Ry.—*Reorganization Plan.*—Gen. G. M. Dodge, chairman of the bondholders' committee, is quoted as saying the reorganization plan will be issued "in a very few days." As to general trade conditions in the West and South as seen by him on his recent trip he says:

"Matters in Colorado are in good condition. There is the largest crop in the West I have ever seen, but it is not moving. In the Southwest the decrease in the cotton crop has been detrimental to earnings of roads there, but after January 1 expect those roads to show better by comparison with last year."—V. 61, p. 831.

Union Pacific Ry.—*Reorganization—First Mortgage Bonds*—H. Livingston Rogers, agent for bondholders, 9 Pine Street, Astor Building, informs the first mortgage bondholders as follows:

Holders are informed that a communication has been received from the Hon. Henry T. Thurber, in reply to our request to the President for directions to pay overdue coupons from the Treasury, notifying us that the matter has been referred to the Secretary of the Treasury, who now has the same under advisement. The receivers have funds in hand to pay interest on the first mortgage bonds of the Union Pacific main line, but the application for that purpose is being opposed by Kansas Pacific bondholders, though the money has been earned by our property. Holders are therefore notified that there is no occasion to sell their coupons as a condition of surrendering the security for their principal. In a few days the rights of the first mortgage bondholders, and the value of their security, will be fully explained to them by parties not interested in the inferior securities.]

Coupon payment.—Coupons due June 1, 1895 on the 5 per cent collateral trust bonds were payable on and after Dec. 10, 1895, at the office of the New England Trust Co., Boston, Mass. The petition for the payment of the interest due Jan. 1, 1895, on *Union Pacific first mortgage bonds* will be heard in this city by Special Master Judge Cornish within a few days. A favorable report is expected, but it is thought improbable that the coupon will be paid before January first.—V. 61, p. 1014.

United States Cordage.—*Advertised Sale.*—The works of the Tucker & Carter Cordage Co in Brooklyn are advertised for sale Jan. 24 under a judgment obtained in a suit of the executors of the estate of L. Waterbury. The counsel for the United States Cordage say the sale will be stayed by the appeal to State Court of Appeals.—V. 61, p. 872.

Washington & Chesapeake Beach Ry.—*Foreclosure Sale.*—This property was purchased on Tuesday at foreclosure sale by J. Kennedy Tod & Co., of this city, for $31,000.—V. 61, p. 795.

Western Union Telegraph.—*Quarterly.*—The *estimated* revenue for the quarter and the six months ending December 31, 1895, compared with *actual* results in 1894, have been reported as follows:

3 months end. Dec 31.	Net revenue.	Interest & sink. fund.	Dividend.	Balance surplus
1895 (estimated)	$1,700,000	$243,550	$1,191,945	$264,505
1894 (actual)	1,580,996	243,901	1,191,934	145,161
6 months				
1895 (estimated)	$3,542,649	$487,107	$2,383,890	$671,652
1894 (actual)	3,394,560	486,707	2,383,857	523,996

Total surplus December 31, 1895 (estimated), $8,119,128, against $7,531,629 in 1894.

Directors have declared the regular 1¼ per cent dividend, payable January 15, 1896.

The actual figures for the quarter ending September 30, 1895, show a surplus of $407,146 over charges and dividends. The estimated surplus (see statement in V. 61, p. 474,) was $414,555.—V. 61, p. 968.

—Holders of Central Trust Company certificates for first mortgage bonds of the Indianapolis Decatur & Springfield Railway Company are informed that, pursuant to the arrangement authorized at a meeting of the certificate holders held December 9, the Central Trust Company is now prepared to distribute to certificate holders 100 per cent on their certificates in new 5 per cent first mortgage bonds of the said railway ex January coupon.

—Messrs. Pfeiffer & Pronick issue a very interesting and complete sheet of quotations of street railway, gas, trust company and miscellaneous securities that will be forwarded on request.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, December 13, 1895.

General business conditions have undergone no important change during the current week. The handling of nearly all staple commodities was moderate, as is common toward the close of the year, when operators for the time being endeavor to avoid new obligations. In addition to feeling the quieting influence of natural seasonable trade features, business people generally are disposed to move with much caution while awaiting development of financial policy by the present Congress. Speculation in leading articles of merchandise has been free from unusual excitement. Low temperature has prevailed over a large area, and in Middle, Northern and Western latitudes inland navigation has practically closed for the season. Advices from the wheat-growing section report that in some localities the cold weather threatens fall-sown grain in consequence of inadequate snow covering.

For lard on the spot there has continued a dull and weak market. Offerings have been quite liberal and prices have declined, closing at 5·47½c. for prime Western, 5@5·10c. for prime City and 6c. for refined for the Continent. In the local market for lard futures speculation has been at a standstill, but nominal prices have been quoted lower in response to weaker advices from the West, where packers have been free sellers, prompted by the continued heavy receipts of swine.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
December.....c.	5·60	5·60	5·50	5·45	5·45	5·50

A limited amount of business was transacted in pork, and prices were quoted unchanged and steady, closing at $9@9 50 for mess, $10@10 25 for family and $9 50@11 for short clear. Cut meats have had a limited call at steady prices, closing at 5@5¼c. for pickled bellies, 12@10 lbs. average, 5c. for pickled shoulders and 8½@9c. for pickled hams. Beef has been quiet but steady, closing at $7 50@8 for mess, $8 50@11 for packet, $10@13 for family and $16@18 for extra India mess. Beef hams have been dull but steady, closing at $15@15 50. Tallow has declined, closing with large sales at 4c.

Oleo-stearine has also declined, closing dull at 5@5½c. Lard stearine has been dull and weaker, closing at 6c. Cotton-seed oil has weakened slightly, but the close was steady at 25@26c. for prime crude and 29c. for prime yellow. Butter has been in light supply and firmer for choice grades, closing firm at 16@27c. for creamery. Cheese has been moderately active and steady, closing at 7¼@10½c. for State factory, full cream. Fresh eggs have been quiet but steady, closing at 24c. for choice Western.

Coffee has shown an irregular tone, but in the main favored buyers, as no considerable quantity of stock could be placed without allowing concessions. Rio quoted at 14½c. for No. 7, good Cucuta 17¾c. and standard quality Java 26c. Contracts for future delivery offered with less freedom, but found little investing demand, and ruled only barely steady, but at the close shows some firmness. The following were the final asking prices.

Dec.....13·80c.	March.....13·60c.	June.....12·75c.
Jan.....13·75c.	April.....13·25c.	July.....12·55c.
Feb.....13·65c.	May.....13·05c.	Sept.....12·15c

Raw sugars sold with less freedom, but have been offered sparingly and indifferently in all positions and full rates insisted upon. Centrifugal quoted 3½c. for 96-deg. test and muscovado 3⅛c. for 89-deg. test. Refined sugars less active but steady; granulated quoted 4⅝c. Other staple groceries generally steady.

Kentucky tobacco has been in fairly active demand for export and prices have been firm; sales 275 hhds. Seed leaf tobacco has been in slightly better request and prices have held steady; sales for the week were 1,260 cases, as follows: 200 cases 1894 crop, New England Havana, 4½@17½c.; 100 cases 1893 crop, New England Havana, 5@9c.; 140 cases 1894 crop, New York State Havana, 6½@12c.; 120 cases 1893 crop, New York State Havana, 9@11c.; 100 cases 1892 crop, Wisconsin Havana, 13@16c; 100 cases 1894 crop, Wisconsin Havana, 3@7c.; 200 cases 1893 crop, Gebhart's, private terms; 100 cases 1894 crop, Zimmers', 10¾@11c.; 100 cases 1893 crop, Pennsylvania Havana, 11@11½c., and 100 cases 1893 crop, Pennsylvania seed leaf, 9@12c.; also 500 bales Havana, 68c.@$1 05, and 150 bales Sumatra, 60c.@$2 40 in bond.

Speculation in the market for Straits tin has continued slow, and in the absence of sustaining features prices have weakened slightly, closing dull at 13 95c. Ingot copper has also weakened slightly, closing quiet at 10·65c. for Lake. Lead has been weaker, closing dull at 3·20@3·25c for domestic. Spelter has declined and the close was flat at 3 40c. for domestic. Pig iron has been quiet but steady, closing at $12@14 50 for domestic.

Refined petroleum has advanced, closing at 8c. in bbls., 5·50c. in bulk and 8·75c. in cases; crude in bbls. has been nominal; naphtha unchanged at 8·25c. Crude certificates have advanced, closing at $1 52 bid. Spirits turpentine has also advanced and the close was firm at 27½@28c. Rosins have been dull but steady, closing at $1 72½@$1 75. Wool has been quiet and without change. Hops have been dull and weak

COTTON.

FRIDAY NIGHT, December 13, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 234,059 bales, against 227,091 bales last week and 199,533 bales the previous week, making the total receipts since the 1st of Sept., 1895, 2,921,610 bales, against 4,463,603 bales for the same period of 1894, showing a decrease since Sept. 1, 1895, of 1,541,993 bales.

Total 1893	200,523	33,735	73,706	19,018	326,982	879,214

Speculation in cotton for future delivery at this market has been of only ordinary proportions. On the average the inclination was slightly bullish, based upon promising statements from Manchester and a belief that crop movement will fall away after opening of the new year. Saturday's dealings were moderate and unimportant, with numerous small fluctuations and final rates showing 2 points net gain. Monday's market was firmer, influenced by comparatively strong cable advices and more general comment upon the small visible supply, prices advancing 9@10 points. Tuesday opened 8 points easy and advanced 17 points from lowest, finally closing at 12 points net gain. The stimulus was found in the monthly statement of the Agricultural Bureau, appearing to indicate a yield of 6,875,000 bales and which induced liberal covering of short engagements and some fresh investment. But on Wednesday there was a sharp reaction of 15 points in consequence of seeming indifference of Liverpool toward the Government crop estimate, small local investors of the previous day selling out freely. Yesterday private accounts from abroad were reassuring again, and a great deal of quiet covering with some investment buying stimulated an advance of 6@7 points. To-day dealing has been principally local, with small fluctuations, with prices on the whole pretty steady. Cotton on the spot is dull at 8 9-16c. for middling uplands.

The total sales for forward delivery for the week are 1,026,500 bales. For immediate delivery the total sales foot up this week 5,591 bales, including 1,400 for export, 1,991 for consumption, — for speculation and 2,200 on contract. The following are the official quotations for each day of the past week — December 7 to December 13.

Rates on and off middling, as established Nov. 22, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	c. 1 1/4 on	Good Ordinary	c. 1 off.
Middling Fair	7/8 on	Good Middling Tinged	Even.
Strict Good Middling	1/2 on	Strict Middling Stained	7/32 off.
Good Middling	5/16 on	Middling Stained	3/8 off.
Strict Low Middling	3/16 off.	Strict Low Mid Stained	25/32 off.
Low Middling	5/8 off.	Low Middling Stained	1 1/4 off.
Strict Good Ordinary	11/16 off.		

On this basis the prices for a few of the grades would be as follows.

UPLANDS	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	7 1/4	7 5/16	7 7/16	7 3/8	7 1/2	7 9/16

☞ The imports into Continental ports the past week have been 112,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 492,342 bales as compared with the same date of 1894, a falling off of 402,007 bales over the corresponding date of 1893 and a decrease of 370,749 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to December 13, 1895. Receipts. This week.	Receipts. Since Sept. 1, 1895.	Shipm'ts This week.	Stock Dec. 13	Movement to December 14, 1894. Receipts. This week.	Receipts. Since Sept. 1, 1894.	Shipm'ts This week.	Stock Dec. 14.

* Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 23,684 bales and are now 54,766 bales *more* than at same period last year. The receipts at all the towns have been 92,615 bales *less* than same week last year and since Sept. 1 are 1,191,369 bales *less* than for same time in 1894.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stock at Interior Towns			Receipts from Plant'ns.		
	1895	1894	1893	1895	1894	1893	1895	1894	1893
Nov. 8	29 141	30,668	167,963	344,125	471,127	415,175	317,738	444,094	248,112
" 15	269,171	271,402	229,749	355,670	467,219	431,629	445,686	462,554	285,600
" 22	250,...	257,342	214,450	349,...	465,438	471,914	342,019	438,161	283,317
" 29	250,944	265,...	189,...	332,...	443,...	494,118	360,...	389,706	221,737
Dec. 6	231,...	244,...	207,...	344,...	464,...	522,...	320,...	382,...	265,...
" 13	234,059	363,136	294,...	355,...	459,...	501,...	322,827	359,719	267,743

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 3,445,282 bales; in 1894 were 4,997,874 bales; in 1893 were 3,997,545 bales.

2.—That although the receipts at the outports the past week were 231,039 bales, the actual movement from plantations was 267,743 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 359,719 bales and for 1893 they were 327,638 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Dec. 13 and since Sept. 1 in the last two years are as follows.

December 13.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	29,001	278,711	46,900	491,595
Via Cairo	11,275	122,676	17,...	183,501
Via Parker City	686	9,683	2,...	14,300
Via Evansville	...	24	40	1,148
Via Louisville	3,713	74,099	9,346	89,542
Via Cincinnati	4,066	35,011	8,352	88,060
Via other routes, &c	4,798	32,120	9,028	72,737
Total gross overland	53,539	552,347	93,654	943,183
Deduct shipments—				
Overland to N. Y., Boston, &c.	8,181	90,446	32,537	144,740
Between interior towns	305	2,167	1,392	12,673
Inland, &c., from South	969	21,589	1,774	35,723
Total to be deducted	9,455	114,202	35,703	193,136
Leaving total net overland*	43,084	438,145	57,951	750,047

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 43,084 bales, against 57,951 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a falling off from a year ago of 311,902 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Dec. 13	234,059	2,921,610	363,136	4,463,603
Net overland to Dec. 13	43,084	438,145	57,951	750,047
Southern consumption to Dec. 13	22,000	300,000	21,000	271,000
Total marketed	299,143	3,659,755	442,087	5,484,650
Interior stocks in excess	23,684	523,672	17,583	444,271
Came into sight during week	322,827		459,670	
Total in sight Dec. 13	...	4,183,427	...	5,928,921
North'n spinners tak'gs to Dec. 13	70,812	814,801	91,237	1,223,704

It will be seen by the above that there has come into sight during the week 322,827 bales, against 459,670 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 1,745,494 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that the temperature has been low in many sections of the South the past week with snow reported in portions of South Carolina. In the Southwest the weather has been dry as a rule, and elsewhere the rainfall has in general been light.

Galveston, Texas.—The weather has been favorable for the completion of picking the past week and some cotton has been brought to the gins. Very little of the crop remains ungathered. There has been rain on two days of the past week, the rainfall being fifty-eight hundredths of an inch. The thermometer has ranged from 43 to 69, average 61.

Palestine, Texas.—The weather has been cold and dry all the week. Average thermometer 49, highest 73 and lowest 36.

Columbia, Texas.—There has been no rain during the week. The thermometer has averaged 50, the highest being 73 and the lowest 28.

Cuero, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 54, and ranged from 34 to 74.

Brenham, Texas.—It has been dry all the week. The thermometer has ranged from 36 to 71, averaging 54.

Huntsville, Texas.—Dry weather has prevailed all the week, with freezing temperature at times. The thermometer has averaged 50, the highest being 74 and the lowest 30.

Dallas, Texas.—There has been no rain the past week, but temperature has been low. The thermometer has averaged 51, ranging from 28 to 74.

San Antonio, Texas.—We have had no rain all the week. The thermometer has ranged from 35 to 76, averaging 56.

Luling, Texas.—The weather has been dry all the week. Average thermometer 51, highest 70 and lowest 32.

Belton, Texas.—The weather has been dry and cold the past week. Average thermometer 50, highest 74 and lowest 30.

Fort Worth, Texas.—We have had cold and dry weather the past week. The thermometer has averaged 50, the highest being 78 and the lowest 27.

Weatherford, Texas.—There has been no rain during the past week. The thermometer has ranged from 28 to 74, averaging 51.

Lampasas, Texas.—Some cotton is still coming in.

New Orleans, Louisiana.—We have had rain on two days of the week, to the extent of sixty-seven hundredths of an inch. Average thermometer 53.

Shreveport, Louisiana.—It has rained on two days of the week to an inappreciable extent. The thermometer has ranged from 30 to 69, averaging 49.

Columbus, Mississippi.—We have had rain on one day of the week, the precipitation being forty-five hundredths of an inch. The thermometer has averaged 46, the highest being 70 and the lowest 30.

Leland, Mississippi.—It has been dry all the week. The thermometer has averaged 48, ranging from 21 to 69.

Vicksburg, Mississippi.—We have had rain on one day of the past week, the precipitation reaching fourteen hundredths of an inch. The thermometer has ranged from 27 to 70, averaging 47·6.

Little Rock, Arkansas.—There has been no rain during the week. Average thermometer 43, highest 62 and lowest 26.

Helena, Arkansas.—We have had a heavy shower on one day of the week, to the extent of fifty-eight hundredths of an inch. The thermometer has averaged 41, the highest being 65 and the lowest 24.

Memphis, Tennessee.—It has rained on one day of the week, to the extent of seventeen hundredths of an inch. The thermometer has averaged 41·1, ranging from 23·8 to 63·6.

Nashville, Tennessee.—Telegram not received.

Mobile, Alabama.—There has been rain on one day of the week, the precipitation reaching forty-two hundredths of an inch. Average thermometer 48, highest 69 and lowest 27.

Montgomery, Alabama.—Farmers are inclined to hold on to their cotton in anticipation of an advance in value. Rain has fallen on two days of the week, the precipitation reaching sixty-one hundredths of an inch. The thermometer has averaged 46, the highest being 57 and the lowest 35.

Selma, Alabama.—Telegram not received.

Madison, Florida.—We have had rain an one day of the week, the rainfall being forty-six hundreths of an inch. The thermometer has ranged from 37 to 70, averaging 49.

Columbus, Georgia.—There has been rain on two days of the week, to the extent of one inch and two hundredths. Average thermometer 41, highest 53, lowest 21.

Savannah, Georgia.—We have had rain on four days of the week, the rainfall being ninety-six hundredths of an inch. The thermometer has averaged 49, the highest being 71 and the lowest 26.

Augusta, Georgia.—There has been rain on three days of the week to the extent of one inch and twenty-seven hundredths. The thermometer has averaged 44, ranging from 20 to 69.

Charleston, South Carolina.—We have had rain on three days of the week, the rainfall being one inch and eighteen hundredths. The thermometer has ranged from 30 to 69, averaging 48.

Stateburg, South Carolina.—Rain fell on Monday and Tuesday, with some sleet and snow on Tuesday. The rainfall reached one inch and one hundredth. Average thermometer 44·1, highest 67, lowest 23.

Greenwood, South Carolina.—We have had rain during the week, the rainfall reaching one inch and fifty-four hundredths. The thermometer has averaged 32, the highest being 50 and the lowest 20.

Wilson, North Carolina.—It has rained on two days of the week, the rainfall being one inch and fifty-eight hundredths. The thermometer has averaged 40, ranging from 20 to 62.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock December 12, 1895, and December 13, 1894.

		Dec. 12, '95.	Dec 13, '94.
		Feet.	*Feet.*
New Orleans	Above zero of gauge.	2·3	2·7
Memphis	Below zero of gauge.	0·5	0·6
Nashville	Above zero of gauge.	1·8	*4·7
Shreveport	Below zero of gauge.	1·5	4·7
Vicksburg	Below zero of gauge.	0·5	2·3

* Below zero of gauge.

JUTE BUTTS, BAGGING, &c.—There has been a very limited demandfor bagging the past week but prices have held fairly steady as a rule, the close to-night being at 3⅞c. for 1¾ lbs., 4¼c. for 2 lbs. and 4¾c. for standard grades. Car-load lots of standard brands are quoted at 3⅞c. for 1¾ lbs., 4¼c. for 2 lbs., and 4¾c. for 2¼ lbs., f. o. b. at New York. Jute butts on the spot have been very dull, no transactions being reported. Quotations are nominally unchanged at 1 1-16c. for paper quality and 1⅛c. for mixing.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Dec. 12.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week. Great Brit'n.	Shipments this week. Conti nent.	Shipments this week. Total.	Shipments since Sept. 1. Great Britain	Shipments since Sept. 1. Continent.	Shipments since Sept. 1. Total.	Receipts. This Week.	Receipts. Since Sept. 1.
1895	1,000	14,000	15,000	3,000	98,000	101,000	62,000	349,000
1894	.....	1,000	1,000	5,000	20,000	25,000	20,000	80,000
1893	.....	19,000	19,000	7,000	94,000	101,000	32,000	176,000
1892	.....	4,000	4,000	5,000	71,000	76,000	31,000	134,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 42,000 bales and an *increase* in shipments of 14,000 bales, and the shipments since Sept. 1 show an *increase* of 76,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Cocoanada.

	Shipments for the week. Great Britain.	Shipments for the week. Conti nent.	Shipments for the week. Total.	Shipments since Sept. 1. Great Britain.	Shipments since Sept. 1. Continent.	Shipments since Sept. 1. Total.
Calcutta—						
1895	.....	2,000	2,000	4,000	7,000	11,000
1894	.....	.....	.....	3,000	2,000	5,000
Madras—						
1895	.....	.....	.....	14,000	11,000	25,000
1894	.....	.....	.....	12,000	9 000	21,000
All others—						
1895	.....	1,000	1,000	14,000	22,000	36,000
1894	.....	.....	.....	12,000	18,000	30,000
Total all—						
1895	.....	3,000	3,000	32,000	40,000	73 000
1894	.....	.....	.....	27,000	29,000	56,000

The above totals for the week show that the movement from the ports other than Bombay is 3,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895. This week.	1895. Since Sept. 1.	1894. This week.	1894. Since Sept. 1.	1893. This week.	1893. Since Sept. 1.
Bombay	15,000	101,000	1,000	25 000	19,000	101,000
All other ports	3,000	72,000	.....	56,000	2,000	65,000
Total	18,000	173,000	1,000	81,000	21,000	166,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, December 11.	1895.	1894.	1893.
Receipts (cantars*)			
This week	250,000	260,000	240,000
Since Sept. 1	2,953,000	2,173,000	2,156,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	22,000	157,000	11,000	116,000	15,000	116,000
To Continent†	21,000	112,000	15,000	118,000	13,000	89,000
Total Europe	43,000	269,000	26,000	234,000	28,000	205,000

* A cantar is 98 pounds.

† Of which to America in 1895, 15,050 bales; in 1894, 13,600 bales; in 1893, 2,621 bales.

This statement shows that the receipts for the week ending Dec. 11, were 250,000 cantars and the shipments to all Europe 43,000 bales.

MANCHESTER MARKET.—Our report received by cable to night from Manchester states that the market is quiet for yarns and firm for sbirtings. The demand for both home trade and foreign markets is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895. 32s Cop. Twist.	1895. 8¼ lbs. Shirtings, common to finest.	1895. Cott'n Mid. Upids	1894. 32s Cop. Twist.	1894. 8¼ lbs. Shirtings, common to finest.	1894. Cott'n Mid. Upids
	d. d.	s. d. s. d.	d.	d. d.	s. d. s. d.	d.

" 13	6 3/4 @7 7/16	4 5 1/2@6 8	4 5/8	5 5/16 @6	4 1 1/2@6 1 1/2	3 3/32

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Dec. 13) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Dec. 13.	1895. This week.	1895. Since Sept. 1.	1894. This week.	1894. Since Sept. 1	Stock 1895.	Stock 1894.
Savannah	3,633	51,963	4,039	47,254	13,242	14,660
Charleston	742	7,048	542	4,315	1,918	2,896
Florida, &c.	236	2,907	216	2,743	3,931	1,855
Total	4,611	61,918	4,827	54,312	19,091	18,473

The exports for the week ending this evening reach a total of 618 bales, of which 448 bales were to Great Britain, 70 to France and 100 to Reval, and the amount forwarded to Northern mills has been 2,695 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Dec. 13. Great Brit'n.	Week Ending Dec. 13. Fr'nce &c.	Week Ending Dec. 13. Total.	Since Sept. 1, 1895. Great Brit'n	Since Sept. 1, 1895. Fr'nce &c.	Since Sept. 1, 1895. Total.	North'n Mills Week	North'n Mills Since Sept. 1
S'vann'h, &c	.....	.....	.....	10,623	2,269	12,892	2,009	17,577
Charl't'n, &c	.....	....		2,719	32	2,751	450	619
Florida, &c.			.....	.....	...	.....	236	1,782
New York	264	170	434	5,486	1,921	7,407	.....	.....
Boston	184	.....	184	184	.....	184	.....	.....
Baltimore	.....	.....	.....	.....	.....	.....	.....	.....
Total	448	170	618	19,012	4,222	23,234	2,695	19,978
Total 1894	491	375	866	13,004	2,585	15,589	2,786	21,536

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Dec 13 at Savannah, for Floridas, common, 11¾c.; medium fine, 15c.; choice, 17c.

Charleston, Carolinas, medium fine, 23 to 23½c.; fine, 25c.; fully fine, 26c.; extra fine, 35 to 40c.

EUROPEAN COTTON CONSUMPTION TO DECEMBER 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to December 1. We give also revised totals for last year that comparison may be made. The spinners' takings in *actual* bales and pounds have been as follows:

October 1 to December 1.	Great Britain	Continent.	Total.
For 1895.			
Takings by spinners...bal	536,000	533,000	1,094,000
Average weight of bales, lbs	496	489	492·6
Takings in pounds	275,776,000	263,082,000	538,858,000
For 1894.			
Takings by spinners...bales	597,000	704,000	1,301,000
Average weight of bales, lbs.	499	492	495·7
Takings in pounds	298,307,000	346,653,000	644,960,000

According to the above, the average weight of the deliveries in Great Britain is 496 pounds per bale this season, against 499 pounds during the same time last season. The Continental deliveries average 489 pounds against 492 pounds last year,

and for the whole of Europe the deliveries average 492·6 pounds per bale against 495·7 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 400 pounds.

Oct. 1 to Dec. 1 Bales of 400 lbs. each, 000s omitted.	1895. Great Britain.	1895. Continent.	1895. Total.	1894. Great Britain.	1894. Continent.	1894. Total
Spinners' stock Oct 1.	53,	595,	653,	16,	348,	364.
Takings in October...	316,	282,	598,	381,	289,	670.
Total supply.....	374,	877,	1,251,	397,	637.	1,034
Consump. Oct., 4 wks.	320,	400,	720,	328,	380.	708
Spinners' stock Nov. 1	54,	477,	531,	69,	257.	326
Takings in November.	373,	376,	749,	364,	577.	941
Total supply.....	427.	853,	1,280.	433.	834	1,267
Consump. Nov., 4 wks.	320.	400.	720.	328.	380.	708
Spinners' stock Dec. 1	107	453.	560.	105	454.	559

The comparison with last year is made more striking by bringing together the above totals and adding the average weekly consumption up to this time for the two years.

Oct. 1 to Dec. 1. Bales of 400 lbs. each, 000s omitted.	1895. Great Britain	1895. Continent.	1895. Total.	1894. Great Britain	1894. Continent.	1894. Total.
Spinners' stock Oct. 1	58,	595.	653.	16	348	364
Takings to Dec. 1.....	689.	658	1,347	745.	866	1,611,
Supply.....	747,	1,253,	2,000.	761.	1,214	1,975,
Consumpt'n, 9 weeks.	640	800	1,440	656,	760.	1,416,
Spinners' stock Dec. 1	107.	453	560	105	454	559
Weekly Consumption, 000s omitted.						
In October	80,0	100,0	180,0	82.0	95,0	177,0
In November	80,0	100,0	180,0	82.0	95,0	177 0

The foregoing shows that the weekly consumption is now 180,000 bales of 400 pounds each, against 177,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 29,000 bales during the month but are now only 1,000 bales greater than at the same date last year.

NEW ORLEANS COTTON EXCHANGE.—The new board of directors of the New Orleans Cotton Exchange met on Wednesday, December 4, and re-elected Mr. Henry G. Hester, Secretary and Superintendent, for his twenty-sixth consecutive term, and appointed the following standing committees to serve during the ensuing year: Supervision—Felix Couturie, Chairman, N. Eustis, W. H. Langsfield, J. H. Williams, F. B. Hayne; Finance—A. Brittin, Chairman, J. Weis, C. L. De Fuentes.

AGRICULTURAL DEPARTMENT'S REPORT FOR DECEMBER.—The Agricultural Department's report on cotton for December is given below:

A crop equal to 6?·3 per cent of last year's, or 6,375,000 bales of 500 pounds, is indicated in final returns from county and State correspondents. More complete reports based on the commercial movement will be issued in 1896, the first of them probably in February. Mean farm price 7·59 cents, a gain of 85 per cent on last year's figures, 4·6 and of 9 per cent on 1893. Returns from correspondents are almost uniformly unfavorable as to quantity, the weather having proved generally disastrous.

The drouth caused an unusually early marketing throughout the cotton area, with an almost total sacrifice of top crop. The lint, however, is generally clean, so that the quality is exceptionally high. Many reports show crops completely gathered and marketed.

THE EXPORTS OF COTTON from New York this week show a decrease compared with last week, the total reaching 11,139 bales, against 9,784 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1895, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1895.

Exported to—	Week Ending— Nov. 12	Nov. 20	Dec. 6	Dec. 13	Total since Sept. 1.	Same period previous year

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1895, and in previous years, have been as follows:

Monthly Receipts.	Year Beginning September 1. 1895.	1894.	1893.	1892.	1891.	1890.
Sept'mb'r	383,986	518,768	377,408	405,355	676,823	732,236
October.	1,202,460	1,622,664	1,311,279	1,135,473	1,532,426	1,365,231
Novemb'r	912,759	1,607,662	1,272,776	1,125,855	1,376,909	1,145,416
Total...	2,499,105	3,749,088	2,961,543	2,666,683	3,586,158	3,242,883
Per'tage of tot. port receipts Nov. 30..	47·57		49·50	52·04	50·10	46·37

This statement shows that up to November 30 the receipts at the ports this year were 1,249,983 bales less than in 1894 and 462,438 bales less than in 1893. By adding to the totals to Nov. 30 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

	1895.	1894.	1893.	1892.	1891.	1890.

Percentage of total port rec'pts Dec.13	55·44		58·63	60·70	57·24	53·44

This statement shows that the receipts since Sept. 1 up to to-night are now 1,447,897 bales less than they were to the same day of the month in 1894 and 586,080 bales less than they were to the same day of the month in 1893. We add to the table the percentages of total port receipts which had been received to December 13 in each of the years named.

THE FOLLOWING ARE THE GROSS RECEIPTS OF COTTON at New York, Boston, Philadelphia and Baltimore for the past week, and since September 1, 1895.

BREADSTUFFS.

Friday, December 13, 1895.

Early in the week the demand for wheat flour was fairly brisk for trade brands, and there was also some buying of the better shipping grades for export. Prices were quoted firm, and in some instances slightly higher prices were asked; but subsequently a decline in the grain caused buyers to withdraw, but prices were steadily held. Rye flour has had a fair call at steady prices. Buckwheat flour has received a trifle more attention, and prices have been steady. Corn meal has been quiet and unchanged. To-day the market for wheat flour was quiet but stead.

Speculation was fairly active in the market for wheat futures early in the week and prices advanced rather sharply on a brisk demand from shorts to cover contracts, stimulated by an unexpected decrease in the supply in sight, but later quiet and disappointing foreign advices and a continued free movement of the crop in the Northwest prompted realizing sales by "longs," causing the improvement to be more than lost. In the spot market a limited amount of business has been transacted, and yesterday the sales included 40,000 bushels No. 1 hard spring for export to South Africa at 1¾c. over May f. o. b. afloat, delivery December 20th, 2⅝c. over May f. o. b. afloat for delivery January 20th, 4c. over May f. o. b. afloat for delivery February 20th and 5½c. over May f. o. b. afloat for delivery March 20th. To-day the market declined under reports of a large increase in stocks at the Northwest during the past week and that the Argentine Republic has a surplus of 50,000,000 bushels of wheat for export. The spot market was fairly active. The sales included No. 1 Northern at ⅜c. over May f. o. b. afloat, No. 1 hard spring at 1¾c. over May f. o. b. afloat, and No. 3 hard Manitoba on private terms.

The speculative dealings in the market for Indian corn futures has been quiet and prices have gradually declined under free offerings, prompted by a full crop movement and dull and easier foreign advices. In the spot market shippers have been fairly large buyers, but at declining prices. The sales yesterday included old No. 2 mixed at 35c. in elevator, new do. at 34½c. in elevator and 36@36¼c. f.o.b. afloat; also steamer mixed at 34c. in elevator. To day the market was dull and easier. The spot market was weaker. The sales included No. 2 mixed at 34¼c. in elevator, 35¼c. delivered and 35⅝@36c. delivered.

Oats for futures have been lifeless and prices have weakened slightly in sympathy with the decline in corn and under a liberal movement of the crop. In the spot market the amount of business transacted has been small but prices have held steady. The sales yesterday included No. 2 mixed at 22¾@ 22¾c. in elevator and No. 2 white at 24½c. in elevator. To-day the market was dull and featureless. The spot market was dull but steady. The sales included No. 2 mixed at 22⅞c. in elevator and No. 2 white at 24½c. in elevator.

AGRICULTURAL DEPARTMENT REPORT ON CEREALS DECEMBER 1.—The Agricultural Department's report on cereals for December 1 is as follows:

The December returns to the Statistical Division of the Department of Agriculture relate principally to farm prices December 1.

The farm price of corn averages 28·7 cents, against 47·6 last year.

The average price of wheat is 63·2 cents per bushel, against 49·8 last year, of rye 44 cents against 49·5, of oats 20·5 cents against 32·6, of barley, 35·4 cents against 44·3, of buckwheat 45·2 cents against 54·2 cents last year.

The returns show the average price of hay to be $7·38 per ton against $8·45 same date last year. The average price of tobacco is returned at 6·6 cents against 6·7 cents last year. The price of potatoes on the farm is reported at 28·8 cents per bushel against 55·5 cents last year.

The condition of winter wheat on December 1st averaged for the country 91·4 per cent, against 89 last year and 94·5 in 1893.

In the principal winter wheat states the percentages are as follows: Ohio, 76; Michigan, 72; Indiana, 80; Illinois, 79; Missouri, 76; Kansas, 80; Nebraska, 90; California, 100.

The returns make the acreage of winter wheat just sown 104·6 per cent of that harvested in 1895. This estimate, which is preliminary to the completed estimate of June next, therefore makes the area sown for the harvest of 1896 23,647,000 acres.

☞ For other tables usually given here see page 1052.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., December 13, 1895.

There has been a limited attendance of buyers in the market this week and spot business has ruled dull in both commission and jobbing circles. The cold weather has helped distribution of seasonable lines with retailers and some improvement in mail orders for supplementary supplies of dark cotton dress fabrics has resulted, but such business is of moderate extent. Spring lines of printed and woven patterned dress cottons have been in fair request again, but there is little disposition on the part of buyers to place orders for future deliveries of staple cottons. The market for the latter shows continued irregularity in prices, with the tendency favoring buyers even in leading makes. Stocks are accumulating in some quarters, but in the aggregate are still moderate. Print cloths have yielded another 1-16c. at Fall River and are offered at 3⅛c. for extras at the close. There has been some reduction of opening prices in woolens and worsteds where an endeavor has been made to establish a material advance on last season.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending December 9 were 3,513 packages, valued at $175,834, their destination being to the points specified in the table below:

NEW YORK to Dec. 9.	1895. Week	1895. Since Jan. 1.	1894. Week	1894. Since Jan. 1.
Great Britain	301	4,562	85	5,216

Total	4,013	210,733	5,284	228,682

* From New England mill points direct.

The value of the New York exports for the year has been $8,565,935 in 1895 against $10,960,648 in 1894.

The home demand for staple cottons has again been slow, with an occasional fair sale on export account. The market for brown sheetings, drills, ducks and osnaburgs is irregular, with a downward tendency. There is no improvement in the demand for bleached shirtings or cambrics. Leading tickets in fine and medium grades are without change in prices, but other lines are easy and irregular. Business in wide sheetings is on a small scale at previous prices. Kid finished cambrics slow at 3¾c. for 64 squares. Other linings dull and irregular. Cotton flannels and blankets steady, but new orders are few and light. Denims easy to buy, as are coarse colored cottons generally, with the general demand indifferent. White goods are quiet and easier in staple lines. Fine printed specialties for spring are in fair request, with light fancy calicoes selling moderately. Ginghams are quiet in all grades of dress styles and staples. Napped fabrics and high novelties in fair demand. Print cloths continue rather dull, and towards the close of the week extras were marked down to 3 1 16c., at which some sales are reported.

	1895. Dec. 7.	1894. Dec. 8.	1893. Dec. 9.
Stock of Print Cloths—			
At Providence, 64 squares	108,000	40,000	127,000
At Fall River, 64 squares	77,000	31,000	112,000
At Fall River, odd sizes	79,000	82,000	15,000
Total stock (pieces)	262,000	153,000	254,000

WOOLEN GOODS.—The demand for new heavy-weight woolens and worsteds has again fallen short of expectations, and the disappointment has found expression in the reversion to last season's prices in some leading lines of Clay worsteds, beavers and Kerseys, which opened the season at advances of about 10 per cent. This action has not tended to reassure buyers or to give more stability to the general situation. Some makes of both plain-faced and rough overcoatings have sold well, but there are a number of agents who have secured but an indifferent supply of orders so far. There are few new lines of finer grades of fancies opened yet. The re-order demand for light-weights has improved somewhat with the more favorable weather conditions now prevailing, helping the sales of stocks of heavy-weight garments. The business reported in cotton-warp cassimeres, satinets, doeskin jeans and cloakings have been quiet. Woolen and worsted dress goods are quiet in all lines, with plain fabrics somewhat irregular. Flannels, blankets and carpets are quiet at previous prices.

FOREIGN DRY GOODS.—The market for foreign merchandise has been quiet throughout. Regular seasonable lines and holiday specialties are irregular in price. Spring business on a moderate scale, with no price changes in leading lines of merchandise.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending December 12, and since January 1, 1895, and for the corresponding periods of last year are as follows:

4 WAREHOUSE WITHDRAWALS THROWN UPON THE MARKET.

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)..	$25 00
One Month	(4 times)..	11 00	Six Months	(26 times)..	43 00
Two Months	(8 times)..	18 00	Twelve Months	(52 times)..	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Anniston, Ala.—*Default*—The city of Anniston, Ala., has defaulted on its December 1st coupons. Holders are referred to Messrs. Fisher & Shaw of Baltimore for settlement.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Allegheny County, Pa.—*Bond Call.*—Notice has been given that Allegheny County coupon compromise bonds numbered 434, 439, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453 and 456, and registered compromise bonds numbered 650 and 651 will be paid, with interest to January 1, 1896, upon presentation at the office of the County Comptroller, on which date interest will cease. These securities are dated January 1, 1868, and mature January 1, 1913.

Alfalfa Irrigation District, Ogallala, Neb.—*Bond Offering.*—Bids will be received until December 23 for the purchase of 6 per cent bonds to the amount of $21,500.

Astoria, Ill.—*Bonds Authorized.*—The citizens of Astoria recently voted in favor of issuing $18,000 of water-works bonds.

Bay County, Mich.—*Bonds Authorized.*—County bonds to the amount of $115,000 have been authorized by a vote of 1,051 to 425. The securities will bear 5 per cent interest and $38,000 of the principal will mature in 1908, $38,000 in 1909 and $39,000 in 1910. Both interest and principal will be payable in New York.

Beatrice, Neb.—*Bonds Proposed.*—Six per cent 20-year refunding bonds of Beatrice will probably be issued.

Bexar County, Texas.—*Bonds Approved.*—Court-house bonds of this county to the amount of $82,000 have been approved by the Attorney-General.

Bradford, Pa.—*Bonds Authorized.*—The citizens of Bradford voted recently in favor of issuing $30,000 of bonds. They will be put on the market about February 1, 1896.

Brooklyn, N. Y.—*Bond Offering.*—Proposals will be received until December 28, 1895, by George W. Palmer, City Comptroller, for the purchase of $700,000 of 4 per cent registered tax certificates, maturing September 26, 1896. Payment of purchase money is to be made December 26, 1895, at which time the securities will be dated, and interest will be payable at date of maturity.

Cambridge, Mass.—*Bonds Proposed.*—City Treasurer W. W. Dallinger reports to the Chronicle that the Common Council has not yet passed the ordinance authorizing bonds to the amount of $450,000 for the purchase of the electric-light plant, and that unless it is passed this month the project is killed for three years. If the ordinance should be passed it must then be submitted to a vote of the people at a special election.

The proposition to issue $700,000 of bonds for the purchase of the gas plant has been abandoned.

Cambridge, Wis.—*Bonds Authorized.*—The village of Cambridge has voted to issue $50,000 of bonds to the Chicago & Lake Geneva Railroad.

Cape May, N. J.—*Bond Election.*—A vote will be taken December 24 on issuing $50,000 of bonds for electric lights and a board walk.

Charlotte, N. C.—*Bond Election.*—The people of Charlotte will vote February 18 on issuing $300,000 of water-works bonds, the loan to bear interest at the rate of 5 per cent.

Chicago, Ill.—*Warrant Sale.*—It is reported that City Comptroller Wetherell has disposed of a part of the issue of the one-year 5 per cent water certificates for $500,000 which Chicago has been offering for some time.

Chicago Sanitary District, Ill.—It is reported that this district has sold $1,000,000 of warrants to the Illinois Trust & Savings Bank.

Cole County, Mo.—*Bonds Authorized.*—A vote recently taken on issuing $60,000 of court-house bonds resulted in favor of the proposition.

Concord, N. H.—*Bonds Authorized.*—This city will soon issue $15,000 of 3½ per cent water-works bonds.

Decatur, Ill.—*Bonds Proposed.*—A loan of $230,000 to refund bonds maturing in the spring is under consideration.

Evanston, Ohio.—*Bond Sale*—On Dec. 7, 1895, Wm. H. Krapp, Village Clerk, sold $1,404 09 of 6 per cent sewer bonds, and $3,516 10 of 6 per cent road bonds to the Atlas National Bank of Cincinnati for premiums of $45 and $90 respectively. Bids were also received from August Jos & Co. of Cincinnati and S. A. Kean, of Chicago. Both loans will be dated December 7, 1895, interest will be payable semi-annually and the principal will mature part yearly in from one to ten years. Principal and interest will be payable at the Atlas National Bank, Cincinnati, Ohio.

Galveston, Texas—*Bond Sale*—It is reported that on December 9, 1895, this city sold $200,000 of 5 per cent general indebtedness funding bonds to J. & W. Seligman & Co. The securities are dated November 15, 1895, interest is payable semi-annually on May 15 and November 15, and the principal will mature November 15, 1915, with an option of call after November 15, 1905.

Gilboa, N. Y.—*Bonds Authorized.*—This town will issue $4,000 of 5 per cent bond.

Hartford, Conn.—*Bond Offering.*—Proposals will be received until December 28, 1895, by City Treasurer C. C. Strong for the purchase of $150,000 of 3½ per cent park improvement bonds. The securities will be dated January 1, 1896, interest will be payable semi-annually on January 1 and July 1, at the office of the City Treasurer, and the principal will mature January 1, 1926. Both principal and interest will be payable in gold.

The City Treasurer's advertisement will be found elsewhere in this Department.

Hartford County, Conn.—*Loan Authorized.*—A loan of $90,000 has been authorized for the county jail.

Hatfield, Mass.—*Bond Sale.*—It is reported that on December 7, 1895, this town sold $30,000 of 4 per cent water-works bonds to E. H. Gay & Co. Interest on the loan is payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1926, both principal and interest being payable at the Hampshire County National Bank, Northampton, Mass., or at the Treasurer's office.

Helena, Montana—*Bond Offering.*—Five per cent 7-20 year funding bonds of Helena to the amount of $418,000 and refunding bonds to the amount of $161,500 will be offered for sale on January 2.

Hubbard, Ohio.—*Bond Sale.*—Nine bids were received on December 9 for $6,000 of 5 per cent electric-light bonds, and the securities were awarded to Messrs. Mason, Lewis & Co., of Chicago, for $6,047. One bid of $6,115 was received, but the accompanying check was not drawn in accordance with the requirements. The loan will mature at the rate of $600 yearly from July, 1899, to July, 1908.

Illinois City, Ill.—*Bonds Authorized.*—School-house bonds to the amount of $9,000 have been voted.

Iosco County, Mich—*Bonds Authorized.*—Five per cent 15-year bonds to the amount of $20,000 have been authorized.

Johnson County, Mo.—*Bonds Authorized.*—The people of this county recently voted in favor of issuing $50,000 of court-house bonds.

Kane, Pa.—*Bonds Proposed.*—Bonds will probably be issued for sewer extension.

Kingston, N. Y.—*Bonds Authorized.*—Four per cent refunding bonds to the amount of $75,000 will be issued.

Lynchburg, Va.—*Bond Sale.*—Proposals for $10,000 5of per cent Lynchburg bonds called out bids for an aggregate amount of $70,500. The award was made to Messrs. Fran k

Rosenberg & Co. of Baltimore, at 105 25, with the stipulation that the bonds should be exempt from taxation. The securities are to be dated January 1, 1896, and run for thirty years.

Miles City, Mont.—*Bond Offering.*—Proposals will be received until January 15, 1896, by S. Gordon, City Clerk, for the purchase of $17,000 of 6 per cent water and electric-light bonds. The securities will be dated January 1, 1896, interest will be payable semi-annually and the principal will mature January 1, 1916, with an option of call at any time after January 1, 1906.

Morris County, N. J.—*Bonds Proposed.*—This county will petition the Legislature for authority to issue $300,000 of road bonds.

Morris Independent School District, Minn.—*Bids Rejected.*—The Board of Education of this school district rejected all bids that were received on December 2 for $6,000 of 6 per cent 10-year school bonds. Proposals for the loan are now asked until December 16. Address Louis Thoele, Secretary.

Mount Vernon, Wash.—*Bonds Authorized.*—The voters of Mount Vernon have elected to issue $14,000 of water-works bonds. The securities will bear interest not exceeding 6 per cent and run for 20 years. It has not as yet been decided when they will be offered for sale.

Newark, Ohio—*Bond Offering.*—Proposals will be received until January 2, 1896, by H. D. Woodbridge, Clerk of the Board of Education, for the purchase of $12,500 of 5 per cent bonds. The securities will be dated January 1, 1896, interest will be payable semi-annually, and the principal will mature at the rate of $1,000 yearly from 1897 to 1907, inclusive, and $1,500 in 1908. Six thousand dollars of the above amount will be issued for refunding purposes and the remaining $6,500 for the purchase of land for school house sites, for the improvement of old buildings and for the erection of new ones.

Newberg, Oreg.—*Bond Offering.*—City Recorder J. G. Hadley reports to the CHRONICLE that the interest rate on the 20-year water bonds for $35,000 recently offered has been changed from 5 to 6 per cent and that bids will now be received until December 23.

New Milford, Conn.—*Bonds Authorized.*—This municipality will issue 20-year bonds to the amount of $10,000.

Newton Mass.—*Bonds Authorized.*—Thirty-year sewer bonds to the amount of $50,000, three-year sewer bonds to the amount of $20,000 and 20 year boulevard bonds to the amount of $100,000 have been authorized, the securities all to bear interest at the rate of 4 per cent.

New York City.—*Bond Sale.*—Five bids were received on December 10, 1895, for the purchase of $47,000 of 3 per cent gold stock of the city of New York, and the securities were awarded to Messrs. Blake Bros. & Co. at 101·16. Interest is payable semi-annually on May 1 and November 1, and the principal will mature November 1, 1914. The securities are exempt from city and county tax, but not from State taxation, and are issued for the procuring of new grounds and the erection thereon of buildings for the use of the College of the City of New York.

Niagara Falls, N. Y.—*Bond Sale.*—On December 6 the Board of Public Works of the City of Niagara Falls awarded 4 per cent 30-year redemption water bonds for $4,000 to Isaac W. Sherrill, of Poughkeepsie, on his bid of 104·07, which was the only proposal received. Interest will be payable semi-annually and the bonds will be redeemable at maturity at the Hanover National Bank of New York City.

North Brookfield, Mass.—*Loan Authorized.*—This town will issue a loan not to exceed $15,000.

Oconto, Wis.—*Bonds Proposed.*—Refunding bonds to the amount of $14,000 are under consideration.

Pendleton County, W. Va.—*Bonds Authorized.*—On Dec. 7 a large vote was cast in Pendleton County in favor of issuing bonds for $50,000 to the Chesapeake & Western Railroad in aid of the construction of a line through the county.

Perry, O. T.—*Bond Offering.*—Proposals will be received until January 15, 1896, by James Lobsitz, City Treasurer, for the purchase of $20,000 of 6 per cent 20 to 30 year gold bonds. The city has at present no indebtedness and its assessed valuation is $295,000.

Philadelphia, Pa.—*Bond Offering.*—Mayor Charles F. Warwick will receive bids until December 23 for redemption bonds of the city of Philadelphia to the amount of $1,000,000. The securities will bear interest not to exceed 3½ per cent per annum, and the principal will mature at the rate of $50,000 yearly from December 31, 1905, to December 31, 1924. Bonds for $25 or any multiple of that sum will be issued. Proposals must be made on blanks to be had from the Mayor, and should there be more than one proposal at the same price a pro rata award will be made.

Pierce County School District No. 50, Wash.—*Bond Offering.*—Proposals will be received until December 16 by John B. Hedges, County Treasurer, for the purchase of $300 of five-year school district bonds.

Reeves County, Texas.—*Bonds Approved.*—A loan of $7,000 for refunding has been approved by the Attorney-General.

Richland Centre, Wis.—*Bonds Proposed.*—Bonds to the amount of $40,000 will probably be issued for an asylum.

Rochester, N. Y.—*Notes Authorized.*—It is reported that this city will issue notes to the amount of $182,570.

San Leandro, Cal.—*Bond Election.*—An election will be held in San Leandro on December 16th to vote on the question of issuing electric-light bonds for $10,000 to run 40 years and bear 6 per cent interest.

Shawnee County, Kan.—*Bond Offering.*—Proposals will be received until December 17 for the purchase of $150,000 of bridge bonds. The securities bear interest at the rate of 5 per cent and run 20 years.

Sheffield, Ala.—*Correction.*—The report that Sheffield would issue $50,000 of 6 per cent 30-year gold water and electric-light bonds is incorrect. The city has granted a franchise for water and light.

Sweet Grass County, Mont.—*Bond Sale.*—This county has sold 6 per cent coupon bonds for $85,000 at 103·875. Twelve bids were received for the loan. Interest will be payable semi-annually at the office of the County Treasurer or at the First National Bank, New York, and the principal will mature in twenty years, with an option of call in fifteen years, both principal and interest to be payable in gold coin.

Syracuse, N. Y.—*Bonds Authorized.*—Bids were to be received until December 9 for the purchase of $70,000 of bonds, but it is reported that the sale has been postponed until after January 1, when the amount of the issue will be increased.

Tacoma Wash.—*Bond Sale.*—Seven per cent paving bonds to the amount of $28,000 have been sold to C. H. White & Co. of New York.

Tarrytown, N. Y.—*Bonds Authorized.*—Reservoir bonds to the amount of $150,000 will soon be issued.

Texas.—*Warrant Call.*—The State of Texas has issued a call for warrants numbered from 7,001 to 8,000, amounting in the aggregate to $60,000.

Thomasville, Ga.—*Bond Election.*—Improvement bonds for $35,000 having been authorized by the Georgia Legislature, the question of issuing them will be submitted to a vote of the citizens of Thomasville in January or February. If bonds are voted they will bear 5 per cent interest and run for twenty or twenty-five years.

Toledo, Ohio.—*Bond Offering.*—City Auditor M. S. Wright will receive proposals until December 28 for $150,000 of 5 per cent water-works bonds, to be dated September 1, 1895, and payable at the rate of $30,000 yearly from January 1, 1897, to January 1, 1901, both inclusive. Both principal and semi-annual interest will be payable at the Merchants' & Traders' National Bank of New York City.

Wallingford, Conn.—*Bond Election.*—It is reported that a vote will be taken December 16 on issuing $94,000 of bonds, the securities to bear interest at the rate of 4 per cent.

Westwood, Ohio.—*Bond Sale.*—On December 9, 1895, Robert A. Armstrong, Village Clerk, sold $20,000 of 5 per cent turnpike bonds to S. Kuhn & Sons, of Cincinnati, Ohio, for a premium of $410 and accrued interest. The securities will be for $500 each and will mature in 30 years. Semi-annual interest coupons will be payable at the Atlas National Bank in Cincinnati.

Bond Offering.—Bids will be received at Room 40, Smith Building, Cincinnati, Ohio, for cement sidewalk bonds of Westwood described as follows:

LOANS—	When Due.	LOANS—	When Due.
4s, MAS., $7,000 ..	Sept. 2, 1905	6s, Dec., $592·90 ..	Dec. '96 to '05 (1-10 due yearly.)

6s, Dec., $1,788 ..	Dec '96 to '05 (1-10 due yearly.)		

Both principal and interest of these securities will be payable at the Atlas National Bank of Cincinnati.

Wilson, N. C.—*Bonds Authorized.*—City Clerk J. R. Moore reports to the CHRONICLE that the election on November 25 resulted in favor of issuing $17,000 of sewerage bonds. The securities will soon be offered for sale. They will be dated Jan. 1, 1896, interest at the rate of 6 per cent will be payable annually, and the principal will mature in twenty years.

Woburn, Mass.—*Bond Sale.*—It is reported that this city has sold $25,000 of 4 per cent coupon bonds to Messrs. Brewster, Cobb & Estabrook at 101·927. Eleven other bids were received. Sixteen thousand dollars of the amount, running from 1 to 6 years, are issued for sewer purposes; $7,000 running from 1 to 7 years for highway purposes, and $5,000 running from 1 to 10 years for school-house purposes.

Yonkers, N. Y.—*Bond Sale.*—Yonkers has sold $16,000 of assessment bonds due February 1, 1898, to Messrs. Farson, Leach & Co. at 100·95. Five bids were received for the loan.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Bradford, Pa.—R. A. Dempsey, Mayor. This statement has been corrected to November, 1895, by means of a special report to the CHRONICLE from James A. Lindsey, City Clerk.

Additional bonds to the amount of $30,000 were recently voted and will be put on the market about February 1, 1896.

This city is in McKean County.

PARK IMPROVEMENT BONDS
OF THE
City of Hartford, Conn.

Sealed proposals will be received by the undersigned, at his office, in the City of Hartford, until Monday, the 23d day of December, 1895, at 3 o'clock P. M., for the purchase of the whole or any part of $150,000 of the above named bonds

Said bonds are in denominations of $1,000 each, principal and interest payable in gold, are made due and payable at the office of the Treasurer of the City of Hartford thirty years from January 1, 1896, with interest at three and one-half (3½) per cent per annum, payable semi-annually on the first day of January and July in each year, at said office, upon the surrender of the interest coupons thereto annexed.

Payments to be made and bonds delivered December 31, 1895.

The right is reserved by the Treasurer to reject any or all bids if in his opinion the interest of the city requires it.

Proposals less than par will not be considered.

Proposals must be indorsed on the envelope, "Proposals for the City of Hartford Bonds."

C. C. STRONG,
Treasurer of City of Hartford.

SINKING FUNDS.—By city ordinance all sinking fund income is required to be invested in the city's bonds or notes, in State of Rhode Island bonds, or in United States bonds. The city's bonds to be canceled to prevent re-issue.

The loans for the redemption of which sinking funds are held by the commissioners, and the amounts of the sinking funds October 1, 1895, are shown by the following table:

City hall and sewer loan, due in 1899	$182,297 14
Public improvement loan, due in 1899	320,000 00
Public improvement loan, due in 1900	95 739 92
Water loans, due in 1900	756,299 56
Water loan, due in 1906	221,519 21
Water loan, due in 1916	87,884 38
Water loan, due in 1923	53,266 43
Davis estate loan, due in 1909	14,199 13
School loan, due in 1911	62,596 85
School loan, due in 1925	42,031 13
Sewer loan, due in 1921	129,099 65
Sewer loan, due in 1922	79,599 52
Sewer loan, due in 1923	80,937 26
Sewer loan, due in 1925	111,963 99
Park loan, due in 1922	79,799 83
Highway loan, due in 1924	164,389 86
Total sinking funds October 31, 1895	$2,751,623 86

WATER WORKS.—The water works construction account to Oct. 1, 1895, amounted to $6,504,156 32. In year 1894-95 income from water rents, etc., was $197,644 14; cost of maintenance $100,200 88; interest on water loans, $339,176 08; surplus over maintenance and interest, $58,267 18.

ASSESSED VALUATION.—The valuation and tax rate have been as follows, real estate being assessed at "about two thirds cash value:"

	Assessed Valuation			Tax per	Amount
Years.	Real	Personal	Total	$1,000.	of Tax.
1895.	$129,438,060	$40,346,500	$169,784,560	$16·00	$2,716,552 96
1894.	126,463,800	40,800,400	167,264,200	16 00	2,676,227 20
1893.	119,001,700	40,810,860	159,812,560	16·00	2,557,000 96
1892.	114,656,860	40,885,660	155,542,520	15·00	2,333,137 80
1891.	109,428,720	37,473,120	146,901,840	15·00	2,203,527 60
1890.	104,684,440	35,932,620	140,617,060	15·00	2,109,255 90
1889.	102,850,100	37,627,240	140,477,340	15·00	2,107,160 10
1888.	100,924,720	35,837,840	136,762,560	15·00	2,051,438 40
1887.	99,779,580	34,267,680	134,047,260	14·50	1,943,685 27
1880.	88,012,100	27,908,900	115,921,000	13·50	1,564,933 50
1870.	52,511,800	40,565,100	93,076,900	13·50	1,256,538 15
1860.	37,089,800	21,042,000	58,131,800	5·60	325,538 80

The tax rate in 1895 of $16·00 included State tax of $1·90 and city tax proper $14·10.

POPULATION.—The population for 1895 is reported at 145,472. In 1890 it was 132,043; in 1880 it was 104,856; in 1870 it was 68,904.

Ravenna, Ohio.—A. S. Cole, Mayor. The figures of indebtedness, etc., given in the following statement have been corrected by means of a special report to the CHRONICLE from W. T. Grundel, City Treasurer.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, December 21, have been $1,214,731,791 against $1,105,684,616 last week and $1,010,708,270 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending December 21. 1895.	1894.	Per Cent.
New York	$599,795,100	$468,130,384	+28·1
Boston	82,204,304	76,750,573	+ 7·1
Philadelphia	59,624,371	61,487,583	- 3·0
Baltimore	12,858,690	11,942,029	+ 8·5
Chicago	84,743,213	73,944,550	+14·6
St. Louis	23,284,726	20,673,028	+12·6
New Orleans	11,110,305	10,615,510	+ 4·7
Seven cities, 5 days	$873,121,209	$723,543,657	+20·7
Other cities, 5 days	151,208,783	134,964,782	+12·1
Total all cities, 5 days	$1,024,419,972	$858,518,419	+19·3
All cities, 1 day	190,311,819	152,189,851	+25·0
Total all cities for week	$1,214,731,791	$1,010,708,270	+20·2

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, December 14, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of about one hundred and twenty-six million dollars, but at New York alone the loss is eighty-seven millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 8·0 per cent. Compared with the week of 1893 the current returns record an excess of 18·2 per cent and the loss from 1892 is 24 per cent. Outside of New York the gain over 1894 is 10·1 per cent. The excess over 1893 reaches 16·4 per cent. and making comparison with 1892 the loss is seen to be 10·6 per cent.

Clearings at—	Week ending December 14. 1895.	1894.	1893. P. Cent.	1892.	1892.

THE FINANCIAL SITUATION.

Mr. Cleveland sent a message to Congress yesterday afternoon on the state of our currency, urging immediate action for relief on the part of our legislative body. But if he had made it his study to bring out in strongest relief the financial weakness of the United States he could not have hit upon a better device for doing it than his earlier message to Congress on the Venezuela question. How are we to get the money to enable us to fight Great Britain is the foremost question this document regarding Venezuela raises. We have the men needed and a few ships; but as to money we have not even credit. That is a humiliating admission,—but is it not the exact truth? Even the obligations we have out are returning to us to be paid, whereas in case of war the length of the purse has grown to be almost the test of the relative strength of belligerents. The only suggested relief one hears is—we will put out more greenbacks and then a popular loan, and in this way we will gather in the millions. We have not room here to show the utter weakness of both parts of this suggestion, but while our currency continues as it now is no other resource is left us. Hence if war is really meant the first step in our preparation must be to correct our currency system, and Mr. Cleveland's later message is a distinct recognition of that fact.

We all know what greenbacks are, and we know too that even in our war with the South the system came very near breaking down, and would have broken down had the South possessed any great endurance. By a popular loan is meant a low-rate bond to be taken in large amounts by the public, like the indemnity loan in France. The financial conditions which prevail in France and made such borrowing there a marked success find no correspondence here. Without doubt, shut in to our own market we could raise money on bonds at home so long as confidence in ultimate payment prevailed, but only on conditions which suited the large capitalists and at high rates. Mr. Chase, by experience and under more favorable auspices, found this out. Hence it was that he was led finally to devise the national-banking system, which, through its currency privilege, gave the banks for the time being the power to make double interest, and thereby his loans, with the end of the war in sight, actually became in a sense popular. Those plans succeeded because our antagonist was weak. We need scarcely add that such a financial scheme for carrying on a war with Great Britain would prove not only a futile but a dangerous reliance. For an equal contest we must have the markets of the world to borrow in. Otherwise we enter upon the struggle handicapped in a most material particular.

These thoughts have dominated the foreign exchange market this week and have broken down all values at the Stock Exchange. The excitement was of course aided by the belief that the power to even fortify our gold reserve has been thereby put in doubt. Hence the situation the hasty and ill-considered earlier message of the President has produced may be stated in brief by saying that Europe is hurrying to get out of our securities before the most serious phase of the rupture has developed. Acting in this spirit London speculators and investors began on Wednesday to sell freely through the arbitrage houses all kinds of American stocks held in Europe, and in some cases bonds also. The demand for exchange resulting from this selling brought about a sharp advance in sterling to points which justified shipments of gold by the steamer sailing to day; also the rates for money advanced and this caused stocks to be further unsettled and weak. The disturbance in the markets was increased on Thursday by a general outpour of stocks for European account, induced by the action of the House of Representatives on the previous day in promptly passing an appropriation and providing for a Venezuelan commission accompanied by more or less inflammatory speeches and resolutions. The excitement subsided somewhat on Thursday afternoon when London speculators took a sober second thought induced by news from this side that the Senate was indisposed to act hastily in the matter of the commission. Yesterday, however, there was a sharp and general collapse in prices, owing to the demoralization of the London market for American securities, and also influenced by the rates for money, call money touching 80 per cent.

Money on call, as stated, advanced to 80 per cent at the Stock Exchange yesterday, as the result of the panicky conditions created by the President's message. The close was at 50 per cent. Early in the week bankers' balances loaned generally at 2 per cent, but on Wednesday, in consequence of the flurry in stocks, which compelled some shifting of loans, there was more activity and an advance to 2½ per cent. On Thursday loans were made at 5 and at 1 per cent for small amounts, with the bulk of the business at 2½ and 3 per cent. Yesterday the range was from 4 to 50 per cent; the average for the week was probably about 4 per cent. Banks and trust companies loaned at 2½ per cent as the minimum, but late in the week they were obtaining 3 per cent, though none of them are actively competing in the call-loan branch of the market. Time money is nominally 4@5 per cent for all dates from thirty days to six months, and lenders decline to make engagements at present. The demand for the best mercantile paper is good and the offerings are promptly absorbed. Quotations are nominally 4½ per cent for sixty to ninety day endorsed bills receivable, 4½@5 per cent for four months' commission house and prime four months' single names, 5@5½ per cent for prime six months, and 6 per cent and above for good four to six months' single names.

There appears to have been nothing to disturb the European political situation this week and affairs in Turkey remain without important change. The financial situation has been unsettled by the Venezuelan controversy and consols and American securities declined sharply in London on Wednesday and subsequent days, while discounts grew firmer. The Bank of England minimum rate remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 1 per cent. The open market rate at Paris is 1¾ per cent, at Berlin it is 3¼ per cent and at Frankfort 3½ per cent. According to our special cable from London the Bank of England lost £148,046 bullion during the week and held at the close of the week £44,576,535. Our correspondent further advises us that the loss was due to the import of £582,000 (of which £522,000 were bought in the open market, £50,000 were from Australia and £10,000 were from France), to £377,000 sent to the interior of Great Britain and to the export of £353,000, of which £270,000 were exported to South America and £83,000 were miscellaneous.

The foreign exchange market was dull early in the week and the urgent demand for remittance seemed to

have been satisfied by the exports of gold. Commercial bills were in fair supply, and indeed some of the bankers reported that the offerings on Monday were larger than for some weeks. There were indications then that the shipments of gold this week would be small, and that when these were made no more would be sent for the remainder of the year. As was expected last week Heidelbach, Ickelheimer & Co. on Monday engaged $1,500,000 gold for shipment on the following day and further engagements then were $780,000 by Ladenburg, Thalmann & Co., $500,000 by L. von Hoffmann & Co. and $400,000 by Muller, Schall & Co.; the latter taking coin while the others took gold bars. Brown Bros. reduced the rate for long sterling to 4 88, but there was no change whatever in rates for actual business, which remained at 4 87½@4 87¾ for sixty days, 4 88@4 88¼ for sight and 4 88¾@4 89 for cable transfers. The market grew firmer on Tuesday in consequence of the absorption of offerings, and it was somewhat influenced at the close by the publication of the President's message in the Venezuelan matter. On Wednesday Brown Bros. advanced their rates to 4 88½ for long and 4 90 for short, and Heidelbach, Ickelheimer & Co. moved the sight rate up to 4 90. The tone was strong at an advance of one-quarter of a cent per pound sterling in rates for actual business, to 4 87¾@4 88 for sixty days, 4 88¼@4 89 for sight and 4 89@4 89½ for cable transfers, and there was a good demand to remit for stocks sold for European account. It was reported that the arbitrage houses had during the day disposed of between 25,000 and 30,000 shares of a general assortment of stocks. On Thursday there was a further advance in rates for actual business to 4 89@4 89¼ for short and 4 89¼@4 89½ for cable transfers, and the market was strong all day, influenced by further selling of securities by the arbitrage houses and by a demand to remit for them, and it was then reported that at least $4,500,000 gold would be shipped to Europe by the steamer sailing on Saturday. The actual withdrawals of gold yesterday were $1,000,000 by Lazard Freres, $1,500,000 by L. von Hoffman & Co. and $900,000 by Muller, Schall & Co., $300,000 of which was in coin for South America, making the total for the week $6,580,000. Yesterday most of the drawers marked their posted rates for sight sterling up to 4 90½, while the rates for actual business were advanced one-quarter of a cent for both sight and cable transfers. The following table shows daily posted rates for exchange by leading drawers.

The market closed very firm on Friday at 4 88½ for sixty days and 4 90@4 90½ for sight. Rates for actual business were 4 87½@4 88 for long, 4 89@4 89½ for sight and 4 89½@4 89¾ for cable transfers. Prime commercial bills were 4 87½@4 87½ and documentary 4 86½@4 87. The Bureau of Statistics at Washington this week issued the return of the country's foreign trade for November, and we give the figures below in our usual form.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

* Excess of imports.

In the last table gold and silver in ore for 1894 and 1895 are given under the heads respectively of gold and silver; for the other years both are included in the merchandise figures.

We give on another page to-day our review and compilation of the gross and net earnings of United States railroads for the month of October. It shows very satisfactory results. For the month of November the Baltimore & Ohio reports $101,548 increase in gross and $26,636 increase in net; Mr. Charles F. Mayer has declined a re-election as president of the company. The Pittsburg Cincinnati Chicago & St. Louis for November reports $160,190 increase in gross, $105,345 increase in net; the Pittsburg Youngstown & Ashtabula $18,743 increase in gross, $7,990 increase in net; the Nashville Chattanooga & St. Louis $82,383 increase in gross, $16,734 increase in net; the Georgia Railroad $2,506 increase in gross, $2,194 increase in net; and the West Virginia Central & Pittsburg $19,457 increase in gross, $6,702 increase in net.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Dec. 20, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks	Net Interior Movement.
Currency	5,043,000	$3,716,000	Gain. $1,327,000
Gold	406,000	282,000	Gain. 124,000
Total gold and legal tenders	$5,449,000	$3,998,000	Gain. $1,451,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending Dec. 20, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$5,449,000	$3,998,000	Gain. $1,451,000
Sub-Treas. oper. and gold exports.	17,100,000	22,100,000	Loss. 5,000,000
Total gold and legal tenders	$22,549,000	$26,098,000	Loss. 3,549,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	December 19, 1895.			December 20, 1894.

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

Note.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

PRESIDENT CLEVELAND AND THE VENEZUELAN QUESTION.

In our view President Cleveland's message to Congress on the Venezuelan question must be considered in every way unfortunate. When the people of the United States are asked to assume a course which is but one degree removed from a declaration of war, the warrant for the step should at least be clear and unmistakable. In this case we are unable to persuade ourselves that the right is indisputably on our side.

The weak point, apparently, in Great Britain's case is that she refuses to submit the whole question at issue to arbitration. But the action of the United States rendered acquiescence on the part of the British Government difficult, for our request for arbitration was coupled by an implied threat that in the event of refusal to arbitrate we would not allow her to hold any of the territory in dispute between her and Venezuela. Could we rightly expect that such a nation as Great Britain would consent to arbitrate under these conditions? Then, also, the language in Secretary Olney's letter was not of a character we are accustomed to see in diplomatic papers. There are many passages in it that are early not in accord with the requirements of international comity. In fact, is not the whole tone of the etter more or less offensive and calculated to provoke hostility instead of securing friendly compliance with our views?

It is to be remembered too that Great Britain has at no time rejected altogether the principle of arbitration. She always has been, and still is, willing to so submit her title to a portion of the territory in dispute. Aside from the fact that our action made it awkward for her to submit the whole matter, it is not difficult to understand her position as to the remainder of the territory at issue. As to that piece of land, its present condition is such that she feels her rights ought not to be open to question. Stress has been laid on the fact that she is not willing to concede as much as she was at one time. In that particular again her action is comprehensible. Circumstances have greatly changed during recent years. Venezuela has grown increasingly hostile to Great Britain and has forfeited that claim to considerate treatment which Great Britain at one time was willing to accord to her. Moreover, British population in that part of the world has grown, and to cede the territory in dispute to Venezuela would mean, in the language of Lord Salisbury, "the transfer of large numbers of British subjects who have for many years enjoyed the settled rule of a British colony to a nation of different race and language, whose political system is subject to frequent disturbance and whose institutions as yet too often afford very inadequate protection to life and property." Can any one be surprised that Great Britain is reluctant to do this?

We must confess, too, that it is not at all obvious that the Monroe Doctrine, whose aid the President invokes, is applicable to cases like that under consideration. That doctrine was meant to prevent monarchical governments from making further acquisitions in our hemisphere. But this is not a question of new acquisitions—it is simply and solely a question of title. Great Britain is not contending for the annexation of new land; she is merely asserting her right to hold land to which she thinks she has rightful ownership. In no portion of the correspondence with our Government does she seek to justify possession on any ground except that of ownership. If she were insisting on annexation regardless of ownership the case would be different. As it is, it is difficult to find sufficient or adequate cause for interference on the part of the United States, and especially to the extent of threatening war unless our demands are complied with. We have no material interests in that part of the world, nor will it be seriously contended that our national welfare or the safety of our institutions is in any way dependent upon the determination of the boundary line between Venezuela and her neighbor.

The extreme stand taken by the United States is the more to be regretted that by the admission of Secretary Olney himself, in his communication to Lord Salisbury, the "merits" of the dispute between the two countries have not yet been "authoritatively ascertained"—that thus far we have had only the Venezuelan side of the question. Hitherto President Cleveland has always proved a safe counsellor, and his course on public questions has been such as to win the approval of conservative classes. In the present instance he is committing the country to a line of policy most mischievous in its tendency and effects, and which in our estimation cannot be justified either on national or moral grounds. We do not believe that the people of the United States are going to war with Great Britain on such an issue.

THE TREASURY NEED AS INDICATED BY THE SECRETARY'S REPORT.

We are truly surprised that so many good men in Congress misconceive the financial situation to such an extent as to honestly think their party's interests will not suffer if they ignore or defer its consideration. The truth is, industrial health and vigor depend upon the re-creation of our currency system, and there can be no other domestic issue before the country until that is in process of being done. Merchants and bankers find it impossible to lose sight of their own and their neighbors' welfare so far as to give place to other questions of domestic policy while all their enterprises are suffering, and while proof is daily being disclosed before their eyes of the nature of the dislocation and its cause. These remarks are suggested by Mr. Carlisle's report, made public this week. It is not too much to say that the Secretary has in this report and on former occasions so clearly exposed the existing conditions that his demonstration brings out the issue not only sharply but convincingly. He has found a way of stripping from off the currency problem its abstruse covering and leaving the naked principles bare and at work within the sight and easy conception of every one.

It was on Monday the Secretary sent his report to Congress. We make room for a large portion of it among our "Reports and Documents" on pages 1112 to 1118 to-day. This we do more especially for the convenience of our European readers. Every one will want to see it, for it is sure to have a wide influence on affairs. It is stated that Senator Voorhees remarked in the Senate after the report had been read that the proposition with reference to the legal tenders could not get thirteen votes in that body. That may be true. But if it proves so Mr. Voorhees may live to see the occasion when there will not be thirteen Senators in opposition. The truth, well presented, has immense vitality and a vigorous growth. If the proposal for the retirement of the legal tenders does not receive the attention it deserves in the present Congress it will continue to come up until the suggested withdrawal is accepted and followed.

We have not room to-day to even give a satisfactory outline of the contents of the report. Our readers will be largely interested in the facts it contains with reference to the Government's income, as we wrote upon that subject last week. It will be noticed that the figures confirm and strengthen our contention. We have arranged in brief form from the long and detailed statements given in the Secretary's report the actual receipts and disbursements for the fiscal year 1894-95 and the similar totals as estimated in that document for the years 1895-96 and 1896-97. The figures for 1893-94 we take from the report of last year.

Receipts—	1893-94.	1894-95.	1895-96.	1896-97.
Customs	$131,818,531	$152,158,617	$172,000,000	$190,000,000
Internal Rev.	147,111,233	143,421,672	158,000,000	170,000,000
Miscellaneous	18,792,255	17,809,786	15,000,000	15,000,000
Post Office	75,080,479	76,983,128	86,907,407	89,793,121
Total	$372,802,498	$390,373,203	$431,907,407	$464,793,121
Disbursements—				
Civil	$101,943,884	$93,279,730	$92,000,000	$39,150,353
Military	54,567,130	51,804,749	55,000,000	50,967,747
Navy	31,701,294	23,797,796	28,000,000	24,313,166
Pensions	141,177,285	141,395,229	141,000,000	141,384,570
Interest	27,341,406	30,978,030	34,000,000	33,500,000
Indians	10,293,491	9,939,754	12,000,000	8,750,458
Post Office	75,080,479	76,983,128	86,907,407	94,817,900
Total	$442,605,759	$432,178,426	$448,907,407	$457,984,194
Deficit	$69,803,261	$42,805,223	$17,000,000	
Surplus				$6,808,927

The conspicuous feature in the foregoing is the gradual improvement shown in the Treasury situation from an actual deficit of $69,803,261 in 1893-94 to an estimated surplus in 1896-97 of $6,908,927. These changes from year to year correspond with the changes in the industrial situation. They are not in any measure the result as will be seen of decreased expenditures but of a larger yield from the various sources of taxation. Indeed the estimated expenditure for 1896-97 is higher than for any other year of the series.

As to the estimated growth in productiveness of the various departments of revenue it is to be said in their favor that the Government ought to be able to closely approximate the outcome. It is of course by far the better judge of those matters. At the same time we would add that the little light we have been able to obtain with reference to the Internal Revenue taxes and the examination we have given them incline us to the opinion that the total estimate of the Treasury Department does not in that particular appear to be a maximum. On the other hand the ability to make a correct forecast of the receipts from Customs is almost confined to those in possession of the official records. They have before them every item of import, the rate of duty and the revenue each has yielded month after month down to the latest month since the new law went into operation, also the corresponding imports, the rates of duty, and the income received therefrom under the McKinley law; using these data it would appear to be an easy matter to obtain a figure which would correctly represent a normal condition of the revenue from the existing Customs duties.

It does not seem to be possible then to avoid the conviction that there is no absolute need for more taxation and more revenue. As the case stands to day we must accept Mr. Carlisle's figures as conclusive on this point. That leaves the currency question the only one before Congress of a domestic character possessing any urgency. The gold reserve is rapidly vanishing. There are two well known ways to meet this growing weakness. It is obvious that one of these ways is merely a temporary expedient and at best only a palliative. This we showed last week. The other is thorough and complete for it removes the agent that is throwing the burden of convertibility on the Government, and is week by week increasingly active in withdrawing the gold provided for its continuance. The latter remedy, too, is extremely easy to arrange. As it would, when in operation, remove the need for a reserve, all but a small part of the net Treasury cash holdings could be put into circulation. We have likewise the national-banking system in existence, with the machinery in working order, ready to emit an excellent and popular currency as a substitute for that withdrawn. Besides, Secretary Carlisle very truly says it is not presumable that all the legal-tenders would be presented for redemption within an early period. After the machinery had been provided and one to two hundred millions of the notes canceled the remaining portion would come in very slowly.

Since the foregoing was written another and a graver issue has arisen which serves further to complicate the financial situation and to make the need for accepting Mr. Carlisle's suggestion far more urgent. The graver issue has been raised by the President's message regarding Venezuela and involves the possibility of a vast war costing no end of millions of money. Does Congress propose to start upon such an under-

taking with the Government credit at the low ebb it now rules in every financial centre of Europe? It could far better prosecute a war without a navy than without good credit. Mr. Cleveland evidently appreciates this, for he has followed up his earlier message by another regarding our finances. We shall soon know whether Congress in the face of a great emergency is more disposed to act than before.

THE PHILADELPHIA & READING REORGANIZATION PLAN.

The most commendable feature in the plan for the reorganization of the Reading Railroad, submitted this week, is that it recognizes so clearly and unqualifiedly the equity and lien of the general mortgage bonds. While it is of course a hardship (a hardship unavoidable under the circumstances) that the junior securities —the incomes and the stock—should be obliged to make such heavy contributions in protection of their interests, there is no requirement so important as that the holders of mortgage liens should be assured that their equities will always, and especially in the time of a company's embarrassment, be recognized and fully protected. The value of a security may often become impaired through unfavorable conditions or adverse developments. It is impossible to guard against contingencies of that kind, and investors are willing to take the risks resulting from them. But there is nothing more damaging either here or abroad to our securities than to have it appear that in buying a mortgage bond an investor cannot be sure of obtaining the rights, priorities and equities which the mortgage securing his bond is supposed to accord to him.

In the Reading case the general mortgage fours are given the full amount of their claim—that is, all their back coupons are to be cashed, and they are to get new mortgage bonds for the old bonds, dollar for dollar—and the matter is the more noteworthy and significant because there was at least a doubt whether the lien of these general fours could be enforced. This doubt arose out of the fact that it was thought it would be found impracticable to resort to foreclosure, through fear that the new company (having to be organized under the new constitution of the State of Pennsylania) would be unable to hold the valuable and extensive coal lands which the Reading controls. It will be remembered that the supposed uncertainty on this point led to various suggestions and propositions inviting concessions from the mortgage bondholders, and at one time it did seem as if it might be the part of prudence for the bondholders to consent to the making of some concessions. But it has fortunately been found that the obstacles in the way of foreclosure are not serious, and accordingly in the present plan the determination to give the bondholders the full measure of their rights has been carried out. Messrs. J. P. Morgan & Co. state it as their opinion that there is no serious difficulty in the way of a reorganization by foreclosure. They also say that the plan has been prepared on the assumption that foreclosure will probably be necessary. How this is to be accomplished without sacrificing any portion of the existing properties appears from their statement that unless the acceptance of the plan shall be so general as in their opinion to obviate the necessity of foreclosure the properties will be sold and successor companies organized under the laws of Pennsylvania, and the stocks and securities of these successor companies be vested in a new company, formed or to be formed under the laws of Pennsylvania or of some other State.

It is hardly necessary to say that the reorganization plan proposed is drastic and radical and deals with the situation in a thorough and effective manner. The fact that Messrs. Morgan & Co. are acting as managers to carry it into effect furnishes in itself proof of this. The objects of the plan are stated to be: (a) The protection of the general mortgage 4s; (b) the reduction of the fixed charges to a limit safely within the net earning capacity of the reorganized properties; (c) adequate provision of cash working capital for future requirements; (d) the payment of the floating debt and provision for the existing car trust obligations; (e) such control of the reorganized system until the earnings of the properties shall have placed them in a satisfactory financial position as shall render additionally secure the new General Mortgage.

With regard to the reduction in fixed charges, present charges of the two companies (Reading Railroad and Coal & Iron Company) are stated to be $10,035,073; after reorganization the total will be $9,317,173, thus effecting a decrease of $717,900 per annum. But we are told that an almost immediate further reduction of nearly $500,000 per annum in the total (reducing it to less than 8¾ million dollars) will be effected through the refunding, at a lower rate of interest, of some $20,000,000 of 6 per cent and 7 per cent bonds shortly to mature, and the extension already effected by the receivers at 4 per cent of $1,500,000 of North Pennsylvania 7 per cent bonds. As to the net earnings of the system, the results for the last four fiscal years, terminating November 30, are given as follows: 1892, $12,472,190; 1893, $11,172,690; 1894, $9,839,971; 1895 (November estimated), $9,624,123. Thus the fixed charges, at $9,317,173 (even without the further reduction to be established through refunding), will come well within the company's lowest net earnings. A further advantage the company will possess is that as the car trusts are to be taken up the annual payments for the same will no longer be a drain on the company's income. During the last five years the requirements for this purpose were $4,500,000, and an additional $7,300,000 would be required in the same way during the next five years if no reorganization were effected.

As to the cash requirements of the reorganization, the plan shows that altogether a little over twenty-five million dollars ($25,150,000) will be needed to provide for the floating debt, receiver's certificates, car trusts, accrued interest, arrearages of sinking funds and reorganization and other expenses. Actually over 28 million dollars is to be raised in cash ($28,162,289), leaving a cash balance of about $3,000,000; the assessments on the stock and incomes (20 per cent on the first, second and third preference incomes and on the stock, and 4 per cent on the deferred incomes) will produce $20,862,289 and the Syndicate will provide $7,300,000 in cash, taking in pay $4,000,000 of new general mortgage bonds and $8,000,000 of new first preferred stock. The Syndicate is composed of Messrs. J. P. Morgan & Co., J. Kennedy Tod & Co., Hallgarten & Co. and A. Iselin & Co., and it agrees to underwrite all the assessments, to provide the $7,300,000 in cash and to guarantee the extension or payment of the high rate bonds shortly falling due.

As to the provision for future capital needs, $20,000,000 of the new general mortgage bonds are to be retained to be issued at the rate of not over $1,500,000 per year, and the proceeds used for new construction, ad-

ditions and betterments, additional equipment, etc. The total issue of new general mortgage bonds is to be $114,000,000 of which $44,550,000 will be reserved to take up prior liens, $44,575,000 will be issued in exchange for the present general 4s, $4,000,000 will be taken by the Syndicate, $20,000,000 will be reserved for future capital needs, leaving a balance of $875,000 for contingencies. Provision will be made for the issue, if found desirable, of additional bonds to the amount of $21,000,000 to take up the $8,500,000 of Philadelphia & Reading Terminal bonds and $12,500,000 of Coal & Iron Company bonds, in which case these bonds or the property covered by them will be brought under the new mortgage as additional security therefor. The plan states that the security for the present general mortgage bonds is ample, but that a reorganization has become necessary through the creation of debts which have proved a drain upon the resources of the company, and have necessitated a diversion of its income.

Under the reorganization all the incomes will be exchanged for stock, either common or preferred, and there are to be issued $28,000,000 of first preferred stock, $42,000,000 of second preferred stock and $70,000,000 of common stock. In the case of the second preferred and the common shares, only a small balance will be left over after the exchanges of existing securities have been completed, but in the case of the first preferred stock after allowing for $7,184,000 to be given in part exchange for the present first preference incomes and $8,000,000 for delivery to the Syndicate, $12,816,000 will remain, forming in the language of the plan a "reserve for adjustment with various outstanding bondholders, creditors and stockholding interests, commission to refunding and guarantee Syndicate and contingencies, the surplus to go to the new company." The voting power on all classes of stock is to be vested in three voting trustees, consisting of J. Pierpont Morgan, Frederic P. Olcott, and a third trustee yet to be named. The voting trust is to continue for five years and for such further period as shall elapse before the first preferred stock shall have received 4 per cent cash dividends per annum for two consecutive years. A novel feature of the plan is that at any time after dividends at the rate of 4 per cent per annum shall have been paid for two successive years on the first preferred stock, the new company may retire the second preferred stock by converting it one half into first preferred stock and one half into common stock.

THE MONROE DOCTRINE—ITS ORIGIN AND HISTORY.

In one of his notes to Sir Julian Pauncefote, the British Ambassador at Washington, on the Venezuela difficulty, Lord Salisbury, referring to what is called the Monroe Doctrine, has among many others a significant and suggestive paragraph. "The dangers," he says, "which were apprehended by President Monroe have no relation to the state of things in which we live at the present day. There is no danger of any Holy Alliance imposing its system upon any portion of the American continent, and there is no danger of any European State treating any part of the American continent as a fit object for European colonization." The words are evidently intended by the writer to show that the feverish excitement which has taken hold of the people and the Monroe Doctrine have no natural or proper relation to each other. It will not be without its uses to inquire how far the language of Lord Salisbury in the paragraph quoted is sustained by facts.

The inquiry it will be found is not devoid of points of interest. After the fall of Napoleon and the collapse of the mighty empire which his genius and his sword had reared, the representatives of the Powers assembled in Vienna reconstructed Europe, more perhaps with a view to dynastic interests than with a view to the welfare of the people. It was not long, however, until they had their hands full again. Discontent prevailed in Italy and wild insurrectionary movements took place, especially in Sicily. France was ill at ease; and had it not been known that the allied Powers were ready to interfere and uphold the Bourbon dynasty, Louis XVIII. would again have been compelled to take refuge in some foreign land. Insurrection of an alarming kind had also broken out in Spain. In 1814 Napoleon had liberated the Spanish King, Ferdinand VII. Returning to his kingdom, the King was at first well received. It was not long, however, until he revealed his despotic tendencies. He soon found reason to abolish the Cortes and to establish the Inquisition. Napoleon had left behind him in Spain some legacy of a liberal spirit in the shape of liberal legislation and a less restrained exercise of popular rights. It was the policy of Ferdinand to return to the old state of things. Absolutism took the place of liberty; and to escape the headsman's axe large numbers fled the country. In 1820, such was the tyranny to which the people were subjected that they rose in rebellion and re-established the Cortes and made a new Constitution. Europe was thus ill at ease; for the more northern Powers dreaded the general effect of popular revolution in the South.

Such was the state of things in 1820-21. In the meantime a new influence was being brought to bear upon European politics—a power which was not destined to be long-lived but which while it lasted was sufficiently formidable and dangerous. As far back as 1815 the Emperor Alexander of Russia, having come under the influence of a Madame Krudener, a woman of great talents and accomplishments, and saturated so to speak with the Gospel sentiment against war, was successful in bringing the rulers of Austria and Prussia around to his way of thinking; and they entered into a treaty the object of which was to establish a common international law, founded on Christianity, for the purpose of making an end of religious divisions and political wars in Europe. One of the weak points in the arrangement was that the monarchs regarded themselves as the special delegates of the Almighty, they alone being the judges of what was for the good of the people. It was not until 1820-1821 that these principles were to have any real practical application. This compact came to be known as the Holy Alliance. Great Britain never belonged to it; and it perished with its author, Alexander, in 1825.

Affairs had taken a very serious turn in Italy, and also in Spain. A Congress was held at Troppau in October 1820. The questions discussed ranged over a wide field. The Austrians had already entered Italy. It was felt that further conference was necessary; and the allied sovereigns invited the King of Naples to meet them at Layback in Styria. This second conference was held in January 1821. Among other things it was agreed that the three powers, Russia, Austria and Prussia, should put at the disposal of the King of the two Sicilies an army of sufficient strength to put down the insurrection and re-establish the royal authority on the basis on which it stood prior to the late up-

rising, July 5 1820. In this matter France, as well as England, refused to take part, Lord Castlereagh declaring that such transactions were opposed to the fundamental laws of his country.

France made no such admission and the reason why she did not will soon be obvious. The Spanish Cortes were again masters of the situation. The King was a prisoner in their hands. Imbued with ideas of legitimacy, divine right and despotism generally, the heart of Louis went out to his royal brother. This, however, was not all. If there was danger to Austria and Russia in the popular uprisings in Italy, there was danger to France in Constitution-makers and popular success in Spain. Austria had been allowed to undertake the correction of Italy; why should not France be allowed to undertake the correction of Spain? To meet the Spanish difficulty a special Congress was held at Verona in October 1822. France was allowed to have her way; and the Duke of Angouleme, at the head of 100,000 men, set out for Madrid early in March 1823. It is unnecessary to say that in the end the policy of the autocrats was successful. In the case of Spain, George Canning, who was now Foreign Secretary, protested vigorously against the action of France. It was his fear that if the war in the Peninsula were resumed it might assume large proportions and be of long duration. It was a costly enough war both for France and Spain; but it had the effect of giving courage to the reactionists.

The Holy Alliance was still a live force. France was not a party to it; but the Czar Alexander, when the French entered Spain for the purpose of restoring the King and putting down popular authority, would allow of no interference. Italy and Spain were now apparently both being brought into a condition satisfactory to the great Continental monarchs. Might not the principles of the Holy Alliance be pushed a little further? Would it not be worth while to do something more for the old monarchies—something more to restore the *status quo* which existed before the French Revolution? It is not necessary here to enter into the details which finally deprived Spain of all territory on the mainland of the American Continent. During the time of the French occupation of the mother country the South American colonies were left very much to themselves; and one after another during these years, with two or three exceptions, they claimed their liberty. Might not the South American colonies be restored to Spain? Canning, who had been brought up at the feet of Pitt, had been a Tory of the Tories. He was, however, a man of popular sympathies; and seeing how the current was moving in government circles in Continental Europe, he was gradually coming over to the American side, and learning to look at things with American eyes.

In these circumstances when a powerful coalition was ready to put forth its strength in a given direction, it came to the knowledge of the American Government that as soon as the military objects in Spain were attained it was the intention of France to propose the holding of a congress to consult and come to some understanding with respect to Spanish interests in America. Meantime there had been no end of rumors to the effect that there was an intention on the part of France to set up a Bourbon dynasty in the Western Hemisphere. If a Bourbon dynasty, why not others? Mr. Rush was then our Minister at the Court of St. James. It was in these circumstances that Monroe prepared and published his famous message. This was in 1823. It produced an immense excitement. Rush was insistent that Canning should recognize the independence of the South American republics. He was not slow to act; and when he had accomplished the work he said: "I resolved that if France should have Spain it should not be Spain with the Indies. I called the New World into existence to redress the balance of the Old."

It is hardly necessary to say that the state of things to-day is very different from that in which the Monroe Doctrine was first announced. There is is no Holy Alliance, no threatening combination of monarchical powers and influences, no attempt or desire to set up foreign dynasties on American soil. Nor are the United States what they were in 1822, 1823 and 1825.

THE NEW YORK CENTRAL AND OTHER VANDERBILT STATEMENTS.

We have had this week the statement of the New York Central for the quarter ending December 31 and the statements of both the Lake Shore & Michigan Southern and the Michigan Central for the full calendar year. There are two features common to them all, namely (1) a considerable improvement in the gross receipts and (2) an augmentation in expenses nearly equal to the amount of the gain in gross, leaving only a small increase in the net.

The latter feature—the increase in expenses—will attract most attention. It reveals the policy that is being pursued in the management of these properties. Of course in part the increase reflects the enlarged volume of business done, but in the main it is due to the action of the managers in again devoting large amounts out of earnings in the making of improvements and betterments. Liberal outlays in this way have long been a characteristic of these roads, but last year, under the extraordinary business depression prevailing and the resulting great loss in earnings, it became necessary to suspend such outlays for the time being. With trade improving and earnings once more on the increase it has been found possible and desirable to return to the old practice.

There were two ways of using the additional revenues; one was to enlarge the dividends, the other was to put the money back into the properties, thus further improving and strengthening them. The former policy would clearly have been a short-sighted one, and being so recognized was rejected. The latter policy had distinct advantages, whatever future results. If business continued to prosper, the extra outlays would put the roads in excellent shape to handle the increased volume of traffic; if, on the other hand, our industries should receive another set-back, the managers would be able rigidly to restrict their outlays again without detriment to the properties. The policy had the additional recommendation of giving increased employment, both direct and indirect, to labor, and thereby tending further to promote business activity and prosperity. The Vanderbilt roads of course do not stand alone in having resumed the work of making extensive betterment outlays. Many other conservatively managed companies have pursued the same course, chief among them being the Pennsylvania Railroad.

We have enlarged on this point because it is import-

ant that the reason for the heavier operating expenses common to all these roads should be clearly understood. As far as the New York Central is concerned, we showed in reviewing the returns for the September quarter that the company was pursuing a liberal policy in the particular mentioned; and the further increase in earnings which has been in progress since then has permitted the company to continue the same policy in the current or December quarter. As compared with the December quarter of last year gross earnings record an increase of over a million dollars—in exact figures, $1,068,772—but owing to the outlays made for improvements, etc., and in part also to the larger volume of business done, expenses likewise have increased over a million dollars, leaving an addition to the net of only $29,230. The company is now paying 1 per cent quarterly dividends as against 1¼ per cent last year, but the payment covers a larger amount of stock than at that time. The statement shows that there is a surplus in 1895 above the dividend for the quarter of $318,000, as against a surplus in the December quarter of 1894 of $118,954. The exhibit is thus quite satisfactory, notwithstanding the heavy outlays for the purposes mentioned.

The results for the half-year ending December 31 bring the same feature into still stronger relief. Gross earnings have been $1,828,450 better than for the six months of 1894, but expenses (for the reasons mentioned) have been added to in the sum of $1,670,283, leaving a gain in net of only $158,167. Charges differed but slightly in the two years, and dividends were only 2 per cent in the six months of 1895, against 2½ per cent in the six months of 1894. The final result is a surplus above the dividends for 1895 of $542,500; for the half year of 1894 the surplus was but $22,011. It hence appears that though very large amounts were spent for improving the condition of the property the present year, while last year such outlays had to be cut off, nevertheless the company enters upon the second half of its fiscal year with a surplus to its credit half a million dollars larger than at the same time in the previous fiscal year. The events of the current week have introduced a new disturbing element of far-reaching proportions, so that no one can tell what the future of business is to be; but as the result of the expenditures thus far made the Central is in excellent shape and in position to make its extraordinary expenditures dependent entirely upon future earnings—that is, to limit them or extend them, as circumstances may warrant.

These remarks apply with equal force to the Western Vanderbilt roads, the Lake Shore & Michigan Southern and the Michigan Central. None of the companies has made any change in its dividend rates, the Lake Shore declaring three per cent semi-annual, the Michigan Central two per cent and the Canada Southern 1½ per cent, the same as in 1894. The Lake Shore statement shows for the twelve months of the calendar year an increase in gross of $1,256,034 or 6·42 per cent, an increase of $1,239,361 or 9·39 per cent in expenses, and an increase of $16,673 in net earnings. Though there is thus a fair increase in the gross revenues as compared with the low total of 1894, it is only necessary to go back one or two years to see that the conditions prevailing in 1895 were far from normal; as a matter of fact, even after the increase which has occurred in it the total of the gross for 1895 is less than it was five years before, in 1890, as may be seen by the following.

LAKE SHORE & MICHIGAN SOUTHERN'S INCOME.

Years.	Gross Earnings.	Operating Expenses and Taxes.	Net Earnings.	Fixed Charges.	Dividends per Share of $100.

1894	19,557,869	13,186,067	6,371,802	3,402,863	6 00	6 00
1895*	20,813,903	14,425,428	6,388,475	3,360,000	6 12	6 00

* Results for December partly estimated.

As regards the Michigan Central the comparisons are much the same. The gross is about a million dollars better than in 1894, but 2½ million dollars less than in 1893. Indeed in the case of this road the earnings are not only much smaller than in 1890, but they are the smallest of any year since 1886. We have said that the increase over the low total of 1894 was about a million dollars; in exact figures the amount is $966,000. In the expenses the increase is $926,000, leaving an addition of $40,000 to the net. The company, however, earned its 4 per cent dividends in full, with a balance of $75,480 left over on the operations of the twelve months.

COMBINED EARNINGS OF MICHIGAN CENTRAL AND CANADA SOUTHERN.

Years.	Gross Earnings.	Operating Expenses and Taxes	Net Earnings.	Interest and Rentals.	Balance.
	$	$	$	$	$

1894	12,584,018	9,144,108	3,439,905	2,401,184	1,038,721
1895*	13,540,000	10,070,000	3,480,000	2,400,000	1,080,000

* Partly estimated.

In the case of the Canada Southern the company has again been obliged to draw a little on the accumulated surplus of previous years in order to pay the 2½ per cent dividends, as the call for these dividends is $375,000, while the net income for the twelve months is but $322,800.

RAILROAD NET EARNINGS FOR OCTOBER.

Returns of earnings have latterly become increasingly favorable and the improvement is as a rule more strikingly shown in our monthly compilations of gross and net earnings than in our early preliminary statements of gross alone. The reason is that the net earnings statement includes a number of large companies which do not appear in our early statement, and which have been making particularly heavy gains. This week we have compiled the figures for October, and they reveal a gain (140 roads included) of $6,269,753 or

9·71 per cent in gross, and a gain of $3,516,619 or 14·76 per cent in net. This is the largest amount of gain in net we have had in any month of the present year—larger even than in July, when comparison was with the strike period in 1894, though the percentage of increase then was heavier. The result is particularly gratifying because it is made in face of a decided falling off in the cotton movement and some quite noteworthy losses in earnings resulting from that cause. The following gives the totals for the month and for the year to date.

	October. (149 roads.)			January 1 to October 31. (132 roads.)		
	1895.	1894.	Increase.	1895.	1894.	Increase.
	$	$	$	$	$	$
Gross earn's	79,853,251	64,509,498	6,269,753	542,448,701	512,964,107	29,484,594
Oper. exp.	47,487,139	40,759,062	2,753,134	372,232,772	359,875,692	12,357,080
Net earn's	27,348,115	23,831,496	3,516,619	170,216,019	153,088,415	17,127,604

Of course we are comparing with poor results last year, and the favorable showing the present year is in part owing to that circumstance. In the gross our statement in 1894 recorded $4,098,943 loss and in the net $3,126,828 loss, the falling off having followed to a great extent from the absence of the travel to the World's Fair, which had been such a feature in October 1893. It should not escape notice that in the gross and net alike the amount of increase the present year is larger than the amount of the losses last year. The following carries the comparison back for a number of years.

Year and number of roads.	Gross Earnings. Year Given.	Year Preceding.	Increase or Decrease.	Net Earnings. Year Given.	Year Preceding.	Increase or Decrease.
October.	$	$	$	$	$	$
1890 (117	66,106,95[illegible]	58,271,847	+1,835,14[illegible]	22,927,181	23,242,991	−315,810
1891 (146	73,055,343	67,209,072	+5,846,277	27,944,452	25,212,102	+2,732,350

When we come to examine the returns of the separate roads we find some strikingly large gains, but hardly more striking than the losses last year. The Reading (including the operations of the Coal & Iron Company) has $1,138,068 increase in gross, $365,263 increase in net; the St. Paul, $860,989 increase in gross, $669,955 increase in net; the Pennsylvania (Eastern and Western lines combined), $840,326 increase in gross, $378,928 increase in net; the Illinois Central, $407,032 increase in gross, $396,677 increase in net; the Northern Pacific, $287,804 increase in gross, $389,950 increase in net; the Southern Railway, $143,223 increase in gross, $47,410 increase in net; the Central of New Jersey, $160,032 increase in gross, $148,443 increase in net, &c., &c. From an examination of the list below it will be seen that the gains come from nearly all sections of the country and from all classes of roads. The losses are comparatively few, and come chiefly from roads which suffered from the smaller cotton movement, or from coal strikes or other special troubles.

† The net increased $33,834 on Eastern lines and $315,094 on Western lines

The Southwestern group and the Northwestern group in their results present the types of two extremes; the former suffered from the great falling off in the cotton movement, the latter gained from the very large movement of spring wheat. Hence it is not surprising to find that the one records a loss in both gross and net and that the other is noted for specially large gains. Though the Southwestern group as a whole has a loss in both gross and net, such of the roads as are remote from the cotton districts record improved results, and among these the Colorado lines like the Denver & Rio Grande and the Union Pacific Denver & Gulf have particularly good statements. The Northwestern group shows only one road with lower net (the Chicago Burlington & Northern) and none with smaller gross. The less prominent roads in that group are no less distinguished for heavy improvement than the larger systems; thus the Burlington Cedar Rapids & Northern has added $229,217 to its gross and $115,906 to its net, and the Minneapolis St. Paul & Sault Ste. Marie or "Soo" road $142,119 to its gross and $100,938 to its net. For the Northwestern group as a whole the gain is $1,706,429 or 22 per cent in gross and $927,130 or 26·45 per cent in net.

The anthracite group did poorly last year, and the present year has correspondingly large increases, the gain in gross being $1,294,604 or over 20 per cent, and in net $510,680 or 33·79 per cent. There is no other group which has a loss in gross besides the Southwestern, but there is one which has a loss in net, namely the Eastern and Middle. In this latter group the falling off is due chiefly to the diminution in the net of the Buffalo Rochester & Pittsburg and the Western New York & Pennsylvania, two bituminous coal roads. The trunk line group shows comparatively small ratios of gain, the Middle Western quite large ratios due mainly to the excellent exhibit of the Illinois Central. The Southern group, notwithstanding the smaller cotton movement, records a small increase in both gross and net; of the 34 roads in that group only nine have losses in gross and the same number in net. The Pacific group shows a particularly large gain in net, to which the Northern Pacific, the Southern Pacific, the Union Pacific and the Canadian Pacific have all contributed. In amount the increase for this group reaches $1,059,577; in ratio the gain is over 20½ per cent—20·69 per cent.

‡ We include these Western lines in our table by taking an estimate for 1894 on which to base the increase or decrease reported for this year.

MR. CLEVELAND AND OUR FINANCES.

President Cleveland late yesterday afternoon sent the following message to Congress on the currency situation.

To the Congress:

In my last message the evils of our present financial system were plainly pointed out and the cause and means of depletion of Government gold were explained.

It was therein stated that after all the efforts that had been made by the Executive branch of the Government to protect our gold reserve by the issuance of bonds amounting to more than $162,000,000, such reserve then amounted to but little more than $79,000,000, that about $16,000,000 had been withdrawn from such reserve during the month next previous to the date of that message and that quite large withdrawals for shipment in the immediate future were predicted.

The contingency then feared has reached us, and the withdrawals of gold since the communication referred to and others that appear inevitable threaten such a depletion in our Government gold reserve as brings us face to face with the necessity of further action for its protection.

This condition is intensified by the prevalence in certain quarters of sudden and unusual apprehension and timidity in business circles.

We are in the midst of another season of perplexity caused by our dangerous and fatuous financial operations.

These may be expected to recur with certainty as long as there is no amendment in our financial system.

If in this particular instance our predicament is at all influenced by a recent insistence upon the position we should occupy in our relation to certain questions concerning our foreign policy, this furnishes a signal and impressive warning that even the patriotic sentiment of our people is not an adequate substitute for a sound financial policy.

Of course there can be no doubt in any thoughtful mind as to the complete solvency of our nation, nor can there be any just apprehension that the American people will be satisfied with less than an honest payment of our public obligations in the recognized money of the world.

We should not overlook the fact, however, that aroused fear is unreasoning and must be taken into account in all efforts to avert public loss and the sacrifice of our people's interests.

The real and sensible cure for our recurring troubles can only be effected by a complete change in our financial scheme. Pending that the Executive branch of the Government will not relax its efforts nor abandon its determination to use every means within its reach to maintain before the world American credit, nor will there be any hesitation in exhibiting its confidence in the resources of our country and the constant patriotism of our people.

In view, however, of the peculiar situation now confronting us, I have ventured to herein express the earnest hope that the Congress in default of the inauguration of a better system of finance will not take a recess from its labors before it has by legislative enactment or declaration done something not only to remind those apprehensive among our people that the resources of this Government and a scrupulous regard for honest dealing afford a sure guarantee of unquestioned safety and soundness, but to reassure the world that with these factors and the patriotism of our citizens the ability and determination of our nation to meet in any circumstances every obligation it incurs do not admit of question.

I ask at the hands of the Congress such prompt aid as it alone has the power to give to prevent in a time of fear and apprehension any sacrifice of the people's interests and the public funds or the impairment of our public credit in an effort by executive action to relieve the dangers of the present emergency.

(Signed) GROVER CLEVELAND.

Executive Mansion, Dec. 20, 1895.

IMPORTS, EXPORTS AND IMMIGRATION FOR NOVEMBER.

The Bureau of Statistics has issued a detailed statement of the foreign commerce and immigration of the country for the month of November, 1895 and 1894, and for the eleven months ending November 30, in 1895 and 1894, as follows:

MERCHANDISE.

	November.	*11 mos. end. Nov. 30.*

Total		15,511	234,201

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of November, and they are presented below, together with the figures for the preceding months, thus completing the results for the eleven months of the calendar year 1895. The imports of gold were greater than in any month of the year only excepting June, the amount received reaching $112,337, of which $1,180 was in coin; and of silver there came in only $94,928, of which $86,213 was bullion. There has been received during the eleven months a total of $1,419,298 gold and $1,883,770 silver, which compares with $1,267,053 gold and $2,092,967 silver in 1894. The shipments of gold during November reached 56,697 coin and $3,100 bullion, and the exports of silver have been $756,495 coin and $738,548 bullion. For the eleven months the exports of gold have been $525,790 against $848,169 in 1894 and $12,313,132 silver has been sent out, against $11,845,980 in 1894. The exhibit for November and the eleven months is as follows:

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Dec. 7, 1895.

The excitement caused by the massacres in Turkey is slowly abating, although the Sultan has not yet granted the firman permitting the Powers to send a second guardship to the Bosphorus. What the Powers will do is still unknown: the opinion is growing, however, that probably the firman will be issued but that the ships will not be sent. This compromise may be arrived at if further outrages do not take place. For a considerable time now no serious disturbances have been reported, and it looks as if order was being slowly and imperfectly re-established. If it is it is quite possible that the Powers may not insist upon actually sending the guardships. On this point, however, nothing is really known, although the most contradictory rumors are constantly being circulated.

President Cleveland's message has been received with some disappointment in Europe. The part of it referring to the finances is recognized everywhere as wise and statesmanlike; but the impression is general that Congress will do nothing, and that therefore there will be no real change in the situation. The political part has made a bad impression in Germany, especially the passage which looks like a threat of retaliation. In this country very little feeling has been excited by the references to the Monroe Doctrine in respect to the Venezuelan question. The British people take absolutely no interest in the dispute with Venezuela. They are quite content to leave the matter in the hands of Lord Salisbury, and whether he pushes it forward or drops it seems to them indifferent. That being their own feeling, they cannot believe that either the American Government or the American people will pick a quarrel with this country upon such a question. Certainly no one in the United Kingdom wishes for any unpleasantness between the two countries.

Meanwhile the accumulation of unemployed money here is going on. The Bank of England now holds nearly 44½ millions sterling in coin and bullion, the reserve exceeds 35¼ millions sterling and the total deposits are over 58 millions sterling. Naturally, therefore, rates are falling, and it looks as if money would continue abundant and cheap for months to come.

The silver market is very quiet. There is little demand for the Far East, and the mine owners are not pressing sales. Nevertheless the India Council continues to sell its drafts very well. It disposed of the full 50 lakhs on Wednesday at 1s. 1 15-16d. per rupee; the applications, indeed, were for more than eight times the amount offered.

The settlement on the Paris Bourse which began last Saturday and ended last night has passed over more smoothly than most people expected. There have been three small failures, making about a dozen altogether since the crisis began, and eight or ten other firms in the Coulisse, or outside market, have had to get assistance from their friends. These latter, however, are believed to be solvent. Their difficulties arose mainly from the non-receipt of differences due to them from Constantinople and Vienna, but more particularly from Constantinople. Differences were of course in many cases not paid in Paris also; but the chief default was in Constantinople. The embarrassed houses will probably have to reorganize so as to obtain more capital, but that in some shape or other they will be able to go on is the opinion of the best informed in Paris.

The Vienna settlement, which was also looked forward to with some apprehension, has passed off fairly well. The connection between Vienna and London is not very great or direct, but the dealings between Vienna and Paris are large, and a serious break-down in Vienna would have aggravated the difficulties in Paris. No serious apprehensions were entertained respecting Berlin, and the settlement there has not been attended by any great drawbacks. Upon the whole the opinion now is that the crisis, so far as it was financial, is at an end. In this country there was very wild speculation, no doubt, but it was restricted to a small class, and no important house of any kind was involved in grave embarrassment. It was different in Paris. There, undoubtedly, almost the whole Coulisse has suffered heavy losses, and leading bankers have had to lock up very large sums in giving assistance to the Coulisse. The losses were quite as much due to the fall in international securities, and more particularly in Turkish, as to the break-down in the mining market. In Vienna the troubles were almost all due to speculation in industrial securities and in internationals.

If there is no further political scare, the probability is that the markets will now slowly recover. Even in Paris there is a surprisingly large amount of investment business going on, both in international securities and in mining shares. Evidently large numbers of the investing public took warning in time and withdrew from the market before the speculation broke down. Now that prices have reached a more reasonable level they are buying on a considerable scale.

Here in London the investment business is large in almost all departments, especially in British railway securities and in mining securities. But the American market is almost neglected. Whatever business is going on is mainly due to selling by disappointed operators. As long, indeed, as ship

ments of gold continue it is scarcely possible that there can be any real revival in the American department here. There is very little inclination here also to engage in the reorganization of American railroad companies. It is felt that after the heavy losses of the past couple of months it would be inopportune to call upon holders of securities to pay heavy assessments, and therefore the inclination everywhere in the city is to wait until the new year. Feeling would rapidly change, of course, if wise currency legislation were carried out. But as long as the currency remains as it is and gold shipments continue people are afraid to engage in the market.

There is very little doing also in Central and South American securities except Argentine. All the reports from Argentina are to the effect that trade is steadily improving; especially the Agricultural exports are very large, and the railroad traffic returns are most reassuring. In colonial securities there is little doing, and European government securities are quite neglected. Possibly the market may remain quiet for the remainder of this year; but that there will be a considerable increase of business before long is the almost universal opinion, provided no political apprehensions are revived.

At last there seems a fair prospect that the unfortunate dispute upon the Clyde and at Belfast will be settled. A meeting of employers and employed is to take place on Tuesday in Glasgow and is to be presided over by Lord James of Hereford, better known perhaps to readers of this journal as Sir Henry James. It is very generally believed that an arrangement will be arriveed at; and it clearly is the interest of the employers, and it should be, for the ship-building trade is growing more active, and many orders will be placed as soon as the dispute is settled. Other trades are improving and there is a special activity in the woolen trade. The public auctions now going on in London are largely attended by American and Continental buyers, and prices are at the same level as in September, with an upward tendency and a strong demand.

Our foreign trade continues to improve. In November imports increased £3,737,000, or 10·60 per cent, and exports have increased £1,457,000, or about 8 per cent. The improvement in our exp rt trade continues to be partly due to our large shipments of woolen and worsted goods, but nearly all branches of British trade are improving. The most notable exception is in our exports of cotton piece-goods. For the expansion in our imports in November compared with November last year wheat is responsible for £556,000, maize for £423,000 and raw wood for over £500,000. Our imports of raw cotton fell off in quantity by 465,000 cwts., but the decline in value was only £2,000.

The imports since January 1st have been as follows:

IMPORTS.	1895 £	1894. £	Difference. £	Per Ct.
January	36,753,068	38,458,613	—1,705,545	—4·43

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods December 12 and for the week ending for general merchandise December 13; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK

For Week.	1892.	1893.	1894.	1895
Dry Goods	$2,854,470	$1,305,421	$2,063,077	$2,543,520
Gen'l mer'dise	9,997,045	5,813,066	9,020,889	5,880,210
Total	$12,351,515	$7,119,187	$11,083,966	$8,423,730
Since Jan. 1				
Dry Goods	$122,333,697	$116,022,072	$85,197,212	$139,355,366
Gen'l mer'dise	431,803,308	405,154,526	335,898,797	360,569,089
Total 50 weeks	$554,137,005	$521,176,598	$421,096,009	$499,924,455

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending December 17 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894	1895
For the week..	$7,927,953	$7,428,312	$7,935,681	$9,141,539
Prev. reported	368,702,516	356,688,234	340,112,485	326,022,124
Total 10 weeks	$376,630,469	$364,016,576	$348,248,166	$335,163,663

The following table shows the exports and imports of specie at the port of New York for the week ending December 14 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

Gold.	Exports.		Imports	
	Week.	Since Jan. 1.	Week.	Since Jan.
Great Britain	$	$54,898,881		$15,836,621
France		13,808,082		5,761,918
Germany	1,010,000	9,352,086		1,648,853
West Indies	212,400	9,477,824	$4,505	1,045,604
Mexico				58,852
South America		2,014,902	65,730	812,201

Of the above imports during the week in 1895 $63,950 were American gold coin and $255 American silver coin. Of the exports during the same time $12,400 were American gold coin.

—The Andrews Manufacturing Company, No. 76 Fifth Avenue, deal in bank furniture and fittings and high-class cabinet trim. They give notice that their company has been so closely associated in the public mind with the Chicago house of A. H. Andrews & Co., although a distinct corporation and not financially connected with them for over seven years, it is found necessary to call attention to the fact that the Andrews Manufacturing Company has not failed nor made an assignment. They invite investigation of their methods and solicit orders for designs, plans and estimates for bank and office furniture.

—The old and much respected firm of Brewster, Cobb & Estabrook, of Boston, will expire by limitation February 1, 1896. Messrs. Estabrook, Watson, Bemis and Eddy have formed a co-partnership under the firm name of Estabrook & Co., and will occupy the present offices at 35 Congress Street. Mr. Cobb retires from active business, although retaining his financial interest in the new firm.

—Messrs. Graham & McCart, Cripple Creek, Col., have sent us a very interesting map showing the section of country about Cripple Creek and the location of the various mines. The card of Messrs. Graham & McCart will be found in another column.

—Attention is called to the list of investment bonds contained in the monthly circular of Messrs. Redmond, Kerr & Co., printed on the last page of the QUOTATION SUPPLEMENT, published December 7.

—Mr. F. J. Lisman, No. 10 Wall Street, has issued this week his monthly circular, giving quotations on a large number of inactive railroad issues which are not commonly quoted.

—Reports of the condition of the following national banks will be found in our advertising columns: Fourth, Gallatin, Continental, American Exchange, Mercantile and City.

—The Burlington Cedar Rapids & Northern Railway Co. of Iowa has declared its regular semi-annual dividend of two per cent payable Feb. 1.

THE PROFIT

of Southern Cotton Mills is much greater than most outsiders believe Twenty per cent and thirty per cent are common enough, and some mills show forty per cent and over upon their capital stock. "Piedmont Cotton Mills" is a company organized upon the co-operative plan, so that salaried men may become stockholders by the payment of moderate sums monthly. Many of the most successful Southern mills have been built upon the same plan. Full information about stock may be secured by applying to PIEDMONT COTTON MILLS, Equitable Building, Atlanta, Ga.

AMERICANS!!

If we would only manufacture every bale of our cotton right here in America instead of shipping it to England, the United States would control the finances of the universe. Cotton is America's main gold, producing crop, even though shipped in its raw state. What might we expect if we will send it to other nations in its manufactured form? Send for prospectus of Atlanta's new cotton mill, showing that Atlanta's mills now in operation, because of every possible advantage, are making the largest profits of any in the known world. Apply to PIEDMONT COTTON MILLS, Equitable Building, Atlanta, Ga.

* Extraordinary reported in our last issue as common stock.

WALL STREET, FRIDAY, DEC. 20, 1895.—5 P. M.

The Money Market and Financial Situation.—All other events of the week affecting business in Wall Street are overshadowed by the presentation on Tuesday of the President's message to Congress referring to the Venezuela question, and its results. The most important effect of the recommendations in the message was a liquidating movement of American securities by foreign holders. This movement not only caused a considerable decline in prices of bonds and stocks but also a largely increased demand for foreign exchange and an advance in rates in the foreign exchange market to a point where gold can be shipped to London at a profit.

The markets to-day have been badly demoralized both at home and abroad. Liquidation has been forced regardless of prices, declines covering a wide range, and call money has loaned at from 4 to 80 per cent.

The announcement of the new Reading plan on Monday, the signing of the agreement between the Pacific Mail SS. and the Panama Railroad companies, the favorable reports of earnings by some railroads, and the declaration of dividends on the Vanderbilt stocks, have been largely lost sight of in view of the more important events above mentioned.

The New York City Clearing-House banks in their statement of Dec. 14 showed a decrease in the reserve held of $1,730,700 and a surplus over the required reserve of $18,391,325, against $20,294,275 the previous week.

	1895 Dec. 14.	Differences from Prev. week.	1894. Dec. 15.	1893. Dec. 16.
	$	$	$	$
Capital	61,122,700		61,622,700	60,922,700
Surplus	72,577,900		71,253,600	71,726,500

Specie	87,495,800	Inc. 123,900	65,545,900	103,548,200
Legal tenders	81,650,400	Dec. 1,644,600	109,009,900	96,503,400
Reserve held	149,155,200	Dec 1,520,700	174,548,800	200,058,600
Legal reserve	130,763,875	Inc. 342,250	141,200,975	123 887,775
Surplus reserve	18,391,325	Dec 1,902,950	33,345,825	76,168,825

The open market rates for call loans during the week on stock and bond collaterals have ranged from 2 to 80 per cent. To-day's rates on call was 4 to 80 per cent. Prime commercial paper is quoted at 4½ to 5 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £148,046, and the percentage of reserve to liabilities was 60·09, against 60·83 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 3,725,000 francs in gold and of 3,900,000 francs in silver.

Foreign Exchange.—The market for foreign exchange has been firm on the demand which was stimulated by foreign liquidation of American securities.

All commercial offerings have been quickly absorbed without any perceptible effect, and the demand has been met largely by bills drawn against gold exports. The shipments of gold for the week amount to $6,580,000, of which $3,400,000 goes out to-morrow.

To-day's actual rates of exchange were as follows: Banker's sixty days' sterling, 4 87¼@4 88; demand, 4 89¼@4 89½; cables, 4 89⅝@4 89¾.

Posted rates of leading bankers are as follows:

December 20.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88½	4 90 @4 90½
Prime commercial	4 87¼@4 87½	———
Documentary commercial	4 86¾@4 87	———
Paris bankers' (francs)	5 17½@5 17½	5 15⅜@5 15⅝
Amsterdam (guilders) bankers	40 1/16@40 3/8	40 7/16@40 5/16
Frankfort or Bremen (reichmarks) b'kers'	95 1/16@95 5/16	95 3/8@95 7/8

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 1-16 discount, selling par; Charleston, buying par, selling ½ premium; New Orleans, bank, par; commercial $1 50 per $1,000 discount; Chicago, par@25c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $26,000 4s., coup., 1925, at 119 to 121½; $15,000 4s., reg., 1907, at 111 to 111½, and $7,000 4s., coup., 1907, 112½. Following are closing quotations:

* This is the price bid at the morning board, no sale was made.

State and Railroad Bonds.—Sales of State bonds at the Board include $6,000 No. Carolina special tax Class 1 at 1..., $124,000 Tenn. settlement 3s at 88½ to 90, $80,000 Virginia fund. debt 2-3s of 1991 at 59 to 61½, $1,000 Louisiana con. 4s at 100½, $1,000 Alabama Class B at 110½ and $5,000 So. Carolina 6s, non-fundable, at 1.

The railway bond market has been depressed under the liquidating movement, which has included all classes of securities.

The Reading bonds have been the most active on the list, partly as a result no doubt of the announcement of the reorganization plan. The general 4s, which are least affected by the proposed rehabilitation, have been relatively strong, while the other issues have declined an average of 2 points or more. Other active issues include the Nor. Pacifics, Atchisons, Mo. Kan. & Texas, Ches. & Ohio, Chic. & Nor. Pacifics, Mobile & Ohio, Rio Grande & Western, Texas & Pacific, Union Pacific, Wabash and Southern Ry. bonds, all of which have declined an average of several points.

Railroad and Miscellaneous Stocks.—The week opened with the market for stocks strong, and in most cases railway shares closed on Monday with a net advance. On Tuesday morning the tone at the opening was firm, but the announcement of the President's message had a depressing effect and was the beginning of a bear movement which has continued through the week.

The effect of the message upon the London market was more pronounced than upon our own, and as a consequence the stocks which are dealt in on both markets have been most affected. On Thursday Southern Railway preferred had dropped 5¾ points from the selling price on Monday, Mo. Kan. & Texas preferred 5⅞ points, Baltimore & Ohio preferred 5¼ points, and St. Paul, Louisville & Nashville and Manhattan Elevated each over 4 points during the same time. The coal stocks suffered a decline averaging about 3 points, except Reading, which had previously discounted the effect of the proposed reorganization. Others of the railroad list declined generally from 1 to 3 points.

The industrial list has participated in the movement towards lower prices, but with more irregularity when compared with last week's closing. Consolidated Gas had lost 11 points on Thursday, when it sold at 149. Pacific Mail declined to 28, a loss of 4 points, notwithstanding that the agreement with the Panama Railroad has been signed. Tenn. Coal & Iron sold on Tuesday at 35⅞ and on Thursday at 31. The decline in American Tobacco was 4½ points and in U. S. Leather preferred 5 points.

The above comparisons do not include the lower quotations of to-day, which cover a range of from about 3 to 15 points.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending DECEMBER* 20, *and since JAN.* 1, 1895.

HIGHEST AND LOWEST PRICES.

Saturday, Dec. 14.	Monday, Dec. 16.	Tuesday, Dec. 17.	Wednesday, Dec. 18.	Thursday, Dec. 19.	Friday, Dec. 20.	STOCKS.	Sales of the Week, Shares.	Range for year 1895. Lowest.	Highest.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations —see page 1103.

a Net earnings here given are after deducting taxes

b Net earnings here given are before deducting taxes

c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in October was $126,195, against $106,715 last year, and for ten months to October 31 $878,697, against $754,835; after adding earnings received from Federal Government net from January 1 to October 31, 1895, was $878,697, against $878,722. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

d Figures for 1895 do not include results on Albany Florida & Northern after August 14, while the figures for 1894 do include them.

e Results of coal mining operations only.

g Including other income, the net from January 1 to November 30 was $379,012, against $470,140 for 1894, and from July 1 to November 30 $252,967, against $251,677.

h Included in expenses for October, 1895, is $23,959, and for July 1 to Oct. 31, 1895, $70,187, which in former years would have been charged to betterments.

i Includes only one-half of lines in which Union Pacific has a part interest. Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern and Montana Union

k Including income from ferries, &c.

Miscellaneous Companies.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.
† Earnings increased largely on account of G. A. R. encampment in Louisville.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

Roads.	—Gross Earnings.— 1895.	1894.	—Net Earnings.— 1895.	1894.

Alabama Great Southern Railway Company, Limited.

(Report for the year ending June 30, 1895.)

This company owns all the stock of the American Company (the Alabama Great Southern Railroad); its report embraces statements for both the English and American companies.

Secretary R. V. Tomlinson says in part:

In comparison with the preceding year the gross receipts show a decrease of $25,375, the operating expenses a decrease of $101,092 78 and the net earnings an increase of $75,717 22. The directors are assured that the reduction in expenses has been effected without in any way impairing the condition of the road or its equipment.

Dividends—The accounts of the American Corporation show that, after providing for interest on bonds and debentures, there remains to the credit of net revenue the sum of £45,688 14s. 5d., to which must be added the net balance brought forward from the previous year, £37,474 16s. 10d., together £83,113 11s. 3d. At the last annual meeting it was stated that no dividend could be paid, owing to the net income having been used for the financial necessities of the Company; but the time has now arrived when the authorized issue of £50,000 general mortgage bonds may be sold. The directors recommend that one year's dividend (12s. per share) be declared on the "A" preference shares, to be paid so soon as the sale of the bonds is completed to shareholders on the register on the 9th of December, 1895

Directors—At meetings of the directors held in May, 1895, Messrs. Henry F. Shoemaker, Alfred Sully, Henry A. Taylor, John Howard Taylor, M. D. Woodford and E. Zimmerman resigned their seats at the Board, and Messrs. E. A. Bonnor-Maurice, J. Douglas, Daniel Marks, W. M. Scrivener, Samuel Spencer and Francis Lynde Stetson were at the same time elected to fill the vacancies.

The retiring directors are Mr. H. Doughty Browne, Mr. E. A. Bonnor-Maurice, Mr. Stetson and Mr. Douglas, who offer themselves for re-election.

English Company Balance Sheet, Etc.—The report shows that the English company has outstanding: Ordinary shares, £1,566,000; preference shares, £676,070; debentures, £134,000; 4 per cent certificates, £53,257. As offsets it owns the American company's ordinary shares, $7,830,000; preference shares, $3,380,350, and debentures, $670,000. For the American and English companies jointly is held $1,000,000 stock (par value) of the Cincinnati New Orleans & Texas Pacific Ry. The English company has current assets of £3,186 and liabilities of £3,147, and its available receipts derived from the dividends on the American company's preference shares is £39,212, which just pays the dividends now declared.

American Company's Earnings, Etc—The earnings, balance sheet, etc. of the American company are as follows:

	1894-95.	1893-94.	1892-93.
Earnings—	$	$	$

Mobile & Birmingham Railway.

(Report for year ending June 30, 1895.)

President Bush, of the *Railroad* Company, supplements his report as receiver as follows:

The Mobile & Birmingham Railway Co. was reorganized on July 2, 1895, under the name of the Mobile & Birmingham Railroad Co., the holders of all but 101 of the old bonds assenting to the plan of reorganization. The London committee was successful in placing $600,000 5 per cent prior lien bonds, which netted $590,780. From the proceeds of the prior lien bonds not required for reorganization expenses the following appropriations have been made: Steel rail and fastenings, $80,000; 100 box cars (with air brake, 60,000 lbs. capacity), $40,000; 100 flat cars (with air brake, 60,000 lbs. capacity), $32,000; 8 stock cars (air brake, 60,000 lbs. capacity, $400 each), $3,200; two new Mogul freight engines, (56 tons each), $17,400; machine shops at Mobile, $13,000; round house, $2,000. The steel rail has been bought, and by about Oct. 30, 1895, the entire main line will be steel rail. This rail was bought at $6 00 less than the present market price.

As receiver Mr. Bush reports as follows for the year ending June 30, 1895:

It is too soon to realize the benefits from the general improvement in trade throughout the country, but we can hope eventually for a gradual increase in our revenue from year to year under normal conditions, with fair average crops. As the physical condition of the road improves and our ability increases to acquire needed equipment, we can also hope gradually to reduce expenses. The total freight earnings for the year are divided as follows: Cotton, $45,966; coal, $49,355; lumber, $25,670; all other freight, $92,229; total, $213,219. The outlook for cotton the present year is not so good as last year, but the better price which it commands should stimulate traffic in other commodities.

Physical Condition.—The road has 47,490 feet of wooden trestles, which will require an expenditure of $23,745 per annum. Prior to the expenditures above mentioned the equipment was entirely inadequate and the track was still partly laid with iron.

Statistics.—Earnings and expenses have been as follows:

GROSS EARNINGS.

	1894-95.	1893-94.	1892-93
	$	$	$
Passenger	68,717	66,707	74,856

—V. 61, p. 69.

North-Eastern Railroad—(South Carolina).

(Report for the year ending June 30, 1895.)

The Charleston Sumter & Northern RR., at its sale in foreclosure proceedings in February, 1895, was purchased by the holders of the securities thereof, to a certain extent in the interest of the North-Eastern Company. Since its reorganization bonds to the amount of $800,000 have been issued and secured by a mortgage of the company's property, of which it was considered proper that the North-Eastern Company should guarantee its proper proportion. Accordingly at the the annual meeting it was duly resolved that the company agree to endorse and guarantee the payment of two hundred and thirty-six of the bonds of the Charleston & Northern Railroad Company, numbered from 565 to 800, both inclusive, to the sum of $236,000, together with the interest thereon, to the extent of 4 per centum per annum, as the principal and interest of said bonds shall become due and payable.

President C. S. Gadsden says:

It is with regret that severe loss of revenue is again reported for the past year. Added to previous unfavorable conditions which have continued to affect injuriously the revenues in recent years, there occurred the total destruction of the orange crop of Florida in January, 1895. The very large movement of commercial fertilizers, which had formed a principal feature of the company's business of late years, was also greatly reduced by the low price of cotton. The loss from the destruction of the orange industry will be again felt in 1895-6; but from the decided advance in cotton a fair movement of fertilizers may reasonably be expected the coming season. Added to property account are 75 box cars (25 built in the shops of the Wilmington & Weldon RR and 50 by the Pullman Company.)

Statistics.—Earnings and expenses have been as follows:

EARNINGS, EXPENSES AND CHARGES.

	1894-95.	1893-94.	1892-93.	1891-92.

Richmond Fredericksburg & Potomac Railroad.

(Report for the year ending June 30, 1895.)

President E. T. D. Myers says in part: There was an increase in gross revenue for the year of $37,456 and of net revenue $12,874, nearly all of which was in through business.

Physical Condition.—The property has been carefully maintained. Nearly all the 56-lb. rail in the main track has been replaced with 75-lb. rail, 5,307 tons having been purchased. There have been laid up to the present date 44½ miles. The remainder of the track is almost wholly 67-lb. rail. The cost of this improvement, after disposing of the old rails, was $84,724. Of this the sum of $24,504 was charged to the current expenses of the year, leaving about $60,000 to be carried to subsequent years. The wooden drawbridges at Aquia Creek and Chapawamsic have been replaced by steel girders. The Boulevard "overhead" bridge has been replaced with steel. Six box cars have been added to the equipment. The condition of the motive power is practically unchanged; it is good.

Statistics.—Following are the results for four years and the balance sheet June 30:

EARNINGS EXPENSES AND CHARGES.

	1894-95.	1893-94.	1892-93.	1891-92.

American Type Founders.—*Reduction of Capital Stock, Etc.*—Regarding the proposed reduction in the capital stock and the issuance of $1,000,000 debentures, President John E. Searles has made a statement in which he says:

It was at the time of the annual report, and is even more so now, my understanding entirely that the condition of the company is more healthy than at any time since its organization, and that its steadily increasing earning capacity promises in the near future substantial returns. A report covering the three months since Sept. 1 shows a very large increase in the volume of business and the further securing of important contracts. The outstanding obligations have been reduced during the last months and the bills and accounts receivable have been considerably increased.

Readjustment was desirable because the company was originally over-capitalized and because it had never had sufficient working capital. My official connection with the company dates from September, 1894, when I was elected President. My desire has been to have the capitalization reduced below, rather than stand above, the commercial value of its material property, and this result will be achieved in the accomplishment of the plan proposed by the adjustment committee, which has been unanimously adopted by the board of directors and is now being passed upon by the stockholders, of whom a majority are known to be favorable to its adoption. It proposes the reduction of the capital stock from $20,000,000 to $4,000,000, all of which issue shall be of equal standing and without preference. It will be divided among the present stockholders, giving to the present preferred holders, of course, a larger percentage than to the present holders of common stock. In order to retire the floating indebtedness of about $700,000, a million dollars' worth of debenture bonds will be issued, of which half may will be offered to the stockholders. Under the operation of this plan the working capital of the company will be made more adequate to its needs, and current profits will be available for the payment of dividends. Although the original prospectus of the company stated that no bonds would be issued, the bonds contemplated were such as created a mortgage lien and not debenture bonds. Still the company were vested with power to issue even mortgage bonds with the consent of nine-tenths of the stockholders.

As for the two expert reports, one showing a deficit and the other a surplus, they were made by the same accountant, who misconceived in his first report the true factors entering into the case, and subsequently admitted that he had made mistakes.—V. 61, p. 829.

Atchison System—Atlantic & Pacific RR.—*Suit to Enforce Guaranty.*—The Bondholders' Committee of the Atlantic & Pacific, representing $17,656,000 (out of $18,794,000) first mortgage bonds, has begun suit in the New York Supreme Court against the Atchison Topeka & Santa Fe, the Joint Executive Reorganization Committee, the New York Guaranty & Indemnity Co., the Union Trust Co. and the Mercantile Trust Co., as depositaries and mortgagees, to enforce the guaranty on the Atlantic & Pacific bonds. This guaranty was made severally, but not jointly, with the St. Louis & San Francisco, each company guaranteeing one-half of each bond. The plaintiff, as creditor therefore of the Atchison to the extent of about $8,825,000, claims that the plan for the reorganization of that company, under which the property has been purchased, is in effect a combination between the stockholders and bondholders to reorganize the property in the interest of the stockholders as well as bondholders, and to reinstate the existing securities in their order of priority, and that that cannot lawfully be done to the exclusion of the rights of intermediate creditors. The suit does not attempt to prevent the completion of the reorganization or the distribution of the new securities to the Atchison bondholders, but is based upon the principle that the stockholders of an insolvent debtor corporation cannot by combination with any class of its bondholders so arrange as to retain their interest in its property and assets in priority to and to the exclusion of intermediate bona fide creditors.

A member of the Atlantic & Pacific committee is quoted as saying:

The reorganization of the Atchison was arranged between the owners of the road, the stockholders and certain creditors, the bondholders. By foreclosure the property was handed back to themselves, and creditors not included in the transaction were left unprovided for. Our suit is based on mercantile law, which has never before been employed in a proceeding by the creditors of an insolvent corporation. The courts have decided time and again in commercial failures that a deal could not be made with a portion of a firm's creditors while others were frozen out. The Atlantic & Pacific bonds which we hold were sold for par. They originally bore 6 per cent interest. In 1889 the interest was reduced to 4 per cent. As stated, the bonds were guaranteed by the Atchison and the St. Louis & San Francisco companies, and the Atchison became responsible for one-half of the issue of $19,000,000. We now purpose to compel the carrying out of the obligation.

Atchison Topeka & Santa Fe Railway.—*Contracts.*—The directors at their meeting next week are expected to take action respecting the various contracts affected by the sale of the old company, including those with the Pullman Co., Wells, Fargo Express and Western Union Telegraph companies.

Offices.—The headquarters of Chairman Aldace F. Walker, Controller John P. Whitehead, Assistant Secretary L. C. Deming, and Assistant Treasurer George C. Goodwin, it is understood, will be in New York. President E. P. Ripley will have his office in Chicago, as will First Vice-President Daniel B. Robinson. In Topeka will be General Manager J. J. Frey and Secretary and Treasurer E. Wilder, etc.—V. 61, p. 1061.

Baltimore & Ohio RR.—*Resignation of President Mayer.*—At the meeting of the Board of Directors in Baltimore on Wednesday President Mayer declined re-election but consented to retain the office until the appointment of his successor. The usual dividend on the preferred stock was declared.

Monongahela River RR.—This company, which is controlled by the B. & O., is understood to have purchased the property of the Monongahela Coal & Coke Co., consisting of about 15,000 acres of land, from which a very considerable output of coal is being derived.—V. 61, p. 927.

California Eastern RR—Nevada Southern Ry.—*Reorganization.*—The California Eastern is the new name of the Nevada Southern recently sold under decree of Court. The property is still in the hands of the receiver pending the completion of the reorganization. Extensions are proposed.—V. 61, p. 703.

Canada Southern.—The earnings of this company are included in the report of the Michigan Central (see below), and are not given separately. The surplus over charges reported by the Michigan Central for 1895 is $1,081,000. This is divided between the two companies in certain proportions, the share coming to the Canada Southern this year being $304,000, as against $237,803 in 1894. By means of this income and the income from other sources, and the accumulated surplus, dividends were declared as follows:

	1895.	1894.	1893.
Canada Southern's share	$304,000	$237,803	$456,647
Other income	18,800	7,415	7,319
Total	$322,800	$295,218	$463,966
Dividends	375,000	375,000	450,000
Balance	def. $52,200	def. $79,777	sur. $13,966
From previous year	110,822	190,599	176,633
Surplus	$58,622	$110,822	$190,599

The semi-annual dividend of 1¼ per cent was declared payable Feb. 1, 1896.—V. 60, p. 1144.

Central of Georgia Ry.—*Redemption of Bonds.*—The *Tripartite 7 per cent mortgage bonds* will be paid principal, and interest to Dec. 17, 1895, by the Farmers' Loan & Trust Co. at its office in New York, upon surrender.—V. 61, p. 1063.

Central Massachusetts RR.—*Dividend.*—On the settlement with the Boston & Maine, mentioned last week, a dividend on the preferred stock of $1 50 per share has been declared, payable Jan. 2, 1896.—V. 61, p. 1063.

Chicago Gas.—*Litigation.*—Attorney-General Hancock, of New York State, has postponed until early in January the hearing in regard to the application for an injunction to restrain the Central Trust Company from issuing stock certificates to holders of Fidelity Trust certificates which have been deposited under the reorganization plan. On application of a stockholder named William R. Whitner, who had deposited his stock under the plan, Judge Bischoff, of the Court of Common Pleas in this city on Saturday, Dec. 7, granted a temporary injunction restraining the committee from carrying out the proposed plan, the plea being that the plan is illegal and contrary to the interests of the stockholders. Briefs on the motion for the continuation of this injunction have been filed.—V. 61, p. 1012.

Chicago & South Side Rapid Transit—*New Committee.*—On Saturday, Dec. 14, at the office of A. O. Slaughter & Co., in Chicago, another committee in opposition to the Mitchell plan was appointed. It consists of George Schneider, Byron L. Smith, A. O. Slaughter, Lyman J. Gage, Chauncey J. Blair, Leslie Carter and William Fleming. The committee calls for deposits of bonds and coupons on or before Jan. 15, 1896, with the Northern Trust Co.—V. 61, p. 1063.

Cincinnati Jackson & Mackinaw RR.—*Foreclosure Suit.*—The Central Trust Company, as mortgage trustee, has brought suit in the United States Circuit Court in Cincinnati for foreclosure of the first mortgage and for the appointment of a receiver. Interest on the bonds due Dec. 1, 1894, and since remains unpaid.

Reorganization Notice.—F. P. Olcott (with J. N. Wallace as Secretary, 54 Wall Street) has consented, at the request of holders of a majority in amount of the bonds and holders of a large amount of stock to act as as a reorganization trustee to effect a reorganization under an agreement dated Dec. 10, 1895. Holders are requested to deposit their stock and bonds with the Central Trust Company, and thereby assent to the agreement and plan. At the time of the deposit an assessment must be paid of $20 per bonds and 25 cents per $100 share of stock. See advertisement in another column.

Reorganization Plan.—Under date of Dec. 10 Mr. Olcott, as reorganization trustee, presents a plan of readjustment which provides for the creation, after foreclosure sale, of the following new securities:

Common stock	$5,000,000
Of which to retire $16,300,000 old stock at 20 per cent	‡3,260,000
Preferred stock	5,000,000
Of which to retire old first mortgage bonds at par	‡4,235,000
First mortgage 5 per cent 50-year gold bonds at $10,000 per mile.	
For improvements, betterments and rolling stock on present line	‡3,240,000
For extensions to Cincinnati, O., Jackson, Mich., or elsewhere, as deemed advisable, additional amounts	10,000 p.m.

‡ Calculated, not official.

The holders of old stock and bonds (with all overdue coupons attached) will pay the following assessments and receive new securities in the amounts named:

Each holder of—	*Pays as assessment.*	—AND RECEIVES FOR— PRINCIPAL AND ASSESSM'T. *Com. stock.*	*Pref. stock.*
First mortgage 4s for $1,000	$20	.....	$1,000
Common stock for $100	25 cents.	$20	.....

—V. 61, p. 870.

Cleveland Canton & Southern.—*Notice to Bondholders.*—In view of the anticipated failure to pay on January 1 the coupon due July 1 last on the Cleveland & Canton *first mortgage* bonds, Messrs. Woerishoeffer & Co. and Clarence H. Wildes have issued a circular to the first mortgage bondholders setting forth the present situation and inviting cooperation in order that a protective bondholders' committee may be formed. It is said that the situation at present seems to be dominated by the junior security holders, and that an

effort will be made by them to change the present Receiver, who is acceptable to the first mortgage holders. There is already a first mortgage bondholders' committee composed of Austin Corbin, H. L. Thornell and Charles A. Peabody, Jr., who are said to represent the Astor and other holdings to the amount of about $700,000.—V. 61, p. 1010.

Consolidated Electric Ry., Fort Wayne, Ind.—*New Mortgage.*—This company is reported to have filed a mortgage for $1,500,000. See Fort Wayne Electric Railway, CHRONICLE of Nov. 30, page 966.

Dallas Consolidated Street Ry.—*Reorganization Plan.*—The first mortgage bondholders' committee, consisting of John Gill, Wm. H. Blackford and J. Willcox Brown, all of Baltimore, has presented a plan of reorganization, which provides for the following new securities to be issued by the reorganized company:

First mortgage 5 per cent gold bonds, maturing 50 years from Jan. 1, 1896	$350,000
Of which to retire $250,000 old bonds at par	250,000
To remain in treasury available with $50,000 assessment and $50,000 common stock to pay claims, reorganization expenses and for betterments	100,000
Common stock to be held in voting trust for five years	350,000

To pay a claim prior to the old mortgage, assessments aggregating $50,000 must be paid. Bondholders paying the assessment of 20 per cent (10 per cent Jan. 1, 1896, and 10 per cent Feb 1, 1896,) will receive $1,000 in new 1st mortgage 5s and $1,000 in new common stock

The committee says:

It is believed that this property can pay between 4 and 5 per cent dividends on $250,000 common stock if the $100,000 first mortgage bonds reserved in the treasury are not disposed of, and in this manner the first mortgage bondholders will receive more than full value for their original investment.

The receiver says the property is in "fair running order," but advises putting electricity on the whole road.—V. 61, p. 1013.

Depew & Tonawanda Railroad.—*Progress.*—The construction of this road between Depew and Tonawanda, N. Y., is reported to be making progress. This enterprise is said to be in the interest of the Lehigh Valley Railroad, which will gain thereby independent access to the Suspension Bridge, instead of being obliged as at present to use the tracks of the New York Central. The Depew & Southwestern Railroad was organized by the same parties last June to build a line over the route now being covered by the Terminal Railway of Buffalo. See item concerning that company.

Eastern Trunk Lines—*Additional Officers.*—The chairman of the Board of Managers is Horace J. Hayden, second Vice-President of the New York Central. George R. Blanchard was appointed Commissioner. It is not thought likely that any other Commissioner will be appointed at present.—V. 61, p. 1064.

Electro Gas—Bay State Gas—Chicago Gas—N. Y. Carbide & Acetylene.—*Acetylene Gas.*—The patents under which the new gas known as acetylene is manufactured are owned by a company organized a year or more ago for the purpose of control, and styled the *Electro Gas Co.* With this company Mr. Charles F. Dieterich, who is connected with a number of gas enterprises in the West, is prominently identified. The stock of the company is 5,000 shares of $100 each. A dividend of 60 per cent was paid in November.

The *Electro Gas Co.* is selling the rights to various cities and States for the manufacture of the gas. Some of the important contracts already made include New York, Chicago, Philadelphia and the State of Massachusetts. The *New York Carbide and Acetylene Co.* has been incorporated with a capital of $7,000,000 to manufacture acetylene under the rights it has secured for the territory included in the proposed Greater New York. Acetylene rights for Chicago have been secured in the interest of the *Chicago Gas Co.*, and the *Bay State Gas Co.* of Boston has secured rights for that city. The *Equitable Gas Co.* of New York contracted for $500,000 for rights in the portion of New York which it now serves, and this contract, it is understood, will go to the new company covering what is known as Greater New York.

Acetylene is manufactured from lime and coke, forming a substance called calcium carbide, which has the appearance of coke. This carbide when combined with water under a process patented by the United States Acetylene Liquefaction Company produces the gas known as acetylene. The gas can be stored in tanks, and thus easily transported without the use of street mains. It can be combined with ordinary gas, producing a better light, its illuminating power being much greater than the gas in common use.—V. 61, p. 924, 1012.

Erie RR.—*Mortgage Filed.*—The new mortgage for $175,000,000 has been filed, the Farmers' Loan & Trust Company being the trustee.—V. 61, p. 1064.

Kansas City Pittsburg & Gulf—*Extension Completed.*—The extension to a connection at Sallisaw, Indian Territory, with the Kansas & Arkansaw Valley RR., has been completed, and the company report that they have already delivered sixty cars of grain for New Orleans and a large traffic is likely to follow. The new route to New Orleans is via the Little Rock & Fort Smith and other lines of the Missouri Pacific system.—V. 61, p. 1064.

Kings County Elevated RR.—Brooklyn & Brighton Beach RR.—*Proposed Lease.*—The Kings County Elevated RR. Co. has arranged to take a lease of the Brooklyn & Brighton Beach road as soon as the suits to prevent the building of the short piece of road needed to connect the lines shall be favorably settled. The terms of the lease are withheld.—V. 60, p. 561; V. 61, p. 967.

Lake Shore & Michigan Southern Ry.—*Earnings.*—This company reports as follows for the years ending December 31, December, 1895, being partly estimated:

	1895.	1894.	1893.
Gross earnings	$20,813,903	$19,557,870	$23,685,932
Operating expenses	14,425,428	13,186,069	17,123,913
Net earnings	$6,388,475	$6,371,801	$6,562,019
Fixed charges	3,360,000	3,402,862	3,365,376
Balance	$3,028,475	$2,968,939	$3,196,643
Dividends	2,967,990	2,967,990	2,967,990
Surplus	$60,485	$949	$228,653
Equal on stock to	6·12 p. c.	6 p. c.	6·46 p. c.

Expenses include all expenditures. Nothing has been charged to construction or equipment since 1883. The funded debt was decreased $250,000 during the year by the sinking fund.

The semi-annual dividend of 3 per cent was declared payable Feb 1.—V. 61, p. 925.

Louisville & Nashville RR.—Nashville Chattanooga & St. Louis RR.—Paducah Tennessee & Alabama RR.—*Lease.*—It is announced that the Paducah Tennessee & Alabama and the Tennessee Midland roads, which were recently foreclosed, and acquired at the sale by the Louisville & Nashville, have been leased to the Nashville Chattanooga & St. Louis.—V. 61, p. 518, 872, 1013.

Michigan Central RR.—*Bridge over Detroit River.*—At Washington, on Monday, Senator McMillan introduced a bill authorizing the Michigan Central Bridge Co. to construct a railroad bridge across the Detroit River at Detroit. The bridge is to be made with three unbroken spans over the river—the length of the main channel span to be not less than 1,100 feet clear—and in the river is to have only two piers. The Michigan Central has long been desirous of doing away with its slow and expensive car ferries, and now only awaits the consent of Congress to go ahead with the work. The cost of the bridge, it is said, will aggregate $4,000,000 with approaches.

Earnings.—This company reports as follows for the year ending Dec. 31, December, 1895, being partly estimated:

	1895.	1894.	1893.
Gross earnings	$13,550,000	$12,584,012	$16,178,030
Operating expenses	10,070,000	9,144,107	12,287,792
Net earnings	$3,480,000	$3,439,905	$3,890,238
Interest and rentals	2,400,000	2,401,185	2,401,804
Surplus	$1,080,000	$1,038,720	$1,488,434
Proportion to C. S.	304,000	287,808	456,647
Proportion to M. C.	776,000	750,912	1,031,787
Other income	49 000	44,649	45,790
Net income	$825,000	$795,561	$1,077,577
Dividends	749,520	749,528	1,030,601
Balance	$75,480	$46,033	$46,976

The semi-annual dividend of 2 per cent was declared payable Feb. 1, 1896.—V. 60, p. 1146.

Milwaukee Street Ry.—*Foreclosure Sale.*—A decree of foreclosure is expected daily, and the sale, it is thought, will take place by February, 1896. All but eleven bonds have assented to the plan.—V. 61, p.1065.

Nashville Chattanooga & St. Louis Ry.—*Bond Payment.*—The $86,000 Duck River first mortgage and $20,000 Tracy Branch bonds due Jan. 1, 1896, will be paid at maturity at the Continental National Bank of this city.—V. 61, p. 518.

National Lead—*Dividend.*—At the regular monthly meeting of the directors on Thursday no action was taken on the dividend on common stock. A dividend of 1 per cent was paid October 17.—V. 61, p. 517.

New Orleans & Western RR.—*New Enterprise.*—This company is constructing a belt railroad encircling the city of New Orleans and connecting with all the railroads entering that city. When completed the line will extend from Avondale, some four miles above the city, to Port Chalmette, about three miles below the city, a total length of about sixteen miles. At the latter point the company has a large terminal property extending a mile on the Mississippi River front, and here are now in course of construction eighty cotton warehouses 60 by 90 feet each in size, a grain elevator with a capacity of half a million bushels of grain, wharves and facilities for handling cotton, grain and merchandise. Port Chalmette has been made a port of entry and vessels from foreign and other ports are given free wharfage. Mr. John H. O'Connor, the President of the State National Bank of New Orleans, is the President of the company. Prominent local and Eastern capitalists are identified with the enterprise. The capitalization is $3,000,000 of first mortgage 5 per cent 50-year gold bonds, and $6,000,000 of common stock.

New York Central & Hudson River RR.—*Quarterly.*—Earnings for the quarter and the six months ending December 31 have been reported as follows, December, 1895, being partly estimated:

3 mo. end. Dec. 31.	Gross earnings.	Net earnings.	Fixed charges.	Dividends on stock.	Balance surplus.
1895	$12,387,000	$3,988,500	$2,650,500	(1)$1,000,000	$319,000
1894	11,318,229	3,939,270	2,627,462	(1½)1,192,354	118,954
6 months.					
1894-95	$23,987,500	$7,823,500	$5,281,000	(2)$2,000,000	$542,500
1893 94	22,159,050	7,665,384	5,257,615	(2½)2,385,708	22,011

—V. 61 p. 926.

New York & Long Island RR.—*Increase of Stock.*—The stockholders this week voted to apply to the State Railroad

Commission for permission to increase the company's capital stock from $100,000 to $10,000,000. The meeting was held at No. 45 Broadway, and the following directors were elected: William Steinway, H. S. Kearney, H. E. Kleber, Louis von Bermuth, Walter J. Foster, John Bogart, A. G. Mills, W. D. Baldwin, Herbert Steward, Malcom W. Niven, Edward A. Green and H. D. Low of New York, and A. J. Benedict of London. The plan is to construct a railroad tunnel from Long Island City under New York to Jersey City.

New York & Westchester Water.—*Increase of Stock.*—The stockholders vote Dec. 23 upon a proposition to increase the capital stock from $500,000 to $10,000,000.

Northern Pacific RR.—*Coupon Payment.*—At Milwaukee on Saturday, Dec. 14, Judge Jenkins directed receivers McHenry and Bigelow, the receivers for the seventh circuit, which includes Wisconsin, Minnesota and Dakota, to pay the interest due Jan. 1, 1896, on the general first mortgage 6s; also the amount due the sinking fund of said loan. These payments will aggregate about $1,700,000.—V. 61, p. 1065.

Northern Pacific RR.—Great Northern Ry.—*Pearsall Suit Appealed.*—The Pearsall suit to prevent the Great Northern from purchasing the stock of a company projected to control both the Northern Pacific and the Great Northern companies was appealed on Monday by the plaintiff to the Supreme Court of the United States. (See V. 61, p. 867, 517; V. 61, p. 930, 1065.)

Omaha & St. Louis Ry.—*New Plan.*—The bondholders' committee gives notice that a meeting of the certificate holders representing the bonds will be held at the office of Edward W. Sheldon, No. 45 Wall Street, on Dec. 30, to consider the advisability of abandoning the plan of reorganization dated Oct. 31, 1894, and of considering a proposition to sell all the bonds and coupons deposited with the trust company. The committee consists of W. Emlen Roosevelt, Cornelius B. Gold and Francis Smith. Details of the proposition to be submitted are withheld until the meeting.—V. 61, p. 1065.

Oregon Short Line & Utah Northern Ry.—*New Committee.*—The following is the new *consolidated mortgage* committee referred to in our issue of Dec 7: Samuel Carr, Chairman (Trustee of estates of F. L. Ames and the late Governor Ames), Alexander E. Orr (President of the Chamber of Commerce, New York), Nathaniel Thayer, Gardiner M. Lane (of Lee, Higginson & Co.), W. G. Oakman (President of the New York Guaranty & Indemnity Company), A. A. H. Boissevain (representing the Dutch committee), Gordon Abbott (Vice-President of the Old Colony Trust Company), G. P. Butler, Secretary. The committee is formed to represent all interests and its organization will result in stopping all litigation. The committee will soon issue a plan of reorganization. The details of the plan are still under consideration, and when determined upon will be subject to foreign revision, so that some time must elapse before the plan can be publicly submitted. The cash requirements are said to aggregate some $2,000,000, and how to raise this amount is one of the problems to be solved by the new committee.—V. 61, p. 1018.

Pacific Cable Company.—*Incorporation.*—This company, referred to last week, was incorporated at Trenton, N. J., on Monday, with capital stock of $1,000,000 (in $100 shares), all subscribed for by the following corporators: Abram S. Hewitt, D. O. Mills, G. M. Dodge, Fred. D. Grant, Wager Swayne, all of New York; James J. Hill, of St. Paul; Z. S. Spaulding, of San Francisco; John H. Browning, of Tenafly, N. J., and Mason W. Tyler, of Plainfield, N. J.

The New York *Sun* quotes ex-Mayor Hewitt as saying:

The Government of Hawaii has granted to Col. Spaulding, a well-known planter of the Hawaiian Island, a concession for a cable to the United States, with a subsidy of $40,000 a year. The interest on the outlay and expense for maintenance it is estimated, will be about $300,000 a year. Col. Spaulding's idea is to apply to the Government of the United States for a subsidy. As the enterprise is of great public and commercial importance, several prominent gentlemen have agreed to furnish the money required, provided the subsidy is secured. Their object, however, is not to make any money out of the enterprise, and hence, in the bill which will be presented to Congress, provision is made that the United States Government may at any time release itself from the subsidy by taking the cable from the company at the actual cost of construction.

Officers.—On Thursday the following board of directors was elected: J. Pierpont Morgan, George S. Bowdin, Edmund L. Baylies, J. Kennedy Tod and James A. Scrymser. Mr. Scrymser was elected President of the company, and Edmund L. Baylies Vice-President and Acting Treasurer. An increase of the capital stock to $10,000,000 is proposed. It is estimated that it will require 7,249 miles of cable, including slack, to connect the United States and Japan, via the Sandwich and other Pacific Islands.—V. 61, p. 1065.

Panama RR.—Pacific Mail Steamship.—*Contract Signed.*—A contract signed on Monday by the presidents of both these companies at length settles the disputes that have existed since 1892. The agreement is for three years, and may be extended for two years more at the option of the Steamship Company. Under its terms the Pacific Mail will do all the steamship business on the Pacific and the Panama RR. all on the Atlantic Ocean. In pro rating on through business the Panama Railroad will be entitled to 55 per cent and the Pacific Mail Company to 45 per cent of the charges. The vessels of the Pacific Mail Company, which have been running between New York and Colon, will be transferred to the Pacific.—V. 61, p. 1018.

Peoria Decatur & Evansville Ry.—*Coupon Payment.*—Coupons due July 1, 1895, of the first mortgage bonds of the Peoria Division will be paid at the office of the Central Trust Company, in New York City, on and after Thursday, Dec. 26, 1895.—V. 61, p. 831.

Philadelphia & Reading RR.—*Reorganization Plan.*—The plan of reorganization issued this week is spread in full on subsequent pages of to-day's CHRONICLE, where it may be studied to advantage and in future referred to as occasion may require. In the advertising columns will be found a brief statement of the main features of the plan

Protective Committee Endorses the Plan.—At a meeting held yesterday by the Junior Securities Protective Committee, consisting of R. M. Gallaway and others, it was unanimously resolved that the depositaries named in the circular issued by this committee be directed to return to the depositors thereunder the securities deposited upon surrender of receipts, the committee having decided to disband, as in their opinion the plan issued by Messrs. J. P. Morgan & Co. seems on the whole to propose a thorough adjustment of the affairs of the Reading Company. The announcement further states that the individual members of the committee who have large holdings of junior securities deposited under their circulars will individually deposit such holdings under the proposed reorganization plan.—V. 61, p. 1065.

Pittsburg Allegheny & Manchester Traction.—*Lease.*—The meeting to vote on the 950-year lease to the Consolidated Traction Company has been postponed till Dec. 30. It is said the minority stockholders propose to take measures to prevent the lease being made.—V. 61, p. 794.

Rates on Steel Rails, Etc., from Colorado to San Francisco.—Colorado Fuel & Iron Co.—*Decision.*—The Inter-state Commerce Commission has rendered an important decision, reducing largely the rates on steel rails, bar iron and other iron and steel articles from Pueblo, Col., to San Francisco. The Colorado Fuel & Iron Company complained that the charge of $1 60 per hundred pounds on these articles was unreasonable, the rate from Chicago for steel rails being only 60 cents per hundred pounds. The Commission sustains this position and orders "that the rates from Pueblo to San Francisco should not exceed 45 cents per hundred pounds on steel rails and railway fastenings, or 37½ cents per hundred pounds on bar iron, cast iron water-pipe, pig iron, billets, blooms, rivets, nails and spikes. Nor should the rates from Pueblo to San Francisco on such traffic or on other iron and steel articles be greater at any time than 75 per cent of rates contemporaneously in force on like traffic from Chicago to San Francisco over any of the defendant roads."—V. 61, p. 478.

Rockport & Northern.—*New Company.*—A charter for this company has been filed in Texas. The line is projected from Rockport, Texas, on the Gulf of Mexico, north to Smithville, a total distance of 145 miles. The road would give the Missouri Kansas & Texas a direct southerly extension from Smithville to the Gulf, but that company deny any knowledge of the enterprise.

Terre Haute Electric Ry.—*Description of Bonds.*—The application to the Stock Exchange describes the bonds listed last week as follows:

The authorized issue is $1,000,000, of which $425,000 are held by the Metropolitan Trust Company of the city of New York, trustee, in escrow, to retire the $400,000 bonds outstanding of the Terre Haute Street Railway Company. Bonds numbered 817 to 1,000, both inclusive, are held by the Metropolitan Trust Company of the city of New York, trustee, under very rigid restrictions, and can be issued only for necessary extensions and betterments, after the proceeds have been expended or contracted for and after the net income of the company for a continuous period of one year shall have been equal to the interest on the bonds theretofore issued, together with 10 per cent on the bonds to be issued. The bonds may be registered at the Metropolitan Trust Company of the city of New York for the payment of interest in London, Paris or Berlin.

The mortgage conveys all the property of the company now owned or hereafter to be acquired and is also a lien on the lighting and power plant and also on the steam heating plant and all the rights, franchises, property, apparatus and business incident thereto.

The company now owns and operates 23 miles of road in the city of Terre Haute, and has a franchise for an electric railroad granted in 1888, for fifty years. The company has also acquired the franchise and business of the Citizens' Electric Light & Power Company, which has a five-year contract with the city of Terre Haute for public lighting which will not expire until the year 1900. The light and power franchise is very liberal in character and unlimited as to time. The railway company has also acquired by purchase the franchise, business, mains and plant of the Terre Haute Steam Heating & Power Company, incorporated in 1891. These plants being located upon the company's real estate, and operated together under one management, with but one set of officials, enables the company to obtain superior results at very much less cost than would be possible if operated separately. The passenger earnings have shown a steady increase each year. The company has only been furnishing the city with municipal lighting for a few months. The installation of a commercial electric light and power plant has just been completed. The steam heating plant commenced operations less than 30 days ago.

BALANCE SHEET TERRE HAUTE ELECTRIC RAILWAY COMPANY.

Assets.		*Liabilities.*	
Elec. Ry. franch., prop., &c.	$1,000,000	Stock	$500,000
Lighting plant franch., rights, property, &c.	250,000	Bonds	791,000
Steam heating plant franch., property, &c.	105,000	Accts. and bills payable for mach'y and supplies (not yet due)	25,500
Bills receivable	35,000	Undivided profits	68,500
Accrued earnings	3,500	Int. accrued & not due.	13,500
Total	$1,398,500	Total	$1,398,500

The President of the company is Russell B. Harrison, and the earnings are published from time to time in the CHRONICLE and STREET RAILWAY SUPPLEMENT.—V. 61, p. 1066.

Reports and Documents.

PLAN FOR THE REORGANIZATION OF THE PHILADELPHIA & READING RAILROAD CO. AND PHILADELPHIA & READING COAL AND IRON COMPANY.

DATED DECEMBER 14, 1895.

FREDERIC P. OLCOTT, ADRIAN ISELIN, JR., J. KENNEDY TOD, HENRY BUDGE, THOMAS DENNY, GEORGE H. EARLE, JR., SIDNEY F. TYLER, SAMUEL R. SHIPLEY, RICHARD Y. COOK, *Committee.*

F. W. WHITRIDGE, JOHN G. JOHNSON, GEORGE L. RIVES, *Counsel.*

J. P. MORGAN & CO., New York. DREXEL & CO., Philadelphia. J. S. MORGAN & CO., London. *Depositaries.*

FRANCIS LYNDE STETSON, *Counsel.*

As security holders are doubtless aware, the under-signed Committee has for over a year past devoted its time and attention to the affairs of the above-named companies, and, as a result, a decree for the foreclosure of the General Mortgage is expected shortly to be entered.

The Committee feels, therefore, that the time is now opportune to bring about a reorganization of the properties of the Philadelphia & Reading Railroad Company and of the Philadelphia & Reading Coal & Iron Company on the basis which it originally undertook to accomplish, being one which shall attain the following results:

(a) the protection of the present General Mortgage;
(b) the reduction of the fixed charges to a limit safely within the net earning capacity of the reorganized properties;
(c) adequate provision of cash working capital for future requirements;
(d) the payment of the floating debt, and provision for the existing car trust obligations;
(e) such control of the reorganized System until the earnings of the properties shall have placed them in a satisfactory financial position, as shall render additionally secure the new General Mortgage.

Having these objects in view, the annexed plan has been prepared, with the co-operation of Messrs. J. P. Morgan & Co., who have been selected by the Committee to act as Managers to carry out the plan.

FREDERIC P. OLCOTT, ADRIAN ISELIN, JR., J. KENNEDY TOD, HENRY BUDGE, THOMAS DENNY, GEORGE H. EARLE, JR., SIDNEY F. TYLER, SAMUEL R. SHIPLEY, RICHARD Y. COOK, *Committee.*

Preliminary Conditions of Participation Under the Plan.

Participation under the plan of reorganization, in any respect whatsoever, by any stockholder or bondholder affected thereby (as specified on p. 1110), is dependent on his depositing his holdings with one of the Depositaries, Messrs. J. P. Morgan & Co., 23 Wall Street, New York; Messrs. Drexel & Co., Fifth and Chestnut streets, Philadelphia, or Messrs. J. S. Morgan & Co., 22 Old Broad Street, London, within such time as may be fixed, and will embrace only securities so deposited. As to Income Bonds and Stock so deposited, participation is further dependent on the payment of assessments, as provided in the plan (see p. 1110). All securities for deposit must be in negotiable form.

The assessments on Income Bonds and Stock will be payable at the office of Messrs. J. P. Morgan & Co., Messrs. Drexel & Co., or Messrs. J. S. Morgan & Co., at the option of each depositor, in four equal installments, at least 30 days apart, when and as called for by advertisement in each instance at least twice a week for two weeks in two of the daily papers of general circulation published in the cities of New York, Philadelphia and London, respectively. All payments must be receipted for by one of the Depositaries on the reorganization certificates.

Failure to pay assessments when and as payable will subject the deposited securities and all rights on account of any prior payments to forfeiture as hereinafter provided.

The holders of receipts of the Central Trust Company of New York for General Mortgage Bonds deposited under the existing bondholders' agreement of May 7, 1894, shall be entitled to the benefits of this plan without the issue of new receipts or certificates, provided that within the time limited therefor such existing receipts be produced to one of the Depositaries and stamped as assenting to this plan.

All holders of General Mortgage bonds not already deposited with the Central Trust Company of New York under the existing bondholders' agreement shall by delivery thereof to the Depositaries, be deemed to deposit their bonds under said bondholders' agreement, and for the bonds deposited will receive certificates of said Trust Company issued under that agreement, duly stamped by one of the Depositaries as assenting to this plan.

The holders of receipts heretofore issued by the Central Trust Company of New York for First, Second and Third Preference Income Bonds, Deferred Income Bonds and Stock, must surrender the same to one of the Depositaries and must obtain new certificates hereunder in exchange therefor, in order to entitle them to the benefit of this plan. Receipts not so exchanged will not be entitled to participation herein.

PLAN OF REORGANIZATION.

THE NEW COMPANY.

Unless the Managers shall decide to proceed without foreclosure or sale, the properties of the existing Reading companies will be sold and successor companies will be organized under the laws of Pennsylvania; and the stocks and securities of these successor companies will be vested in a new company, formed or to be formed under the laws of Pennsylvania or of some other State. The term "New Company," as hereinafter used, is intended to mean either the existing Reading companies or the New Proprietary Company.

Pending their use for reorganization purposes, all bonds deposited hereunder will be delivered by the Depositaries to the Central Trust Company of New York, and all stock will be delivered in like manner to the Mercantile Trust Co., shall be held by them respectively, subject to the order and control of the Committee. All stocks and bonds deposited under the plan are to be kept alive so long as necessary for the purpose of reorganization.

NEW STOCKS AND BONDS.

A.

THE NEW COMPANY is to authorize the following securities:

1. General Mortgage 100-Year 4% Gold Bonds for $114 000,000.

These bonds are to be secured by mortgage and pledge of all properties and securities embraced in the reorganization as carried out, and also all other property which shall be acquired thereafter by use of any of the new bonds.

Of the new General Mortgage bonds, $41,550,000 are to be reserved so that they can be issued only against existing undisturbed bonds (Table C); the present Improvement Mortgage bonds amounting to $9,364,000, maturing in 1897, may, however, be extended at not over 4% per annum interest.

$20,000,000 of the new bonds will be reserved for purposes of future construction, equipment, etc. (available only to an extent not exceeding $1,500,000 in any one year), thus providing adequate means for extension of business.

The new mortgage will further provide for the issue, if found desirable, of additional bonds secured thereby (not exceeding $21,000,000) for the following purposes:

$8,500,000 to meet the Phila. & Reading Terminal bonds
$12,500,000 " " " " " Coal & Iron bonds

in which case these bonds, or the property covered thereby, will be brought under the new mortgage as additional security therefor.

Suitable arrangements will be made for a sinking fund out of the revenues from the Coal & Iron Company, or its successor, to be used to retire new General Mortgage Bonds, but no compulsory redemption of the new bonds can be made prior to their maturity.

The new mortgage will, subject only to the bonds for which reservation is made, be based upon properties or securities of all the lines of railroad owned by the Philadelphia & Reading Co., 337 miles.

Various leasehold lines, 552 miles, more or less.

All the property of the Coal & Iron Company, or the securities thereof, representing nearly 200,000 acres of coal and timber land.

The new mortgage will also have the benefit of equipment valued at about $10,000,000, but now subject to about $7,300,000 of car trust obligations, which are to be acquired under the plan, and also the marine equipment of the Company.

Furthermore, by the redemption of the present Collateral Trust Mortgage, or the acquisition of the bonds secured thereby, and by the payment of other debts, the new General Mortgage will have a first lien upon a majority or more of the capital stock of various companies in the system owning 448 miles of railroad, of which 195 miles are leasehold lines included in the 552 miles above stated. These 448 miles embrace properties which are essential to the system, no part of which is covered by the present General Mortgage. The securities thus to be pledged earned last year an income of $585,000, of which $448,000 was actually received by the Philadelphia & Reading Railroad Company in the way of dividends, the remainder being retained for betterments and working capital.

The new mortgage will thus have the security of a vast amount of valuable property in addition to that afforded by the present General Mortgage.

2. Non-cumulative 4% First Preferred Stock for **$28,000,000**, subject to an increase of $21,000,000, as hereinafter stated, for substitution for Second Preferred Stock. The First Preferred Stock will entitle the holders to non-cumulative dividends up to 4 per cent per annum, payable out of net earnings before any dividends shall be paid on the Second Preferred or the Common Stock.

3. Non-cumulative 4% Second Preferred Stock for **$42,000,000**, which will entitle the holders to non-cumulative dividends up to 4 per cent per annum, payable out of net earnings before any dividends shall be paid on the Common Stock.

4. Common Stock for **$70,000,000**, subject to an increase of $21,000,000, as hereinafter stated, for substitution for Second Preferred Stock.

All the stock will be divided into shares of $50 or $100 each.

Provision will be made that at any time after dividends at the rate of 4 per cent per annum shall have been paid for two successive years on the First Preferred Stock, the New Company may convert the Second Preferred Stock at par, one-half into First Preferred Stock and one-half into Common Stock.

B.

As a consideration for the property and securities to be conveyed or delivered to the New Company, or which, pursuant to this plan, the New Company shall acquire, it is contemplated that the New Company shall deliver the foregoing bonds and stock, excepting the portions to be held against such of the existing securities as are not disturbed, and such final amounts as shall be reserved for the future use of the New Company.

The requisite deliveries of the new securities to depositors and subscribers under the plan will thus be provided for.

As additional protection to the new General Mortgage bonds all classes of first stock of the new company (except such number of shares as may be disposed of to qualify directors) are to be vested in the following Voting Trustees: J. Pierpont Morgan, Frederic P. Olcott and a third Trustee to be selected hereafter.

In the event of the death of any person designated as a Voting Trustee, prior to the creation of the Voting Trust, the vacancy shall be filled as provided in the Reorganization Agreement. The stock shall be held by the Voting Trustees and their successors, jointly (under a trust agreement prescribing their powers and duties and the method of filling vacancies), for five years, and for such further period (if any) as shall elapse before the first preferred stock shall have received 4 per cent cash dividend per annum for two consecutive years, although the Voting Trustees may, in their discretion, deliver the stock at any earlier date. Until delivery of stock is made by the Voting Trustees, they shall issue certificates of beneficial interest entitling the registered holders to receive, at the time therein provided, stock certificates for the number of shares therein stated, and in the meanwhile to receive payments equal to the dividends collected by the Voting Trustees upon the number of shares therein stated, which shares, however, with the voting power thereon, shall be vested in the Voting Trustees until the stock shall become deliverable, as provided in such certificates of the Voting Trustees.

Provision is to be made that no additional mortgage shall be put upon the property to be acquired hereunder, nor the amount of the First Preferred Stock authorized under this Plan be increased, except with the consent, in each instance, of the holders of a majority of the whole amount of each class of Preferred Stock, given at a meeting of the Stockholders called for that purpose, and with the consent of the holders of a majority of such part of the Common Stock as shall be represented at such meeting, the holders of each class of stock voting separately; also that the amount of the Second Preferred Stock shall not be increased except with like consent by the holders of a majority thereof, and a majority of such part of the Common Stock as shall be represented at the meeting. During the existence of the voting trust the consent of holders of like amounts of the respective classes of beneficial certificates shall also be necessary for the purposes indicated.

The New Company may reserve the right to redeem at any time either or both classes of its Preferred Stock at par in cash, if allowed by law.

D.

These new Bonds and Stock Trust Certificates are intended to be used as shown in the accompanying Tables (subject only to such changes as may be necessary for the effective carrying out of the plan), viz.:

Bonds.

For Undisturbed bonds (see Table C)	$14,550,000
" Present General Mortgage bonds (exclusive of about $1,900,000 pledged as collateral)	44,575,000
" Delivery to Syndicate	4,000,000
" New construction, additions and betterments, additional equipment, etc., under carefully guarded restrictions, not over $1,500,000 to be used in any one year. These bonds will be used only in such manner as additionally to secure the new mortgage	20,000,000
" Contingencies (any surplus to go to new Company)	875,000
	$114,000,000

First Preferred Stock.

For First Preference Income bonds	$7,184,000
" Delivery to Syndicate	8,000,000
" Reserve for adjustment with various outstanding bondholders, creditors and stockholding interests, Commission to Refunding and Guarantee Syndicate, and Contingencies (the surplus to go to the new Company)	12,816,000
	$28,000,000

Second Preferred Stock.

For First, Second and Third Preference Income bonds	$40,286,000
" Contingencies (the surplus to go to the new Company)	1,714,000
	$42,000,000

Common Stock.

For Income bonds and Stock	$69,598,000
" Contingencies (the surplus to go to the new Company	402,000
	$70,000,000

The undisturbed bond issues of the Reading system cannot be compulsorily retired prior to their maturity; therefore, reservation of New General Mortgage bonds is made to provide for them, as shown above. The security for the present General Mortgage bonds is ample, but a reorganization has become necessary through the creation of debts which have proved a drain upon the resources of the Company and have necessitated a diversion of its income.

DISTURBED SECURITIES AND BASIS OF EXCHANGE.

The securities disturbed in this reorganization are:

General Mortgage 4% Bonds	$44,602,188
1st Preference Incomes	23,949,735
2nd Preference Incomes	16,176,072
3d Preference Incomes	16,634,462
Capital Stock	41,373,662
Deferred Incomes	20,751,590

The basis of their exchange is as follows:

	Receive. Cash.	New Gen. Mort. Bonds.	First Pref. Stk Tr. Certif.	Second Pref. Stk Tr. Certif.	Com. Stk Tr. Certif.
General Mortgage Bonds ("stamped" receipts heretofore issued by Cen. Trust Company, when "assented")*	2%*	100%			
Gen. Mort. Bonds ("unstamped" receipts heretofore issued by Cen. Tr. Co. when "assented"‡	12%†	100%			
Gen. Mort. Bonds heretofore undeposited (when deposited in exchange for assented receipts of Central Trust Company)	12%†	100%			
First Pref. Inc. Bonds¶	On paym't of asses. as stated below.	.....	30%	100%	
Second Pref. Inc. Bonds¶		.....	.....	65%	55%
Third Pref. Inc. Bonds¶		.....	.....	35%	85%
Stock¶		.....	.....	.....	100%
Deferred Inc. Bonds¶		.....	.....	.....	20%

The foregoing percentages are based upon the principal amount of the bonds. Undeposited bonds must be deposited with all unpaid coupons.

These new bonds will be for $1,000 each. Interest will start from January 1st, 1896; (first coupon to mature July 1st, 1896), and will be at 4% per annum. Equitable cash settlement will be made for fractional amounts of new bonds and of stock accruing to depositors.

The assessments on the First, Second and Third Preference Income bonds, on the stock and on the Deferred Income Bonds are:

20 per cent on First, Second and Third Preference Incomes.
20 " " " Stock.
4 per cent on Deferred Incomes.

A Syndicate has been formed by Messrs. J. P. Morgan & Co., J. Kennedy Tod & Co., Hallgarten & Co. and A. Iselin & Co. which definitely agrees:

1. To underwrite the payment of the assessments on the Income bonds and Stock of the present Railroad Company, the Syndicate to acquire all the rights of holders of Income bonds and Stock who shall not deposit their stock and pay the assessments thereon.
2. To take $4,000,000 of the new General Mortgage Bonds and $8,000,000 of the new First preferred stock.
3. To guarantee the extension or payment of the Improvement Mortgage bonds and of the Coal & Iron Company bonds, most of which will mature within the next two years.

* For January, 1896, coupon, payable on or before completion of the reorganization, with interest from January 1, 1896.
The equitable interest certificates heretofore issued will be paid in cash at 105 per cent and interest, on or before the completion of the reorganization.

† The 12 per cent in cash represents coupons from July 1, 1893, to January 1, 1896, and is payable on or before completion of the reorganization, but bears interest at 6 per cent per annum, from the dates of maturity of the respective coupons until paid. By means of this payment the "unstamped" certificates and heretofore undeposited bonds are placed upon the same footing as the "stamped" certificates.

‡ In order to "assent" holders of these receipts must present them for "stamping" as indicated on page 1109.

¶ All existing receipts for these securities must be exchanged as indicated on page 1109.

The financial requirements, not only of the reorganization, but of the New Company, as stated above, are thus fully provided for.

The compensation to Messrs. J. P. Morgan & Co. for their services as Managers of the plan and to their above-named associates in the formation of the Syndicate, has been fixed at $650,000 in addition to all expenses incurred.

CASH REQUIREMENTS AND PROVISION THEREFOR.

The estimated requirements of the plan (including General Mortgage interest up to January 1, 1896) are as follows:

Floating Debt	$3,800,000	
Receivers' Certificates	3,800,000	
Car Trust and Equipment Notes	7,300,000	
Equipment Interest Certificates and Accrued Interest on unstamped General Mortgage Trust Certificates and non-deposited General Mortgage Bonds, about	6,250,000	
Arrearages of Sinking Fund, Divisional Coal Mortgages	2,000,000	
Reorganization and other expenses, including commissions to Bankers, unforeseen items, etc. (any surplus to go to new Company)	2,000,000	
		$25,150,000
The Assessments will yield	$20,862,289	
The Syndicate will contribute in cash	7,300,000	
		28,162,289
Leaving an estimated cash balance of about		$3,000,000

to be used for the purposes of the new Company.

POSITION OF NEW COMPANY.

The annual fixed charges of the reorganized system (see Appendix, Table B) will be about $9,330,000. An almost immediate reduction of nearly $500,000 per annum in these fixed charges will, however, be effected through the refunding or extension by the syndicate at 4 to 4½ per cent of some $30,000,000 6 per cent and 7 per cent bonds shortly to mature, and the extension already effected by the Receivers at 4 per cent of $1,500,000 North Pennsylvania bonds which now bear 7 per cent.

The net earnings of the system for the past four years terminating November 30 were:

1892	$12,472,190 61
1893	11,172,690 56
1894	9,849,971 32
1895 (estimated as to November)	9,624,123 00

Except for the annual interest charge of about $105,000, which is now being created through the construction, in connection with the City of Philadelphia of the Pennsylvania Avenue Subway in that city, and the further interest obligations which may gradually arise through the yearly issuance of not exceeding $1,500,000 of new General Mortgage Four Per Cent Bonds for new construction, betterments, etc. (as hereafter required to develop the business), no reason is believed to exist for any increase in the fixed charges of the Reorganized Company.

The New Company will start without floating debt and will be relieved from the embarrassment of Car Trusts which during the last five years have absorbed upwards of $4,500,000 from its net income, which otherwise might have been free to conserve the property. These Car Trusts, unless provided for as a part of a comprehensive plan of reorganization, will further absorb over $7,500,000 additional in the next five years. The new fixed charges will be well within the net income of the system even in the past years of extreme depression, and the New Company will start not only with a substantial working cash capital, but also with power to provide facilities for the increase of business.

APPENDIX.

TABLE A.

Present Annual Fixed Charges.

The present fixed charges of both Companies aggregate $10,035,073, made up as follows:

Interest on Prior Liens including interest on Bonds and Mortgages on Real Estate		$2,666,509
Interest on General Mortgage Bonds		1,788,607
Interest on Terminal Loan		425,000
Rentals (about)		2,870,040
Interest Coal & Iron Co.		1,051,017
Taxes		350,000
		$9,157,173
Interest on floating debt and Receiver's certificates		441,940
Interest on Car Trust and Equipment Notes		435,960
Total present Fixed Charges		$10,035,073

TABLE B.

Annual Fixed Charges After Reorganization.

	Capital.	*Interest.*
Prior Mortgage Loans	$5,241,700	$286,357

Also some other securities.

Terminal Ry of Buffalo.—*Increase of Stock*.—This company, which was incorporated June 17, 1895, by parties closely identified with the Vanderbilt interests, has applied to the State Railroad Commission for permission to increase its capital stock from $500,000 to $1,000,000. The Company is engaged in building a line from Blasdell on the Lake Shore & Michigan Southern Railroad, just southwest of the city limit of Buffalo, to Depew on the New York Central, a distance of about 11 miles. The new line will facilitate the exchange of business between the Lake Shore, Nickle Plate, Buffalo Rochester & Pittsburg and the New York Central, Erie, etc., and do away with the necessity of bringing freight to Buffalo and transferring it there. Mr. H. Walter Webb, Third Vice-President of the New York Central, is understood to be the moving spirit in the new enterprise.

United States Sugar Refinery—*Incorporation*.—This company has been incorporated at Trenton, N. J., with a capital of $2,000,000, the main offices to be in this city, Camden, Philadelphia and Boston. One-half of the stock is preferred, with 8 per cent cumulative dividends, payable semi-annually. The main offices are to be in Camden, Philadelphia, New York and Boston. The incorporators are Thomas W. Synnott, Wenonah, N. J.; John P. Whitney, Glassboro, N. J., and George Burnham, Howard W. Lippincott and Charles Benjamin Wilkinson, of Philadelphia.

REPORT OF THE SECRETARY OF THE TREASURY.

The report of the Secretary of the Treasury was sent to Congress on Monday, December 16. We give below quite extended extracts from it, confining ourselves, however, entirely to the parts relating to the revenues and disbursements and the remarks concerning the country's finances, the latter of which we quote in full.

TREASURY DEPARTMENT,
WASHINGTON, D. C., Dec. 10, 1895.

SIR:—I have the honor to submit the following report:

RECEIPTS AND EXPENDITURES.

FISCAL YEAR 1895.

The revenues of the Government from all sources for the fiscal year ended June 30, 1895, were:

From Customs	$152,138,617 45
From internal revenue	143,121,672 02
From the District of Columbia	3,658,048 08
From fees—consular, letters patent and land	2,655,299 44
From sinking fund for Pacific railways	1,735,887 05
From tax on national banks	1,712,550 94
From profits on coinage, bullion deposits and assays	1,640,579 70
From sales of public lands	1,103,347 16
From Navy Pension and Navy Hospital Funds, etc	1,003,537 25
From re-payment of interest by Pacific railways	982,411 16
From Customs fines, fines, penalties and forfeitures	640,966 00
From miscellaneous sources	616,082 22
From sales of Indian lands	540,819 76
From reimbursement for cost of water supply, District of Columbia	382,055 97
From Internal Fund	305,224 84
From the sales of lands and buildings under special acts	220,208 31
From Soldiers' Home, permanent fund	212,461 59
From sales of Government property	178,123 86
From deposits for surveying public lands	162,607 21
From sales of ordnance material	31,606 91
From depredations on public lands	17,729 53
From bequest of Gen. Cullom for Memorial Hall, West Point	8,598 23
From sales of condemned naval vessels	939 43
From tax on seal skins	700 00
From postal service	76,983,128 19
Total receipts	$390,373,203 30

The expenditures for the same period were:

For the civil establishment, including foreign intercourse, public buildings, collecting the revenues, deficiency in postal revenues, refund of direct taxes, bounty on sugar, Dist. of Columbia, and other miscellaneous expenses	$93,279,730 14
For the military establishment, including rivers and harbors, forts, arsenals and sea-coast defenses	51,804,759 13
For the naval establishment, including construction of new vessels, machinery, armament, equipment and improvement at navy-yards	28,797,795 73
For the Indian service	9,939,754 21
For pensions	141,395,228 87
For interest on public debt	30,978,030 21
For postal service	76,983,28 19
Total expenditures	$433,178,426 48
Showing a deficit of	$42,805,223 18

In addition to the ordinary revenues collected during the year the cash in the Treasury was increased by the following sums: From the sale of $50,000,000 5 per cent ten-year bonds issued under act of January 14, 1875, $58,538,500; by the purchase of $65,116,244 62 gold coin at a cost in 4 per cent thirty-year bonds of $62,315,400; and from the issue of 4 per cent bonds in liquidation of interest accrued on refunding certificates converted during the year, $2,470; making a total of $123,657,214 62. The securities redeemed during the year on account of the sinking fund were as follows:

Loan of July and August, 1861	$7,400 00
Loan of 1863	3,000 00
Funded loan of 1881	3,100 00
Funded loan of 1881, continued at 3½ per cent	2,500 00
Loan of 1882	7,350 00
Funded loan of 1891	96,200 00
Fractional currency and notes	4,619 93
National bank notes	1,012,196 50
Total	$1,136,366 43

[Following this Secretary Carlisle gives a detailed statement of the receipts and expenses for the last two fiscal years, showing every item of increase and decrease. He also furnishes estimates of the probable revenues and disbursements during the fiscal year ending June 30, 1896, and the year ending June 30, 1897. In an editorial article in to-day's CHRONICLE will be found a summary of these figures, re-arranged so as to present the results for the four years in a brief and convenient form.]

INTERNAL REVENUE.

The receipts from the several objects of taxation under the internal revenue laws for the fiscal years ended June 30, 1894 and 1895, were as follows:

Objects of Taxation—	Fiscal Year Ended June 30. 1894.	1895.
Distilled spirits	$85,259,252 25	$79,862,627 41
Manufactured tobacco	28,617,898 62	29,701,907 63
Fermented liquors	31,414,788 04	31,640,617 54
Oleomargarine	1,723,479 90	1,409,211 18
Income		77,180 90
Miscellaneous collections	153,030 89	551,583 09
Total	$147,168,449 70	$143,246,077 75
The total cost of collection for 1894-95 was		$4,127,601 16
The total cost of collection for 1893-94 was		3,975,904 00
Increased cost of collection		$151,697 16

The increased cost of collection for the fiscal year just ended is largely due to the expenses incident to the preparations for carrying into effect the income tax law, the expenditure for this purpose aggregating $91,621 38.

The amounts above stated are the receipts actually collected during the fiscal years mentioned, but in many cases the money collected on the last day of June is not deposited until the first day of July, thus causing a discrepancy between the collections and deposits for that year. A detailed statement of the receipts and expenditures will be found in the report of the Commissioner of Internal Revenue.

The cost of collection for the fiscal year ended June 30, 1895, was 2·88 per cent, as against 2·70 per cent for the fiscal year ended June 30, 1894. Deducting both the receipts and expenditures involved in the income tax law, the percentage of cost of collection for the fiscal year just ended would be reduced to 2 81.

The total production of distilled spirits, exclusive of fruit brandies, for the fiscal year ended June 30, 1895, was 79,949,595 taxable gallons; the total production for the fiscal year ended June 30, 1894, was 89,205,492 taxable gallons, showing a decrease in production for the fiscal year just ended of 9,255,897 gallons.

There were also produced during the fiscal year ended June 30, 1895, 232,244 gallons of apple brandy, 4,658 gallons of peach brandy and 1,723,274 gallons of grape brandy, making a total production of 1,960,176 gallons from fruits during the year.

A further comparison of the two fiscal years shows a decrease of 318,451 gallons in the production of apple brandy, a decrease of 72,331 gallons in the production of peach brandy and a decrease of 597,200 gallons of grape brandy for the fiscal year ended June 30, 1895, an aggregate decrease of 987,982 gallons produced from fruits, as compared with the previous fiscal year.

The quantity of distilled spirits gauged for the fiscal year ended June 30, 1895, was 265,688,906 gallons; the quantity gauged for the fiscal year ended June 30, 1894, was 242,626,324 gallons, making an increase in the quantity of spirits gauged for the fiscal year just ended of 23,062,582 gallons.

During the fiscal year ended June 30, 1895, 2,429 distilleries of all kinds were operated; for the preceding fiscal year 5,148 distilleries of all kinds were operated, a comparison showing a decrease of 2,719 in the number of distilleries operated for the fiscal year just ended.

During the fiscal year ended June 30, 1895, there were produced 33,589,784 barrels of beer, (including 28,378 barrels removed from breweries for export free of tax); the number of barrels produced during the fiscal year ended June 30, 1894, was 33,362,373, making an increased production for the fiscal year just ended of 227,411 barrels.

For the fiscal year ended June 30, 1895, the total receipts from the taxes on tobacco, cigars, cigarettes, snuff, &c., were $29,704,907·63. The receipts from the same sources for the fiscal year ended June 30, 1894, were $28,617,898 62, showing an increase of $1,087,009 01 for the fiscal year ended June 30, 1895.

BOND ISSUES AND REDEMPTIONS.

The interest-bearing debt of the United States, exclusive of the bonds issued in aid of Pacific railroads, was increased $112,318,700 during the twelve months ended November 1, 1895. There were issued and sold under the public notice of November 13, 1894, $50,000,000 of 5 per cent bonds, dated February 1, 1894, redeemable in coin at the pleasure of the Government after ten years from that date. There were also issued and delivered to the parties to a contract executed February 8, 1895, in payment for 3,500,000 ounces of gold coin, 4 per cent bonds of the United States dated Feb. 1, 1895, and redeemable in coin at the pleasure of the United States after thirty years from that date, amounting to $62,315,400. The particulars of these transactions have been reported to Congress. The 4 per cent loan of 1907 was increased in the sum of $3,300, issued in settlement of interest on refunding certificates of the act of Feb. 26, 1879.

During the same period $2,362,000 of the 6 per cent bonds issued in aid of Pacific railroads, known as currency 6s, have matured and ceased to bear interest. Of this amount $2,360,000 have been presented for payment and redeemed.

PACIFIC RAILROADS.

In my annual report for the fiscal year 1893 the attention of Congress was called to the condition of the indebtedness of the United States incurred by the issue of subsidy bonds to the Pacific railway companies, and it was recommended that early consideration be given to the subject with a view to secure the ultimate payment of these bonds by the companies. Nothing has yet been accomplished in this direction, and the affairs of the companies now appear to be approaching a condition which will seriously embarrass the executive officials charged with the general supervision of the matter, and almost certainly result in a great loss to the Government unless averted by prompt action on the part of Congress. Since the report referred to was made bonds for $2,362,000, issued to the Central Pacific, and for $640,000 issued to the Kansas Pacific, have matured and been paid by the United States; and on the 1st day of January, 1896, more bonds will mature, viz.; $1,600,000 issued to the Central Pacific; $1,440,000 issued to the Kansas Pacific and $640,000 issued to the Union Pacific. On the 1st day of February, 1896, other bonds issued to the Union Pacific for $4,320,000 will become due. The sinking fund of the Central Pacific, consisting of cash and bonds, amounts to $6,254,556 61,

and the sinking fund of the Union Pacific, consisting also of cash and bonds, amounts to $15,346,137 61.

The total amount due and to become due on or before the 1st day of January, 1899, is $64,623,512, exclusive of interest, and it is evident that unless some adjustment is made under the authority of an act of Congress, the payment of this large sum, with accruing interest, must be provided for within the time named. If the property of the companies should unfortunately be forced to sale under foreclosure proceedings before further provision is made by Congress to protect the interests of the Government by increasing its security or otherwise, no public official, with the limited authority now conferred by law, will be able to save any considerable part of this large claim. Congress alone has the power to determine the manner in which this important subject shall be disposed of, and it is hoped that such legislation as it may deem necessary and proper will be enacted at an early day.

CONDITION OF THE TREASURY AND THE CURRENCY.

At the beginning of the last fiscal year, July 1, 1894, the cash balance in the Treasury, excluding all current liabilities, but including a gold reserve of $64,873,024 06, was $117,584,436 13, and at the close of the year, June 30, 1895, the cash balance, excluding all current liabilities, but including a gold reserve of $100,000,000, was $195,240,153 87, showing an increase of $77,655,717 74. The excess of expenditures over receipts during the year was $42,898,223 18, as against a deficiency of $69,803,260 58 during the fiscal year 1894. The total receipts during the fiscal year 1895 were $5,668,055 86 greater than the receipts during the fiscal year 1894, and the expenditures were $11,329,851 54 less than during the year 1894. The revenue derived from Customs during the fiscal year 1895 exceeded the revenue derived from the same source in 1894 by the sum of $20,340,086 83, but the receipts under the internal revenue laws, and from some other sources, were less than during the previous year, so that the net increase of revenue was $15,663,055 86, as above stated.

If the income tax provision contained in the act of Aug. 28, 1894, had been sustained by the courts, it is believed that the deficiency for the year would not have exceeded the amount estimated in my last annual report. In that report the opinion was expressed that the laws then in force would not only yield an ample revenue during the fiscal year 1896 but that there would be a surplus of nearly $20,000,000. This opinion was based upon the supposition, which then seemed to be well founded, that all the sources of revenue provided in the act of Aug. 28, 1894, would be available, and that, owing to the higher rate of taxation imposed upon distilled spirits and some other articles, the receipts under the internal revenue laws would be very considerably increased; but the decision of the Supreme Court, holding the income tax provisions of the act to be unconstitutional, and the fact that the receipts from internal revenue did not increase as anticipated, but actually fell off $3,089,560 79 during the fiscal year 1895, as compared with the previous year, notwithstanding the higher rate imposed on spirits and other articles, have greatly altered the situation, and I am now of the opinion that there will be a deficiency of about $17,000,000 during the current fiscal year.

REDEMPTION OF TREASURY NOTES.

The total excess of expenditures over receipts from July 1, 1893, to Dec. 1, 1895, was $130,221,023; and of this sum $23,462,209 38 was paid out of the balance on hand at this date, in excess of $100,000,000, and the remainder has been supplied by the use of United States notes and Treasury notes presented for redemption, and thus received into the Treasury in exchange for gold coin. The act of May 31, 1878, provided that when any United States note "may be redeemed or be received into the Treasury under any law, from any source whatever, and shall belong to the United States, they shall not be retired, canceled or destroyed, but they shall be reissued and paid out again and kept in circulation," and the act of July 14, 1890, provided that the Treasury notes, when redeemed, may be reissued, but that "no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom then held in the Treasury purchased by such notes."

It is clear that when any of these notes have been redeemed they do not constitute a part of the reserve fund, but become a part of the general cash assets of the Treasury, to be used in the same manner as other money belonging to the Government. Whenever they could, by exchanges, be used to procure gold for the replenishment of the reserve, they have been so applied, but, when this could not be done they have been treated as available funds in the Treasury and reissued in payment of public expenses. None of my predecessors in office has ever made any distinction between the notes received in payment of the ordinary revenue and notes presented by the holders and redeemed in coin, but such notes have been used indiscriminately as the exigencies of the public service required.

Secretary Sherman discussed this question in his annual report for 1877, before the passage of the act of May 31, 1878, and among other things, he said: "A note redeemed with coin is in the Treasury and subject to the same law as if received for taxes, or as a bank note redeemed by the corporation issuing it. The authority to reissue it does not depend upon the mode in which it is returned to the Treasury." He was discussing the question whether the notes which might be redeemed after the 1st day of January, 1879, under the resumption act, could be lawfully reissued, and he held that they could; but he stated that this construction of the law was controverted, and insisted that the question should be settled by a distinct provision of law. The result was that Congress passed the act of May 31, 1878, making it mandatory upon the Secretary of the Treasury to reissue the notes. Since the passage of that act, the right and duty of the Secretary of the Treasury to reissue the old legal-tender notes, no matter how received into the Treasury, provided they belong to the United States, has never been questioned in any quarter, and, as to the Treasury notes issued under the silver-purchasing act, they must be reissued when redeemed in gold, or, if canceled, standard silver dollars must be issued in their place; for, if this were not done, there would be a smaller amount of such notes outstanding than the cost of the silver bullion and the standard silver dollars coined therefrom and held in the Treasury, and this condition is expressly prohibited by the statute under which the notes were issued. Whether these notes are reissued or destroyed, and standard silver dollars substituted for them, the practical result is the same, for in both cases the Secretary would be using notes redeemed in gold for the payment of the ordinary expenses of the Government; in one case by paying out the notes themselves, and in the other by drawing silver from a reserve fund on account of their cancellation, and then paying out the silver.

The cash balance in the Treasury on the 1st day of December, 1895, was $177,406,386 62, being $98,072,420 30 in excess of the actual gold reserve on that day, and $77,406,386 62 in excess of any sum that it would be necessary to use for replenishing that fund in case the Secretary should at any time be able to exchange currency for gold. There is, therefore, no reason to doubt the ability of the Government to discharge all its current obligations during the present fiscal year, and have a large cash balance at its close, without imposing additional taxation in any form upon the people; but I adhere to the opinion, heretofore expressed, that the Secretary of the Treasury ought always to have authority to issue and sell, or use in the payment of expenses, short-time bonds, bearing a low rate of interest, to supply casual deficiencies in the revenue. Although former recommendations upon this subject cannot be strengthened by repetition, the subject is of such importance that I consider it my duty to present it again to the attention of Congress and to express the hope that it will receive favorable consideration.

WASTE AND EXTRAVAGANCE TO BE AVOIDED.

While the situation does not require any legislation for raising additional revenue by taxation at this time, it is such as to require the strictest economy in appropriations and public expenditures. At a time when the people, upon whom the expense of sustaining the Government is imposed, are compelled to practice the closest economy in their business and domestic affairs in order to meet their obligations and re-establish their trade and industries, it is more than ever the duty of the public authorities to avoid waste and extravagance in the appropriation and disbursement of the revenues. Nearly every appropriation is in terms, or by necessary implication, a direction to the executive authorities to expend the money, and therefore the responsibility for an increase or reduction of expenditures rests primarily and mainly upon Congress. It is certain that if appropriations are not made the money will not be expended, and for the reason just stated it is almost equally certain that if appropriations are made the money must be expended. The power of the executive officials to reduce expenditures is limited to the comparatively few cases in which the disbursement is left to their discretion, and however judiciously this discretion may be exercised the effect upon the total outlay is scarcely appreciable.

While all the essential agencies for an efficient administration of the public service should be adequately provided for, I am sure that a careful examination of the subject will disclose many sources of expenditure which might be greatly reduced or entirely abolished, and legislation in this direction, together with a refusal to make appropriations for new objects of doubtful necessity or propriety, would tend very materially to equalize the public receipts and disbursements. With a complete return to the normal business conditions of the country, and a proper legislative and executive supervision over expenditures, the revenue laws now in force will, in my opinion, yield ample means for the support of the public service upon the basis now established; and upon the assumption, which seems to be justified, that the progress now being made toward the restoration of our usual state of prosperity will continue without serious interruption, it is estimated that there will be a surplus of nearly $7,000,000 during the fiscal year 1897. During the fiscal years 1894 and 1895 the ordinary expenditures of the Government have been decreased $37,282,656 20 as compared with the fiscal year 1893, and it is believed that, with the co-operation of Congress, further reductions can be made in the future without impairing the efficiency of the public service.

Between the 1st day of February, 1894, and the 15th day of March, 1895, three issues of bonds were made, amounting in the aggregate to $162,315,400. The conditions existing at the dates of the first two of these issues, and the results of their negotiation, were fully detailed in my last annual report, and need not be further noticed at this time. The payments into the Treasury on account of the second bond sale were not entirely completed until after the 1st day of December, 1894, and it soon became evident that the transaction had not been effectual to stop the drain of gold. In that month the withdrawals amounted to $31,907,221, and during the next, January, 1895, they amounted to $45,117,738, and they continued without diminution during the early days of February, so that on the 8th

of that month the reserve had been reduced to $41,340,181, and several million more had been demanded, a part of which was taken out and afterward returned to the Treasury on account of the temporary restoration of confidence resulting from the fact that it became generally known that measures were about to be taken for the replenishment of the reserve.

THE FEBRUARY BOND CONTRACT.

The large withdrawals in December, 1894, and in January and the early part of February, 1895, were due almost entirely to a feeling of apprehension in the public mind, which increased in intensity from day to day until it nearly reached the proportions of a panic, and it was evident to all who were familiar with the situation that, unless effectual steps were promptly taken to check the growing distrust, the Government would be compelled within a few days to suspend gold payments and drop to a depreciated silver and paper standard. More than $43,000,000 of the amount withdrawn during the brief period last mentioned was not demanded for export, but was taken out by people who had become alarmed on account of the critical condition of the Treasury in its relations to the currency of the country. Congress, though earnestly appealed to for relief, having failed to make any other provision for meeting the emergency, a contract, the particulars of which were immediately communicated to that body, was entered into on the 8th day of February, 1895, for the purchase of 3,500,000 ounces of standard gold coin, at the price of $17·80441 per ounce, to be paid for by the delivery of United States bonds, having thirty years to run, and bearing 4 per cent interest, and the gold to be deposited at the United States Sub-Treasuries. By the terms of the contract not less than one-half of the gold was to be procured abroad, and the parties with whom it was made stipulated that they would "as far as lies in their power exert all financial influence and will make all legitimate efforts to protect the Treasury of the United States against the withdrawals of gold pending the complete performance of this contract."

This undertaking was faithfully and efficiently carried out, and no gold was taken from the Treasury to be used in paying for the bonds, as had been done in the two former cases, nor was any withdrawn for shipment until after the delivery had been completed under the contract.

After a large part of the gold had been furnished from abroad the Secretary, in order to prevent disturbances in the rates of foreign exchange at a critical period and avoid a condition which would force gold exports and consequent withdrawals from the Treasury, acquiesced in a departure from the literal terms of the contract, that one-half of the coin should be procured abroad and accepted deposits of gold then held in this country to complete the delivery. Ordinary prudence demanded that the success of the plan to protect the Treasury against withdrawals should not be endangered by insisting upon a strict compliance with all the details of the contract, especially as the Government could sustain no loss and the whole amount of gold stipulated for was secured.

The amount of bonds issued under this contract was $62,315,400 and the amount of gold received was $65,116,244 62. The last deposit of gold to complete the delivery under the contract was made June 24, 1895, but the Syndicate continued to make deposits until Sept. 11, 1895, in exchange for United States notes and Treasury notes, the total amount so deposited being $16,127,432 94. The beneficial effects of this transaction were felt immediately, not only in this country but in every other having commercial or financial relations with our people. Confidence in our securities as safe and profitable investments was at once restored to such an extent that they ceased to be returned to our market for sale, and a very considerable demand for them was created abroad; but the most gratifying evidences of improvement in our condition were afforded by the prompt revival of business among our own people, the increased activity and extension of our domestic industrial and commercial operations, the rise in the prices of our principal agricultural products, and the general feeling of relief and security which became apparent in every part of the country. These encouraging indications of increasing prosperity still continue, and it is reasonably certain that if our progress is not checked by a repetition of large demands upon our resources, or by a failure to meet the just expectations of the people in respect to the reformation of our fiscal system, we are entering upon an era of material growth and development not surpassed in our history.

OUR CURRENCY LAWS DEFECTIVE.

The safety of the existing situation is, however, constantly menaced, and our further progress toward a complete restoration of confidence and prosperity is seriously impeded by the defects in our currency laws and the doubt and uncertainty still prevailing in the public mind, especially abroad, concerning the future monetary policy of the Government. Until these defects in our laws are remedied and these doubts are removed, there can be no satisfactory assurance of immunity from periodical disturbances growing out of the obligations which the Government has been compelled to assume in relation to the currency. Our past experience with the United States notes and the Treasury notes has clearly shown that the policy of attempting to retain these obligations of the Government permanently as a part of our circulating medium, and to redeem them in coin on presentation and reissue them after redemption, must be abandoned, or that such means must be at once provided as will have a tendency to facilitate the efforts of the Secretary to accumulate and maintain a coin reserve sufficient in amount to keep the public constantly assured of the stability of our entire volume of currency and of our ability at all times to preserve equality in the exchangeable value of its various parts. The latter alternative which, in my opinion, if adopted, would not afford the relief demanded by the existing situation, necessarily involves such large increases of the interest-bearing public debt from time to time and would impose permanently upon the Government such onerous and inappropriate duties in relation to the paper currency of the country, that it ought not to be favorably entertained, except as a last resort in the struggle for the maintainance of the public faith and the preservation of the inviolability of private contracts.

The issue of bonds to procure coin for the reserve, which is the only effectual method now available under the law, will, unless the conditions which have already been developed by the present policy are radically changed, ultimately result in the creation of a public debt much larger than would be required to retire and cancel all the notes; and the annual interest charge will be much greater than it would be necessary to incur on a new class of bonds adapted to the present circumstances of the Government and the well known preferences of investors. If, however, an attempt is to be made to keep the United States notes and Treasury notes permanently in circulation by reissues after redemption, and the Government is to be permanently charged with the duty of sustaining the value of all our currency, paper and coin alike, the conclusion cannot be avoided that the policy of issuing bonds for the accomplishment of these purposes must also become permanent, and such additional powers must be conferred upon the Secretary as will enable him to execute the laws relating to these subjects with the least possible disturbance of the business affairs of the people, and the least possible charge upon the Treasury. I am thoroughly convinced that this policy ought not to be continued, but that the United States notes and the Treasury notes should be retired from circulation at the earliest practicable day, and that the Government should be wholly relieved from the responsibility of providing a credit currency for the people.

AN EXPENSIVE AND DANGEROUS SYSTEM.

It would be difficult, if not impossible, to devise a more inconvenient, expensive and dangerous system than the one now in operation under the laws providing for the issue, redemption and reissue of legal-tender notes by the Government. Although bonds to the amount of more than $257,000,000 have been sold to provide for the redemption of these notes, upon which the interest already paid exceeds $75,000,000, and more than $407,000,000 have been actually redeemed in gold, all the notes, except about $17,000,000 of the Treasury notes exchanged for standard silver dollars and canceled, are still outstanding and still threatening the credit of the Government and severely taxing the resources of the people. Originally issued as a temporary expedient to meet a pressing emergency in a time of war, and even then denounced by many of the ablest financiers and statesmen in the country as a dangerous and unconstitutional departure from sound economic principles, the people had a right to expect that these obligations would be extinguished as soon as possible after the restoration of peace and the re-establishment of the usual and proper relations between the Government and the business affairs of its citizens.

In compliance with the assurances given when they were first authorized, and in obedience to the demands of all our substantial business interests, Congress, within less than a year after the cessation of hostilities, passed an act authorizing the Secretary of the Treasury to sell bonds and use the proceeds in retiring the United States notes, but providing that not more than $10,000,000 should be retired and canceled during the first six months after the passage of the act, and thereafter not more than $4,000,000 in any one month. Under this act, which was approved April 12, 1866, notes amounting to $59,164,318 were retired and canceled, but in January, 1868, another act was passed by Congress, which became a law without the approval of the President, suspending the authority conferred upon the Secretary, and the retirement and cancellation ceased.

Afterward the well-known Resumption act of Jan. 14, 1875, was passed, which provided that all United States notes in excess of $300,000,000 should be retired and canceled, with certain limitations as to the method of retirement, and that, after Jan. 1, 1879, the Secretary of the Treasury should redeem in coin all such notes as might be "then outstanding" on their presentation for redemption in sums of not less than $50. Under this act notes to the amount of $35,318,984 were retired and canceled, when the process was again arrested by the act of May 31, 1878, heretofore quoted.

It is thus seen that two ineffectual efforts have been made since the close of the war to eliminate this legal-tender paper from our currency, and, without now attempting to discuss the causes of their failure, it is pertinent to suggest that the injurious effects of its continued circulation had not then been felt as they have been since, and could not then be certainly foreseen. It was not then lawfully redeemable in coin, but was a mere promise to pay, at some indefinite time in the future, and consequently had not been, and could not then be, used to force gold out of the Treasury, and thus compel repeated issues of bonds to maintain a reserve; but it had then, as it has now, all the vices that belong inherently to legal-tender paper, whether issued by the Government or by individuals or corporations, and it also had then, as it still has, the additional vice of having been in its origin a forced loan without interest.

RETIREMENT OF UNITED STATES NOTES.

There has never been a time since the close of the war when the gradual retirement and cancellation of the United States notes would not have been beneficial to the country, nor has there ever been a time when the issue of additional notes of the same character would not have been injurious to the country. The amount of money in circulation will always be determined, if the laws of trade and finance are left to their natural operation, by the degree of necessity for its use, or, in other words, by the demand for it in effecting exchanges of commodities and as a basis of credit; and if bad money is suppressed good money to the extent required will invariably take its place. Money will go where it can be most profitably employed, and it will retire whenever the opportunity for profitable use no longer exists. If our legal-tender notes were retired there is abundant reason to believe that a very large amount of gold which has been excluded from the country by the excessive use of silver and paper in our circulation would promptly return to take its place in our currency and constitute a permanent part in our medium of exchange.

A country having such extensive trade relations with other nations as we now enjoy cannot be deprived of its proper share of the world's stock of money, and if it adopts and adheres to a sound and stable currency system at home, it will get the best money the world has, because no other kind is ever used in international transactions. As long as the Government leaves our people reasonably free to trade abroad, and does not make any kind of paper legal tender in the payment of debts, it cannot materially or injuriously contract the currency by the withdrawal of its own notes. The retirement and cancellation of the legal-tender notes would not necessarily produce any contraction of the circulation; and if such a result should follow and continue for any considerable period, it would be a demonstration of the fact that the volume of currency previously existing was not needed in the business of the people, for, whenever the volume is reduced below the actual requirements of trade, the deficiency will be supplied either from abroad in exchange for our products and securities, or by the banks at home, or by both.

The policy of maintaining a legal-tender paper currency and attempting arbitrarily to increase the volume of circulation by continuing the purchase and coinage of legal-tender silver after it had been demonstrated that it could not be raised to a parity with gold at the established ratio, could not fail ultimately to disarrange our currency and greatly impair its value in the estimation of the world, without conferring any compensatory advantage upon any part of our people. On the 1st day of July, 1878 our total circulation, outside of the Treasury, was $729,182,634, while on the 1st day of December, 1895, it was $1,584,135,479, being an increase of more than 118 per cent, although the population of the country has increased only about 27 per cent; and at the same time the use of credit instruments in place of cash has been very greatly increased in all large financial transactions. Since the date first mentioned full legal-tender silver has been coined to the amount of $423,289,360, of which, however, the sum of $15,013,608 is still held in the Treasury under the act of July 14 1890, and $155,931,002 in legal tender paper have been arbitrarily added to the currency by the issue of notes for the purchase of silver bullion, thus making the obligation of the Government to redeem all its notes in coin and maintain the parity of the two metals so burdensome that for several years a constantly increasing doubt of its ability to accomplish the task has seriously disturbed the public mind and injuriously affected our industries and trade at home and our credit abroad.

CONFIDENCE LACKING.

Whatever other minor causes may have incidentally contributed to the result, it must now be evident to all that the large withdrawals of gold from the Treasury during the last three years, and the complete cessation of gold payments to the Government on account of Customs and other taxes, are attributable mainly to a want of confidence in the stability and safety of our currency. This loss of confidence was the result of an unwise attempt to force into the circulation a constantly increasing amount of legal-tender paper, and, at the same time, forcibly to retain, as part of our currency, about 400,000,000 legal-tender silver dollars, worth intrinsically much less than the gold dollar, which constituted the legal standard of value; and the doubt and distrust were greatly intensified by the fear, especially among those with whom our people trade abroad, that the character of our currency might be further impaired by the free and unlimited coinage of silver. It is not probable that either of these legislative experiments could have failed to produce more or less disturbance in the end, but both together precipitated a financial crisis and business depression the effects of which must continue to be felt by our people for a long time to come.

From Jan. 1, 1879, the date of the resumption of specie payments, to July 14, 1890, a period of eleven and a-half years, the total withdrawals of gold from the Treasury by the presentation of United States notes for redemption amounted to less than $28,250,000, but from the date of the passage of the act providing for the purchase of silver bullion and the issue of Treasury notes to pay for it, until Dec. 1, 1895, a period of five years and four and a-half months, the withdrawals of gold, by the presentation of the two classes of notes for redemption have amounted to more than $375,000,000. Within two years after the passage of that act the withdrawals became very large, and during the last seven months of the calendar year 93 they amounted to $33,420,727, or more than $5,000,000 in excess of the amount withdrawn during a period of eleven and a-half years prior to the enactment of that law; and during the nine months next preceding the 1st of March, 1893, the withdrawals amounted to $58,746,008, or more than twice as much as was taken out during the whole period prior to July 14, 1890. These heavy withdrawals of gold were accompanied by a falling off in the revenue, and during the four months next preceding the 1st day of March, 1893, the expenditures exceeded the receipts by $4,094,021 38, but during the four months next succeeding the 1st day of March, 1893, the receipts slightly exceeded the expenditures, and the surplus for the whole fiscal year 1893 was $2,341,674 29. At the close of that year, however, the receipts again began to fall below the expenditures, and there has been a deficiency every month since that date, except in June and September, 1895.

For many years after resumption much the larger part of gold demanded for export was furnished by the banks and other financial institutions, and this continued to be the case until July 1, 1892, but since that date the withdrawals from the Treasury have considerably exceeded the amount exported. The banks and other institutions, having thus reduced their gold as much as a proper regard for the preservation of their own credit would permit, ceased to supply the export demand —thus throwing the entire burden on the Treasury, and our own people have withdrawn large sums for hoarding or for the settlement of gold contracts at home. The withdrawals from the Treasury between July 1, 1879, and July 1, 1892, amounted to $43,310,896, while the gross exports during the same time amounted to $389,354,757, showing that $346,043,861 was supplied from sources outside of the Treasury; but the withdrawals from July 1, 1892, to Dec. 1, 1895, have amounted to $860,266,512, and the gross exports have amounted to $805,617,419, from which it appears that the Government has furnished a sum equal to the whole export and $54,649,093 in addition.

While the Government has thus been compelled, during the last three and a-half years, not only to furnish gold from the Treasury for export to other countries, but also a large amount for the use of our people at home, its receipts of gold on account of Customs and other taxes have been constantly diminishing since July, 1890, and have now entirely ceased. Prior to the passage of the silver-purchasing act, nearly the whole amount received from Customs at the port of New York consisted of gold certificates, and from this source the Government was enabled to procure a supply of gold coin sufficient to meet all demands upon it and maintain its reserve intact. During the month of July, 1890, gold certificates constituted more than 95 per cent of the receipts at the port mentioned, and the free gold in the Treasury amounted to $184,092,074, but the first Treasury notes were issued and put into circulation in August of that year, and in September the receipts in gold certificates fell to 85½ per cent and the free gold was reduced to $147,981,732. Payments in certificates continued to decrease until they amounted, in July, 1892, to less than 14 per cent, and in May, 1893, they ceased altogether; and the free gold in the Treasury also continued to diminish, though not without some fluctuations, until April, 1893, when, for the first time, it fell below $100,000,000.

DANGEROUS STATE OF DISORDER.

It thus appears that within a little less than two years after the passage of the silver-purchasing act our whole currency and revenue systems had been thrown into a most perplexing and dangerous state of disorder and confusion, and we had reached a point where the public revenues were beginning to fall below the expenditures, where the withdrawals of gold from the Treasury were beginning to exceed the demands for export, and where gold payments to the Government had substantially ceased. In view of these facts there can be no great difficulty in determining the principal cause of our troubles. During the three fiscal years 1891, 1892 and 1893, beginning July 1, 1890, and ending June 30, 1893, the receipts of the Government exceeded its expenditures more than $39,000,000, and yet the withdrawals of gold by the holders of United States notes and Treasury notes amounted to $117,212,258, and the reserve was reduced below the sum of $100,000,000.

In each of these years there was a surplus revenue but confidence in the ability of the Government to maintain gold payments under a policy of constantly increasing the legal-tender paper circulation had been seriously impaired, and the consequence was that large amounts of our securities held abroad were returned for sale in the home market, foreign capital invested in our industrial and commercial enterprises was rapidly withdrawn, and our own people, alarmed by the threatening aspect of the situation, curtailed their business operations, thus diminishing the opportunities for the employment of labor, and at the same time a process of liquidation was necessarily inaugurated which in many parts of the country overtaxed the resources of debtors. No one then questioned, nor does any one now question, the ability of the Government promptly to meet all its ordinary obligations, incurred in the maintenance of the public service, and consequently the financial disturbance and general business depression cannot properly be attributed to a deficiency in the revenue. On the contrary the deficiency in the revenue, which began to appear in the latter part of 1892, and has continued ever since, is mainly attributable to the same causes which produced the financial disturbance and business depression.

The great loss of revenue, instead of being the cause of our financial difficulties, is one of the effects produced by a defective currency system, and a failure to recognize this important fact will lead us far astray in our search for an adequate remedy. It is true that the tariff act of 1890, which remained

in force until after the close of the fiscal year 1894, had greatly reduced the revenue derived from Customs, and that the expenditures of the Government were increased from $318,040,710 66 during the fiscal year 1890 to $383,477,954 49 during the fiscal year 1893; still it is not probable that there would have been any considerable excess of expenditures over receipts if the business of the people had not been interrupted by the disturbances growing out of the unsatisfactory condition of our currency.

NO AVAILABLE MEANS OF DEFENSE.

The United States notes and the Treasury notes issued in payment for silver bullion, together amounting at the beginning to $502,612,018, have been used and are still being used to withdraw gold from the Government whenever our own people or the governments or peoples of other countries see proper to demand it for any purpose, and under the laws now existing the Secretary of the Treasury has no means of complying with these demands except by the issue and sale of interest-bearing bonds under the act of Jan. 14, 1875, or by the purchase of gold with bonds or notes of the United States under Section 3,700 of the Revised Statutes.

Against these demands the Treasury has no available means of defense except at the sacrifice of the public credit and the immediate depreciation of the entire volume of our currency. A refusal to pay gold on either class of our notes when demanded by the holders would instantly destroy the parity of the two metals, reduce the currency to a silver basis, unsettle all values, impair the obligations of all existing contracts, and precipitate a financial, industrial and commercial revolution more disastrous in its consequences to the labor and business interests of the country than any panic or depression that has ye occurred in our history. The magnitude of the interests involved and the permanent character of the injury that would be inflicted by such an experiment forbid its favorable consideration, even for a moment, in the present condition of our affairs.

A CONDITION UNLIKE THAT IN ANY OTHER COUNTRY.

This condition is unlike that existing in any other country, or that ever before existed in this country, and as already shown is the result of a long-continued policy at variance not only with the teachings of experience but with the financial law of the world. Remedies which might have been more or less effective under other circumstances cannot be in the least degree effective now, and it would be futile and dangerous at this time to attempt a correction of our financial disorders otherwise than by a total removal of their causes. Long adherence to a false system has to a great extent undermined our national credit, so far as it is related to the maintenance of a sound currency, and it must be reconstructed, not merely propped up by frail and temporary supports. It required many years to produce this result, but after it has been produced it would be idle to expect a return to a sound condition with all the causes of our financial distress still in existence, and in more active operation than ever before.

No surplus revenue, however large, could extricate us from our present difficulties, or give assurance of safety in the future unless it should be required to be paid in gold under a system which would exempt the Government from the obligation to furnish the gold when demanded, to be used in making the payments; and it is scarcely necessary to suggest that such a system is impossible as long as the United States notes and Treasury notes are kept in circulation and are redeemable in gold by the Government itself on presentation. To pay out gold with one hand and receive it back with the other would be a useless expenditure of time and labor, and yet this is just what would be done if gold should be exacted in payment of Customs or other public dues while the legal-tender notes are outstanding; but if it shall be said that even with these notes outstanding more gold would be paid in than would be taken out—which is not at all probable under existing conditions—and that, consequently, redeemed paper might be permanently hoarded in the Treasury, the answer is that, for obvious reasons, it would be impossible to keep more than a limited amount of that currency in the Treasury and at the same time defray the expenses of the Government.

THE SYSTEM ILLUSTRATED AT THE NEW YORK SUB-TREASURY.

At the New York Sub-Treasury alone, during the fiscal year 1895, the total receipts amounted to $991,304,725, and the payments on various accounts, including transfers of funds, redemptions, &c., amounted to $954,853,700. Of the receipts, $503,471,021 consisted of United States notes, $80,939,493 of Treasury notes of 1890, and $174,214,440 of silver certificates, from which it will be seen that the whole amount of the United States notes outstanding and more than one-half of the Treasury notes and silver certificates passed through that office in a single year. Of the $503,471,021 received in United States notes, the sum of $165,194,851 was on account of Customs and special Customs deposits, and of the $80,939,493 received in Treasury notes the sum of $24,690,523 was on the same accounts, while the silver certificates received on these accounts amounted to $5,279,756. Owing to their great bulk and weight, silver dollars cannot be used to any considerable extent in large transactions, and consequently only $238,159 were received in those coins on both accounts during the entire year, and these were received in small transactions, or in making change. Silver certificates are not legal tender, except in payments to the United States, or in other words, the Government is compelled to receive them when offered in payment of public dues but cannot compel any of its creditors to receive them; and national bank notes are not receivable at all for Customs under the law.

As gold coin and gold certificates are no longer being paid to the Government, all our Customs must be collected in United States notes, Treasury notes, silver certificates, or silver dollars, and the latter cannot be used for the reason that the expense of transferring them in large amounts from place to place would exceed the profits ordinarily made in business transactions. The conclusions to be drawn from these facts must be apparent at a glance. Owing to the peculiar character of our currency the ability of the Treasury to hoard United States and Treasury notes is limited to a certain amount—which cannot be definitely determined in advance—and if it should, after that amount has been reached, refuse to pay out these notes in making disbursements at the places where our Customs are collected, the immediate result would be that nearly all payments to the Government would be made in silver certificates, which it is bound to take, but can compel no one else to take. There would be a stream of these non-legal-tender certificates constantly flowing into the Treasury, and it would receive scarcely any more United States notes or Treasury notes as parts of the surplus revenue, but would soon be compelled to pay out those already accumulated, or pay gold, or break down in its operations at the sub-treasuries.

This result has been avoided heretofore only by paying out these notes from the Treasury, from time to time, whenever the character of currency coming in indicated that the point of danger was about to be reached, and it will be necessary to pursue the same policy hereafter as long as the legal-tender notes are in existence. Notwithstanding all the efforts of the Department to protect the Treasury against excessive receipts of these certificates, it has frequently happened that they constituted more than 80 per cent of all the payments of Customs dues at New York, where more than two-thirds of the total collections are made; but if the United States legal-tender paper should be retired and a proper currency system adopted, gold and gold certificates and bank notes redeemable in gold will take their place in the circulation, and the Government will have no further trouble in regard to the kind of money used in either its receipts or payments.

WHAT METHODS UNDER CONSIDERATION.

But even if this difficulty could be obviated, an attempt to impose taxation upon our people sufficient in amount to enable the Treasury to take up and permanently hoard all the legal-tender paper, now amounting to about $485,000,000, would be the most remarkable financial experiment of modern times, while an attempt to secure by taxation within any reasonable period a sum sufficient for their redemption and cancellation, as they may be received into the Treasury, although not quite so impracticable as the other, would just as certainly fail to accomplish the object intended. It would be impossible for the Treasury to hold for any considerable time a surplus of $485,000,000, or anything near that sum, in opposition to the popular demand that would be persistently made for its distribution by appropriations for pretended public purposes or by deposits in the banks, to be used by them in making loans to the people. Our own experience upon this subject ought to convince us of the futility of such a scheme. The Government has never been permitted to hold a large surplus without continuous agitation for its reduction, and it is not reasonable to suppose that it will ever be allowed to do so. The existence of a large sum in the Public Treasury, not needed for the public service, at once develops two powerful opposition forces in the country, one demanding an immediate reduction of taxation and the other demanding an immediate distribution of the money on hand. One, and perhaps both, will certainly succeed, and the surplus will vanish long before the purpose for which it was collected has been accomplished. The distribution of public money among the States more than half a century ago, and the large deposits in banks and purchase of unmatured bonds within the last decade, are familiar examples of the almost inevitable effects of attempts to hold a surplus in the Treasury.

Nor will the people be much, if any, less restless under a policy of high taxation to raise money for the retirement and cancellation of the notes as received, even if such a policy could be successfully inaugurated. It is scarcely possible that a surplus exceeding $100,000,000 could be collected during any one year in excess of the amount already required to defray public expenses, under any practicable system of taxation that could be devised, and even that sum could not be raised without severe injury to our industries, nor without unjust discrimination among them which would at once engender a strong spirit of opposition in all parts of the country. At this rate it would take nearly five years to retire the notes, and it may be safely asserted that no such system of taxation as this plan of retirement would require could be maintained for even half that time; it would be swept away by the first popular assault made upon it, and the attempt to retire and cancel the legal-tender notes would fail again, as it has twice heretofore.

The opinion seems to prevail to some extent that the mere possession of a surplus in the Treasury would prevent withdrawals of gold, and thus render the issue of bonds for the protection of the reserve unnecessary, but this view of the subject is founded, in my judgment, upon an entire misconception of the causes that have produced the withdrawals. What those causes were I have already undertaken to show, and, unless I am wholly mistaken, they have very little, if any, relation to the amount of money held by the Government, or to the amount of money the Government has the ability to raise by taxation or otherwise, but they relate primarily and almost

exclusively to the character of money that it might be able to supply and keep in circulation. In other words, it was apprehension as to the kind of money to be used and not as to the amount of money on hand that brought our securities back from abroad for sale, caused foreign investors to withdraw their capital, and foreign creditors to collect their debts, and compelled our own people to suspend or contract their business operations, and thus diminish the incomes of employers and greatly reduce, or entirely stop, the wages of labor.

Large withdrawals have been made during the last three years simply because gold was wanted, and the desire to secure gold was due to a growing distrust of the other kinds of currency in circulation, and not at all to any apprehension that the Government would not be able to discharge all its obligations in some kind of paper or coin. When the receipts for Customs consisted very largely of gold, as was the case prior to July 1, 1892, before the results of our defective currency system had been fully developed, a surplus revenue enabled the Treasury to pay out gold without disturbing the reserve; and besides there was at that time no great demand for gold by the presentation of notes for redemption, and there would, therefore, have been no difficulty in maintaining the reserve, even if there had been no surplus in the Treasury; but the conditions have entirely changed, and an entirely different policy is demanded to meet the situation now existing. With or without a surplus revenue the Government can now procure gold only by negotiating loans or by making purchases under the statute, and this state of affairs, which is the natural result of causes still operative, is almost certain to continue until the causes themselves are removed.

BUT ONE SAFE WAY.

It may be that a surplus in the Treasury would have a tendency with some of our own people to strengthen confidence in the general situation, but it would afford the Government no additional means of procuring gold, nor would it have any beneficial effect upon our credit in other countries, because the attention of their people is directed solely to the character of our currency system, and whether we have much or little money in the vaults of the Treasury is a matter of no possible concern to them. Reluctant as we may be to recognize the fact, our own persistence in an unwise policy has at last forced us into a situation which enables the holders of our securities and other creditors at home and abroad to demand and take our gold whenever they choose, and the unsatisfactory state of our currency makes their demands more numerous and much larger in amount than they would otherwise be.

There is but one safe and effectual way to protect our Treasury against these demands, and that is to retire and cancel the notes which constitute the only means through which the withdrawals can be made. Many partial and temporary remedies may be suggested and urged, with more or less plausibility, but this is the only one that will certainly remove the real cause of our troubles and give assurance of permanent protection against their recurrence in the future.

This can be most successfully and economically accomplished by authorizing the Secretary of the Treasury to issue from time to time bonds payable in gold, bearing interest at a rate not exceeding 3 per centum per annum and having a long time to run, and to exchange the bonds for United States notes and Treasury notes upon such terms as may be most advantageous to the Government, or to sell them abroad for gold whenever, in his judgment, it is advisable to do so, and use the gold thus obtained in redeeming the outstanding notes. Under the operation of such a plan, if judiciously executed, there could be no improper contraction of the circulation, because if it should at any time be found that other forms of currency were not being supplied to the extent required, exchanges of bonds for notes would be suspended, and gold would be procured by selling the securities abroad.

In order to further facilitate the substitution of other currency for the retirement of legal-tender notes, the national banks should be authorized to issue notes equal in amount to the face value of bonds deposited to secure them, and the tax on their circulation should be reduced to one-fourth of 1 per cent per annum. When the national banking system was established the bonds of the United States were selling below par in the market, and there was, consequently, a sufficient reason for limiting the amount of the circulating notes authorized to be issued to 90 per cent of the face value of the securities deposited, but this reason has long since ceased to exist, the limitation should be removed. The only object to be had accomplished by requiring a deposit of bonds is the certain security of the notes issued by the banks, and under existing conditions that is just as completely assured when the amount of the issue equals the face value of the bonds as when it is limited to a percentage.

NATIONAL BANK TAX.

Until 1883 there was a tax upon the capital and deposits of national banks as well as a tax on their circulation, and from all these sources the Government has received the sum of $[illegible]. From the tax on circulation alone the receipts have amounted to $78,107,006, while the total estimated expenses of supervision, including salaries of officials, have been $15,646,976. The average annual cost of supervision has been $473,848, while a tax of one-fourth of 1 per cent on the average annual circulation would have yielded $630,294. The gain to the Government on account of national bank notes lost or destroyed, and which are consequently never presented for redemption, is estimated to be two-fifths of 1 per cent upon the total amount issued, and has according to this estimate amounted to the sum of $2,805,718. From this statement it appears that we can well afford to relieve the people of this tax, which, although advanced in the first instance by the banks, must, like all other charges upon the means of production or upon consumption, be paid in the end by the masses who use the taxed article. In this case the tax is returned to the banks in a form of a higher rate of interest on loans than would otherwise be exacted and then shifted from one to another through the successive stages of trade and production until it falls at last upon the consumers of products.

As a part of the plan for the retirement and cancellation of the legal-tender notes, the Treasury should be relieved from responsibility for the redemption of national bank notes, except worn, mutilated and defaced notes, and the notes of failed banks, and each association should be required to redeem its circulation at its own office, and at agencies to be designated by the Comptroller of the Currency, as was the case prior to the passage of the act of June 20, 1874; or if this is not considered expedient and the present system of currency redemption by the Treasury is continued, the Secretary should have the power after a future date, to be fixed in the law, to require the banks to keep their 5 per cent redemption fund in gold coin, and to deposit gold coin for the withdrawal of bonds whenever circulation is to be permanently surrendered or reduced. Without the adoption of one or the other of these provisions the holders of bank notes, after the retirement of United States notes and Treasury notes might demand the redemption of such notes in gold, even though the banks had not deposited that coin in the 5 per cent redemption fund; and although the Government would be under no legal obligation to redeem with a different kind of currency from that deposited, there might be circumstances under which its refusal to do so would create financial disturbance by impairing confidence in the value of the notes.

NATIONAL-BANKING SYSTEM.

Whatever objections to a national-banking system may have heretofore existed, or may still exist, among our people upon economic or other grounds, the fact must be recognized that it has been so long established, and, notwithstanding its admitted defects, has served such a useful purpose in furnishing a convenient form of currency of uniform value throughout the country, that an attempt at this time to abolish it, or materially abridge the franchises of the institutions organized under it, would not only be unsuccessful, but would provoke injurious agitation when the precarious condition of our fiscal affairs demands repose and such a restoration of confidence as will enable the people to avail themselves of all the facilities that can be afforded for the transaction of their business.

The national banking associations now in operation have been established under charters granted by the Government, and so long as they are obedient to the laws and useful to the community, it would be an act of bad faith to deprive them of the privileges thus secured; but, if, without detriment to any interest, the scope of their operations can be so extended as to bring them closer to the people in parts of the country remote from the large towns and cities, their capacity for useful service in affording accommodations to our farmers, merchants and others engaged in business will be greatly increased, and we should not hesitate to make such amendments to the laws as would most certainly accomplish this purpose.

One of the most serious objections heretofore urged against the system as it now exists has been that, while it is well adapted to large commercial communities, where capital is easily concentrated, it has not furnished the necessary banking facilities to the small centres of local trade, where, especially at certain seasons of the year, such facilities are greatly needed to assist in cultivating, gathering and removing our surplus agricultural products. All our trade in these products, which constitute such a large and important part of our domestic and foreign commerce, begins in the localities where they are grown, and it is there that the means for their first movement must be provided.

BRANCHES OF THE BANKS.

It must be evident, therefore, that any system which will promote such a distribution of the loanable capital of the country as will make it easily accessible upon reasonable terms to the producers and purchasers of these products must be highly beneficial to both, and I am satisfied that, under present conditions, the only successful attempt that can be made to secure these benefits is so to amend the law as to permit national-banking associations to establish branches for the transaction of all kinds of business now authorized, except the issue of circulating notes. By receiving local deposits and discounting local bills and notes these branches would not only make the capital and resources of the parent institution available when needed in the localities where the branches are established, but they would collect and utilize in the business transactions of the people all the surplus accumulations of their respective communities. These accumulations, although small in detail, are quite large in the aggregate in every industrious and thrifty community, and if they could be actively employed when needed in the circulation they would materially aid in relieving the stringency, which, notwithstanding the abundance of currency in the financial centres, is sometimes severely felt in particular localities.

The failure of the national-banking system as it now exists to meet these local requirements is unavoidable under the law now in force, which prohibits the organization of any banking association with a capital less than $50,000, and permits their organization with this minimum amount only in places having

a population of 6,000 and less. Places having a population exceeding 6,000 no matter how small the excess may be, are compelled to raise a capital of $100,000 in order to secure banking facilities under the statute, and if the population exceeds 6,000 the capital must not be less than $200,000. The result of these provisions is that the people in the smaller classes of towns and cities, being unable to raise the amount of capital required by the law, are deprived of the advantages enjoyed by the citizens of the larger places, and are consequently compelled to rely for accommodation upon banks at a distance, or borrow from commission houses, brokers and others nearer home at high and frequently at exorbitant rates of interest. The authority to establish branches which will be legally and in fact simply adjuncts of the main association and subject to the same limitations, restrictions and supervision as the other business of the corporation, will, without in the least impairing the strength or credit of the system, extend its benefits to a great number of our people who are now subjected for the reasons stated to great inconvenience and more or less loss on account of their inability to secure means for use in the conduct of their business. As the national-banking law is now construed, branches cannot be maintained except by converted State banks, which are permitted to continue such branches as they had in operation at the time of their organization under the national system, and these are so few in number as to be of no great importance.

During the past year official information has been collected through the office of the Controller of the Currency in relation to the banks and banking systems of twenty-five countries, from which it appears that, though their systems differ widely in many other respects, they all permit the establishment and operation of branch banks, and one of them, France, makes their establishment compulsory. In nearly all the old State banking systems in this country branches for the transaction of commercial business, and, in some cases, for the issue of notes, were provided for; and they are now authorized and in operation under the laws of twenty States. So far as known, the policy of permitting the establishment of branches has been entirely successful, and the fact that it has been adopted and adhered to by so many countries in different parts of the world affords good reason for the belief that it would not fail to produce satisfactory results here as a feature of our national-banking system.

It is not probable that any plan for the permanent retirement of the United States notes and Treasury notes will be adopted that will not require considerable time for its complete execution, and I therefore respectfully urge upon Congress the propriety of prohibiting any future issues of such notes or of national bank notes of less denominations than $10. The reasons for this recommendation have been fully stated in former reports and need not be repeated here. Such a policy would make room in the circulation for silver coins and silver certificates of small denominations, thus increasing their use among the people in the transaction of their daily business and preventing their frequent return to and accumulation in the Treasury. The large silver certificates now outstanding could be retired and canceled when received and smaller ones substituted for them, so that there would be no diminution of the amount of small currency in circulation, and the ultimate result would be an increased use of our present stock of silver in the form of subsidiary coin, or standard dollars and certificates.

J. G. CARLISLE, Secretary.

To the Hon. Thomas B. Reed, Speaker of the House of Representatives.

Seattle Consolidated Street Ry.—*Reorganization*—The reorganization plan was given on page 612 and some modifications thereof on page 1014, both of the present volume. The modified plan in full is now at hand. The only material change that we note is an increase in the amount of new first mortgage bonds required for carrying out the reorganization from $457,000 to $492,000, the additional $35,000 of bonds to be preferred as to interest payments for the first ten years. This change reduces the amount of new bonds available for new construction and purchase of other roads to $440,000. It was made necessary by the necessity of meeting deficiency on assessments. The plan, we are informed, has proved a "complete success."—V. 61, p. 1014.

Union Pacific Ry.—*Denver Leadville & Gunnison Railway Foreclosure.*—A press despatch from Denver, Col., on Monday Dec 16, says:

"Application for the sale of the Denver Leadville & Gunnison Railway was made by receiver Trumbull to-day in the United States Court. Arguments in the case will be heard next Monday. From an alleged loss of $20,000 a month, it is said, it is now on a paying basis."—V. 61, p. 1066.

Union Traction—Reading Traction (Reading, Pa.).—*Incorporation*—The Union Traction Co. was chartered on Tuesday with capital of $400,000, the incorporators being Robert N. Carson, I. F. Carson and R Nelson Buckley, all of Philadelphia; Samuel E. Rigg, Oliver S. Geiger, Frank P. Lauer, James A. O'Reilly, William R. McIlvain, Henry C. England, George F. Baer and Richmond L. Jones, all of Reading.

The Philadelphia *Ledger* says: The intentions of the new company have not been fully made public, but it is almost certain that it will control the Reading Traction Company, the East Reading Railway Company and the Reading & Womelsdorf Electric Railway Company, which together occupy nearly sixty miles of electric road. James A. O'Reilly was elected President and William R McIlvaine Secretary and Treasurer of the new company. The leases of the various companies were read, and will be ratified by the stockholders on December 30.—V. 61, p. 1014.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, December 20, 1895.

The absence of any clear indication of proposed financial policy on part of Congress and the sensational message of the President upon political issues between this country and England have served as disquieting influences upon business. Some disturbance of values is reported, but in mercantile circles generally there is a belief that war with Great Britain is a very remote contingency, yet pending further developments it is deemed judicious to conduct all operations with great caution. Holders of staple commodities on speculative deals have shown a disposition to liquidate and have forced declines in values. Varying temperature has been reported from the West, with heavy rains and snows. Latest advices indicate no deterioration in condition of the grain. Wheat offerings at primal markets are restricted, but corn is coming out more freely. The flour output is running considerably in excess of last year. Late yesterday afternoon President Cleveland sent a message to Congress urging immediate action on the currency question.

For lard on the spot there was a slightly firmer feeling early in the week, but subsequently there was a decline owing to the continued slowness of trade and the unsettled political situation, closing easy at 5·45c. for prime Western, 5·10c. for prime City and 6c. for refined for the Continent. Speculation in the local market for lard futures has continued at a standstill, and prices have declined in response to weaker advices from the West, where packers have been selling, closing easy.

DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
December.....c.	5·52	5·60	5·55	5·55	5·50	5·45

There has been a moderately active demand for pork at steady prices, closing at $9@9 50 for mess, $10@10 25 for family and $9 50@$11 for short clear. Cut meats have continued to meet with a slow trade and prices have weakened slightly, closing at 4⅞@5⅛c. for pickled bellies, 12@10 pounds average, 4¾@5c. for pickled shoulders and 8½@8¾c. for pickled hams. Beef has been quiet and unchanged, closing at $7 50@$8 for mess, $8 50@$11 for packet $10@$13 for family and $16@$18 for extra India mess. Beef hams have been without change, closing at $15@$15 50. Tallow has further declined and the close was easy at 3⅞c. Oleo stearine has been fairly active, but at slightly lower prices, closing at 5c. Lard stearine has been neglected, closing at 6c. Cottonseed oil has declined, but the close was steady at 23½@24½c. for prime crude and 28@28½c. for prime yellow. Butter has been quiet but steady, closing at 19@27c. for creamery. Cheese has been in light request but steadily held, closing at 7¼@10½c. for State factory full cream. Fresh eggs have declined, but the close was steady at 22c. for choice Western.

Coffee found very little direct demand from any quarter until at the close, when buyers display a slight increase of interest. Prices are a shade firmer. Rio quoted at 14½c. for No. 7, good Cucuta 17¾c. and standard quality Java 26c. Contracts for future delivery have been moderately dealt in at irregular rates, closing weak under a realizing effort. The following were the final asking prices:

Dec.....13·80c.	March.....13·50c.	June.....12·65c.
Jan.....13·70c.	April.....13·20c.	July.....12·40c.
Feb.....13·55c.	May.....12·95c.	Sept.....11·95c.

Raw sugars remained very quiet during greater portion of week, but were generally held with firmness. Centrifugal quoted 3⅛c. for 96-degrees test and muscovado 3⅛c. for 89-degrees test. Refined sugars selling slowly, but held steadily at former rates; granulated quoted 4⅝c. Teas a shade steadier.

For Kentucky tobacco there was a fairly active demand from France and prices ruled firm; sales were 300 hhds. Seed leaf tobacco has been in limited request at steady prices; sales for the week were 1,650 cases, as follows: 1,000 cases 1894 crop, Wisconsin Havana, 5½@9c.; 100 cases 1892 crop, Wisconsin Havana, 12@16c.; 200 cases 1894 crop, New England Havana, 10@16c.; 50 cases 1894 crop, New England Havana, 10@16c.; 50 cases 1893 crop, New England Havana, 5½@6c.; 100 cases 1892 crop, Pennsylvania seed leaf, 11@13c.; 50 cases 1893 crop, Pennsylvania Havana, 11c., and 150 cases sundries, 4@16c.; also 750 bales Havana, 68c @$1 05, and 140 bales Sumatra, 60c @$2 80 in bond.

In the market for Straits tin speculation has continued quiet and prices have declined in response to weaker advices from abroad, closing quiet at 13·75c. Ingot copper has received only a very limited amount of attention and prices have further declined, closing at 10·65c. for Lake. Lead has been quiet, but steady, closing at 3·22½c. for domestic. Spelter has advanced slightly, but the close was quiet at $3 45@$3 50 for domestic. Pig iron has been unchanged at $13@$14 50 for domestic.

Refined petroleum has declined, closing at 7 75c. in bbls., 5·50c. in bulk and 8·50c. in cases; crude in bbls. has been nominal; naphtha unchanged at 8·25c. Crude certificates have been weaker, closing at $1 30 bid. Spirits turpentine has further advanced, closing steady at 28@28½c. Rosins have been quiet and unchanged, closing at $1 72½@$1 75. Wool has been firm but quiet. Hops have been in slow demand and weak.

COTTON.

FRIDAY NIGHT, December 20, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 222,783 bales, against 234,059 bales last week and 227,001 bales the previous week, making the total receipts since the 1st of Sept., 1895, 3,144,393 bales, against 4,823,301 bales for the same period of 1894, showing a decrease since Sept. 1, 1895, of 1,678,908 bales.

Total 1893	164,411	33,694	82,898	19,108	300,111	909,127

Speculation in cotton for future delivery at this market has been narrow and upon a generally easy basis. Operators express disappointment over the moderate export and spinning demand, which in conjunction with unsettled financial conditions induced considerable liquidation. Saturday opened 7 points up on covering, but reacted and closed at only 2 points net gain. During Monday business was of dragging character, finally resulting in 5 points net loss. On Tuesday improved cable advices stimulated 7 points advance at the opening but there was recession before the close, leaving net gain at 2 points. During Wednesday, with only a limited number of buying orders and some pressure to sell, there was a decline of about 6 points, closing easy. Yesterday the pressure to liquidate became very pronounced, principally for account of Wall Street holders of long engagements, and 16 points decline took place, with 5 points recovery at the close on local covering. To-day a further decline of about 1/16c. average has taken place under additional liquidation and selling out on stop orders, but there was some good buying at the shrinkage in cost. Cotton on the spot slow at 8 5-16c. for middling upland. The general market at the close is feverish.

The total sales for forward delivery for the week are 1,104,400 bales. For immediate delivery the total sales foot up this week 1,816 bales, including — for export, 1,316 for consumption, — for speculation and 500 on contract. The following are the official quotations for each day of the past week—December 14 to December 20.

Rates on and off middling, as established Nov. 23, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	0. 1 1/4 on.	Good Ordinary	0. 1 off.
Middling Fair	7/8 on.	Good Middling Tinged	Even.
Strict Good Middling	1/2 on.	Strict Middling Stained	7/32 off.
Good Middling	5/16 on.	Middling Stained	3/8 off.
Strict Low Middling	3/16 off.	Strict Low Mid. Stained	25/32 off.
Low Middling	3/4 off.	Low Middling Stained	1 1/4 off.
Strict Good Ordinary	11/16 off.		

On this basis the prices for a few of the grades would be as follows.

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary	7 9/16	7 9/16	7 9/16	7 1/2	7 3/8	7 5/16

☞ The imports into Continental ports the past week have been 132,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 603,187 bales as compared with the same date of 1894, a falling off of 506,811 bales from the corresponding date of 1893 and a decrease of 379,946 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

TOWNS.	Movement to December 20, 1895. Receipts.—This week.	Receipts.—Since Sept. 1, '95.	Shipments.—This week.	Shipments.—Since Sept. 1, '95.	Stock Dec. 20.	Movement to December 21, 1894. Receipts.—This week.	Receipts.—Since Sept. 1, '94.	Shipments.—This week.	Shipments.—Since Sept. 1, '94.	Stock Dec. 21.

* Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 28,960 bales and are now 16,503 bales *more* than at same period last year. The receipts at all the towns have been 116,755 bales *less* than same week last year and since Sept. 1 are 1,212,443 bales *less* than for same time in 1894.

* Includes sales in September, for September, 15,20 ; September-October, for October, 513,600 ; September-November, for November, 417,200.

The following exchanges have been made during the week:

·12 pd. to exch. 100 Oct. for Sept.
·20 pd. to exch. 200 Dec. for May.
·23 pd. to exch. 200 Dec. for June.
·03 pd. to exch. 200 Nov. for Oct.
·01 pd. to exch. 2,500 Dec for Jan.
·10 pd. to exch. 200 Dec. for Mch.
Even 5,000 Dec for Jan.
·15 pd. to exch. 300 Jan. for Apr.
·16 pd. to exch. 200 Jan. for Apr.
·25 pd. to exch. 800 Jan. for Aug.
·05 pd. to exch. 1,000 May for Aug.
·02 pd. to exch. 1,600 Jan. for May.
·03 pd. to exch. 100 May for June.
·09 pd. to exch. 100 Mch. for May.
·11 pd. to exch. 500 Dec. for Mch.
·10 pd. to exch. 2,000 Jan for Mch
·05 pd. to exch. 1,600 Feb. for Mch.
·19 pd. to exch. 1,000 Jan. for May
12 pd. to exch. 5,400 Jan. for Mch.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Dec. 20), we add the item of exports from the United States, including in it the exports of Friday only:

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Dec. 20	CLOSING QUOTATIONS FOR MIDDLING COTTON ON

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	7 7/8	Little Rock....	7 7/8	Newberry.....	.....
Columbus, Ga.	7 1/8	Montgomery...	7 3/4	Raleigh	7 5/8
Columbus, Miss	7 1/2	Nashville	7 7/8	Selma.....	7 3/4
Eufaula ...	7 3/4	Natchez... ...	7 7/8	Shreveport....	7 11/16

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending	Receipts at the Ports			Stock at Interior Towns			Receipts from Plant'ns		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.
Nov. 15	220,873	277,102	222,740	385,276	440,451	349,032	347,389	402,564	245,699
" 22	294,506	341,302	282,150	385,428	471,974	342,046	383,561	433,817
" 29	278,301	328,228	240,427	422,495	494,115	360,175	320,796	321,737
Dec. 6	311,178	338,151	287,961	441,726	481,922	382,888	330,347	382,196	303,571
" 13	288,778	304,679	264,104	440,276	477,477	385,468	340,710	395,743
" 20	282,782	309,168	252,782	437,285	482,209	382,209	426,921	251,743

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 3,697,025 bales; in 1894 were 5,234,795 bales; in 1893 were 4,307,113 bales.

2.—That although the receipts at the outports the past week were 282,782 bales, the actual movement from plantations was 251,743 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 426,921 bales and for 1893 they were 309,168 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Dec. 20 and since Sept. 1 in the last two years are as follows.

December 20.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis.....	24,632	303,343	32,497	524,082
Via Cairo	16,152	138,828	14,549	200,050
Via Parker City.....	1,757	11,440	2,000	16,300
Via Evansville	4	28	39	1,487
Via Louisville	3,920	77,609	7,326	96,868
Via Cincinnati	4,785	39,829	6,070	97,375
Via other routes, &c.....	3,914	36,034	6,182	75,674
Total gross overland.....	54,764	607,111	68,653	1,011,836
Deduct shipments—				
Overland to N. Y., Boston, &c...	5,923	99,369	29,678	174,418
Between interior towns.....	35	2,792	752	13,425
Inland, &c., from South.....	1,661	25,260	1,275	36,998
Total to be deducted.....	10,619	124,821	31,705	224,841
Leaving total net overland*	44,145	482,290	36,948	786,995

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 44,145 bales, against 36,942 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a falling off from a year ago of 304,705 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Dec. 20	282,782	3,414,393	309,168	4,928,301
Net overland to Dec. 20	44,145	482,290	36,948	786,995
Southern consumption to Dec. 20	22,000	322,000	21,000	292,000
Total marketed	288,927	3,918,683	317,916	5,992,296
Interior stocks in excess.....	28,960	477,642	67,223	511,494
Came into sight during week.	317,888	.....	384,869	.....
Total in sight Dec. 20.....	.....	4,501,315	.....	6,413,790
North'n spinners tak gs to Dec. 20	47,950	862,751	75,655	1,299,359

It will be seen by the above that there has come into sight during the week 317,888 bales, against 479,869 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 1,912,475 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us this evening by telegraph indicate that while there has been rain in most sections of the South the past week the precipitation has on the whole been light, except in a few sections of the Southwest, and the marketing of the crop has therefore not been interfered with to any extent.

Galveston, Texas.—There has been rain on four days during the week, the rainfall being ninety-seven hundredths of an inch. Average thermometer 54, highest 68 and lowest 41.

Palestine, Texas.—We have had rain on four days of the week, the rainfall reaching two inches and ninety-eight hundredths. The thermometer has averaged 50, the highest being 72 and the lowest 28.

Huntsville, Texas.—Heavy fog on the 16th. There has been rain during the week to the extent of one inch and ninety-eight hundredths, on three days. The thermometer has averaged 51, ranging from 30 to 72.

Dallas, Texas.—There has been rain on three days during the week, to the extent of two inches and one hundredth. The thermometer has ranged from 28 to 68, averaging 46.

San Antonio, Texas.—Rain has fallen on two days of the week to the extent of twenty-eight hundredths of an inch. Average thermometer 56, highest 75 and lowest 37.

Luling, Texas.—The cotton crop is gathered Heavy frost following closely upon rain caught the bolls full of sap and prevented many from opening. It has rained on two days of the week, the rainfall being thirty hundredths of an inch. The thermometer has averaged 53, the highest being 74 and the lowest 32.

Columbia, Texas.—There has been rain on three days of the past week, the precipitation reaching sixty hundredths of an inch. The thermometer has averaged 52, ranging from 28 to 76.

Cuero, Texas.—We have had rain on two days during the week, to the extent of thirty-three hundredths of an inch. The thermometer has ranged from 34 to 77, averaging 56.

Brenham, Texas.—It has rained on two days of the week, the rainfall reaching eighty-eight hundredths of an inch. Average thermometer 53, highest 73, lowest 33.

Belton, Texas.—There has been rain on two days during the week, the precipitation being sixty hundredths of an inch. The thermometer has averaged 53, the highest being 72 and the lowest 34.

Fort Worth, Texas.—We have had rain on two days the past week, the precipitation reaching one inch. The thermometer has averaged 48, ranging from 26 to 70.

Weatherford, Texas.—Planters are well advanced with farm work. There has been rain on two days during the week, the precipitation being ninety hundredths of an inch. The thermometer has ranged from 25 to 72, averaging 48.

New Orleans, Louisiana.—There has been rain on one day during the week, the precipitation reaching eighty-two hundredths of an inch. Average thermometer 57.

Shreveport, Louisiana.—We had rain on four days of the week, the rainfall reaching eighty-five hundredths of an inch. The thermometer has averaged 55, the highest being 70 and the lowest 29.

Columbus, Mississippi.—There has been rain on one day during the week, the precipitation being one inch and twenty-one hundredths. The thermometer has averaged 54, ranging from 28 to 74.

Leland, Mississippi.—No rain has fallen the past week. The thermometer has ranged from 24 to 77, averaging 53 9.

Vicksburg, Mississippi.—There has been rain on one day of the week, the precipitation reaching one inch and eighteen hundredths. Average thermometer 54, highest 73 and lowest 33.

Little Rock, Arkansas.—There has been rain on two days during the week, the rainfall reaching one inch and twelve hundredths. The thermometer has averaged 51, the highest being 69 and the lowest 29.

Helena, Arkansas.—We have had light rain on two days of the week, the rainfall reaching fifty-one hundredths of an inch. The thermometer has averaged 52, ranging from 27 to 67.

Memphis, Tennessee.—Rain has fallen on four days of the week, the rainfall reaching eighty-four hundredths of an inch. The thermometer has ranged from 24·5 to 67·2, averaging 50·6.

Nashville, Tennessee.—Telegram not received.

Mobile, Alabama.—We have had rain on one day during the week, the rainfall being two hundredths of an inch. The thermometer has averaged 52, the highest being 67 and the lowest 28.

Montgomery, Alabama.—It is raining to day. The thermometer has averaged 50, ranging from 38 to 60.

Selma, Alabama.—Telegram not received.

Madison, Florida.—Telegram not received.

Columbus, Georgia.—Dry weather has prevailed all the week. The thermometer has averaged 46, the highest being 63 and the lowest 25.

Augusta, Georgia.—There has been rain on two days during the week, the precipitation being eleven hundredths of an inch. The thermometer has ranged from 29 to 68, averaging 47.

Savannah, Georgia.—We have had rain on four days of the week, the rainfall being seven hundredths of an inch. The thermometer has averaged 50, ranging from 31 to 70.

Charleston, South Carolina.—There has been rain on two days during the week, the rainfall being five hundredths of an inch. Average thermometer 49, highest 64 and lowest 32.

Statesburg, South Carolina.—Dry weather has prevailed all the week, but now temperature is higher and rain is threatened. The thermometer has averaged 44·3, highest 67 and lowest 24.

Greenwood, South Carolina.—It has rained on one day of the week to the extent of thirty-six hundredths of an inch. The thermometer has averaged 42, ranging from 22 to 60.

Wilson, North Carolina.—There has been no rain the past week. The thermometer has ranged from 23 to 64, averaging 42.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock December 19, 1895, and December 20, 1894.

		Dec. 19, '95.	Dec. 20, '94.
		Feet.	Feet.
New Orleans	Above zero of gauge.	3·8	3·0
Memphis	Below zero of gauge.	0·8	2·5
Nashville	Above zero of gauge.	2 2	*7·4
Shreveport	Below zero of gauge.	2·3	4·5
Vicksburg	Below zero of gauge.	2·4	1·8

* Below zero of gauge.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been devoid of animation the past week, but prices are nominally unchanged, the close to-night being at 3⅞c. for 1¾ lbs., 4¼c. for 2 lbs. and 4¾c. for standard grades. Carload lots of standard brands are quoted at 3⅝c. for 1¾ lbs., 4¼c. for 2 lbs. and 4¾c. for 2¼ lbs., f. o. b., at New York. There has been no inquiry for jute butts and quotations are nominal at 1 1-16c. for paper quality and 1⅛c. for mixing.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Dec. 19.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain	Continent.	Total.	This Week.	Since Sept. 1.
1895	...?...	9,000	9,000	3,000	107,000	110,000	64,000	413,000
1894	.....	.....	.....	5,000	20,000	25,000	23,000	103,000
1893	.....	2,000	2,000	7,000	96,000	103,000	34,000	210,000
1892	.....	16,000	16,000	5,000	87,000	92,000	40,000	174,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 41,000 bales and an *increase* in shipments of 9,000 bales, and the shipments since Sept. 1 show an *increase* of 85,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, December 18.	1895.	1894.	1893.
Receipts (cantars')*			
This week.	230,000	220,000	225,000
Since Sept. 1.	3,183,000	2,393,000	2,381,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	20,000	177,000	15,000	131,000	8,000	124,000
To Continent†	14,000	126,000	11,000	129,000	6,000	95,000
Total Europe.....	34,000	303,000	26,000	260,000	14,000	219,000

* A cantar is 98 pounds.

† Of which to America in 1895, 15,450 bales; in 1894, 13,600 bales; in 1893, 5,116 bales.

EAST INDIA CROP.—The following telegraphic report on the cotton crop in India from Messrs. Gaddum, Bythell & Co. is dated Bombay, December 5.

The news concerning the growing crops is still all that could be desired, and our latest reports from up-country advise a continuance of favorable weather everywhere. Whatever may happen afterwards a considerable portion of the Oomra crop has now been safely gathered.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for both yarns and shirtings. Spinners are considered to hold large stocks of yarn. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.					1894.				
	32s Cop. Twist.		8¼ lbs. Shirtings, common to finest.		Cott'n Mid. Uplds	32s Cop. Twist.		8¼ lbs. Shirtings, common to finest.		Cott'n Mid. Uplds

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Dec. 20) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Dec. 20.	1895.		1894.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894.
Savannah	3,815	55,778	4,081	51,335	12,461	18,024
Charleston.....	658	7,706	287	4,602	2,099	1,632
Florida, &c.....	401	3,308	145	2,888	2,688	1,245
Total.....	4,874	66,792	4,513	58,825	17,248	20,901

The exports for the week ending this evening reach a total of 3,837 bales, of which 3,384 bales were to Great Britain, 53 to France and 400 to Reval, and the amount forwarded to Northern mills has been 2,880 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Dec. 20.			Since Sept. 1, 1895.			North'n Mills.	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1.
S'vann'h, &c	1,025	.....	1,025	11,648	2,269	13,917	2,417	19,994
Charl't'n, &c	.....	.....	.....	2,719	32	2,751	112	731
Florida, &c.	.....	.....	.....	.....	.....	.....	351	2,133
New York..	2,259	453	2,712	7,745	2,374	10,119	.....	.....
Boston	100	.....	100	284	.....	284	.....	.....
Baltimore ..	.....	.....	.....	.....	.....	.....	.....	.....
Total	3,384	453	3,837	22,396	4,675	27,071	2,880	22,868
Total 1894..	1,070	.....	1,070	14,074	2,585	16,659	1,015	22,551

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Dec. 20 at Savannah, for Floridas, common, 12¼c.; medium fine, 14¾c.; choice, 16½c.

Charleston, Carolinas, medium fine, 25 to 28½c.; fine, 25c.; fully fine, 26c.; extra fine, 35 to 40c.

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of November and since January 1 in 1895 and 1894, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

Total exports of cotton manufactures.....							1,153,030	1,171,481

The foregoing shows that there has been exported from the United Kingdom during the eleven months 1,153,030,000 lbs. of manufactured cotton, against 1,171,481,000 lbs. last year, or a decrease of 18,451,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during November and since January 1 in each of the last three years:

EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN NOVEMBER, AND FROM JANUARY 1 TO NOVEMBER 30.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 188,367 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamer Georgic, 5,368 upland and 2,259 Sea Island	7,627
To Hull, per steamers Conemaugh, 200....Martello, 533 upland and 100 Sea Island	1,133
To Havre, per steamer La Gascogne, 549 upland and 53 Sea Island	602
To Bremen, per steamer Stuttgart, 2,784	2,784
To Hamburg, per str Palatia, 550	550
To Antwerp, per steamer Kensington, 1129	1,129
To Copenhagen, per steamer Oceanic, 474	474
To Genoa, per steamer Marjoriebanks, 264	264
NEW ORLEANS—To Liverpool, per steamers Barbadian, 6,502 ....Bellucia, 4,075 Cromwell, 9,096 ...Darien, 3,660 Flo IX, 4,04 ...Yucatan 4,400	30,777
To Manchester, per steamer Cuba, 3,900	3,900
To Havre, per steamers Lustr, 8,242 ...Forelands, 10,202 Sevilla, 7,262 ...Stanley Hall, 9,411	35,117
To Bremen, per steamers Avona, 6,415 ...Parkmoor, 7,925	14,344
To Hamburg, per steamers Hercules, 440....Penaria, 4,794	5,194
To Rotterdam, per steamer Hewelwick, 580	580
To Copenhagen, per steamer Danda, 837	837
To Barcelona, per steamers Berenguer El Grande, 4,830 Manuel Llorca, 1,100	5,930
To Genoa, per steamer Berenguer El Grande, 1,500	1,500
To Trieste, per steamer Berenguer El Grande, 1,550	1,550
GALVESTON—To Liverpool, per steamer Clanmore, 4,300	6,157
To Manchester, per steamer Clanmore, 4,300	4,300
To Havre, per steamer Haverford, 3,136	3,136
To Genoa, per steamer Pedro, 2,116	2,116
TEXAS CITY—To Manchester, per steamer Capenor, 2,900	2,900
To Havre, per steamer Hawkhurst, 950	950
MOBILE—To Liverpool, per steamer Delmar, 5,856	5,856
SAVANNAH—To Gottenburg, per steamer Marie Elizabeth 2,550	2,550
To Warberg, per steamer Marie Elizabeth, 2,400	2,40 0
PORT ROYAL—To Liverpool, per steamer Alnwick, 69 (additional)	69
WILMINGTON—To Liverpool, per steamer Mourne, 10,312	10,312
To Bremen, per steamer Kirkby, 9,655	9,655
NORFOLK—To Liverpool, per steamers Oregon, 2,666....Waverley, 4,330	6,996
To Rotterdam, per steamer Lambert's Point, 200	200
To Antwerp, per steamer Bruxelles, 1,300	1,300
BOSTON—To Liverpool, per steamers Columbian, 2,491 ....Michigan, 460 ...Ottoman, 1,219 upland and 134 Sea Island....Scythia, 499 ...Victorian, 5,904 upland and 50 Sea Island	10,757
To Halifax, per steamer Halifax, 100	100
BALTIMORE—To Liverpool, per steamer Ulstermore, 3,223	3,223
To Havre, per steamer Alcides, 800	800
To Hamburg, per steamer Italia, 100	100
PHILADELPHIA—To Antwerp, per steamer Switzerland, 239	239
Total	188,367

BREADSTUFFS.

FRIDAY, December 20, 1895.

There has been a very quiet market for wheat flour during the past week. Buyers have shown a disposition to make no further investments of importance until after the holidays, but as there has been no pressure to sell on the part of the mills prices have been steadily held. City mills have been quiet but steady. Rye flour has been quiet and easier. Buckwheat flour has sold slowly and prices have weakened slightly. Corn meal has been quiet and without change. To-day the market for wheat flour was quiet and barely steady.

The speculative dealings in the market for wheat futures were quiet early in the week and prices made little change, but subsequently the strained political situation now existing between the United States and England, and decided depression in financial circles due to active liquidation for foreign account, prompted general selling and prices declined. In the spot market shippers have been moderately large buyers, but at easier prices. The sales yesterday were principally No. 1 Northern at ⅛c. under May f. o. b. from store, ⅝c. over May f. o. b. afloat and 1½c. over May f. o. b. afloat for delivery at the end of Dec. To-day the market was active at declining prices under liquidating sales by "longs," prompted by the panicky condition of the financial market. In the spot market there was an exceptionally active demand from shippers, their purchases for the day amounting to 900,000 bushels. The bulk of the business was transacted on private terms, but sales were reported of No. 1 hard spring at 1⅛@2⅜c. over May f. o. b. afloat, No. 1 Northern at ¼@½c. over May f. o. b. from store for delivery end of December and early January, ¾c. over May f. o. b. afloat, 1⅜c. over May f. o. b. afloat for delivery in January and No. 1 Northern, New York inspection, at ¼c. under May f. o. b. from store.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

May delivery....c.	67	66⅛	66⅞	66⅞	66⅛	64⅞
July delivery....c.	66⅞	66⅛	66⅝	66⅜	65⅞	64⅛

For Indian corn futures there has been a very uninteresting market. Speculation has been extremely slow and prices have made fractional declines in sympathy with the weaker tendency of the wheat market and under a continued free movement of the crop. The spot market has been quiet and easier. The sales yesterday included steamer yellow at 34⅝c. in elevator and No. 2 mixed on the basis of 34⅝c. delivered. To-day the market was quiet and unchanged. The spot market was dull but steady. The sales reported were No. 2 mixed at 33 11-16c. in elevator and steamer mixed at 33¼c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
December delivery....c.	33¾	33⅝	33⅝	33⅝	33½	33⅝
January delivery....c.	33⅞	33⅞	33⅝	33⅝	33⅝	33⅝
May delivery....c.	34⅝	34⅝	34½	34½	34⅝	34⅜
July delivery....c.	....	35⅛	35	35	35	35

Oats for future delivery have continued extremely quiet, and in the absence of sustaining features prices have declined slightly with wheat and corn. The spot market has also been quiet and prices have been easier. Yesterday the sales included No. 2 mixed at 22¾c. in elevator and No. 2 white at 24@24¼c. in elevator. To-day the market for futures was neglected, but nominal prices were quoted steady. The spot market was quiet but steady. The sales included No. 2 mixed at 23¾c. in elevator and No. 2 white at 24c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., December 20, 1895.

There has been no improvement in the general demand for cotton goods during the past week. Sales of staples and seasonable fancies have again ruled small, the home trade still purchasing sparingly, with less doing on export account than during the previous two weeks. In new lines of fancy dress fabrics for spring the demand has hardly been up to recent experiences. The tone rules dull and easy in staples, and although prices cannot be quoted lower than a week ago, sellers readily meet such demand as is forthcoming on that basis. The print cloth market continues to decline and the naming of prices on new season fancy prints is apparently delayed thereby. In the woolen goods market quiet general conditions have also prevailed with no material alteration in the price situation. The dry goods market has not been affected by the President's message on the dispute between Great Britain and Venezuela and has not reflected the excitement generally caused thereby. The best authorities in the trade deplore the precipitation of the crisis but refuse to believe in the probability of war.

WOOLEN GOODS.—Some new lines of high-grade fancy worsteds have been opened this week at an advance of about 5 per cent over last year, but still the display of the high-priced fancies is very limited. In medium and low-grade overcoatings and suitings in heavy-weights for next fall the demand has been moderate and still below general expectations but there has been no change in the price situation. Reorders for light-weights in trouserings and suitings have been more liberal. The demand for cotton warp and union cassimeres and satinets for the new season has also ruled quiet, with steady prices. Doeskin jeans dull. Cloakings dull in both plain and fancy lines. Flannels and blankets are steady, but sales are very light. Dress goods have been in indifferent request in all descriptions without change in price.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending December 16 were 6,003 packages, valued at $271,842, their destination being to the points specified in the table below:

NEW YORK TO DEC. 16.	1895. Week.	1895. Since Jan. 1.	1894 Week	1894 Since Jan. 1.
Great Britain	33	4,595	154	5,100
Other European	147	3,210	32	3,168
China	2,720	52,941	102	74,258
India	2	4,252	204	7,251
Arabia	1,305	21,0[illegible]	....	22,137
Africa	2	9,127	730	8,184
West Indies	337	17,194	551	17,485
Mexico	87	2,606	10	2,192
Central America	274	10,870	219	9,792
South America	1,046	61,238	1,300	58,147
Other Countries	50	6,768	60	3,812
Total	6,003	193,866	3,362	211,726
China, via Vancouver*	...	22,870	.....	20,318
Total	6,003	216,736	3,362	232,044

* From New England mill points direct.

The value of the New York exports for the year has been $8,837,777 in 1895 against $11,181,957 in 1894.

The sales reported in brown sheetings and drills this week, whilst disclosing as great irregularity as before, have not established lower limits than a week ago, although sellers are quite easy to deal with on existing basis in both heavy and light weights. Denims, ticks, checks and stripes and other coarse colored goods are also irregular but not lower than last week, with an indifferent demand throughout. Bleached goods sell in small lots only. Leading makes are unchanged in price but buyers are looking for some revision shortly. Sales of wide sheetings also are limited but prices on these did not advance proportionately with other goods, and are steady. In cotton linings of all kinds business is slow and the market favors buyers. Printed fabrics for spring in moderate demand. New fancy calicoes are opened in all lines but prices seldom named yet. Ginghams and other woven patterned goods steady, with a quiet business doing. Print cloths are quoted 3 1-16c. asked for extras, but there have been small sales at 3c. for contracts.

Stock of Print Cloths—	1895. Dec. 14.	1894 Dec. 15.	1893 Dec. 16.
At Providence, 64 squares	113,000	40,000	132,000
At Fall River, 64 squares	106,000	33,000	109,000
At Fall River, odd sizes	94,000	84,000	12,000
Total stock (pieces)	313,000	157,000	253,000

FOREIGN DRY GOODS.—This division of the market has shared in the general inactivity at first hands. Seasonable lines have been bought in small piecing out quantities and prices outside of a few specialties have ruled irregular. Business for spring has been without special feature.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending December 19 and since January 1, 1895, and for the corresponding periods of last year are as follows:

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

New York City's Double Tax.—By a decision of the Court of Appeals rendered at Albany on Thursday of this week the City of New York will be obliged to pay to the State about $1,500,000 of back taxes for 1893 and 1894, on account of the State care of the insane. The injustice of this tax is obvious from the fact that the city, which covers the entire county, cares for its own insane at a yearly cost of $800,000, and yet is required to turn over to the State each year an amount which is nearly 45 per cent of the cost of caring for the insane in all the other counties. To avoid this double tax a bill bringing the insane of New York City under State care will be introduced during the first days of the coming session of the Legislature, and a provision will be made in it for the payment of amount now due the State. If the bill is passed the value of the asylum buildings owned by the county which are now used in caring for its insane will be taken into consideration in the settlement of the back taxes.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Adrian, Mich.—*Bonds Authorized.*—Two to five-year bonds to the amount of $3,271 will be issued.

Andrew County, Mo.—*Bonds Defeated.*—A bond election held in Andrew County on Dec. 10 resulted in the defeat of the proposition by a two-thirds majority.

Ballard School District No. 50, King County, Wash.—*Bond Offering.*—Proposals will be received until January 6, 1896, by John W. Maple, County Treasurer, for the purchase of $18,000 of school-district bonds. The securities will be dated February 1, 1896, and will be redeemed on or before February 1, 1916.

Berkeley County, W. Va.—*Bonds Authorized.*—This county will issue 4 per cent 20 to 30-year refunding bonds to the amount of $105,000.

Bloomfield, N. J.—*Bonds Authorized.*—It is reported that $100,000 of sewer bonds of Bloomfield will be issued.

Bloomington, Wis.—*Bonds Proposed.*—The citizens of Bloomington will probably vote on issuing bonds in aid of the Bloomington Railway.

Boonville, Ind.—*Bond Election.*—The people of this town will vote December 26 on issuing $25,000 of bonds for water-works.

Boston, Mass.—*Bond Offering.*—City Treasurer Alfred T. Turner will receive bids until December 26th for $1,000,000 of 4 per cent registered certificates issued for various municipal purposes. The securities will be dated January 1, 1896, interest will be payable semi-annually on January 1 and July 1, and the principal will mature January 1, 1916.

Bids will also be received until the same date for $250,000 of 3½ per cent registered certificates of the rapid transit loan, dated January 1, 1896, and maturing Jan. 1, 1936. Both loans will be secured by sinking fund.

Canton, Ohio—*Bond Sale.*—City Clerk T. H. Belden reports to the Chronicle that $60,000 of Canton refunding bonds have been awarded to Messrs. E. H. Gay & Co. on their bid of $727 premium for 4 per cent securities. A detailed description of the bonds is as follows:

LOANS—	When Due.		
4s, J&D, $12,000	Dec. 21, 1900	4s, J&D, $12,000	Dec. 21, 1916

At the same time $800 of 6 per cent street improvement bonds maturing at the rate of $200 yearly from date of issue were awarded to Horace S. Homer & Co., of Boston, for a premium of $28 28. Another bid of $10 premium was received from the Western Reserve National Bank of Warren, Ohio, for this latter issue.

Carrolton, Ga.—*Bond Election.*—The citizens of Carrolton will soon vote on issuing bonds.

Chatham County, Ga.—*Bonds Authorized.*—Road and revenue bonds of this county to the amount of $69,000 have been authorized by the Legislature.

Chipawa County, Wis.—*Bonds Enjoined.*—An injunction has been granted by the Circuit Court at Superior, Wis., restraining the officials of Chipawa County from disposing of $12,700 of bonds which were recently authorized for the purpose of raising money to be applied on the purchase of a site for the State Home for the Feeble Minded.

Clinton County, Mo.—*Bond Offering.*—Proposals will be received until January 15, 1896, by Jacob Tuell, County Treasurer, for the purchase of $15,000 of 5 per cent court bonds and jail bonds. The securities will be dated January 2, 1896 and will mature in from 5 to 10 years.

Clinton, Mass.—*Bonds Proposed.*—An ordinance will be submitted to the Legislature providing for the issuance of $50,000 of water-works extension bonds.

Columbus, Ga.—*Bonds Defeated.*—The proposition to issue $300,000 of 4½ per cent 30-year water works bonds, voted on December 14, failed to carry.

Dallas County, Texas.—*Bond Sale.*—The County Commissioners of Dallas County have disposed of $321,000 of 5 per cent funding bonds at private sale. The purchasers are to pay par for the loan and furnish the blank bonds. The loan is issued to take up $280,000 of 6 per cent Court House bonds, $23,000 of jail bonds and $18,000 of bridge bonds.

Defiance, Ohio—*Bond Election.*—A vote will probably be taken in April on issuing $75,000 of water-works bonds.

De Ruyter, N. Y.—*Bond Election.*—The citizens of this village will soon vote on issuing bonds for water works.

Detroit, Mich.—*Bonds Authorized.*—Sewer bonds of Detroit to the amount of $90,000 will be issued.

Duluth, Minn.—*Bond Offering.*—Bids will be received until December 30, 1895, by C. E. Richardson, City Clerk, for the purchase of $750,000 of 4 per cent water and light bonds. The securities will be dated January 1, 1896. interest will be payable semi-annually in gold at the American Exchange National Bank, and the principal will mature January 1, 1926. In a financial statement made by the City Clerk the following is set forth: Total bonded debt, $1,920,250 (at 4, 4½ and 5 per cent interest); floating debt in addition to bonded debt, $397,362 52 (represented by city orders unpaid and subject to call), secured by assessments uncollected; special assessment debt not included in total bonded debt and secured by direct lien upon the property benefitted, $611,746 16; value of sinking fund, $45,700 05; assessed value for 1895, personal property, $4,855,550; assessed value in 1895, real property, $36,157,713; total assessed value, $41,013,263; city tax rate, 9·6 mills; general tax rate, 27·9 mills; total city income from local and other sources, not including assessments, $781,247 83; population by State Census, 1895, is 59,396; population by Government Census, 1890, including territory subsequently acquired, 37,979; increase, 57 per cent.

Easton, Pa.—*Bonds Proposed.*—A loan of $100,000 for street improvements, etc., is under consideration, and the question will probably be submitted to a vote of the people.

Georgia.—*Bonds Authorized.*—The State of Georgia will issue bonds to refund those maturing July 1, 1896.

Glenville, Ohio—*Bonds Defeated.*—R. C. Wright, Village Clerk, reports to the CHRONICLE that an election held December 10, on issuing $100,000 of water works and sewerage bonds, resulted in the defeat of the proposition.

Harrisburg, Pa.—*Bond Sale.*—On December 28th the Sinking Fund Commissioners of Harrisburg will offer for sale at public auction $32,400 of 4 per cent 5 20 year city water bonds. The securities will be of the denomination of $100, $500 or $1,000 each, dated January 1, 1896, and exempt from State tax. They must be paid for in cash on delivery.

The official advertisement of this bond sale will be found elsewhere in this Department.

Hartford County, Conn.—County Treasurer M. H. Holcomb reports to the CHRONICLE that bonds will not be issued for the contemplated additions to the county jail. A temporary loan of $90,000 will probably be issued to be retired by the proceeds of a county tax.

Houston, Texas.—*Bonds Proposed.*—It is reported that $250,000 of bonds for paving are under consideration.

Kalamazoo, Mich.—*Bond Sale.*—On Dec. 16 City Clerk C. H. Gleason awarded $40,000 of electric-light bonds to Messrs. Rudolph Kleybolte & Co. of Cincinnati for a premium of $61 25. It was stipulated that the securities should bear 4 per cent interest, payable annually. They will mature in four instalments, of $10,000 each, in four, six, eight and ten years from Jan. 1, 1896. There were nineteen bids received for the loan.

Kings County, N. Y.—*Bonds Proposed.*—The Commissioners of Charities have recommended an issue of $200,000 of bonds to pay the expenses of the department from August 1, 1896, to January 1, 1897, for which no provision has been made by the Board of Estimate.

Lake City, Fla.—*Bonds Authorized.*—The people of this town voted on December 10 in favor of issuing $15,000 of 6 per cent 20-year public improvement bonds. The matter will, however, be carried to the courts before the bonds are issued.

Lee County, Ill.—*Bonds Proposed.*—Court-house bonds of this county to the amount of $100,000 have been proposed.

Lisbon, N. D—*Bond Sale.*—On December 2, 1895, the city of Lisbon sold $10,000 of 6 per cent water works bonds to the Commercial Bank of St. Paul at 103, this being the highest bid. The securities are dated December 2, 1895, interest is payable annually on November 1, and the principal will mature December 2, 1915, both principal and interest to be payable in New York.

Madisonville, Ky.—*Bond Election.*—A vote will soon be taken on issuing $21,000 of bonds for water works.

Memphis, Tenn.—*No Bids.*—No bids were received on December 19, when $1,339,500 of refunding bonds of any of the following classes were offered for sale:

Four per cent 30-year gold bonds; 4 per cent 30-year legal tender bonds; 4½ per cent 30-year gold bonds; 4½ per cent 30-year legal tender bonds; 4½ per cent 10-30 gold bonds; 4½ per cent 10-30 legal tender bonds.

Bonds are to be in denominations of $500 or $1,000, to suit the purchaser, dated January 1, 1896, with interest coupons, payable January 1 and July 1, in Memphis and New York. They are proposed to be issued under chapter 56 of the Acts of 1895, authorizing the city to issue the same in order to refund its bonded indebtedness at a lower rate of interest, and are to be used for the purpose of refunding the issue maturing in 1913 and now subject to call.

Middle Loup Valley Irrigation District, Sargent, Neb.—*Bond Offering*—Proposals will be received until January 6, 1896, by Charles Nicolai, Secretary, for the purchase of $100,000 of 6 per cent bonds.

Minneapolis, Minn.—*Bond Offering.*—Sealed bids will be received until January 8, 1896, for $200,000 of 4 per cent 30-year reservoir bonds of the city of Minneapolis. These securities are the same that were recently sold to the commissioners of the city's sinking fund. Shortly after the transaction suit was brought in the Supreme Court of the State to enjoin the city

NEW LOANS.

$2,000,000

STATE of NEW YORK

CANAL BONDS.

COMPTROLLER'S OFFICE
BUREAU OF CANAL AUDIT,
ALBANY, December 17th, 1895.

Pursuant to the provisions of Chapter 79 of the Laws of 1895, proposals will be received at this office until Thursday the 9th day of January, 1896, at 12 o'clock noon of that day for a loan of

TWO MILLION DOLLARS

for which transferable certificates of stock, registered,

Principal and Interest payable in Gold,

will be issued in the name of the People of the State of New York, on the credit of the Sinking Fund established by said act, bearing interest at the rate of three per cent per annum, payable semi-annually on the first days of January and July and the principal redeemable on the first day of January, 1855.

Proposals may be for the whole or any part of the loan not less than $1,000.

Payments for the loan will be required to be made on the acceptance of the proposal, by deposit in the Bank of the Manhattan Co. in the City of New York to the credit of "Treasurer of the State of New York on account of Canal Fund" of the amount of the award, together with premium and accrued interest from January 1, 1896.

The Comptroller reserves the right to reject all bids which are not in his opinion advantageous to the interests of the State.

Interest on the loan will commence on the first day of January next, and will be payable at the Bank of the Manhattan Co. in the City of New York.

Bids or proposals must be sealed and endorsed "Loan for Canal Improvements" and directed to the Comptroller of the State of New York, Albany, N. Y.

JAMES A. ROBERTS, Comptroller.

MUNICIPAL, COUNTY, SCHOOL AND TOWNSHIP BONDS

BOUGHT AND SOLD.

from issuing the bonds and the sinking fund commissioners from buying the same on the ground that the city in issuing the securities exceeded the 5 per cent constitutional debt limit. The Court's decision denies the right of the sinking fund commissioners to purchase the bonds, but establishes their legality by affirming that the park board certificates are not a direct liability of the city and declaring that the bonds held by the sinking fund may be deducted from the city's debt in figuring its borrowing power.

Newton, Mass.—*Bond Offering.*—Proposals will be received until December 26, 1895, by John A. Kenrick, City Treasurer, for the purchase of $100,000 of 4 per cent coupon boulevard bonds. The securities will be dated November 1, 1895; interest will be payable semi-annually on May 1 and November 1 at the office of the City Treasurer, or at the National Revere Bank, Boston, and the principal will mature November 1, 1915

New York State.—*Bond Offering.*—State Comptroller James A. Roberts will receive proposals until January 9 for $3,000,000 of 3 per cent registered canal bonds. The securities will be dated January 1, 1896, and will mature January 1, 1906. Both principal and semi-annual interest will be payable in gold. The State has at present no bonded debt.

Further particulars regarding this bond offering will be found in the official advertisement elsewhere in this Department.

Orange, Conn.—*Bond Sale.*—On December 16th $100,000 of 4 per cent registered gold funding bonds were awarded to Messrs. E. H. Gay & Co., of Boston, at 103·6325. Ten bids were received for the loan. The securities will be dated Jan. 1, 1896, interest will be payable semi-annually on Jan. 1 and July 1 at National Tradesmen's Bank of New Haven, and the principal will mature Jan. 1, 1916.

The assessed valuation of the town of Orange is $2,532,756, actual value being estimated at $5,000,000. Orange has at present no bonded debt, but the floating debt represented by town notes amounts to $104,850 97. The town's population in 1890 was 4,537, and is now estimated between 5,000 and 6,000. The Borough of West Haven, one of the largest suburbs of the City of New Haven, is a part of the town of Orange.

Pendleton County, W. Va.—*Bonds Authorized.*—Five per cent railroad aid bonds of this county to the amount of $50,000 have been voted.

Port Huron, Mich.—*Bonds Authorized.*—Bonds to the amount of $8,500 have been authorized for sewers, buildings, etc.

Raleigh, N. C.—*Election Withdrawn.*—It is reported that an order for an election to be held Jan. 14 on issuing $50,000 of street improvement bonds has been withdrawn.

Reading, Pa.—*Bond Election.*—It is reported that the people of Reading will probably vote in February on issuing $600,000 of bonds for streets, sewers, etc.

Rutland, N. Y.—*Bond Offering.*—Bids will be received by C. J. Sweet, Town Clerk, until January 2, 1896, for 4 per cent bonds of the town of Rutland for $6,600. The securities will be dated February 1, 1896, and will mature at the rate of $1,100 yearly from February 1, 1897, to February 1, 1902.

St. Mary's, O.—*Bonds Authorized.*—It is reported that electric light bonds of St. Mary's to the amount of $12,000 will be issued.

Seattle, Wash.—*Bonds Authorized.*—The people of Seattle have voted in favor of issuing bonds to the amount of $1,250,000 for water works.

Shelbyville, Ill.—*Bonds Proposed.*—The City Treasurer reports to the Chronicle in reference to a proposed issue of $30,000 of water-works bonds that the loan will not be issued for some time.

Sleepy Eye, Minn.—*Bonds Defeated.*—Bonds to the amount of $5,000 for water works and electric light purposes were recently voted down.

Toledo, Ohio.—*Bond Sales.*—It is reported that $7,084 18 of 5 per cent 1 to 5 year street improvement bonds have been sold for a premium of $150 89, and $10,000 of 4½ per cent 20-

year general improvement bonds for a premium of $341. Both loans were awarded to Messrs. Rudolph Kleybolte & Co.

Ulster County, N. Y.—*Bonds Authorized.*—Four per cent refunding bonds of this county to the amount of $75,000 will be issued, the loan to mature at the rate of $3,000 yearly from 1897 to 1921, both inclusive.

Union, S. C.—*Bond Election.*—An election will probably be held to vote on issuing $40,000 of water works and electric light bonds.

Wallingford, Conn.—*Bonds Proposed.*—The question of issuing $24,000 of bonds was to have been voted on December 16, but W. L. Frask, Town Treasurer, reports to the CHRONICLE that no action was taken in the matter on that date and the election has been adjourned until May 1, 1896. The proposed securities are to bear interest at the rate of 4 per cent.

Waynesboro, Ga.—*Bonds Authorized.*—This city will issue bonds to the amount of $7,000.

West Hoboken, N. J.—*Bond Offering.*—Proposals will be received by the town council of West Hoboken until December 26, 1895, for $25,000 street improvement bonds to redeem bonds falling due January 1, 1896. Bonds will bear interest at the rate of 5 per cent and will run for ten years from January 1, 1896. Interest will be payable January and July at the office of the Hudson Trust & Savings Institution.

Westerlo, N. Y.—*Bonds Authorized.*—This town will issue $5,000 of bonds for bridge purposes.

Weston, Mo.—*Bonds Proposed.*—A vote will probably be taken soon on the proposition to issue $75,000 of bonds for water works, electric lights, etc.

Wilkinsburg Pa.—*Bonds Authorized.*—The citizens of Wilkinsburg Pa. have voted in favor of issuing street improvement bonds for $250,000. When the bonds are issued the borough debt will have reached the legal limit, but the conditions are such that within three years $100,000 more can be issued if necessary. The money will be used to pay one-third of the proposed improvements. The benefitted property pays the remaining two-thirds.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Boone School District, Iowa.—The following has been corrected by means of a special report to the CHRONICLE from the Secretary of the School Board.

This district is in Boone County.

LOANS—	When Due.		
REFUNDING BONDS—		Outstanding warrants...	$5,000
5s, J&J, $27,000	July 1, 1905	Total debt Dec., 1895....	45,000

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

OFFICERS

GEORGE H. BURFORD.....President

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, December 28, have been $1,120,471,846 against $1,257,788,348 last week and $809,432,315 the corresponding week of last year. Figures in each year cover only five business days in consequence of the Christmas holiday.

CLEARINGS. Returns by Telegraph.	Week Ending December 28. 1895.	1894.	Per Cent.
New York	$552,872,159	$321,991,495	+71·8
Boston	74,703,530	55,260,976	+35·1
Philadelphia	66,481,706	62,697,943	+ 6·0
Baltimore	11,366,577	8,403,923	+34·9
Chicago	70,135,031	57,621,764	+21·7
St. Louis	16,779,605	17,450,720	— 3·9
New Orleans	9,652,735	8,084,693	+19·7
Seven cities, 5 days	$801,951,393	$531,430,554	+50·9
Other cities, 5 days	122,011,761	108,141,762	+12·8
Total all cities, 5 days	$923,963,154	$639,572,316	+44·5
All cities, 1 day	196,508,692	169,859,999	+15·7
Total all cities for week	$1,120,471,846	$809,432,315	+38·4

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, December 21, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a gain in the aggregate exchanges of about one hundred and fifty-two million dollars, but at New York alone the addition is nearly one hundred and forty-seven millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 24·5 per cent. Compared with the week of 1893 the current returns record an excess of 34·3 per cent and the loss from 1892 is 9·2 per cent. Outside of New York the gain over 1894 is 9·5 per cent. The excess over 1893 reaches 20·8 per cent, and making comparison with 1892 the loss is seen to be 6·6 per cent.

Clearings at—	Week ending December 21. 1895.	1894.	1895. P. Cent.	1893.	1892.
	$	$		$	$

THE FINANCIAL SITUATION.

The panic of Friday and Saturday of last week may be properly characterized as a senseless scare, during which properties of all kinds regardless of intrinsic merit were sacrificed. It was made possible through the idea that war with Great Britain was an immediate contingency and was precipitated by the increased sales of securities through London houses which that fear stimulated. Our gold reserve had previously dropped to a point indicating the need soon of another bond offering by the Government. With these larger sales of securities entailing larger gold exports and with the feeling prevailing that if war were to happen the difficulties of repairing the loss to the reserve would be greatly increased, the haste of Europeans to get out of American securities appeared to be almost universal. Such conditions existing made the panic inevitable. It reached its culmination on Saturday, when during the two hours of business the further declines in stock values were so important as to lead to several failures here and at Philadelphia and Boston. The close on Saturday with the cessation of the London selling was slightly better, but the anxiety with reference to the conditions which Monday would bring was unconcealed.

It was almost grotesque to read the accounts of the daily press of Sunday and Monday mornings as to the amounts of gold which were being offered the United States Government from all countries. Russia, report said, had proffered $400,000,000; Great Britain and the Continent were ready to take our bonds in almost any amount; and the United States itself was stated to be easily able unaided to cash in gold $100,000,000 of them. Before the opening on Monday, too, the public here and apparently abroad, had concluded that the war scare was without reason; the President's message, rumor said, had no such belligerent intent as had been given it; Congressional action did not mean anything more than a general affirmation of the Monroe doctrine and the appointment of commissioners to find out what the facts were. Thus it happened that the week opened on a more peaceful aspect, and with the danger to our gold reserve apparently lessened. These were the controlling conditions, and as they were materially changed, there was very naturally a complete revolution of feeling at the beginning of Stock Exchange transactions Monday morning. The early cables had shown that prices for American stocks in London were decidedly better and the succeeding cables showed further recovery; so as the day progressed confidence here continued to improve.

An event of the week was the announcement that the associated banks, at a meeting held at noon, Monday, decided to and had put in working order the machinery for the issue of loan certificates under the guidance of Mr. Frederick D. Tappen, President of the Gallatin National Bank, who so effectively steered the banks through the financial panic of 1893. This action no doubt had a reassuring effect, although up to this time no loan certificates have been taken out. Another circumstance which served to add materially to the better feeling was that Mr. J. Pierpont Morgan, who was the leading spirit in the last Bond Syndicate, visited Washington on Tuesday and returned to this city on Thursday. Very little is known with reference to his visit except the mere fact we have stated. Rumors in almost endless number have been connected with the visit, the substance of them being that in the event of the failure of the Senate promptly to show a disposition to grant relief to the Treasury the Administration would issue $100,000,000 4 per cent 30-year bonds. The assumption is that a new syndicate has been formed or arranged for, composed of our leading banks and bankers, and headed by Mr. Morgan, which will subscribe for the loan and so direct its affairs as to afford full protection to the gold reserve for a long time to come.

One of the most gratifying features in the situation is the continued favorable reports of earnings made by our leading railroads. This characteristic is strikingly revealed in the returns of gross and net received this week for the month of November. We have become so accustomed to extraordinary gains on the Chicago Milwaukee & St. Paul that the increase of $897,675 in gross and $667,672 in net reported by that company for the month may not attract particular attention, though the ratio of addition in the one case is over 35 per cent and in the other not much short of 70 per cent. The Chicago & North Western in the same section also has another very large gain; the company gives out only the figures of gross, in which the increase is $648,605. But in other parts of the country many roads are distinguished in much the same way. Take for instance the Central of New Jersey, an anthracite coal road; it has gross of $1,279,684 for November 1895, against $1,051,590 for November 1894, and net of $562,364 against $390,690, the latter an improvement of over 40 per cent. Or take the Northern Pacific, which reports gross of $2,198,024 the present year against $1,856,703 last year, and net of $1,178,592 against $783,019, the increase in this last case being over 50 per cent. The Pennsylvania Railroad has also issued its return for November this week, showing on the Eastern and Western lines combined an improvement of $906,756 in gross and of $376,317 in net. We refer to the figures again later on in this article, and will only say here that this improvement follows $465,468 gain in gross and $590,282 gain in net last year. Of course in the Southwest, on account of the great falling off in the cotton crop, the exhibits are of a different character, and we note that the San Antonio & Aransas Pass has gross of only $167,996, against, $229,121, and net of only $53,619 against $110,544. But even in that section there has latterly been a decided change for the better. Thus the Texas & Pacific, which through October and November was reporting very heavy losses in earnings, for both the second and third weeks of December has been showing gains; and in the case of the St. Louis Southwestern the losses are now on a greatly reduced scale.

No one expected a very large amount of new railroad building during 1895, but according to the records kept by the "Railroad Gazette" of this city the addition has been smaller even than was thought likely. The "Gazette" finds only 1,428 miles of new track laid during the twelve months. This is considerably less even than for 1894, when the same journal reported 1,760 miles of new road and some other authorities made the amount about 2,000 miles. Even if later returns should add a couple of hundred miles to the total, the aggregate for 1895 would yet be the smallest of any year since the Civil War. But though track-laying has been of only limited extent, some other statistics which the "Gazette" has collected show that the year has been a much better one than the preceding year. Thus 1,109 locomotives

were built by 13 companies in 1895, against only 695 in 1894, while the reports from the car building companies show that 31,893 freight cars were built, against but 17,029 in 1894. In this we see of course the more liberal expenditures made by the railroads as the result of the improvement which has occurred in their earnings. We need hardly say that the year was far from a normal one nevertheless, and that the margin for further improvement is very great. In the five years preceding 1894 the number of engines built was never less than 2,000 in any year, while the number of freight cars built in 1893 was 51,000 and in 1892 93,000, against the 31,893 for 1895.

During the panicky movement on Friday of last week money loaned in comparatively large amounts on call at 80 per cent, and a few loans were recorded at the rate of 100 per cent per annum. On Saturday, though usually on that day there is no demand, the engagements until Monday being made on Friday, money loaned as high as 50 per cent per annum. On Monday there was an attempt made to advance rates, but after 75 was bid and some transactions were at 50 per cent, the rate fell off. On news of the action of the Bank Clearing House Association large amounts were offered at 6 per cent, and one trust company is said to have offered time loans for all the year at 6 per cent, while another trust company offered large amounts on call at this rate. Good borrowers, with acceptable collateral, had no difficulty even on Friday in obtaining money at 6 per cent at the banks; but some borrowers, and notably those who during periods of extreme ease had required the banks to mark down standing loans to the lowest current rates, found that their rule worked both ways, and when they applied for money during the semi-panic they were required to pay current rates, and some banks obtained 25 per cent for new loans.

The extremes for call money at the Stock Exchange on Monday and Tuesday were from 3 to 50 per cent, averaging about 10 per cent. On Thursday the range was between 5 and 8 per cent; yesterday between 4 and 9 per cent. Banks and trust companies have loaned generally at 6 per cent. There has been a good inquiry for time contracts and 6 per cent is bid, without regard to the period of maturity, and some business has been done at this rate. The dealings in commercial paper are at a standstill, though some choice four months' single names have been accepted at 6 per cent, and the quotation is nominally 6 per cent for the best without regard to classification. Some sales of good names have been made at 9 per cent. This does not reflect the needs of borrowers but the necessities of brokers who have bought the paper and are now anxious to raise money upon it. No Clearing-House loan certificates, as already stated, have been applied for by any of the banks, none being in a position to require them, and each is probably waiting for the other to take the initiative, as was the case in 1893, when the Bank of Commerce took the lead, chiefly to encourage other banks. The fact that the certificates authorized on Monday bear 6 per cent interest, and that 1-16 of 1 per cent commission is required to be paid to the Clearing House, will very naturally tend to restrict their issue. The Philadelphia and the Boston Clearing House banks on Tuesday decided to issue certificates, and the interest rate at Boston is 7·30 per cent.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 1¼ per cent. The open market rate at Paris is 2 per cent and at Berlin and Frankfort it is 3¾@4 per cent. According to our special cable from London, the Bank of England lost £944,000 bullion during the week and held at the close of the week £43,632,321. Our correspondent further advises us that the loss was due to shipments to the interior of Great Britain of £1,002,000, to the export of £126,000 (of which £116,000 was to the Argentine Republic and £10,000 to China,) and to an import of £184,000, of which £106,000 was bought in the open market, £59,000 came from Holland and £19,000 from other countries.

The foreign exchange market was very strong on Monday and Tuesday, notwithstanding the stringent money market, mainly because there were apprehensions that some difficulty would be experienced by the foreign bankers in obtaining legal tenders from the banks with which to exchange for gold at the Sub-Treasury, and in some cases rates were advanced for the purpose of checking business, and some bankers declined to draw at all, preferring to wait until the situation grew more settled or the outlook less uncertain. The only change made in nominal rates on Monday was an advance in short sterling by Heidelbach, Ickelheimer & Co. to 4 90½. Quotations for actual business were wide, being 4 87½@4 88 for long, 4 89½@4 89¾ for short and 4 90@4 90½ for cable transfers, the former being one-quarter of a cent and the latter one-half to three-quarters of a cent per pound sterling above the closing prices of the previous Friday. It was then announced that Müller, Schall & Co. would ship $300,000, and L. von Hoffmann & Co. $250,000 gold by the steamer sailing for Europe on Wednesday, and the Bank of British North America and the Merchants' Bank of Canada each withdrew $100,000 gold for shipment to Canada, the Montreal markets reflecting the panicky fall in securities here. On Tuesday Brown Bros., the Bank of British North America, Heidelbach, Ickelheimer & Co. and the Merchants Bank of Canada advanced their rates to 4 89 for sixty day and 4 91 for sight, while Lazard Freres posted 4 89½ for the former and 4 91 for the latter. Rates for actual business were 4 88½@4 88¾ for long, 4 89¾@4 90¼ for short and 4 91@4 91½ for cable transfers, and during the day some of the bankers demanded 4 92 for the latter. The announcement was then made that Baring, Magoun & Co. would ship $500,000 gold to Europe on the following day for the account of Kidder, Peabody & Co., of Boston; that Lazard Freres would send $500,000, and that L. von Hoffmann & Co. had increased their engagement to $400,000, making, with $300,000 taken by Müller, Schall & Co., $1,700,000. Wednesday was the Christmas holiday. On Thursday Brown Bros. reduced the short rate to 4 90, while Baring, Magoun & Co. moved their rates up to 4 89 for sixty days and 4 90½ for sight, and the Canadian Bank of Commerce posted 4 89 for long and 4 91 for short. The market opened with an easier tone for sight bills and cable transfers, due mainly to the more settled feeling in the money market and also to offerings of bills against intended shipments of gold on Saturday, and rates for actual business were 4 88½@4 88¾ for sixty days, 4 89½@4 90 for sight and 4 90½@4 91 for cable transfers. In the afternoon the tone was easier all around and rates for actual business at the close were 4 88@

4 88¼ for long, 4 89¼@4 89½ for short and 4 89¾@4 90 for cable transfers, and the reaction was mainly due to the fact that rates had been too sharply, and without good reason, advanced early in the week. Yesterday posted rates were irregularly changed, some bankers advancing half a cent for long and short and others reducing half a cent. Rates for actual business were reduced one-quarter of a cent for 60 day sterling. The close was steady. Engagements for shipment to Europe to-day are: Lazard Freres, $1,000,000; L. von Hoffman & Co., $500,000, and $500,000 by Baring, Magoun & Co., making for the day $2,000,000 and for the week $3,700,000. The Bank of Montreal also took $200,000 from its vaults for shipment to Canada. The following table shows the daily posted rates for exchange by leading drawers:

		Fri., Dec 20.	Mon., Dec. 23.	Tues., Dec. 24.	Wed., Dec. 25.	Thurs., Dec. 26.	Fri Dec. 27.
Brown Bros.	60 days	88¼	8 ⅛	88¼-9	....	89	89-89⅛
	Sight	90⅛	90	10⅜-91	....	91-90⅛	90⅛
Baring, Magoun & Co.	60 days	88¼	88¼	88⅛	....	89	89
	Sight	90	90	90	....	90⅛	90⅛
Bank British No. America	60 days	88¼	88¼	89	....	89	89
	Sight	90⅛	90⅛	91	....	91	91
Bank of Montreal	60 days	88¼	88¼	88⅛	....	88¼	88¼-9
	Sight	90⅛	90⅛	90⅛	....	90⅛	90⅛-1
Canadian Bank of Commerce	60 days	88¼	88¼	88⅛	....	89	89-89¼
	Sight	90	90	90	....	91	91-90⅛
Heidelbach, Ickelheimer & Co	60 days	88¼	88¼	89	....	89	89
	Sight	90	90⅛	91	....	91	91
Lazard Freres	60 days	88¼	88¼	89¼	....	89¼	89¼-9
	Sight	90	90	91	....	91	91-90⅛
Merchants' Bk. of Canada	60 days	88¼	88¼	89	....	89	89
	Sight	90⅛	90⅛	91	....	91	91

The market closed steady on Friday at 4 88½@4 89½ for sixty day and 4 90½@4 91 for sight. Rates for actual business were 4 87½@4 88 for long, 4 89¼@4 89½ for short and 4 89¾@4 90¼ for cable transfers. Prime commercial was 4 87½@4 87¾ and documentary 4 86¾@4 87¼.

We have noted above that the Pennsylvania Railroad makes a very good return of earnings for the month of November. On the lines east of Pittsburg and Erie there is an increase of $411,767 in gross and of $100,771 in net, and on the lines west of Pittsburg an increase of $494,989 in gross and of $275,546 in net, giving together $906,756 addition to the gross and $376,317 to the net. It will be observed that the company has continued its policy of appropriating a considerable part of the increase in earnings to the expense accounts, presumably for the purpose of further improving the condition of the property. This applies with particular force to the lines east of Pittsburg, where, on an addition of $5,437,079 to the gross earnings for the eleven months, expenses have been augmented in the sum of $4,245,530, leaving only $1,191,550 increase in net. Combining these Eastern lines with the lines west of Pittsburg, we find that the total gain on the whole system for the eleven months has been $9,596,176, of which $5,850,654 went for increased expenditures and outlays, leaving $3,745,522 gain in the net. The following gives the figures for the Eastern lines for a number of years past for November and the eleven months.

Lines east of Pittsburg.	1895.	1894.	1893.	1892.	1891.	1890.
November.	$	$	$	$	$	$
Gross earnings	5,877,074	5,465,857	5,289,152	6,017,282	5,694,725	5,659,867
Operat'g expenses	3,868,566	3,557,576	3,591,290	4,123,178	3,733,8 1	3,528,232
Net earnings	2,009,058	1,908,287	1,696,862	1,894,104	1,960,874	2,136,635
Jan. 1 to Nov. 30.						
Gross earnings	58,987,5 5	53,550,476	61,072,379	62,906,120	61,630,01	60,846,939

Net earnings	17,983,172	16,791,622	17,664,054	18,491,809	19,916,6 8	19,625,595

Besides the roads already enumerated, the Burlington & Quincy for November has $349,252 increase in gross, $166,300 increase in net; the Southern Railway $86,736 increase in gross, $30,988 increase in net; the New York Susquehanna & Western $10,004 increase in gross, $14,761 increase in net; the Northern Central $40,528 increase in gross, $20,434 increase in net; and several other roads, like the Alabama Great Southern, the Allegheny Valley, the Mobile & Ohio, also have larger or smaller gains. The Jacksonville Tampa & Key West, which has suffered so severely from the effects of the damage to the orange crop by frost last winter, reports only $26,939 gross for November 1895, against $73,397 for November 1894 and $1,152 net against $28,420.

		November Earnings.			
		1895.	1894.	1893.	1892.

THE BOND BILL PROPOSED BY THE HOUSE OF REPRESENTATIVES.

The House of Representatives has not been idle this week; it has so far conformed to the needs of the hour as to remain in session and mature a bond and certificate bill. We do not mean that the measure is in its main features what we think would best suit the conditions at the present moment; nor that it is at all likely the bill will pass the Senate, even if it does the House, in the form it has been introduced. All we intended to affirm was that the House has shown a very commendable appreciation of the urgency of the situation in so promptly getting a measure before it, and further in following that act up by fixing to-day at 3 P. M. to take the vote. When the Senate meets on Monday the bill will consequently be ready for its consideration. It would be hazardous to offer an opinion with reference to the action of the Upper House. Report says that body as at present constituted will not pass any bond bill, and this report apparently is confirmed by the opinions of leading members.

It will be noticed as a first feature that the bonds authorized by the proposed law are redeemable in "coin," not specifically in "gold." No doubt under the present peculiar circumstances a "gold" bond is the requirement. At the same time we understand the feeling which has given rise to hesitation in accepting the proposition to substitute "gold" for the word "coin" in the act. One claim is that to change this word would be to discredit the bonds already out; it would be like saying that bonds issued under this law are payable in gold, but the issues already outstanding the Government may redeem in gold or silver as it elects. A more material objection urged is that to insert the word gold would be an act of humiliation, derogatory to the credit and dignity of the nation. When one remembers that the United States has practically three times redeemed its public debt in full, and further that of the vast number of obligations put out during our late war all the coin bonds have been paid in gold, although only currency largely depreciated was received for them—when these facts are recalled it seems to many as if the honesty and intention of our people ought not to be questioned now.

All this would be unanswerable had not currency affairs during recent years experienced a change which makes any inference drawn from events that transpired previous to such change far from conclusive. We have often given the reasons why the promised redemption should at this juncture be stated plainly to be in gold. Those reasons are based upon a new set of facts which go to make up the financial situation of to-day. We will not repeat them at any length. They indicate such a radical defect in our currency that at the moment capitalists will give a materially better price for our bonds if gold redemption is promised. It does not seem then to be a case for sentiment. Besides if it is the intention in any event to pay gold, and if by saying so the borrower can sell the obligations which are to be marketed at a higher price than can be obtained if the word "coin" is used, it would be difficult to see any wisdom in hesitation as to which should be the course adopted. Then again what we want to borrow at this time is gold. What it is needed for is to support our gold standard, the stability of which is in danger. On this occasion too a serious doubt has been felt more or less at home and everywhere abroad whether we can long sustain this standard. If the dislocation feared should befall our currency and the change was to silver values, the divergence would be so wide that to hold that "coin" redemption still meant "gold" redemption would require a degree of virtue in our legislators more positive than they have recently given any evidence of. Hence we see the force of the call now for a contract without ambiguity and the necessity there is for it if the best price is to be secured.

There is still another feature of the bill in question which is unfortunate. We refer to the maximum interest limit of 3 per cent fixed for the bonds. Whether gold in any considerable amount can be obtained at that price is at least questionable. Some appear to think that a 3 per cent loan might be made popular if offered in such a way as to facilitate payment for the bonds; by that means the hope is that the offer would prove effective in drawing out the hoarded metal. This idea it is reported is to be tested on the occasion of the next bond issue, which rumor yesterday said is to be announced at an early day. We have no faith in the success of the attempt. The 3 per cent certificates proposed in the second section of the bill to meet a deficit in revenue, payment for which is to be made in legal tenders, could no doubt be successfully floated in the form of a popular loan if an occasion should arise for its use, which does not seem likely. But a sale of bonds requiring gold in payment, and gold which is not to be drawn out of the Treasury again, demands good leadership and careful management. The last two bond sales well illustrate the relative usefulness of the Syndicate and the Popular methods.

RAILROAD RATE WARS—THEIR CAUSE AND CURE.

In the January number of the "Forum," just issued, Mr. John W. Midgley, the Chairman of the Western Freight Association, has an article under the above caption. Mr. Midgley's position and experience invest what he has to say with considerable interest, and at the same time the suggestions he makes for dealing with the situation are worth careful consideration.

Mr. Midgley traces the gradual development of the rate-making power, and shows how the evils and the difficulties under the present system have grown up. He points out that the original expectation, at the time of the introduction of the railroad, was that all persons who desired to run their wagons thereon would be at liberty to do so on payment of specified tolls. This idea was quickly seen to be impracticable. The fact that the companies monopolized the service led them to acquire for their directors, in their charters, the right to prescribe reasonable rates for the transportation of persons and property. Mr. Midgley calls the authority thus conveyed "an agreeable fiction," and says that however proper it may have been in its early recognition it has no place in modern practice, and has not had for many years. "The idea that the directors of railroad companies would calmly adjust the constantly varying schedules of fares and freight may have occurred to the original promoters of those enterprises as entirely practicable, but it has not proved so to their successors. They seldom meet oftener than quarterly, and then concern themselves chiefly with a review of the financial condition of the properties. And yet that depends mainly upon the maintenance of remunerative charges for the services performed."

Mr. Midgley also refers to the changes in railroad practice made necessary by the enactment of the Inter-State law. Before the passage of that law carriers did not modify their tariffs at intermediate stations when they became involved in rate reductions at more distant points. But now they are obliged to take cognizance of the prohibition contained in the 4th section of the act and which forbids charging a greater sum for a shorter than for a longer distance in the same direction, the shorter being included within the longer. The effect of that clause, if it be strictly regarded, is to compel railroads to reduce their intermediate rates to the level upon which, by the force of land or water competition, they may be obliged to carry their more remote traffic. While in theory the principle seems admirable, in practice it is destructive. To prove the unsoundness of the proposition that the collection of a larger sum for a shorter than for a longer distance cannot be justified, Mr. Midgley takes for illustration the case of Reno, Nev., on the Central Pacific, one of the

principal towns in that sparsely populated State. At San Francisco, 306 miles beyond, there is severe competition with ships, which have a free course of the Atlantic and Pacific oceans, in carrying trans-Continental traffic. The railroads in competition with the ocean not infrequently have to make rates which for the service across the Continent are unreasonably low. Should they, then, be held down to no greater charge from New York to Reno than their competition with the ocean may compel them to accept from New York to San Francisco. If a merchant at Reno patronizes the ocean or a rival railroad, neither can carry his goods to Reno, but must deliver them at San Francisco, and the merchant would still have to pay the charges of the Central Pacific from the coast to Reno. Obviously then the latter company would be justified in charging from the Atlantic seaboard to Reno direct the regular rates from New York to San Francisco, plus the local rate thence to Reno, and this is the rule usually followed.

As to the general rate situation, Mr. Midgley avers that "even an approximate maintenance of agreed rates between American railroads for a protracted period is practically unknown." This is certainly a very strong statement, and it carries additional weight because it is made by one having inside knowledge of the facts. It ought to impress all those interested in railroad properties with the urgent need of providing a remedy. The difficulty is chiefly in the fact that by the fifth section of the Inter-State law the device formerly employed by the railroads to ensure the maintenance of rates has been taken away and no substitute furnished. As to the old practice of allowing the inferior lines an acceptable share of the competitive traffic, or an equivalent in money—in other words, the entering into pooling arrangements—Mr. Midgley holds the same view as that entertained by all competent critics, namely that it was clearly justified from the standpoint of expediency. The stronger lines could afford to concede something to the weaker, as by so doing they secured protection for their larger interests. "It was in the nature of a payment for insurance against injuries which might otherwise be inflicted." Mr. Midgley also notes that from the earliest competition in England, "joint-purse arrangements," as they are called in that country, have continued, and have operated to prevent rate wars.

But our readers will be most interested in knowing what cures Mr. Midgley has to offer for the existing unfortunate condition of things. He summarizes his suggestions under five heads as follows:

1. Create a board of financiers which shall mark for disapproval properties that are unwisely administered.

2. Appoint a standing committee, consisting of one director from each prominent railroad system in a given territory, which shall promptly inquire into and locate the responsibility for any rate war that may occur.

3. Concentrate the rate-making authority on all competitive traffic in the hands of one man upon each system or railroad, and provide for its exclusive exercise by such officer.

4. Form comprehensive associations in each well-defined group for the proper consideration of questions of common interest, the several members to be adequately represented in the deliberations.

5. Provide for the prompt arbitration of all disagreements, as they arise, between any two or more parties to a traffic association.

The last three of these propositions do not call for any special comment, since the features suggested are quite generally embodied in the traffic associations so common all over the country, and whose usefulness is so generally recognized. The first two propositions are rather novel. As to the second of these, it may be questioned whether a standing committee composed of one director from each road would find it any easier to locate and fix rate disturbances than the existing freight and passenger committees, made up of representatives of the different roads. Their duties and functions would be somewhat different, and they would have the advantage to be derived from being charged with only that single piece of work. But would they not in other respects be beset with the same conditions and difficulties that are now encountered?

As regards the suggestion to have a board of financiers "mark for disapproval" companies whose managements encourage rate wars, the proposition wears an attractive look. Mr. Midgley's idea is to have the board of financiers consist of a syndicate of bankers representing investors in corporate properties. Such an organization would be in position to say to each company: "We will commend your securities so long as your property is managed conservatively; but if it should appear that your officers are acting recklessly or are willful disturbers, we will advise the public to let your stocks and bonds alone." A statement of that kind, Mr. Midgley well says, from men of authority in financial circles would speedily subdue the most belligerent and presumably compel the directors of the company concerned to give their immediate attention to the troubles, with the probable result that the disturbances would cease.

The power whose aid Mr. Midgley would here invoke has been silently exercised a good many times in the past at critical periods, and always effectively. In recent years the financial interest has become increasingly powerful with our railroads, and there can be no doubt that entirely apart from Mr. Midgley's suggestions the influence of that interest will continue to be exerted to prevent rate wars and to bring them to a speedy termination should they occur. As a matter of fact, however, investors are not so much in need of protection and safeguards against actual rate wars as against rate cutting. Wars have become comparatively infrequent of late years and those that have occurred have been of short duration. The change may be said to be due largely to the power of the banking interests. As soon as the difficulty reaches that stage, these interests step in and compel a halt. Moreover, even without the intervention of the bankers the railroad presidents themselves feel obliged to take measures to stop the conflict, fearing the consequences upon their properties of a violent warfare. We have a recent illustration in the case of the troubles last October among the Western roads. Hardly had the conflict developed into an actual and violent war before the executive officials came together and stopped the whole thing. Rate cutting, however, is a more insidious form of evil. It goes on silently and steadily, (while to outward appearances the roads may seem to be at peace), and no way has yet been discovered for dealing effectively with it.

The question then is, could the banking interest be brought into play as against this form of trouble, and is it desirable that it should be? In the event contemplated it would be necessary for that interest to take a hand in the thousand and one petty disputes that are coming up all the time as regards both passen-

gers and freight. Might not the effect be to weaken and dissipate the tremendous power now exerted by the great banking houses when the critical moment arrives. One of their sources of strength lies in the fact that they actively interfere only on rare occasions. In the contingency contemplated their action would have to be practically continuous—exerted indirectly, if not directly, to day, to morrow, and the next day—making them monitors as it were as regards all the traffic affairs of the roads. Would not the danger be that the cry of wolf raised too often might prove unavailing when there existed special need for giving heed to it. The question also occurs whether a board of financiers representing the banking interests, acting collectively and in a formal manner, would be as efficacious as the influence of the same banking concerns exerted separately and informally—silently, yet relentlessly. Upon the answers to these questions will depend the feasibility of Mr. Midgley's scheme.

RAILROAD DIVIDENDS FOR 1895.

In considering the dividend record of United States railroads for the year 1895, the fact which stands out prominently is that the year has not in this respect been altogether an unfavorable one. That is to say, it has not been marked merely by further reductions and suspensions. There have been some resumptions of dividend payments by roads which had previously passed off the dividend list, and some enlargement of the rate of distribution by several companies which had in the recent past been forced to contract. The further reductions and suspensions of course reflect the effects of the long period of depression and the poor grain crops of last year. The resumptions indicate that business depression has already in large measure given way to business revival and they also indicate the presence of greatly improved crops this year.

The changes of an unfavorable nature in the dividend list came largely in the early part of the year. One of the first of these was contained in the announcement that the Michigan Central and the Canada Southern would pay only the regular semi-annual dividends, and omit the extra dividends which had been paid in February of previous years. We may say, too, that the same plan has again been pursued in the dividends to be paid the coming February. The New York Chicago & St. Louis, another Vanderbilt road, omitted altogether the annual dividend on its 1st preferred stock. The New York Central came down from a basis of 5 per cent per annum to 4 per cent. The Baltimore & Ohio suspended dividends on its common shares, and the Canadian Pacific also passed off the dividend list, as did likewise the Terre Haute & Indianapolis. Rock Island has been paying only ½ per cent quarterly; the Milwaukee & St. Paul paid only 1 per cent on its common stock in April and October, against 2 per cent semi-annual previously; the Chicago & North Western on its common came down from 3 per cent semi-annual to 2½ in January 1895, and then was obliged further to reduce in July to only 1½ per cent, advancing again to 2½ in January 1896. The Central of New Jersey reduced from a basis of 1¾ per cent each quarter to 1½ per cent per quarter. The North-Eastern (S. C.), which had been paying 6 per cent per annum, omitted the dividend due in July, and the Belleville & Southern Illinois paid only 7½ per cent on its preferred stock in 1895, against 8 per cent in the years preceding. The West Jersey reduced from 3½ semi-annual to 3 per cent last March, but went back again to 3½ in September; the latter was a scrip dividend, but the scrip was almost immediately redeemable. The Huntingdon & Broad Top made a distribution on its common stock of 2 per cent in July 1895 against 2½ per cent previously. The Savannah Florida & Western will pay 2 per cent the coming January, against 4 per cent last January.

The roads that have enlarged their dividend distributions or resumed them are more numerous than might be supposed. We have already referred to the Chicago & North Western, and that is a very conspicuous case, showing at once the improved business conditions and the improved crop situation. The Denver & Rio Grande has declared 1 per cent on its preferred stock after an interregnum since 1893. The Minneapolis & St. Louis, having been reorganized, has begun dividends on both its first preferred and its second preferred shares. The Burlington Cedar Rapids and Northern, which has been making very striking gains in earnings latterly, will pay 2 per cent semi-annual the coming February, against 1½ per cent previously. The Central Pacific is paying ½ per cent semi-annua dividends, but this has no significance, being due simply to a special arrangement made with Mr. Huntington. The West Virginia Central & Pittsburg declared an annual dividend of 1½ per cent in March 1895, against 1 per cent in the years preceding. Fitchburg is up again to 4 per cent per annum. The West Jersey & Atlantic made a dividend in 1895 for the first time since 1890. The Western of Alabama paid 2 per cent in June after quite a long lapse. The Petersburg will pay 3½ per cent semi-annual on its common and preferred shares the coming January, against 3 per cent previously. The Richmond Fredericksburg & Potomac paid 7 per cent in 1895, against only 6½ in 1894. The Richmond & Petersburg, after having come down from a 7 per cent to a 6 per cent basis, is up again to 7 per cent.

When we come to arrange the roads in groups, the New England roads have quite a unique record. Their dividends are comparatively little changed even in periods of depression. Here is the statement for the leading roads for the last decade.

New England Roads	1886.	1887.	1888.	1889.	1890.	1891.	1892.	1893	1894.	1895.

* Two per cent of this in stock. † Paid in stock

In the case of the Western roads, the Alton keeps up its 8 per cent dividends and the preferred stocks of the leading companies are of course getting the same rates as before, but on the other hand the common stocks of such roads as the St. Paul, the Chicago & North-Western, the Rock Island and the Burlington & Quincy all show reductions. It should be said in explanation of our method of compiling the figures that we count the dividends in the years in which they are paid. The larger dividend recently declared on the Chicago & North Western therefore does not show in the 1895 results, because it is not payable until January 1896.

‡ Dividend for December 30 was paid January 3, and therefore fell in 1895, and dividend periods now are January and July.

With reference to the Southern roads, the list as far as the leading companies are concerned is so small that it is not worth while making a separate compilation of them. The Louisville & Nashville has not yet resumed, but the Nashville Chattanooga & St. Louis is now up to a four per cent basis. The Wilmington & Weldon has paid only three per cent for the last three years, against eight per cent previously. Among the anthracite coal roads, the Lackawanna and the Delaware & Hudson maintain seven per cent per annum, but the others are on a lower basis. Here is the list.

Anthracite Coal R'ds.	1886.	1887.	1888.	1889.	1890.	1891.	1892.	1893.	1894.	1895.

LISTINGS ON THE NEW YORK STOCK EXCHANGE IN 1895.

We add this week the figures for 1895 to our table of yearly listings on the New York Stock Exchange. They show that the total amount of bonds listed during the year was $257,275,400 and the total of stocks $143,373,970. In the case of both bonds and stocks it will be noticed that the total listings for 1895 are less than they have been for any year since 1886.

This is of course in a general way an indication that an unusually small amount of new capital has gone into the railroad systems and into great industrial enterprises of this country during the past year. The story told by these figures is rendered all the more forcible when we consider that the custom of giving securities representing such new capital the privileges of the New York Stock Exchange is becoming more general year by year. The following table shows the total listings of both stocks and bonds during each of the last eleven years, the classification being in accordance with principles explained in former articles.

LISTINGS ON NEW YORK STOCK EXCHANGE.

Bonds.	New issues.	Old issues newly listed.	Replacing old securities.	Total.
1895	$166,526,300	$15,587,000	$75,162,100	$257,275,400
1894	184,785,000	32,237,600	92,782,000	309,804,600
1893	139,272,000	42,178,000	107,353,400	288,803,400
1892	175,125,600	12,352,000	130,383,900	317,861,500
1891	191,397,700	16,187,000	80,061,000	287,645,700
1890	198,158,850	105,204,279	381,504,750	684,867,879
1889	206,864,000	6,050,000	176,806,00	389,720,000
1888	261,989,631	11,792,000	237,220,587	511,002,218
1887	180,386,000	16,304,000	146,787,321	343,477,321
1886	81,641,000	47,354,390	109,102,300	238,097,690
1885	103,844,000	27,700,000	65,715,000	197,259,000
Stocks.				
1895	$77,132,500	$35,385,200	$30,856,270	$143,373,970
1894	36,616,253	4,800,000	209,776,750	251,193,003
1893	93,744,161	48,974,000	55,627,100	198,245,261
1892	99,905,900	48,364,850	88,765,355	237,036,105
1891	96,540,754	1,650,000	90,724,200	188,914,954
1890	161,461,729	10,490,747	263,039,854	437,992,330
1889	69,721,717	9,936,00	179,952,057	259,649,774
1888	62,408,357	10,872,475	175,447,443	248,228,275
1887	98,726,791	32,643,426	138,683,333	270,053,550
1886	54,006,350	67,236,800	208,226,200	329,469,350
1885	17,783,116	3,700,000	35,430,000	56,913,116

NOTE—Applications for the listing of Trust Company receipts and of securities marked "assented" (if preparatory to reorganization) or of securities stamped "assumed" or "assessment paid"—the securities themselves having previously been listed—are not included in this table.

The falling off in the amount of listings since the high figures of 1890, as shown by the table above, is naturally accounted for by the financial and business depression which culminated with the silver panic of 1893. The result of these hard times has been to make our own investors unusually cautious and to produce extreme wariness of American securities on the part of foreign capital. Under such conditions it could not be expected that the listings of stocks and bonds representing *new* enterprises would be heavy. The same conditions have served to delay the reorganizations which have long been in process, and hence the listings of refunding issues also have been small in amount.

In comparing the amounts of the new issues listed in 1894 and 1895 with those of previous years it should be borne in mind that the 1895 total includes Government bonds for $62,315,000 and that in 1894 U. S. bonds to the amount of 100 millions were listed. By deducting the Government securities it will be seen that the new issues of railroad and industrial bonds listed this year were but $104,211,300 and in 1894 $84,785,000. It may be interesting, as an illustration of the conservative tendency developed by the experience of the last few years, to show the inverse relationship between the yearly listings of new railroad and industrial bond issues and the yearly sales of new municipal bonds. The latter of course yield the investor in general a lower rate of income, but in the average furnish a higher degree of security.

Years—	New Bond Issues Listed on N. Y. Stock Exchange.	Sales of New Municipal Bond Issues.
1895	*$104,211,300	†$110,475,829
1894	*84,785,000	117,167,225
1893	139,272,000	77,421,273
1892	175,125,600	83,823,515

* U. S. Government bonds omitted. † December sales estimated.

Another thought which is of interest in connection with the new issues listed in recent times is that a

much larger part of the year's total is represented by the securities of industrial companies than was formerly the case. Consequently the decline in the amount of railroad securities listed is proportionately greater than the decline in the totals, even after omitting the Government bonds. It is but natural that this decline should be reflected by the reports of new railroad construction throughout the country. We have just received the "Railroad Gazette's" estimate of new track laid this year, and it shows a total of only 1,428 miles, whereas in 1894 the total was 1,760 miles. These figures show a very decided falling off since 1887, when the new trackage added to our railroads was 12,983 miles. In 1888 there were 7,066 miles added; in each of the years 1889 and 1890 about 5½ thousand miles were reported; in 1891 and 1892 only about 4½ thousand miles were reported, and for 1893 the new construction had fallen as low as 2,828 miles.

In the following table all the important listings of railroad bonds for the year 1895 are given, with a brief statement of the purpose of each issue :

LISTINGS OF RAILROAD BONDS.

Company and title of loan.	*Amount.*	*Purpose of issue.*
Ann Arbor RR. 1st 4s	$7,000,000	Exch. for old T. A. A. & N. M. bonds, extens., betterments, etc.

Wilkesbarre & Eastern 1st M. 5s	3,000,000	Bds. of 1892 now list'd.
Total RR. bonds 12 months	$144,451,500	

It will be noticed that but few items in the foregoing list represent properties which have undergone reorganization. Had the recovery of confidence and a return to business activity been speedily accomplished after the panic of 1893, when so many of our railroads went into the hands of receivers, the amount of refunding issues listed this year would have undoubtedly been heavy. But the continued depression has made rehabilitations difficult and but few have been accomplished in time for the securities to appear this year on the Stock Exchange list. The roads which have undergone reorganization and had their new securities listed are the New England, Western New York & Pennsylvania, Minneapolis & St. Louis, Ann Arbor, South Carolina & Georgia, Rio Grande Southern, Detroit & Mackinac and Lehigh & New York.

Among the large listings of railroad bonds since our article of July 20 are the $7,000,000 of Ann Arbor first mortgage 4s. Of this amount $5,962,200 were issued in exchange for the old Toledo Ann Arbor & North Michigan first mortgage bonds and $1,037,800 for "betterments, terminals equipment and reorganization expenses" and the purchase of the Escanaba Frankfort & Southeastern. Illinois Central collateral trust 4s of 1953 are issuable for payment of Louisville New Orleans & Texas stock and bonds and for improving and extending that road. Of the $4,000,000 "Louisville & Nashville and Mobile & Montgomery" 4½ per cent bonds, $2,950,000 were issued to redeem prior 6 per cent Mobile & Montgomery bonds and $1,050,000 for improvements. The Louisville & Nashville RR. owns all the outstanding stock ($2,950,800) of the Mobile & Montgomery. The N. Y. New Haven & Hartford listed $3,287,500 more of its convertible debenture 4 per cent bonds and $9,500,000 additional stock issued for its four-tracking and other improvements now under way. The Detroit & Mackinac is a reorganization of the Detroit Bay City & Alpena, and the Lehigh & New York is a reorganization of the Southern Central.

The total listings of miscellaneous bonds, including Government securities, was $95,096,900, as follows:

LISTINGS OF MISCELLANEOUS BONDS.

Company and title of loan.	*Amount.*	*Purpose of issue.*
B'klyn Wharf & Ware'se 1st M. 5s	$16,000,000	Acq. water front, etc.
Edison Elec. Ill. of B'klyn 1st M. 5s	350,000	Part of pur. Cit'z. Elec. Ill. Co. & improv.

Western Union coll. trust	2,000	Refunding.
Total Miscellaneous State and U. S. bonds, 12 months	$95,096,900	

The heavy listings of the Brooklyn Wharf & Warehouse Co. were made during the first half of the year, the securities having been issued for the acquirement of the water front from above the Brooklyn Bridge to the Erie Basin. The Louisville & Jeffersonville Bridge 4s for $3,000,000 are guaranteed jointly, as to both principal and interest, by the Chesapeake & Ohio

and the "Big Four" companies. The mortgage is for $4,000,000, and $1,000,000 are to be used only for additional construction, etc.

LISTINGS OF STREET RAILWAY BONDS.

Company and title of loan—	Amount.	Purpose of issue.
Brooklyn City 1st M. 5s	$133,000	Improvements.
Comm. & 9th ave. (N. Y.) 1st M. 5s	3,00 ,000	Repres'g cost of road.
Lex. Ave. & Pavonia Ferry (N. Y.) — 1st M. 5s	5,000,000	Repres'g cost of road.

Western N. Y. & Pa. stock tr. ctfs.	5,000,000.	Representing new stk. held in voting trust.
Total RR. stocks, 12 months..	$35,591,420	

The New England RR. common stock for $19,104,000 was issued in exchange for old New York & New England common, and the Stock Exchange has authorized the listing of additional stock from time to time up to $20,000,000. Of the Ann Arbor preferred non-cumulative 5 per cent stock for $4,000,000, which was listed in November, $455,600 is for betterments, etc., the balance being issued to former bondholders of Toledo Ann Arbor & North Michigan Ry. Company. The proceeds of the $3,250,000 common stock listed are to be applied to betterments, etc., and expenses of reorganization.

The listings of miscellaneous stocks, bank stocks and street railway stocks during the last year have been as follows:

LISTINGS OF MISCELLANEOUS STOCKS.

Company and class of stock—	Amount.	Purpose of Loan.
American Tobacco common	$17,900,000	Old stock just listed.

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Dec. 14, 1895.

The Turkish question continues to weigh upon all departments of business. We are receiving official assurances in one form or another every few days that the concert of the Powers is complete. But full credence is not attached to the assurances, and the public ask with misgiving, Why is it, then, that the Sultan has been allowed to delay so long before issuing the Irade permitting the second guardships to enter the Bosphorus? And why, more particularly, is it that the ex-Grand Vizier, Said Pacha, had to take refuge at the British Embassy and to remain there several days? Day after day, almost hourly, emissaries from the Palace visited him and for a long time he obstinately refused to leave. At last, however, on receiving written assurances from the Sultan himself that his life and all his rights would be respected he has returned home. The incident has excited great interest all over Europe and has added much to the bewilderment of the public. Fresh reports are circulating that the massacre of the Armenians continues, that disturbances are spreading all through Asiatic Turkey, and now it is announced that a conflict has broken out between the Turkish troops

and the Christians in Crete. People fear, therefore, that the Turkish Empire will go to pieces while the Powers are considering what they ought to do; and such being the case every one is afraid to engage in new enterprise.

Meanwhile money continues to accumulate in London in unheard of amounts. The Bank of England holds now almost 44¾ millions sterling in coin and bullion; its reserve is nearly 36 millions sterling, and its total deposits are nearly 59 millions sterling. Naturallp, therefore, rates are exceedingly low, and are likely to go lower at the beginng of the new year.

The price of silver has declined to about 30d. an ounce; yet the India Council is selling its drafts wonderfully well. On Wednesday it got 1s. 1⅞d. per rupee.

The fortnightly settlement on the Stock Exchange here began on Thursday morning and will not end until Monday evening—a very unusual arrangement, and one that causes much inconvenience to both brokers and dealers. The settlement in mines began on Thursday, and it was found, as had been expected, that the bull account open had been further reduced, and that there was a considerable bear account in some stocks. The rates of carrying over were, therefore, generally easy. Three or four leading stocks, indeed, were scarce, and rates seldom exceeded 8 per cent, though in one or two cases they went to 10 and 15 per cent. Shortly after the opening there was a general decline in prices, mainly owing to the closing of the accounts of a large French and a large Austrian operator. It is believed also that some of the banking establishments in Paris and Vienna which took over securities from operators in difficulties some weeks ago sold a portion of their holdings. At this centre little disposition exists to buy; and as soon as it was found that Continental selling on a considerable scale was beginning once more, prices everywhere were put down.

The market here is perfectly sound. There are no difficulties of any kind to be arranged, and were it not for the embarrassments on the Continent prices would remain steady if they did not advance. But every time that selling from the Continent begins a nervous feeling spreads here. The political news added to the general anxiety, and especially the weakness in Paris was increased by the resignation of the Spanish Ministry, by the defeat of the Italians in Africa and by the report that an insurrection had broken out in Crete. The holdings of both Spanish and Italian securities in Paris are on an immense scale, and it is difficult to see how Spain, at all events, can meet all her engagements without help of some kind. The cost of the operations in Cuba is very great and it seems impossible to form a really strong Government. The prospect of further financial difficulties in Spain naturally alarms the Paris Bourse, which has suffered so heavily during the past couple of months. The Italian finances have been in a bad way likewise for years past, and if Italy is now to be involved in a costly struggle in Africa those finances must become still more embarrassed. Lastly, the reported movement of troops by Russia towards the Turkish Asiatic frontier and towards the Far East is adding to the general uneasiness.

In the American department business is quite at a standstill. The belief here is now general that nothing will be done by Congress to restore order to the currency, and therefore it is feared that gold shipments will continue and that another loan will become necessary. Moreover, it is understood that the reorganization plan of the Philadelphia & Reading Railroad Company is to be published here early next week, and that the assessment upon the income bonds and the shares will amount to 20 per cent of the nominal value. The news has made a very bad impression. Holders of both incomes and shares complain that the time for asking them to pay a heavy assessment is most inopportune, and that they had a right to expect more favorable treatment. And the shareholders in particular feel aggrieved because it is said that while called upon to pay $10 they will get no equivalent.

Lastly, the defeat of the Debt Unification Bill in the Argentine Senate has come as a disappointment to the holders of Argentine Provincial bonds. It is believed here that both the Unification Bill and the Pellegrini counter proposal will be dropped. If so, the Rothschild arrangement will be carried out, and the Argentine National government will resume full payment of the interest after a while. That, of course, is favorable to the holders of National securities. But without some assistance from the National Government there seems little chance that the provincial governments will settle with their creditors, and therefore the prospects for provincial bondholders is exceedingly bad.

The hopes of an early settlement of the shipbuilding dispute still continue, and trade is steadily improving, as the Board of Trade returns noticed last week amply prove. The most signal improvement still is in the woollen trade. The series of auctions have ended this week, and the closing sales were among the best of all. Prices for the superior qualities of wools were rather over the quotations at the close of the September series. The worser qualities were in less demand, and up to the end there was good buying for the United States and the Continent, as well as on home account.

The rates for money have been as follows:

Messrs. Pixley & Abell write as follows under date of December 18:

Gold.—A total of £626,000 has been bought by the Bank since our last, there being no outside demand. £390,000 has been taken for export, of which £200,000 has gone to Capetown and £270,000 to South America. Arrivals: New York, £400,000; Capetown, £112,000; Brazil, £11,000. Total, £523,000. Shipments to Bombay, £16,500.

Silver.—With the China Exchange falling away daily, and the Indian inquiry at an end, silver has fallen from 30⅝d. to 30d., to-day's rate, at which there are some signs of recovery. Arrivals from New York, £101,000. Shipments: Bombay, £38,000; Calcutta, £25,000.

Mexican Dollars.—The nearest rate of these coin is 29¼d., nominal. Arrivals from New York, £6,000. Shipments to Penang, £22,100.

The quotations for bullion are reported as follows:

Commercial and Miscellaneous News

National Banks.—The following information regarding national banks is from the Treasury Department:

NATIONAL BANKS ORGANIZED.

5,025—The First National Bank of Kane, Pennsylvania. Capital, $60,000. G.W. Campbell, President; Francis A. Lyte, Cashier.

5,026—The Mount Kisco National Bank, Mount Kisco, New York. Capital, $50,000. ——, President; W. H. Moore, Cashier.

5,027—The First National Bank of Sistersville, West Virginia. Capital, $70,000; ——, President; Stephen G. Pyle, Cashier.

5,028—The Farmers' and Producers' National Bank of Sistersville, West Virginia. Capital, $100,000. George B. West, President; ——, Cashier.

CORPORATE EXISTENCE EXTENDED.

2,309—The Eufaula National Bank, Eufaula, Ala., until Nov. 27, 1915.

2,311—The Camden National Bank, Camden, Me., until Nov. 29, 1915.

2,310—The Stockholders' National Bank of Pueblo, Colorado, until December 7, 1915.

2,313—The First National Bank of Kirkwood, Illinois, until December 6, 1915.

2,317—The Centennial National Bank of Philadelphia, Pennsylvania, until Nov. 27, 1915.

2,315—The National LaFayette Bank of Cincinnati, Ohio, until December 13, 1915.

2,316—The Rochester National Bank, Rochester, Minnesota, until December 20, 1915.

LIQUIDATION.

3,454—The First National Bank of Kirwin, Kansas, has gone into voluntary liquidation by resolution of its stockholders, dated Nov. 20, to take effect Nov. 21, 1895.

4,407—The First National Bank of Aberdeen, Washington, has gone into voluntary liquidation by resolution of its stockholders, dated Oct. 12, 1895.

4,485—The New Mexico National Bank of Socorro, New Mexico, has gone into voluntary liquidation by resolution of its stockholders, dated Nov. 16, 1895.

4,540—The Bonham National Bank, Bonham, Tex., has gone into voluntary liquidation by resolution of its stockholders, dated November 18, to take effect November 20, 1895.

4,674—The Farmers' National Bank of Muncie, Indiana, has gone into voluntary liquidation by unanimous consent of its stockholders, to take effect November 26, 1895.

INSOLVENT.

2,879—The First National Bank of Wellington, Kansas, is insolvent and was on October 25, 1895, placed in the hands of J. Sam Brown, receiver.

4,023—The Columbia National Bank of Tacoma, Washington, is insolvent, and was on October 30, 1895, placed in the hands of Charles Clary, receiver.

4,171—The Bennett National Bank of New Whatcom, Washington, is insolvent, and was on November 11, 1895, placed in the hands of Simon R. Flynn, Receiver.

3,469—The First National Bank of Orlando, Florida, is insolvent and was, on Nov. 29, 1895, placed in the hands of William B. Jackson, Receiver.

1,630—The Chattahoochee National Bank of Columbus, Georgia, is insolvent and was on December 7, 1895, placed in the hands of John R. Flournoy, Receiver.

3,976—The Bellingham Bay National Bank of New Whatcom, Washington, is insolvent and was on December 5, 1895, placed in the hands of Joseph B. Dawson, Receiver.

3,571—The German National Bank of Lincoln, Nebraska, is insolvent, and was on December 19, 1895, placed in the hands of K. K. Hayden, Receiver.

AUTHORIZED TO RESUME BUSINESS.

4,171—The Bennett National Bank of New Whatcom, Washington, December 20, 1895.

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods December 19 and for the week ending for general merchandise December 20; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods	$3,101,340	$1,158,514	$3,071,980	$2,275,118
Gen'l mer'dise.	9,190,252	7,301,051	8,635,855	5,311,619
Total	$12,291,592	$8,459,565	$11,707,835	$7,586,737
Since Jan. 1.				
Dry Goods	$123,435,037	$117,180,586	$88,269,192	$141,630,484
Gen'l mer'dise.	440,993,560	412,455,577	344,534,652	365,880,708
Total 51 weeks	$566,428,597	$529,636,163	$432,803,844	$507,511,192

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending December 24 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893	1894	1895
For the week	$7,235,354	$6,524,160	$5,577,598	$6,822,000
Prev. reported	376,630,469	364,066,576	348,248,166	335,163,663
Total 51 weeks	$383,865,823	$370,590,736	$353,825,764	$341,985,663

The following table shows the exports and imports of specie at the port of New York for the week ending December 21 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	$2,619,405	$57,518,286	.....	$15,836,621
France	.....	13,808,082	.....	5,761,918
Germany	3,721,437	13,073,523	$417,613	2,066,466
West Indies	477,557	9,955,381	3,050	1,048,664
Mexico	.....	.....	1,938	58,790
South America	310,000	2,324,902	15,136	827,347
All other countries	.....	261,488	10	92,226
Total 1895	$7,128,399	$96,941,682	$437,747	$25,692,022
Total 1894	3,870,300	94,271,193	51,854	16,532,878
Total 1893	75,500	72,813,319	179,863	62,110,377

Silver	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	$822,150	$36,237,833	.....	$55,757
France	.....	283,000	.....	5,321
Germany	4,245	20,387	.....	7,120
West Indies	.....	196,061	$10,331	398,320
Mexico	.....	399	7,531	489,138
South America	123,132	1,131,977	157	789,782
All other countries	.....	33,759	2,508	25,960
Total 1895	$949,527	$37,903,416	$20,527	$1,771,398
Total 1894	908,850	33,283,172	16,327	1,688,669
Total 1893	1,083,205	32,637,398	27,965	3,179,398

Of the above imports during the week in 1895 $8,438 were American gold coin and $137 American silver coin. Of the exports during the same time $1,490,472 were American gold coin.

Railroad Construction.—*Total for 1895.*—The *Railroad Gazette* publishes the table below given of new construction in the year 1895. The total for the year is about 300 miles less than in 1894, being 1,428 miles. This, the *Gazette* says, will no doubt be increased by later returns from companies which are still laying track; but it shows that railroad extension is no longer a very important factor in the industrial concern of the nation. The new track laid by States was as follows:

	Miles.		Miles.
Alabama	22·5	Missouri	50·0
Arizona	65·3	Montana	5·4
Arkansas	38·0	New Jersey	4·6
California	65·5	New York	61·6
Colorado	33·9	North Carolina	44·3
Florida	38·5	Ohio	72·0
Georgia	67·7	Oklahoma	48·0
Illinois	41·8	Pennsylvania	83·5
Indiana	14·9	South Carolina	1·0
Indian Ter.	144·0	Texas	186·5
Iowa	11·1	Utah	4·0
Kansas	18·0	Virginia	14·0
Louisiana	17·0	Washington	2·6
Maine	82·0	West Virginia	68·5
Maryland	2·0	Wisconsin	35·8
Michigan	49·5		
Minnesota	23 9		
Mississippi	10·9	Total United States	1,428·4

—V. 91, p. 3.

—Mr. Wesley Farrington, No. 203 Broadway, New York, for over twenty years in the accounting department of the Erie Railroad Company, and for ten years of that time the roads' auditor, will make periodical or special investigations of books and accounts. Mr. Farrington, while making a specialty of railroad accounting in which line he has been so long occupied, will undertake examinations and plan systems of accounting for any line of business.

—Messrs. N. W. Harris & Co. advertise a new list of high-grade street railway bonds, which will be mailed on request.

—The Chase National Bank publishes its report of condition on Dec. 13 in to-day's Chronicle.

—A. N. Chandler & Co., with offices on The Bourse, Philadelphia, have begun the publication of an interesting sheet devoted to the interests of street railways. It is entitled the Financial Bulletin.

Breadstuffs Figures Brought From Page 1162.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Dec. 21, 1895, and since August 1, for each of the last three years:

WALL STREET, FRIDAY, DEC. 27, 1895.—5 P. M.

The Money Market and Financial Situation.—Business in Wall Street is gradually getting back to normal conditions and a more hopeful feeling prevails in financial circles. The action taken by the Clearing-House Association on Monday, providing for the issuance of Clearing-House loan certificates was a strong factor in producing the change in sentiment which took place early in the week. The measure was entirely a precautionary one, looking to the possibilities of the future rather than to the needs of the present, and no certificates have been applied for. This had some effect on the London market, and with other influences helped to stop the rush to sell American securities, which was the chief feature of last week.

It is generally understood that another issue of bonds is being arranged for by the Government officials, and is to be maintained. The foreign exchange market has been much less disturbed, and gold exports are smaller than last week's business gave promise of. The money market has been firm, with lenders disposed to hold rates well up in anticipation of the bond issue, which will naturally absorb a considerable amount of hitherto idle funds.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 3 to 50 per cent. To-day's rates on call were 4 to 9 per cent. Prime commercial paper is nominally 6 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £944,214, and the percentage of reserve to liabilities was 58·83, against 60·09 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 1,175,000 francs in gold and an increase of 450,000 francs in silver.

The New York City Clearing-House banks in their statement of Dec. 21 showed a decrease in the reserve held of $2,743,700 and a surplus over the required reserve of $17,088,800, against $18,391,325 the previous week.

	1895. Dec. 21.	Differen's from Prev. week.	1894. Dec. 22.	1893. Dec. 23.

Foreign Exchange.—The foreign exchange market has been firm on a limited supply of commercial bills and a fair demand from remitters. Rates were abnormally high on Tuesday, when some difficulty was experienced in obtaining large legal tenders to exchange for gold at the Sub-Treasury. Gold exports for the week amount to $3,700,000, of which $2,000,000 will be shipped to-morrow.

To-day's actual rates of exchange were as follows: Banker's sixty days' sterling, 4 87¾@4 88; demand, 4 89¼@4 89½; cables, 4 89¾@4 90¼. Posted rates of leading bankers are:

December 27.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88½@4 89½	4 90½@4 91
Prime commercial	4 87½@4 87¾	———
Documentary commercial	4 86¾@4 87¼	———
Paris bankers' (francs)	5 17⅛@5 16⅞	5 15⅝@5 15
Amsterdam (guilders) bankers	40 1/16@40 3/16	40 5/16@40 3/8
Frankfort or Bremen (reichmarks) b'kers'	95 1/16@95 3/16	95 3/8@95 13/16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 1-16 discount, selling par; Charleston, buying par, selling ⅛ premium; New Orleans, bank, par; commercial 35c. per $1,000 discount; Chicago, 90c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $50,000 5s coup. at 112 to 112½, $1,000 5s. reg. at 113½, and $10.000 4s. reg. at 110. Following are closing quotations:

* This is the price bid at the morning board, no *sale* was made.

State and Railroad Bonds.—Sales of State bonds at the Board include $49,000 Virginia fund., debt 2-3s of 1991 at 60 to 61½; $3,500 Alabama, Class A, at 108½; $1,000 North Carolina con. 4s at 105¾; $3,000 Tenn. settlement 3s at 89, and $11,000 Virginia 6s def'd trust rects., stamped, at 5½.

The railway bond market has recovered somewhat from the depression which was noted last week. Prices have generally advanced from the lowest points reached during the recent financial disturbance, but the progress upward is naturally slow. The most noteworthy gains have been made by the bonds which scored the heaviest declines under the liquidating movement, among which are Ches. & Ohio gen. 4½s, Mo. Kan. & Texas 2ds, Southern Ry. 5s and Wis. Cent. 1sts, which have advanced from 2½ to 6 points.

The most active issues include the Atchisons, Ches. & Ohio, Mo. Kan. & Texas, Or. S. L. 6s, O. S. L. & U. N. con. rects., Reading, Southern Ry., Tex. & Pac., Union Pac., Wabash and Wis. Central bonds.

Railroad and Miscellaneous Stocks.—The panic which last week caused a large proportion of the active railway list to sell at the lowest prices of the year had spent its force when the week closed. The opening on Monday was in most cases from 1 to 5 points higher than Saturday's closing prices. The recovery was rapid and general on Monday and Tuesday, but was checked in some degree on Thursday by sales to realize profits on the part of some who had been purchasers on Friday and Saturday. So that while the tone of the market continued strong there were some reactions from the highest figures of the day.

The market to-day has been weak and closes unsettled under liberal selling for foreign account, a decline of 6 points in Baltimore & Ohio stock on reports of the financial condition of the company and a sharp decline in Western Union. The following table shows the highest and lowest prices of last week and the closing prices to-day of some of the most active and prominent shares.

	High.	Low.	Clos'g		High.	Low.	Clos'g.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of December 21, 1895. The next will appear in the issue of January 25, 1896.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.
† Earnings increased largely on account of G. A. R. encampment in Louisville.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of December 21, 1895. The next will appear in the issue of Saturday, January 25, 1896.

Georgia Southern & Florida Railway.

(Report for the year ending June 30, 1895.)

President William Checkley Shaw says in part:

General Results—The company was incorporated on May 22, 1895, but the management deem it of interest to submit the figures taken from the receiver's books showing the gross and net earnings for each of the two years ended June 30, 1895 and 1894.

The gain of $47,710 in net earnings was the result of an increase in gross earnings of $12,506 and decrease in every item of expenses of $35,303. During the years 1894 and 1895 the receiver spent extraordinary sums in improving the road-bed, filling trestles, repairing bridges and culverts and in rebuilding the equipment. To this fact is due the noticeable reduction in expenses in the quarter ending Sept. 30, 1895, the net earnings for that quarter being $83,632, against $42,439 in 1894, while the gross earnings remained practically the same.

Equipment—The equipment on June 30, 1895, comprised 29 locomotives, 17 passenger cars, 961 freight cars, 14 road service cars, ⅔ of an officer's car (the remaining one-third belonging to the Macon & Atlantic RR.)

Macon & Birmingham RR.—The company is operating the Macon & Birmingham RR. upon the same terms for division of earnings and expenses as were in effect when the two properties were operated by the same receiver.

New Bonds—Of the first mortgage 50 year 5 per cent gold bonds for $4,000,000, there are outstanding $3,584,000, leaving a balance of $416,000, which are only to be issued in settlement of claims existing at the time of the reorganization; the extinguishment of car trust notes [aggregating $109,396 Sept. 30, 1895,] as they mature, and permanent improvements and additions to the mortgaged property. The company has no floating debt.

Physical Condition—The general physical condition of the property is good, and with a harmonious management, aided by efficient and faithful employes, the company's affairs should prosper in the future.

Traffic—Of the total traffic for the year about 45½ per cent was from lumber and 10 per cent naval stores. The revenue per ton per mile was 1·46 cents and per passenger 2·5 cents.—

Statistics.—The earnings and expenses for two years were as follows:

	1894-5.	1893-4.
Earnings—		
Freight	$551,937	$523,368
Passenger	211,709	227,240
Mail, express and miscellaneous	79,912	80,443
Total	$843,558	$831,051
Expenses—		
Maintenance of way	196,683	199,742
Maintenance of equipment	122,691	138,145
Conducting transportation	265,726	273,708
General	29,863	40,571
Total	$614,962	$650,166
Net earnings	$228,596	$180,885

—V. 61, p. 871.

GENERAL INVESTMENT NEWS.

Reorganization Plans, Etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons,

and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.* for default; *Com.* for committee.

American Spirits Manufacturing—Distilling & Cattle Feeding.—*Description of New Bonds.*—The American Spirits Manufacturing Company, successor to the old Distilling & Cattle Feeding Co., has filed a mortgage to secure the $2,000,000 of bonds authorized by the reorganization plan. The Manhattan Trust Company of New York is named as trustee. The bonds are 6 per cents, $1,000 each, and are payable twenty years from Sept. 1, 1895. The mortgage provides that the mortgagors shall file with the trustee a statement each year, showing its receipts and expenditures and net earnings. This statement is to be sworn to by the President and Treasurer of the company, and 5 per cent of the net earnings are to be paid to the trustee, who is to devote the amounts when in excess of $20,000 to the redemption of outstanding bonds, the bonds being subject to call for this purpose. The document covers the following-named plants, which are owned: Shufeldt, Star & Crescent, Central, St. Paul, Riverside, Hamburg, Northern, Manhattan, Monarch, Great Western, Woolner, Peoria, Willow Springs, Consolidated, Maddux-Hibbart, Wabash and Latonia. Of the $2,000,000 bonds, $1,400,000 are to be given to the stockholders of the old company for the assessment of $4 a share. The other $600,000 of bonds will be placed in the Treasury as a reserve force.

Prospects.—President S. M. Rice makes to the New York *Times* the following rose-colored statement:

The receiver has left in his hands upwards of $1,000,000 of cash and cash assets, which are shortly to be turned over to the new company. The reorganization is almost completed, and the reorganization committee is preparing to issue the new securities. The new mortgage of $2,000,000, which was recorded last week, will be the first charge on the property. The real estate in Chicago alone is worth more than that sum, and the mortgage covers the entire properties of the new company.

The business of the new company is now on a firm basis, and its earning capacity is being fully developed. There is absolute harmony in the trade, and all distilling and distributing interests are working together. The distilling business has never been in so satisfactory a condition since the early days of the Western Export Association, in 1884. All distillers, equally with ourselves, are making good profits. Owing to the very low price of corn, the company is making a much larger profit than I expected, and there can be no reasonable doubt that the full dividend will be earned for the preferred stock, besides a handsome surplus for the common.

"We have just purchased, on highly favorable terms, the Woolner Distillery lands, the most valuable in Peoria as I deemed it advisable that the company should own this fee absolutely."—V. 61, p. 792.

Atchison System—Atlantic & Pacific RR.—*Resignation of Receivers.*—Chairman Aldace F. Walker, of the Atchison Board of Directors, says: "After the sale of the Atchison, Col. McCook and myself tendered our resignations as receivers of the Atlantic & Pacific Railroad. Our resignations have not been confirmed, awaiting the appointment of our successors."—V. 61, p. 1106.

Atchison System—Cerrillos Coal RR.—*Coupon Payment.*—The coupon due Jan. 1 on the first mortgage bonds of the Cerrillos Coal Railroad Company will be paid at the office of the company, Room 75, No. 120 Broadway.—V. 61, p. 1106.

Baltimore & Ohio RR.—*Funding Floating Debt.*—A newspaper rumor that some sort of an agreement with the Southern Railway was pending has led Mr. Alexander Shaw, Chairman of the finance committee of the Baltimore & Ohio, to give the Baltimore *Sun* the following interesting facts:

"The two subjects which are giving the new board of directors the most to think about are the floating debt and the future management of the property. We will have to fund the former, and as to the latter there is a difference of opinion among the directors. Some favor the English method of placing the management in the hands of a board, with a chairman and various committees, each of which will have charge of one of the branches of management. Others want to put it all in the hands of some broad man and let him manage the whole thing. These questions will have to be settled before we are ready to select a successor to Mr. Mayer.

"It may be stated positively that no man has as yet been agreed upon as Mr Mayer's successor. I also deny specifically that the January interest on the bonds of the company will be passed; that a receivership, either friendly or otherwise, is contemplated; that the Baltimore & Ohio and the Southern Railway systems are to be consolidated; and the statements that there has been an irregularity in the manner of keeping the books of the company."—V. 61, p. 1105.

Rumors Denied.—Regarding the rumors current yesterday that the company was selling its Western Union stock and was proposing to issue preferred stock of its own to a considerable amount, the New York News Bureau quotes Vice-President Thomas M. King as saying:

"You may unqualifiedly deny the rumor that the Baltimore & Ohio RR. is selling its holdings of Western Union Telegraph Company stock; not a single share of the stock has been disposed of; also the reports of an impending default on the part of the Baltimore & Ohio Railroad or any of its affiliated lines. The money to meet all interest charges due January 1, 1896, for all lines has been provided for and is now in bank. Finally, the report that the management has discussed the issue of from $10,000,000 to $15,000,000 of new preferred stock is entirely without foundation in fact."—V. 61, p. 1106.

Buffalo Traction—*Franchise Granted.*—This company has been granted a franchise by the Buffalo aldermen to run cars on certain designated streets. Four-cent fares will be charged, except in the case of the transfers, when five cents will be the rate. A transfer system, it is said, will be arranged between the new and old street railway companies.—V. 61, p. 1013.

Cape Fear & Yadkin Valley Ry.—Southern Ry.—Seaboard Air Line—*Bondholders' Meeting.*—A meeting of the holders of certificates representing Cape Fear & Yad. Val. bonds deposited under the agreement appointing the Baltimore Committee (Wm. H Blackford, Chairman,) was held in Baltimore on Monday, to consider the plan of reorganization dated Oct. 31, 1895. This plan aims to harmonize the interests of all the bonds, A, B and C, and to preserve the integrity of the system as distinguished from the plan of the New York Committee (C. Adolphe Low, Chairman), which is primarily in the interest of the A bonds. At the meeting the New York Committee voted a majority of the "A" certificates against the plan, which was accordingly declared not adopted, the agreement requiring the assent of a majority of each class of certificates to render the plan operative. The vote in detail *for* the Baltimore plan was: A's 394; B's 497, C's 648. The vote *against* the plan was: A's 593, B's 80, C's 15.

Upon the announcement of the result Mr. John K. Cowen, counsel for the Baltimore Committee, requested all those assenting to the Baltimore plan, and who had not already signed the agreement, to do so at once, as the Baltimore Committee proposed to push its plan in court, regardless of the non-acquiescence of "A" interests. An advertisement stating fully the position of the Baltimore Committee will be found in another column of to-day's CHRONICLE.

The Two Plans Compared.—The plan of the New York committee provides for foreclosure sale of the division covered by the A bonds, and a lease thereof for 100 years to the Southern Railway Company at a rental sufficient to pay 4 per cent interest on $1,500,000 of new 100-year gold bonds, as also all taxes and corporate expenses—the Southern Company to own the entire common stock of the new company, and to pay as additional consideration $225,000 of its own preferred stock. For the A division at foreclosure sale the New York committee will, if necessary, bid at least the sum of $1,050,000. The New York plan further provides that—

"In case the Southern Railway Company should become the owner of the seventy-five miles or thereabouts of said Cape Fear & Yadkin Valley Railroad upon which the "B" bonds of the latter company are a first lien, it is agreed that if the Southern Railway Company so elect the said seventy-five miles of said railway may be conveyed to said new railroad corporation at the same time with the said "A" division, and in such case $450,000 additional of said first mortgage bonds shall be created and issued to the Southern Railway Company as the consideration therefor, making the total amount of first mortgage bonds to be issued by said new corporation in that event $1,950,000, par value thereof, all of such bonds to be equally secured by a first mortgage covering all the property of said new railroad company, including both the property purchased by the committee at said foreclosure sale and the "B" division of said Cape Fear & Yadkin Valley Railroad transferred to such new corporation by the Southern Railway Company."

In like manner if the division covered by the "C" bonds is conveyed to the new company $400,000 of the new bonds may be issued thereon, the total bonds in that case to be $2,350,000, all equally secured on the entire property, and all to have interest payable as rental under the lease to the Southern Railway Company.

Until and including January 10, 1896, the New York Committee offers to purchase the B and C bonds with all unpaid coupons attached at the price of 50 cents on the dollar of the

par value of the B bonds and 40 cents on the dollar of the par value of the C bonds. Of the $1,500,000 of "A" bonds those assenting will each receive apparently $1,000 first 4s of the new company and $150 in Southern Railway preferred stock (out of the $225,000).

The Baltimore plan, it will be remembered, provides for the issue of $500,000 prior lien bonds for improvements, reorganization purposes, etc., and of $3,400,000 general mortgage 100-year bonds bearing 3 per cent interest for four years and 4 per cent thereafter—series A to receive $1,000 in the new generals and $400 in first preferred stock and $200 in common stock. Series B and C bonds alike to receive $750 in new generals and $600 in first preferred and $200 in common stock. The plan of the Baltimore Committee was given at considerable length in the CHRONICLE of Nov. 9, 1895, page 830. Mr. Brokaw at the meeting submitted a proposition of President R Curzon Hoffman, of the Seaboard Air Line, to guarantee the interest on all the bonds issued under this plan and to give the net earnings over to a dividend on the preferred stock.

The Baltimore Committee says:

If bondholders will come forward at once and sign the agreement, the committee feel sure that they can preserve the property and restore its value. There can be no reasonable doubt but that this road can easily earn the fixed charges under the plan proposed by the Baltimore Committee, and after some necessary improvements in its condition pay dividends on its preferred stock, as the net earnings of the road in the past six months demonstrate.—V. 61, p. 966.

Cedar Falls & Minnesota RR.—Illinois Central RR.—*Payment of Back Interest.*—Notice is given that in pursuance of an order of the Court the Cedar Falls & Minnesota will redeem the coupons which matured from 1888 to 1894, inclusive, on the first mortgage 7 per cent construction bonds. The payment will be made at the agency of the company, 214 Broadway, and will include interest from the respective due dates to Jan. 1, 1896, after which date interest will cease to accrue. The coupon due Jan. 1, 1895, will be paid to the amount of three-sevenths of its face value and returned to its owner. Further particulars may be found in the advertisement.

The decision to distribute the back interest which has been paid, as it matured, into Court, and which now aggregates some $500,000, is by the assent of both sides in the litigation over the validity of the lease. The status of the suit which is pending on an appeal in the U. S. Supreme Court, it is said, is not changed by this action. A considerable portion of the bonds is held by the Illinois Central, having been exchanged for its Western Lines bonds.—V. 60, p. 794.

Central Pacific RR.—*Listing.*—Western Pacific first mortgage 6s for $111,000 were listed this week on the New York Stock Exchange, replacing the same amount of bonds of 1865 which matured and were paid Dec. 1. Series A bonds for $1,970,000 are now outstanding.—V. 61, p. 751.

Chattanooga Electric Ry.—*Sale Postponed.*—The foreclosure sale of this railway, which was to take place December 23, was postponed to February 24, 1896, on petition of the second mortgage bondholders, on the plea that the large interests involved would be jeopardized by a sale during the existing financial flurry. George M. Meade of Brooklyn, a holder of 104 bonds, protested that such action was unwarranted, and declared that he was ready to purchase over all bidders.—V. 61, p. 793.

Chattanooga Rome & Columbus RR.—*Reorganization Notice.*—Simon Borg & Co., 20 Nassau Street, give notice that bonds not deposited under the agreement on or before January 1, 1896, with the Central Trust Company of New York will be received only upon payment of a penalty of one per cent.—V. 61, p. 793.

Chesapeake Ohio & Southwestern RR.—*Coupon Payment.*—Judge Furlong, at Nashville, has authorized the receivers to issue certificates to meet the payment of interest on the first mortgage bonds, due August 1, 1895. The action is taken on the application of the second mortgage bondholders to avoid a six months' default. The earnings would have sufficed for the payment had they not been required by the receivers to meet prior claims.—V. 60, p. 1145.

Chicago Gas.—*Decision.*—Judge Bischoff yesterday refused to make permanent the injunction to restrain the committee from carrying out the proposed plan of reorganization.—V. 61, p. 1107.

Chicago & North Western RR.—Chicago Milwaukee & St. Paul Ry.—*Prospects.*—The New York *Evening Post* publishes the following interviews with Presidents Hughitt and Miller:

In discussing the situation, Marvin Hughitt, of the North Western, said: "We are not doing the business we expected, but I do not apprehend continued dullness. Farmers will be shipping grain early in the coming year, and more freely when better prices can be obtained, and we shall undoubtedly do our share of the business."

Roswell Miller, President of the St. Paul, sized up the situation thus: "Business is rather quiet but the outlook promises well, and I anticipate a general improvement with better prices and an increase in receipts. I do not anticipate any serious trouble in the money market, as the country, taken as a whole, is on too sound a footing to receive any great setback. I can say, however, that the Chicago Milwaukee & St. Paul was never in better shape, and I do not feel that messages to Congress will affect it any."—V. 61, p. 198, 427.

Chicago & Southside Rapid Transit RR.—*Extension Mortgage Committee.*—A protective committee to look out for the interests of the holders of extension bonds consists of Silas B. Cobb, Sidney A. Kent, Edwin L. Lobdell and Ebenezer Buckingham. Lobdell, Farwell & Co. are receiving the signatures of extension bondholders to an agreement which is somewhat similar to the one which first mortgage bondholders are to sign.—V. 61, p. 1106.

Cincinnati Jackson & Mackinaw Ry.—*Foreclosure.*—At Cincinnati, Ohio, Dec 23, Judge Taft, in the United States Circuit Court ordered the consolidation of the cases of Nelson Robinson vs. the Railway and that of the Central Trust Company of New York vs. the same road, brought by Walter B. Ritchie for Senator Brice, under the one head of the latter title. Frank B. Drake, receiver under the former suit, was made receiver under the consolidated cases.—V. 61, p. 1103.

Cincinnati Street Ry.—*New Stock.*—The directors have resolved to allow the stockholders the privilege of subscribing for $250,000 new stock at par the latter part of January, 1896. This is a portion of the $1,000,000 issue authorized in July last, of which $500,000 has already been sold.—V. 61, p. 363.

Cleveland Canton & Southern RR.—*Reorganization.*—Referring to the announcement made in our last issue of a proposition to form a new first mortgage bondholders committee, the Corbin Committee of first mortgage bondholders states that it represents a majority of the bonds and if the July, 1895, coupon is not paid on January 1st that they will at once move for a change in the receivership and commence foreclosure proceedings. The committee advertises for further deposits of bonds with the Mercantile Trust. It is understood that the junior security holders who have provided the money for the payment of two coupons do not propose to continue the payments, in which case the bonds will on January 1 be six months in default and foreclosure proceedings can be instituted. The Corbin committee is understood to represent about $1,200,000 of the Cleveland & Canton firsts.

New First Mortgage Committee.—A new committee consisting of Clarence H. Wildes, 33 Wall Street; Henry S. Kerr, of Redmond, Kerr & Co., 41 Wall Street; Frederick Strauss, with J. & W. Seligman & Co., 21 Broad Street, gives notice that in response to circular of Dec. 18th, 1895, a large number of bondholders have requested them to act in their interests. Deposits of *Cleveland & Canton firsts* may be made at once with the Central Trust Company, 54 Wall Street, in accordance with the terms of a bondholders' agreement.

Coshocton & Southern Foreclosure.—Yesterday at Columbus, Ohio, the International Trust Company, as mortgage trustee, instituted a suit for the foreclosure of the Coshocton & Southern mortgage for $600,000, and for the appointment of a receiver in place of John W. Wardwell.—V. 61, p. 1106.

Columbus & Hocking Coal & Iron.—*Reorganization.*—The Protective Stockholders Committee, of which Mr. John Bloodgood is the Chairman, has formulated the following proposition: The bondholders to fund the coupon past due, as also the next coupon falling due, into preferred stock. Interest on the bonds to be reduced to 5 per cent, additional security to be given to bondholders. The stockholders to be assessed $3 per share, and be given preferred stock for the same. No action has been taken on the proposition by the bondholders.—V. 61, p. 830.

Consolidated, Central, Duquesne and Pittsburg Traction Cos., Pittsburg.—*Leases Ratified.*—On Monday, Dec. 23, the stockholders of the Central, Duquesne and Pittsburg Traction companies voted by large majorities to lease their respective properties for 950 years to the Consolidated Traction Company. Possession, it is said, will be taken by the lessee April 1, 1896. As stated last week, the meeting of the Pittsburg Allegheny & Manchester stockholders was adjourned till Dec. 30, at which time it is thought the proposition to lease the road at a rental said to be equal to 4 per cent per annum on the stock may be rejected. The Citizens' Traction Company is already under lease to the Fort Pitt Traction Co., which in turn is owned by the principal stockholders of the Consolidated Traction Co., so that a transfer of these roads is merely a matter of detail.

Terms of Lease.—The *Central Traction* Co. will receive as rental $15,000 yearly, equal to 3 per cent per annum on $1,500,000 capital stock, the shares being figured at their par value of $50 each. The *Duquesne Traction* Co. will receive $120,000 yearly or 4 per cent per annum on $3,000,000 stock. The *Pittsburg Traction* Co. will have a yearly rental of $175,000, equal to 7 per cent per annum on $2,500,000 stock. As to other matters the Pittsburg *Dispatch* says:

"In the agreement the Duquesne company and the Pittsburg company are each to receive $1,500 a year for organization expenses. The Duquesne gives up all its property except the 25x145 foot lot on Penn Avenue, East End, known as the "puzzle switch" lot. By consent of the Pittsburg Traction Co. the traffic arrangement between the Pittsburg and Duquesne lines, entered into in 1892, is annulled. In the contracts for each of the companies in the combine provision is made for caring for the bonds of each."

Companies Not Included.—The companies not at present in control of the Consolidated Traction Co. are: The Pittsburg & Birmingham Traction Co., the Second Avenue, the Pittsburg & West End Passenger Ry., the Federal Street and Pleasant Valley Ry. and the Pittsburg Allegheny & Manchester Co.—the last named, as said above, voting on the question of a lease December 30. It is vaguely hinted that by April 1st some of these other companies may be in the control of the new organization.

Cumberland & Ohio RR., Northern Division—Louisville & Nashville RR.—*Committees, Etc.*—The Louisville & Nashville, it appears, is proposing to discontinue the operation of the Cumberland & Ohio Northern Division on Jan. 1. The bonds on this division are not guaranteed, and its gross earnings for the year June 30, 1894, were only $29,555. At Shelbyville, Ky., a petition has been filed with Judge Carroll of the Circuit Court asking for an injunction against the relinquishment of the lease. P. Booker Reed represents the stockholders and Adolph Smith the bondholders. Judge John G. Sumrall of Louisville is also said to be interested.—V. 61, p. 1107.

East Tennessee Land Co.—Harriman & Northeastern RR.—*Decision, Etc.*—At Chattanooga, Tenn., Dec. 21, in the United States Court, Judge Severens decided that the bonds made by the East Tennessee Land Co. to the Central Trust Company, of New York, for $1,000,000, are not a prior lien as to certain debts created prior to September, 1891. This decision will not, it is thought, materially affect the value of the mortgage, as the earlier debts are otherwise secured. The mortgage, which covers land in the town of Harriman, Tenn., is being foreclosed. The Harriman Coal & Iron RR., formerly a part of this property, has been separately reorganized under the title of the Harriman & Northeastern RR., with Isaac D. Funk as President.

Edison Electric Light (Philadelphia).—Pennsylvania Light & Power—*Lease*—The stockholders of the Edison Electric Light Co. of Philadelphia, at a meeting Thursday, voted by a large majority that the company's plant should not be leased to the Pennsylvania Heat, Light & Power Co.—V. 61, p. 749.

Edison Illuminating of Baltimore.—*Consolidation.*—The Maryland Electric Company of Baltimore and the International Telegraph District Construction Company have consolidated under the name of the Edison Illuminating Company of Baltimore City. The capital stock of the new company is in $100 shares and aggregates $1,000,000 of common stock and $770,000 of preferred, the latter entitled to 6 per cent per annum before any dividend shall be paid on the common stock [but not to any further dividends in any event] such dividends to be accumulative after October 1, 1900. Of the new stock all the common and $394,000 of preferred will be apportioned to stockholders of the old companies and the balance be held for future needs.

The new company is authorized to issue $1,000,000 of 6 per cent bonds secured by a first mortgage, of which $425,600 to retire the outstanding bonds of the Maryland Electric Company. The first board of directors of the new company are: Messrs. Alfred A. Glasier, Nicholas P. Bond, Ranald T. McDonald, William Rodgett, Third, Edwin S. Webster, J. Frank Morrison, J. P. Smith, J. Warren Ellard and Edward Duffy, who are to serve until the first annual meeting of the company.

Kansas City Pittsburg & Gulf RR.—*Increase of Stock.*—The directors voted Dec. 23 to increase the capital stock from $10,000,000 to $20,000,000.—V. 61, p. 1107.

Long Island Traction—*Sale Confirmed.*—At Clarksburg, West Va., on December 23, United States Judge Goff confirmed the sale of this property for $5,500,000 to the reorganization committee.—V. 61, p. 1065.

Metropolitan Traction—Eighth Avenue RR.—*Lease Confirmed.*—The stockholders of the Eighth Avenue Railroad Co. yesterday formally confirmed the lease of the road to the Metropolitan Traction Co.—V. 61, p. 967.

Milwaukee Street Ry.—*Foreclosure.*—At Milwaukee, Wis., Dec. 23, Judge Jenkins signed the decree of sale in the foreclosure proceedings under the first consolidated mortgage. No bid of less than $5,000,000 will be received. F. M. Hoyt, as special master, will conduct the sale.

Milwaukee General Electric Ry.—The city ordinance granting a franchise to this rival company was withdrawn on Monday on request of the promoters of the enterprise, who, it is understood, consider the conditions imposed to have been too severe.—V. 61, p. 1107.

Missouri Kansas & Texas Railway.—*Indian Territory Land Grant.*—As frequent allusions appear in the press here and abroad regarding the lands in the Indian Territory, to which the Missouri Kansas & Texas will be entitled under the Act of Congress of July 25, 1866, it may be well to state that the facts may be found in the company's annual report for the year ending June 30, 1893. The grant is every alternate section to the extent of ten sections per mile on each side of the road. The distance across the Indian Territory is about 243 miles and the aggregate amount of the land grant would be 3,110,400 acres. The M. K. & T. is entitled to the land whenever the Indian title is extinguished and the land becomes part of the public domain of the United States. The company have made no allusion to the matter in recent reports, and there does not appear to be any likelihood of their obtaining possession to the lands in the near future.—V. 61, p. 1064.

National Union Bank.—*Listing.*—The capital stock of this bank, of which Mr. Jos. C. Hendrix is President, was listed this week on the New York Stock Exchange.

New York Carbide & Acetylene.—*Incorporation.*—This company, which has purchased the rights to sell acetylene gas in the Greater New York, was incorporated on Tuesday. The capital stock is $7,000,000. The directors are: Elias C. Benedict, J. Bertscham, Anthony N. Brady, Edward N. Dickerson, Charles F. Deterich, Walton Ferguson, John Fox, R. Somers Hayes, Erasmus J. Jerzmanowski, Frederic P. Olcott, Arthur B. Proal, John Sloane and Samuel Thorne.—V. 61, p. 1107.

New York New Haven & Hartford RR.—*Bridgeport Agreement*—An agreement has been reached between the commissioners acting for the City of Bridgeport, Conn., and the officers of this company, providing for the elevation of the company's tracks, so as to do away with over thirty grade crossings, for the building of a new Union Station, &c. The total cost of the changes is estimated at $2,000,000, of which the City of Bridgeport will meet 16⅔ per cent of the cost of raising the tracks, but not to exceed $400,000 in all. Work it is said will begin April 1, 1896. The cramped and dangerous conditions existing at Bridgeport have interfered greatly with the proper operation of the road, and their elimination will facilitate the making of better time between New York and Boston.—V. 61, p. 831.

New York & Rockaway Beach Ry.—*Listing.*—There were listed this week on the New York Stock Exchange additional first mortgage 40-year 5 per cent gold bonds for $184,000 issued for improvements (new equipment, steel rails and air brakes), making the total amount listed $984,000. The statement of the company for the fiscal year ending June 30, 1895, showed a deficiency under charges of $52,733, but the company points out that there was charged to operating expenses during the year, account of claims Laurel Hill accident, the sum of $30,984, and for extraordinary repairs to passenger cars, $37,677, which more than accounts for the deficit of $52,733. The said accident will cost the company fully $75,000, of which $60,000 has been paid in monthly instalments and charged to operating expenses. The balance will be paid in the same way by January, 1896. The gross earnings since June 30, 1895, show an increase of $26,469, but the net will not show any increase owing to the above payments for damages. For several years previous to the Laurel Hill accident the company states it earned a surplus of from $6,000 to $14,000 per annum.—V. 61, p. 469.

North Carolina RR.—*Validity of Lease.*—A dispatch from Raleigh, N. C., says that Attorney-General Osborne, as requested by the Farmers' Alliance of the State, has consented to bring suit to test the validity of the lease of this road to the Southern Ry. He says he feels it his duty to bring the suit, though he believes the lease to be valid.—V. 61, p. 517.

Northern Pacific RR.—*Coupon Payment.*—The interest due Jan. 1, 1896, on the general first mortgage bonds is advertised to be paid by the receivers at their office, No. 45 Wall Street, New York City.

Land Grant.—A press despatch from Washington, Dec. 23, says: The Secretary of the Interior has approved the selection of 526,314 acres of land in the Fargo, N. D., land district, in lieu of lands lost to the company by a decision of the Secretary in the Eastern terminal case on Nov. 14. [See V. 61, p. 872.] The Secretary has also approved the grants of 723,194 acres in Washington to the Northern Pacific Railroad Company.—V. 61, p. 1108.

Ohio Southern RR.—*Reorganization.*—The holders of the first mortgage 6 per cent bonds are informed that a plan for their protection is being formed by their committee, which consists of William A. Read, Thomas Denny, Simon Borg, Henry Sanford and Edwin S. Hooley.—V. 61, p. 1065.

Oregon Improvement.—*Listing—Reorganization.*—There were listed this week on the New York Stock Exchange engraved certificates of deposit issued by the Manhattan Trust Company representing $3,507,000 of consolidated 5 per cent bonds and $2,929,600 of the common stock of the Oregon Improvement Co., deposited under the agreement with the committee of which John I. Waterbury is chairman. Further deposits may be up to and including Dec. 31, 1895.—V. 61, p. 1015.

Oregon Railway & Navigation—*Sale of Collateral.*—The adjourned trustee's sale of the securities pledged for the collateral trust bonds has been adjourned for the ninth time until Jan. 7.—V. 61, p. 1013.

Philadelphia & Reading RR.—Lehigh Valley.—*Adjusting Accounts.*—In the United States Circuit Court at Philadelphia, on Thursday, Judge Dallas appointed, at the request of the Lehigh Valley Railroad Company, a Master to receive testimony and to adjust the accounts between the Lehigh Valley and the Phila. & Reading, growing out of the former lease to the Reading Company. The claims of the Lehigh Valley, less offsets, aggregate $1,528,557.—V. 61, p. 1064, 1109.

Philadelphia Traction System—Thirteenth & Fifteenth Streets Passenger Ry.—*Dividend Passed.*—The directors announce that the recent decision of the Supreme Court requiring the company to pay $114,220 on account of paving done by the city in 1890 will prevent the distribution of the usual dividend, aggregating $100,000, in January next.—V. 61, p. 668.

Pittsburg Cincinnati Chicago & St. Louis Ry.—*Listing.*—There were listed this week on the New York Stock Exchange consol. mort. bonds of 1892, 4½ per cents of Series C, $492,000, making the total of this series listed $2,000,000. Also

$3,000,000 Series D 4 per cents, dated Nov. 1, 1895, payable Nov 1, 1945, interest payable May 1 and Nov. 1, were ordered to be placed on the list Jan. 2, 1896. The total issue of Series C is now limited absolutely to $2,000,000. The additional $4,818,000 of this series shown by the INVESTORS' SUPPLEMENT to be outstanding were held by the Pennsylvania RR. and Pennsylvania Company. These companies, in view of their large interests as stockholders of the P. C. C. & St. L. Company, and with a desire to strengthen its financial condition, have surrendered the $4,818,000 of Series C 4½ per cent bonds and received in lieu thereof a like number of 4 per cent fifty-year bonds of Series D, the total issue of which will be $8,000,000. The foregoing $3,000,000 of Series D 4 per cent bonds were sold to Kuhn, Loeb & Co. and Speyer & Co. These same houses have an option until March 1, 1896, or sooner if desired by them, on $3,000,000 additional Series D 4 per cent bonds, of which $1,818,000 are Series C 4½ per cent bonds converted into Series D 4 per cent bonds as above described, and $1,182,000 are a fresh issue of Series D 4 per cent bonds issued for retirement of prior lien sectional bonds, and in payment for additions and permanent improvements to the property made and to be made. The payment of the principal and interest of this lot of bonds and the sinking fund for redemption thereof is also unconditionally guaranteed by the Pennsylvania Co. as per endorsement on each bond. The company under date of Dec. 5 expresses the opinion that the option on the $3,000,000 additional bonds will be exercised at an early day.—V. 61, p. 872.

Pittsburg & Western Ry.—*Annual Statement.*—A special report to the CHRONICLE shows the following figures of earnings and expenses for the year ending June 30, 1895.

	1894-5.	1893-4.	1892-3.
Gross earnings	$2,867,892	$2,318,678	$2,586,185
Operating expenses	1,951,229	1,662,812	2,058,910
Net earnings	$916,663	$655,866	$527,275
Interest on debt and taxes	930,753	928,039	868,392
Deficit	$14,090	$272,173	$341,117

Floating Debt, Etc.—From the balance sheet the following facts are also furnished :

	June 30, '95.	June 30, '94.
Real estate mortgages outstanding	$312,375	$322,375
Car trust warrants	657,688	810,020
Bills and accounts payable	3,496,867	3,124,963
Current liabilities	281,137	278,567
Contra—		
Advances to subsidiary roads	$1,762,663	$1,739,699
Current assets	635,024	627,984

—V. 60, p. 836.

Rio Grande Southern RR.—*Listing.*—There were listed this week on the New York Stock Exchange $1,058,000 first mortgage bonds [outstanding for a considerable time past, but only now listed], making the total amount on the list $4,510,000. The gross earnings of the road for the ten months ending Oct. 31, 1895, were $352,297; net, $148,652; interest at 3 per cent for ten months on $4,510,000 of bonds, $112,750; balance, surplus, $35,902.—V. 61, p. 1014.

San Francisco & San Joaquin Valley RR.—*Construction.*—The directors are reported to have made a fourth call on the stock subscribers. So far only 30 per cent of the total subscription has been called. The route from Stockton to Bakersfield, the southern terminus, has been located finally with the exception of a gap in the vicinity of Visalia and Hanford. Chief Engineer Storey says: "We have a road now to Stanislaus River 25 miles. It is graded and the rails are laid. The graders are pushing southward at a good rate, so that the road will very soon be graded to the Tuolumne River. The long and high bridge over the Stanislaus is pretty well finished. The steel sections for the drawbridge over Mormon Channel in Stockton are arriving daily."—V. 61, p. 872.

Southwestern RR. (of Georgia)—*Extra Dividend.*—A dividend of $10 80 per share has been declared payable Jan. 14, 1896, at the Central Georgia Bank, Macon, Ga., and at the Citizens' Bank at Savannah. Ten dollars of this dividend is the extra dividend payable out of back rental received in the settlement with the Central of Georgia Ry. and the eighty cents is out of the amount accruing under the lease from Nov. 1, 1895, to Jan. 1, 1896.—See V. 61, p. 926.

Union Pacific Ry.—*Reorganization.*—The Reorganization Committee advertises that holders of the certificates representing Union Pacific first mortgage 6 per cent bonds will after January 1, 1896, on presentation of their certificates to either of the depositaries mentioned in the plan of reorganization receive cash for the defaulted interest which will be due on that date. It is understood that the committee has already secured majorities of all the first mortgage railway bonds afloat, excepting an inconsiderable shortage on one class, and as to that its assurances of majority deposits are complete. It is also understood that the committe controls a very large majority of all uncalled Omaha Bridge bonds, and that it regards the success of the plan as already assured so far as deposits are concerned.—V. 61, p. 1118.

Union Pacific Denver & Gulf Ry.—Denver Texas & Gulf and Denver Texas & Fort Worth.—*Committee.*—A bondholders' agreement has been prepared under which deposits of *Denver Texas & Gulf* and *Denver Texas & Fort Worth* bonds may be made with the New York Security & Trust Company. Messrs. Henry B. Ely, R. H. Thomas, W. B. Dickenman and M. L. Scudder have been requested by the owners of a large proportion of the bonds to act as a Bondholders' Protective Committee.—V. 61, p. 1066.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, December 27, 1895.

The feeling of excitement regarding the controversy between the United States and Great Britain has moderated, and in consequence of that change a calmer tone prevails in financial circles. General business, however, has remained exceedingly quiet in view of the expected issue of bonds to replenish the gold reserve of the Treasury and the proposed revision of the tariff, restoring or increasing duties on many leading articles, merchants preferring to avoid all unnecessary negotiations while those important measures were undetermined. The mid-week Christmas holiday served as an additional quieting influence upon nearly all lines of wholesale trade, and speculative operations in staple merchandise have also generally narrowed down to a liquidation of maturing engagements. Variable weather conditions were again reported from the wheat-growing section, the latest indicating a sharp drop in temperature without accompanying snowfall of general character. The observance of protracted holidays in Europe has interfered somewhat with export trading.

For lard on the spot the demand has been slow, but prices have held steady, closing at 5·50c. for prime Western, 5·10c. for prime City and 6c. for refined for the Continent. In the local market for lard futures speculation has continued at a standstill but nominal prices have advanced a trifle in response to slightly stronger advices from the West, where there has been some buying by shorts to cover contracts, closing dull.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
December c.	5·45	5·50	HOLIDAYS		5·50	5·50

Pork has been in fairly good demand at steady prices, closing at $8 75@$9 25 for mess, $9 75@$10 25 for family and $9 50@$11 for short clear. Cut meats have been in slow request and prices have weakened, closing at 4¾@5c. for pickled bellies, 12@10 lbs. average, 4½c. for pickled shoulders and 8½@8¾c. for pickled hams. Beef has been quiet but steady, closing at $7 50@$8 for mess, $8 50@$11 for packet, $10@$13 for family and $16@$18 for extra India mess. Beef hams have been steady, closing at $15@$15 50. Tallow has been in light request but prices have held steady, closing at 3⅞@4c. Oleo-stearine has been quiet and without change, closing at 5c. Lard stearine has been neglected and quoted nominally at 6c. Cotton seed oil has been quiet but steady, closing at 24@24½c. for prime crude and 28@28½c. for prime yellow. Butter has been in light demand and prices have declined, closing at 18@25c. for creamery. Cheese has been quiet but steady, closing at 7¼@10½c. for State factory, full cream. Fresh eggs have declined, but the close was steady at 21c. for choice Western.

Coffee has continued under neglect except for imperative requirements of regular trade, and with a little more pressure to sell supplies prices were weak. Rio quoted at 14½c. for No. 7, good Cucuta 17¾c. and standard quality Java 26c. The speculative deal in contracts was moderate with tone unsettled, closing steadier, with some buying by shorts to cover contracts. The following were the final asking prices :

Dec. 13·75c.	March 13·50c.	June 12·70c.
Jan. 13·65c.	April 13·25c.	July 12·55c.
Feb. 13·50c.	May 13·05c.	Sept 12·10c.

Raw sugars have advanced and are held with great firmness, in consequence of apparent great curtailment of the Cuban crop. Centrifugal quoted at 3⅝c. for 96-degrees test, and muscovado at 3¼c. for 89-degrees test. Refined sugars in more active demand and higher, closing firm; granulated quoted at 4¾c. Teas generally quiet.

Kentucky tobacco has had a slow sale, but prices have been without change and steady. Seed leaf tobacco has also sold slowly, but prices have held steady. Sales for the week were 775 cases, as follows: 200 cases 1894 crop, New England Havana, 10@16c ; 100 cases 1893 crop, Pennsylvania Havana, 10¾@11¼c ; 100 cases 1893 crop, Wisconsin Havana, 5@7½c.; 100 cases 1893 crop, Zimmer's Spanish, p. t.; 125 cases 1894 crop Zimmer's Spanish, p. t., and 150 cases sundries, 4½@16c ; also 510 bales Havana, 68c.@$1 05, and 130 bales Sumatra, 60c.@$2 05 in bond.

Speculation in the market for Straits tin has been dull and with fairly liberal offerings prices have further declined, closing quiet at 13·65c. Ingot copper has been freely offered and prices have declined, closing dull at 10·25@10·37½c. for Lake. Lead has been in slow request and prices have declined, closing at 3·15@3 17½c. for domestic. Spelter has been dull but steady, closing at 3·45@3·50c. for domestic. Pig iron has been quiet and unchanged at $12@$14 50 for domestic.

Refined petroleum has been steady, closing at 7·75c. in bbls., 5·50c. in bulk and 8·50c. in cases; crude in bbls. has been nominal; naphtha unchanged at 8·25c. Crude certificates have advanced, closing at $1 47 bid. Spirits turpentine has advanced sharply, closing firm at 31@31½c. Rosins have been dull but steady, closing at $1 72½@1 75 for common and good strained. Wool has been only quiet. Hops have been dull and easy.

COTTON.

FRIDAY NIGHT, December 27, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 223,949 bales, against 222,783 bales last week and 234,059 bales the previous week, making the total receipts since the 1st of Sept., 1895, 3,368,342 bales, against 5,136,098 bales for the same period of 1894, showing a decrease since Sept. 1, 1895, of 1,767,756 bales.

Total 1893	192,254	23,026	94,927	14,788	324,993	994,356

Speculation in cotton for future delivery at this market has again been upon a moderate scale. The celebration of the Christmas holiday here and closing of Liverpool from Tuesday until next Monday interfered with regular course of trade, and continued uncertainty regarding Government financial measures induces much caution among operators generally. Following up previous inclination to liquidate holders of long engagements were again free sellers on Saturday and broke values 24@26 points, but the liberal offering soon eliminated the weak supply and recovery of tone reduced net loss to 14 points. Monday's dealings were lighter, the tone stronger, and after several small fluctuations the close was at 5@7 points advance. Tuesday's market was a small one and confined principally to settling up small local deals, with irregular prices for the day, finally resulting in a net loss of 3 points. The Exchange was closed on Wednesday for Christmas holiday. Yesterday trading was light and the feeling unsettled, but an absence of buying orders noticeable and prices gradually worked down 8@10 points, closing easy. To-day the market opened about 9 points off under a full issue of notices of delivery on January contracts, but the supply becoming absorbed, prices reacted and closed steadier. Cotton on the spot is quiet at 8¼c. for middling uplands.

The total sales for forward delivery for the week are 996,900 bales. For immediate delivery the total sales foot up this week 4,202 bales, including 1,040 for export, 862 for consumption, — for speculation and 2,300 on contract. The following are the official quotations for each day of the past week—December 21 to December 27.

Rates on and off middling, as established Nov. 29, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	c. 1¼ pre.	Good Ordinary	c. 1 off.
Middling Fair	⅞ pre.	Good Middling Tinged	Even.
Strict Good Middling	½ pre.	Strict Middling Stained	7/32 off.
Good Middling	5/16 pre.	Middling Stained	⅓ off.
Strict Low Middling	3/16 off.	Strict Low Mid. Stained	25/32 off.
Low Middling	⅝ off.	Low Middling Stained	1¼ off.
Strict Good Ordinary	11/16 off.		

On this basis the prices for a few of the grades would be as follows.

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	7¼	7¼	7¼	Holiday	7¼	7¼
Low Middling	7⅞	7⅞	7⅞		7⅞	7⅞
Middling	8¼	8¼	8¼		8¼	8¼
Good Middling	8 15/16	8 15/16	8 15/16		8 15/16	8 15/16
Middling Fair	9⅛	9⅛	9⅛		9⅛	9⅛
GULF.	**Sat.**	**Mon**	**Tues**	**Wed**	**Th.**	**Fri.**
Good Ordinary	7½	7½	7½	Holiday	7½	7½
Low Middling	8⅛	8⅛	8⅛		8⅛	8⅛
Middling	8½	8½	8½		8½	8⅝
Good Middling	8 13/16	8 13/16	8 13/16		8 13/16	8 13/16
Middling Fair	9⅜	9⅜	9⅜		9⅜	9⅜
STAINED.	**Sat.**	**Mon**	**Tues**	**Wed**	**Th.**	**Fri.**
Low Middling	7	7	7	Holiday.	7	7
Middling	7⅞	7⅞	7⅞		7⅞	7⅞
Strict Middling	8 1/32	8 1/32	8		8 1/32	8 1/32
Good Middling Tinged	8¼	8¼	8¼		8¼	8¼

MARKET AND SALES.

The total sales of cotton on the spot and for future delivery each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

* Includes sales in September, for September 15,2 . . ; September-October, for October, 515,6 . ; September-November, for November, 417,200.

☞ We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Av'ge." The average for each month for the week is also given at bottom of table.

☞ For exchanges see page 1160.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Dec. 27), we add the item of exports from the United States, including in it the exports of Friday only:

	1895.	1894.	1893.	1892.

☞ The imports into Continental ports the past week have been 86,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 734,437 bales as compared with the same date of 1894, a falling off of 521,688 bales from the corresponding date of 1893 and a decrease of 335,021 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipt for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to December 27, 1895. Receipts. This week.	Receipts. Since Sept. 1, '95.	Shipm'ts This week.	Stock Dec. 27.	Movement to December 28, 1894. Receipts. This week.	Receipts. Since S pt. 1, '94.	Shipm'ts This week.	Stock Dec. 28.

† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 11,490 bales and are now 12,182 bales *less* than at same period last year. The receipts at all the towns have been 85,917 bales *less* than same week last year and since Sept. 1 are 1,398,359 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	7 7/8	Little Rock	7 1/4	Newberry	.....
Columbus, Ga	7 7/8	Montgomery	7 1/2	Raleigh	.....
Columbus, Miss	7 1/4	Nashville	7 3/4	Selma	7 1/2
Eufaula	7 1/2	Natchez	7 7/8	Shreveport	7 7/8

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stock at Interior Towns.			Receipts from Plant'ns.		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.
Nov. 22	261,641	341,342	312,129	440,650	466,436	471,914	342,015	458,161	233,317
" 29	268,881	303,229	190,537	432,107	443,914	494,118	300,705	399,706	221,737
Dec. 6	241,246	254,465	227,661	410,720	434,023	532,088	259,817	382,499	265,571
" 13	230,342	263,119	264,999	408,997	421,048	559,972	227,068	389,719	257,743
" 20	250,477	259,465	225,783	434,732	418,825	585,282	259,105	426,821	261,743
" 27	223,140	312,797	223,447	427,130	404,508	522,296	241,411	392,972	235,479

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 3,932,484 bales; in 1894 were 5,387,761 bales; in 1893 were 4,573,524 bales.

2.—That although the receipts at the outports the past week were 223,140 bales, the actual movement from plantations was 241,411 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 352,972 bales and for 1893 they were 235,479 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Dec. 27 and since Sept. 1 in the last two years are as follows.

December 27	1895.		1894.

Overland to N. Y., Boston, &c.	9,598	108,967	28,914	203,332
Between interior towns	10	2,202	376	13,801
Inland, &c., from South	768	24,028	1,787	38,785
Total to be deducted	10,376	135,197	31,077	255,918
Leaving total net overland*	37,050	519,340	34,190	821,185

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 37,050 bales, against 34,190 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a falling off from a year ago of 301,845 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	*Since Sept. 1*	*Week.*	*Since Sept. 1.*
Receipts at ports to Dec. 27	223,140	3,368,342	312,797	5,136,098
Net overland to Dec. 27	37,050	519,340	34,190	821,185
Southern consumption to Dec. 27	22,000	344,000	20,000	312,000
Total marketed	282,190	4,231,682	366,987	6,269,283
Interior stocks in excess	11,490	564,122	40,175	551,669
Came into sight during week	294,480		407,162	
Total in sight Dec. 27	.....	4,795,804	.....	6,820,952
North'n spinners' takings to Dec. 27	75,652	938,403	69,395	1,359,754

It will be seen by the above that there has come into sight during the week 294,480 bales, against 407,162 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 2,025,148 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South to-night indicate that the temperature has been higher generally the past week, with rain at about all points. The precipitation as a rule, however, has not been heavy. The marketing of cotton has therefore made good progress.

Galveston, Texas.—A few counties report some unpicked cotton, most prominent among which are Brown and Callahan counties. The weather has been favorable. We have had rain on three days of the week, the rainfall reaching fifty-one hundredths of an inch. The thermometer has averaged 56, the highest being 72 and the lowest 40.

Palestine, Texas.—There has been rain during the week to the extent of forty-six hundredths of an inch, on one day. The thermometer has averaged 50, ranging from 28 to 72.

Huntsville, Texas.—There has been rain on two days during the week to the extent of fifty-one hundredths of an inch. The thermometer has ranged from 32 to 72, averaging 52.

Dallas, Texas.—Rain has fallen on two days of the week to the extent of three inches and fifteen hundredths. Average thermometer 52, highest 72 and lowest 32.

San Antonio, Texas.—It has rained on four days of the week, the rainfall being forty-one hundredths of an inch. The thermometer has averaged 54, the highest being 78 and the lowest 34.

Luling, Texas.—There has been rain on three days of the past week, the precipitation reaching forty-nine hundredths of an inch. The thermometer has averaged 54, ranging from 34 to 74.

Columbia, Texas.—We have had rain on two days during the week, to the extent of one inch and five hundredths. The thermometer has ranged from 31 to 74, averaging 52.

Cuero, Texas.—It has rained on three days of the week, the rainfall reaching eighty-six hundredths of an inch. Average thermometer 54, highest 75, lowest 32.

Brenham, Texas.—There has been rain on three days during the week, the precipitation being one inch and forty-six hundredths. The thermometer has averaged 55, the highest being 74 and the lowest 36.

Belton, Texas.—We have had rain on three days the past week, the precipitation reaching one inch and nineteen hundredths. The thermometer has averaged 50, ranging from 28 to 73.

Fort Worth, Texas.—There has been rain on three days during the week, the precipitation being ninety hundredths of an inch. The thermometer has ranged from 29 to 73, averaging 51.

Weatherford, Texas.—There has been rain on two days during the week, the rainfall being fifty-five hundredths of an inch.

New Orleans, Louisiana.—We have had rain on four days of the week, the rainfall reaching one inch and fifty-eight hundredths. The thermometer has averaged 58.

Shreveport, Louisiana.—There has been rain on three days during the week, the precipitation being twenty-seven hundredths of an inch. The thermometer has averaged 53, ranging from 31 to 69.

Columbus, Mississippi.—We have had rain on one day during the week, the rainfall being one inch and thirty-eight hundredths. The thermometer has ranged from 40 to 70, averaging 56.

Leland, Mississippi.—Telegram not received.

Vicksburg, Mississippi.—We have had rain on two days of the week, the rainfall reaching seventy-eight hundredths of an inch. The thermometer has averaged 56, the highest being 74 and the lowest 37.

Little Rock, Arkansas.—There has been rain on five days during the past week, the rainfall reaching forty-six hundredths of an inch. The thermometer has averaged 49, ranging from 31 to 64.

Helena, Arkansas.—The week's rainfall has been forty-one hundredths of an inch on four days. The thermometer has averaged 51, the highest being 69 and the lowest 28.

Memphis, Tennessee.—We have had light rain on five days of the week, the rainfall being fifty-five hundredths of an inch; now clear. Average thermometer 52·3, highest 69, lowest 34.

Nashville, Tennessee.—Telegram not received.

Mobile, Alabama.—Upper rivers are now navigable. We have had rain on three days of the week, to the extent of one inch and thirty-eight hundredths. The thermometer has averaged 54, ranging from 38 to 69.

Montgomery, Alabama.—We have had rain on one day of the week, the precipitation reaching sixty-six hundredths of an inch. The thermometer has ranged from 42 to 64, averaging 58.

Selma, Alabama.—Telegram not received.

Madison, Florida.—The crop is practically all in. There has been rain on one day of the week, the precipitation being thirty hundredths of an inch. The thermometer has averaged 56, the highest being 73 and the lowest 30.

Columbus, Georgia.—There has been rain on two days of the week to the extent of one inch and sixty-three hundredths. The thermometer has averaged 50, ranging from 35 to 64.

Augusta, Georgia.—We have had rain on three days of the week, the rainfall reaching one inch and twenty-three hundredths. Average thermometer 56, highest 73, lowest 34.

Savannah, Georgia.—Rain has fallen on three days of the week to the extent of forty-eight hundredths of an inch. The thermometer has ranged from 40 to 74, averaging 59.

Charleston, South Carolina.—We have had rain on four days during the week, the precipitation being six hundredths of an inch. The thermometer has averaged 59, the highest being 72 and the lowest 45.

Statesburg, South Carolina.—We have had rain on two days of the week, the precipitation reaching seventy-five hundredths of an inch. The weather is threatening to-day. The thermometer has averaged 49 2, ranging from 42 to 72.

Greenwood, South Carolina.—The week's rainfall has been fifty-two hundredths of an inch. Average thermometer 43, highest 60, lowest 26.

Wilson, North Carolina.—Rain has fallen on one day of the week, to the extent of twenty hundredths of an inch. The thermometer has averaged 56, highest 72, lowest 34.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock December 26, 1895, and December 27, 1894.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Dec. 26.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week			Shipments since Sept. 1.			Receipts.	
	Great Brit'n	Conti-nent.	Total.	Great Britain	Conti-nent.	Total.	This Week.	Since Sept. 1.
1895	.....	20,000	20,000	3,000	127,000	130,000	60,000	473,000
1894	.....	4,000	4,000	1,000	25,000	26,000	23,000	124,000
1893	.....	3,000	3,000	7,000	99,000	106,000	38,000	248,000
1892	1,000	6,000	7,000	6,000	93,000	99,000	42,000	216,000

NOTE.—1895 figures estimated; no returns received.

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 37,000 bales and an *increase* in shipments of 16,000 bales, and the shipments since Sept. 1 show an *increase* of 104,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Conti-nent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1895.....	.....	.....	.....	4,000	7,000	11,000
1894.....	.....	.....	.....	3,000	4,000	7,000
Madras—						
1895.....	1,000	.....	1 000	15,000	11,000	26,000
1894.....	.....	.....	.....	12,000	10 000	22,000
All others—						
1895.....	1,000	2,000	3,000	17,000	24,000	41,000
1894.....	.....	.....	.....	12,000	19,000	31,000
Total all—						
1895.....	2,000	2,000	4,000	36,000	42,000	78 000
1894.....	.....	.....	.....	27,000	33,000	60,000

The above totals for the week show that the movement from the ports other than Bombay is 4,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895.		1894.		1893.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	20,000	130,000	4,000	26 000	3,000	106,000
All other ports	4,000	78,000	.....	60,000	1,000	68,000
Total	24,000	208,000	4,000	86,000	4,000	174,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, December 25.	1895.		1894.		1893.	
Receipts (cantars*) ...						
This week	260,000		260,000		195,000	
Since Sept. 1	3,443,000		2,648,000		2,576,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	17,000	194,000	10,000	129,000	18,000	142,000
To Continent.....	11,000	137,000	12,000	141,000	7,000	104,000
Total Europe.	28,000	331,000	22,000	270,000	25,000	244.000

* A cantar is 98 pounds.

† Of which to America in 1895, 19,700 bales; in 1894, 13,600 bales; in 1893, 5,116 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is steady for both yarns and shirtings. The demand for cloth is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.				1894.			
	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.		Cott'n Mid. Upds	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.		Cott'n Mid. Upds

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Dec. 27) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Dec. 27.	1895.		1894.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894.
Savannah	3,299	59,077	3,501	54,836	14,249	16,140
Charleston.....	622	8,328	121	4,723	2,296	1,622
Florida, &c.....	212	3,520	896	3,784	2,468	1,099
Total.....	4,133	70,925	4,518	63,343	19,013	18,861

The exports for the week ending this evening reach a total of 1,112 bales, of which 839 bales were to Great Britain, 241 to France and 32 to Bremen, and the amount forwarded to Northern mills has been 1,276 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Dec. 27.			Since Sept. 1, 1895.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1.
S'vann'h, &c	.....	.....	...	11,648	2,269	13,917	975	20,969
Charl't'n, &c	.....	32	32	2,719	64	2,783	89	820
Florida, &c.	.....	.....	.....	.....	.....	.....	212	2,345
New York..	648	241	889	8,393	2,615	11,008	.....	.....
Boston	191	.....	191	475	.....	475	.....	.....
Baltimore ..	.....	.....	.....	.....	.....	.....	.....	.....
Total	839	273	1,112	23,235	4,948	28,183	1,276	24,134
Total 1894..	3,564	1,110	4,674	17,638	3,695	21,333	1,884	24,435

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Dec 27 at Savannah, for Floridas, common, 12¼c.; medium fine, 14¾c.; choice, 16½c.

Charleston, Carolinas, medium fine, 23 to 28½c; fine, 25c.; fully fine, 26c.; extra fine, 35 to 40c.

·17 pd.to exch.10,100 Jan.for Mch.	Even 100 Dec. for Jan.
·27 pd. to exch. 6,700 Jan. for May.	

MOVEMENT TO KEEP DOWN COTTON ACREAGE.—The Memphis Cotton Exchange at a meeting called for the purpose on Dec. 23 inaugurated a movement having for its object no increase in cotton acreage next year. The following resolutions were adopted:

Resolved, That the Memphis Cotton Exchange urgently recommends to the producers that the production of home supplies be made the first consideration in planting operations for the coming year, and that the acreage of cotton be not increased over that of last year.

Resolved, That we approve and indorse the American Cotton Growers' Association for bringing about the reduction in the acreage of the crop now being marketed, and we respectfully urge the Hon. Hector D. Lane, the President, and his coadjutors, the presidents of the various cotton States of said association, to continue in the good work and to take up the matter at the earliest practicable moment and urge it again upon the attention of the cotton producers of the South.

Resolved, That the various cotton exchanges throughout the South be, and are hereby, requested to co-operate with this Exchange in this matter, and that the Southern newspapers are also requested to publish these resolutions.

EGYPTIAN COTTON CROP.—The following report on the cotton crop in Egypt was issued by the Alexandria General Produce Association under date of November 30:

The temperature during November was generally favorable to the cotton trees. Thanks to this circumstance, the second picking finished under excellent conditions and the third matured very well. This last is now almost all harvested, and has produced more than the third picking of last year. We have therefore to take into account a small increase, which is due to the prolongation of favorable weather. We in consequence now estimate that the ultimate result of the crop will be about 5,250,000 cantars.

JUTE BUTTS, BAGGING, &c.—Transactions in jute bagging have been extremely limited during the week under review, but prices are as last quoted, viz.: 3⅜c. for 1¾ lbs., 4¼c. for 2 lbs. and 4¾c. for standard grades. Car-load lots of standard brands are quoted at 3⅝c. for 1¾ lbs., 4¼c. for 2 lbs. and 4¾c. for 2¼ lbs., f. o. b., at New York. There has been nothing doing in jute butts and quotations are nominal at 1 1-16c. for paper quality and 1¼c. for mixing.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 132,089 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamer Bovic, 1,964 upland and 548 Sea Island	2,512

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates.

GALVESTON—To Bremen—Dec. 24—Steamer Brukhurn, 6,105 ...To Vera Cruz—Dec. 17—Steamer Kennett, 640.

NEW ORLEANS—To Liverpool—Dec. 20—Steamer Navarro, 6,500 ...Dec. 21—Steamer Mardi, 7,146 ...Dec. 24—Steamers Astronomer, 4,012; Wentworth Hall, 4,260.

To Havre—Dec. 17—Steamer Cordoba, 6,220.

To Bremen—Dec. 2—Steamer Hurona, 8,149 ...Dec. 24—Steamer Dresden, 7,700.

To Barcelona—Dec. 21—Bark Angelita, 230.

To Genoa—Dec. 24—Steamer Isabella, 1,143.

To Trieste—Dec. 24—Steamer Istria, 2,641.

To Fiume—Dec. 24—Steamer Istria, 807.

MOBILE—To Liverpool—Dec. 24—Steamer Rock Cliff, 4,782.

PENSACOLA—To Liverpool—Dec. 24—Steamer Ramon de Larrinaga, 9,715.

SAVANNAH—To Bremen—Dec. 23—Steamer Jessemore, 6,792.

To Barcelona—Dec. 21—Steamer Benito, 4,225.

To Genoa—Dec. 21—Steamer Hannibal, 4,440.

CHARLESTON—To Bremen—Dec. 20—Steamer Milo, 8,751 upland and 50 Sea Island.

WILMINGTON—To Bremen—Dec. 21—Steamer Ormesby, 9,679.

NORFOLK—To Hamburg—Dec. 24—Steamer Albano, 500.

BOSTON—To Liverpool—Dec. 19—Steamer Philadelphia, 2,531 upland and 50 Sea Island ...Dec. 20—Steamer Cambria, 1,588 ...Dec. 21—Steamer Devonia, 152.

To Bremen—Dec. 24—Steamer Boston, 70 ...Dec. 23—Steamer Bavaria, 47.

To Halifax—Dec. 21—Steamer Halifax, 50.

BALTIMORE—To Liverpool—Dec. 21—Steamer Pomplemore, 2,573.

To London—Dec. 21—Steamer Lord Erne, 250.

To Glasgow—Dec. 21—Steamer Anchoria, 1,970.

To Hamburg—Dec. 21—Steamer Scotia, 100.

To Rotterdam—Dec. 23—Steamer Darino, 300.

PHILADELPHIA—To Liverpool—Dec. 20—Steamer Belgenland, 50.

To Antwerp—Dec. 25—Steamer Pennsylvania, 500.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

EGYPTIAN PRINCE, steamer (Br.), from New Orleans for Genoa, arrived at Leicester Dec. 20 with cargo on fire. The fire has since been extinguished.

BREADSTUFFS.

FRIDAY, December 27, 1895.

For wheat flour there has been a very quiet and uninteresting market. As is usual during the holiday season neither buyers nor sellers showed a disposition to enter into extensive negotiations, but prices have ruled about steady. City mills have been quiet, but steadily held. Rye flour has had a limited sale at unchanged prices. Buckwheat has continued in light request, and prices have made a slight further decline. Corn meal has been quiet and without change. To-day the market for wheat flour was quiet but steady.

Early in the week there was some spirit to the speculative dealings in the market for wheat futures and prices advanced slightly on buying by "shorts" to cover contracts, stimulated by an improved feeling in financial circles; but subsequently realizing sales by a few "longs" caused all of the improvement to be lost. In the spot market shippers have continued moderately large buyers, their purchases for the week amounting to about 750,000 bushels. The sales yesterday included No. 2 red winter at 3c. over May f. o. b. afloat; No. 1 Northern at 1 1-16@1 9-16c. over May f. o. b. afloat and ⅝@⅞c. over May f. o. b. from store for forward loading. To-day the market was quiet but the close was fractionally higher on some buying by "shorts" to cover contracts, stimulated by less favorable weather conditions at the West and a decreased crop movement. In the spot market shippers were buying at full values. The sales included No. 2 red winter at 3c. over May f. o. b. afloat; No. 1 hard spring at 3c. over May f. o. b. afloat and No. 1 Northern at 1⅝c. over May f. o. b. afloat.

June delivery ..... c.	....	65			....	....
July delivery..... c.	64⅛	65			64¾	64¾

Speculation in the market for Indian corn futures has been quiet but prices have advanced on buying by a few "shorts" to cover contracts, stimulated by a disappointing crop movement, large clearances from the seaboard and the improved tone to the financial market. In the spot market business has been quiet, but prices have been firmer, with futures. The sales yesterday included No. 2 mixed at 35¼@ 35⅜c. delivered; steamer mixed at 33⅜c. in elevator: No. 2 yellow at 34⅜c in elevator, and steamer yellow at 34½c. in elevator. To-day the market was dull but steady. The spot market was moderately active and steady. The sales included No. 2 mixed for January delivery at 35⅝c. f. o. b. afloat, old crop yellow at 37½c. f. o. b. afloat and steamer corn at 33¼c. in elevator and 34c. delivered.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
December delivery.... c.	33⅞	33⅞	HOLIDAY.	HOLIDAY.	34	34
January delivery.....c.	33⅞	33⅞			33¾	33⅞
May delivery .....c.	34⅜	34½			34⅜	34⅜
July delivery..... c.	....	....			34⅞	....

Oats for future delivery have been dull, but prices have made fractional advances, in sympathy with the improvement in corn and a decreasing crop movement. In the spot market prices have advanced, checking trade. Yesterday the sales included No. 2 mixed at 23¼c. in elevator and No. 2 white at 24¼c. in elevator. To-day the market for futures was dull and a trifle weaker. The spot market was dull and unchanged. The sales included No. 2 mixed at 23¼c. in elevator and No. 2 white at 24¼c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs	Fri.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., December 27, 1895.

Business in dry goods circles has been restricted within narrow limits during the past week. Both the political and financial atmosphere is somewhat clearer, but other influences in the shape of the holiday, bad weather and the close approach of the end of the year have been at work to curtail the demand in all directions, whilst the weak cotton market has been an additional drawback in cotton goods and tariff uncertainties in the woolens and other departments. The tone of the market shows dulness in all directions, which is hardly likely to be relieved anywhere before the second week or so in the new year. There have been no changes in prices of a quotable character, but the tendency in staple lines is still clearly in favor of buyers, and if the latter were so disposed they could probably place orders on better terms than generally prevailing basis. There are no indications of stocks accumulating as yet to any extent, but there are that agents rapidly approach the end of orders on hand in a number of instances. Spring cotton fabrics are fairly steady, so much business having already been secured in most specialties that agents are not affected by prevailing quietude. The jobbing business has been of cleaning up character and quiet at that. Payments are reported decidedly satisfactory in most branches.

WOOLEN GOODS.—There have been few new goods opened during the past week in heavy-weight men's wear fabrics, and until there is a fuller display of these buyers are indisposed to operate freely in high-grade varieties. In medium and low grades their interest at the moment is of a very mild character, and orders are indifferent in both plain and fancy suitings and overcoatings. Prices are entirely without change from previous report. Re orders for light weights have been slow. Satinets in good makes have sold fairly, as have some lines of cotton-warp cassimeres, etc., at steady prices. Cloakings have again ruled inactive. Flannels and blankets are slow but firm and promise to remain so for the approaching new season. Woolen and worsted dress goods are quiet throughout in both plain and fancy varieties.

The passage of the Tariff Bill by the House last night has had no material effect on the situation. There is a pretty general belief that it will not become law.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending December 23 were 7,080 packages, valued at 310,387, their destination being to the points specified in the table below:

NEW YORK TO DEC. 23.	1895. Week	1895. Since Jan. 1.	1894. Week	1894. Since Jan. 1.
Great Britain	95	4,600	80	5,480

Other Countries	73	6,841	55	3,667
Total	7,080	200,946	1,903	213,629
China, via Vancouver*	....	22,870	.....	20,318
Total	7,080	223,816	1,903	233,947

* From New England mill points direct.

The value of the New York exports for the year has been $9,148,164 in 1895 against $11,210,441 in 1894.

There has been some demand for brown goods for export, which sellers have refused to meet, as the grades required are well sold up and there is little disposition to make price concessions, such as would meet the views of buyers. On home trade account business has been distinctly slow, with the tendency in favor of buyers, although the market for sheetings, drills, ducks and osnaburgs can hardly be quoted lower than a week ago The market for coarse-colored cottons such as denims, plaids, ticks, etc., has disclosed no new feature, business being limited at irregular prices. In all bleached goods the demand comes forward very slowly, and buyers are still looking for price revisions. In other directions an absolutely featureless market has prevailed in staple cottons. In fancy cotton fabrics of all kinds the demand for spring has been on a reduced scale at previous prices. Dark work and staples inactive. Print cloths have been offered all week at 3c. for extras, with no buyers, and the quotation is quite nominal at the close.

Stock of Print Cloths—	1895. Dec. 21.	1894 Dec. 22.	1893 Dec. 23.
At Providence, 64 squares	120,000	40,000	137,000
At Fall River, 64 squares	135,000	63,000	123,000
At Fall River, odd sizes	122,000	75,000	22,000
Total stock (pieces)	377,000	178,000	282,000

FOREIGN DRY GOODS.—An absolutely dull market has been reported in foreign merchandise this week, there having been few buyers on the spot and few orders coming in. At the close the renewal of tariff legislation has introduced a disquieting feature in face of which sellers are hardly likely to be in the market for orders until the situation is simplified.

Terms of Advertising—(Per inch space.)

One time	$3 50	For	Months	(13 times)	$25 00
One Month	(4 times) 11 00	Six	months	(26 times)	43 00
Two Months	(8 times) 18 00	Twelve	Months	(52 times)	58 00

The above terms for one month and upward are for standing cards.

STATE AND CITY INDEX.

In this number of the CHRONICLE we publish an index to all news items printed in this Department since the issuance of our last STATE AND CITY SUPPLEMENT, April 13, 1895. In all cases when the item includes later figures of debt, assessed valuation, &c., full-face types are used. Items published in to-day's CHRONICLE are not included in the index. This index will be published the last Saturday of each month.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Adrian, Mich.—*Bonds Not Authorized.*—In reference to a report that $3,171 of bonds of this city are to be issued, Mr. S. Howell, City Treasurer, writes the CHRONICLE that no such issue of bonds is to be made, nor is there any in contemplation at present.

Albany County, N. Y.—*Bonds Proposed.*—It is reported that $8,000 of court-house bonds of this county will probably be issued.

Attleboro, Mass.—*Bond Sale.*—On December 20, 1895, the town of Attleboro sold $12,000 of 4 per cent water-works bonds dated September 1, 1895, and payable in 20 years, at 103·42, and $30,000 of 4 per cent town bonds, dated January 1, 1896 and payable in 10 years at 102·21. Both loans were awarded to E. R. Price. A list of the bids received is given below:

	Water Bonds.	*Town Bonds.*
E. R. Price	105 81	102 21
Parson, Leach & Co.	103 45	101 55
E. H. Gay & Co.	103 34	101 65
S. A. Kean	101 0	101 0

Interest and principal of the above loans are payable in gold coin at the office of the Boston Safe Deposit & Trust Company.

Arlington, Mass.—*Bonds Authorized.*—Four per cent park bonds to the amount of $15,000 have been voted. The securities will run 50 years.

Beatrice, Neb.—*Bond Election.*—A vote will be taken Jan. 30 on issuing $10,000 of electric light bonds.

Bexar County, Texas.—*Bond Sale.*—Court-house bonds of this county to the amount of $82,000 have recently been sold to Messrs. C. H. White & Co., of New York.

The county's total debt is at present $1,109 150; sinking fund, $36,000; net debt $1,073,150. The valuation for 1895, which is about one-half of actual value, is $33,353,247; total tax (per $1,000) $11 25. Population of the county according to local figures is 65,000.

Boston, Mass.—*Bids Rejected.*—Two bids were received on December 26 for Boston securities, but both were rejected. It is reported that the loans will now be offered at private sale. They include $1,000,000 of 4 per cent registered certificates dated 1, 1896 and maturing January 1, 1916, and $500,000 of 4½ per cent registered certificates of the rapid transit loan, dated January 1, 1896, and maturing January 1, 1936. Both loans will be secured by sinking fund.

Brooklyn, N. Y.—*Bond Sale.*—On December 23, 1895, the city of Brooklyn sold $700,000 of 4 per cent registered tax certificates, maturing September 26, 1896, at par, $150,000 of the amount to the Manhattan Savings Institution, $50,000 to the Kings County Trust Company and $500,000 to the Commissioners of the Sinking Fund of the city of Brooklyn. Payment of purchase money is to be made December 26, 1895, at which time the securities will be dated, and interest will be payable at date of maturity.

Broome County, N. Y.—*Bonds Authorized.*—Bonds of this county will soon be issued to pay outstanding indebtedness.

Cambridge, Mass.—*Bond Sale.*—The amount of bonds of this village recently voted in aid of the Chicago & Lake Superior Railroad was $5,000 instead of $50,000, as previously stated. H. A. Olson, Village Treasurer, reports that they are already sold to the Milwaukee Trust Company.

Charlottesville, Va.—*Bond Sale.*—Five per cent redemption bonds of this city have recently been sold.

Bond Call.—A call has been made for the payment of $81,000 of 6 per cent 10-40 year coupon water bonds, issued March 1, 1885, and September 1, 1885. They will be paid January 2, 1896, on presentation at the office of the Mercantile Trust & Deposit Company of Baltimore, Md., on which date interest will cease.

Cleveland, Ohio.—*Bonds Authorized.*—Six per cent 20-year harbor improvement bonds of Cleveland to the amount of $500,000 and bridge bonds to the amount of $340,000 have been authorized by the Council.

Columbia, Mo.—*Bonds Defeated.*—A vote recently taken on issuing $22,500 of bonds for the erection of a high school resulted in the defeat of the proposition.

Columbus, Ga.—*Bonds Defeated.*—An election held Dec. 14 on issuing $300,000 of 4½ per cent 30-year water-works bonds resulted in the defeat of the proposition.

Conneaut, Ohio—*Bond Sale.*—It is reported that on Dec. 19, 1895, this village sold $20,000 of 5 per cent bonds to Dietz Dennison & Prior of Cleveland, Ohio, for $21,277. The bonds are to be delivered in three instalments, one of $10,000 and two of $5,000 each. Interest will be payable semi-annually on April 15 and October 15 at the office of the Village Treasurer, and the principal will mature Nov. 16, 1915. In case it is found unnecessary to issue the full amount of these bonds, the amount not issued shall be deducted from the last instalment.

Decatur Ill.—*Bond News.*—In reference to a report that $230,000 of refunding bonds of Decatur are under consideration, F. L. Hays, City Clerk, writes the CHRONICLE that no such issue has been proposed, and that the total outstanding debt is only $110,000, $30,000 of which will be paid next summer with money now in the sinking fund. The City Clerk also states that $30,000 of 5 per cent refunding bonds, payable in 1904, have just been issued, and it is possible that from $20,000 to $30,000 of bonds will be issued some time next spring for water-works improvement.

District of Columbia.—A bill has been introduced in the Legislature providing for the redemption of all outstanding certificates of indebtedness issued by the late Board of Audit and Public Works of the District.

Elmwood Place, Ohio.—*Bond Sale.*—On Dec. 18, 1895, the village of Elmwood Place sold $10,000 of 5 per cent refunding bonds to the German National Bank of Cincinnati. Several other bids were received from Cincinnati banks, one from James S. Longstreet & Co., of Boston, Mass., and one from F. M. McKay, of Chicago, Ill., besides a few private bids. The prices offered ranged from par to $300 premium, but on account of the omission of a certified check for $200 which the advertisement stipulated was to accompany each bid some of the proposals were not considered.

The securities are dated Nov. 1, 1895, interest will be payable semi-annually on May 1 and Nov. 1, and the principal will mature at the rate of $1,000 yearly in from 5 to 14 years. Principal and interest is payable at the German National Bank, Cincinnati.

Galveston, Texas.—*Bond Sale.*—An official report to the CHRONICLE states that $200,000 of 5 per cent general indebtedness funding bonds of Galveston offered for sale December 9, 1895, were awarded to J. & W. Seligman & Co. at par and accrued interest, the money to be paid January 1, 1896. The securities are dated November 15, 1895, interest is payable semi-annually on May 15 and November 15, and the principal will mature November 15, 1915, with an option of call after November 15, 1905.

Hartford, Conn.—*Bond Sale.*—On December 23, 1895, the city of Hartford sold $150,000 of 3½ per cent park improvement bonds to Brewster, Cobb & Estabrook, at 102·05. Four other bids were received for the loan. The securities are to be dated January 1, 1896, interest will be payable semi-annually on January 1 and July 1, at the office of the City Treasurer, and the principal will mature January 1, 1926. Both principal and interest will be payable in gold.

Hillsboro School District, Ohio.—*Bonds Sold.*—On December 19, 1895, this district sold $35,000 of 5 per cent bonds to Messrs. Seasongood & Mayer, of Cincinnati, for $37,165. Thirteen bids in all were received for the securities. The loan will mature in from 3 to 44 years.

Houston, Tex.—*Bond Sale.*—On December 18, 1895, the city of Houston sold $100,000 of 5 per cent 40-year jail, bridge and funding bonds to Messrs. Blair & Co. at par and accrued interest and a premium of $265. Principal of the loan is payable in gold.

Jasper County, Ind.—*Bonds Proposed.*—It is reported that this county will probably issue $150,000 of court-house bonds.

Kings County.—*Bonds Authorized.*—A loan of $2,500,000 has been authorized by the Board of Supervisors for the construction of new bridges, one of which will be over Newtown Creek, at Manhattan and Maspeth avenues, and will cost $700,000.

Lake City, Fla.—*Bonds Authorized.*—An election held Dec. 10 on issuing $35,000 of public improvement bonds resulted in favor of the proposition. The loan will bear interest at the rate of 6 per cent and run 20 years.

Louisiana.—*Bond Sale.*—Bonds of this State to the amount of $30,000 have recently been sold at 102.

Lowell Mich.—*Bonds Authorized.*—Electric-light bonds of this city to the amount of $23,000 will be issued.

Macon, Ga.—*Bonds Voted.*—At an election held Dec. 14 on issuing $50,000 of 4½ per cent city bonds, the votes cast were 954 in favor and 52 against the proposition. It is, however, contended that two-thirds of the registered vote and not two-thirds of the votes cast are required. The registered vote was 1,718.

Lynn, Mass.—*Bonds Authorized.*—An issue of bonds for $25,000 has been authorized by the Common Council. The proceeds are to be used for various municipal purposes.

Narbeth, Pa.—*Bond Sale.*—On Dec. 9, 1895, the borough of Narbeth sold $ 2,500 of 4 per cent street improvement bonds to the Fidelity Insurance, Trust & Safe Deposit Co., of Philadelphia, at par. The securities are to be dated Jan. 1, 1896, interest will be payable semi-annually in January and July and the principal will mature at the rate of $1,000 every two years from Jan. 1, 1898, to Jan. 1, 1920, and $500 on Jan. 1, 1921. Principal and interest are payable by the Fidelity Insurance, Trust & Safe Deposit Co., Philadelphia.

The borough has no other indebtedness than the above and its assessed valuation for 1895 is $636,600; approximate real value $1,500,000. The population at present is about 625

New Milford, Conn.—*Bonds Not Authorized.*—There is a current report to the effect that New Milford will issue $10,000 of 20-year bonds, but A. H. McMahon, Town Treasurer, writes the CHRONICLE that no such issue will be made.

Norwood, Pa.—*Bonds Vetoed.*—In regard to a loan of $30,000 of 4½ per cent water-works and sewerage bonds of Norwood, which were offered for sale on the 28th of last month, the Chairman of the Finance Committee reports to the CHRONICLE that the bill has been vetoed by the Burgess.

Ogden School District, Utah.—*Bond Election.*—The citizens of this district will vote Decemoer 30 on issuing $35,000 of school building bonds.

Philadelphia, Pa.—*Bond Sale.*—Only seven bids, aggregating $83,000, were received up to one o'clock, December 23, when $1,000,000 of redemption bonds of the City of Philadelphia were offered for sale. This amount was awarded to the various parties subscribing. The securities will bear interest not to succeed 3½ per cent per annum, and the principal will mature at the rate of $50,000 yearly from December 31, 1905, to December 31, 1924.

A list of the awards made is given below:

Joseph Trotter & Co. $20,000 at 3½ per cent interest; first five series at 102 and the balance at 103.

Starr & Co. $50,000 Series F, interest 3½ per cent, at 103·60.

W. I. F. Purnell, $400, Series K, interest 3½ per cent, at par.

Jessie G. S. Simpson, $1,000, Series T, interest 3½ per cent.

Emma C. M. Simpson, $5,000, interest 3½ per cent.

Frederick Narr, $600 of Series F, 3½ per cent, at 102½.

John Doak, $6,000 Series T, 3½ per cent par.

As Starr & Co. took all of Series F, an offer of $600 of another series will be made to Mr. Narr. It is reported that the remainder of the loan was sold to four local trust companies.

Pueblo County, Colo.—*Bond Sale.*—On December 19, 1895, the county of Pueblo sold $350,000 of 4½ per cent refunding bonds to the Lamprecht Brothers Company of Cleveland, O., at par and accrued interest and a premium of $3,500. This bid was received by telegraph. A number of bidders were present, but no offers were made, the general sentiment being that the bonds should be made 5 per cents instead of 4½s. The securities are to be dated January 1, 1896, interest will be payable semi-annually on January 1 and July 1 at the office of the County Treasurer or in New York, and the principal will mature in 20 years, with an option of call after 10 years. The bonds are to be registered with the State Auditor.

Richland County, Wis.—*Bonds Authorized.*—Bonds of this county to the amount of $40,000 have been authorized for an asylum.

St. Louis County, Minn.—*Bond Election.*—A vote will be taken in this county on issuing bonds for road purposes.

Shawnee County, Kans.—*Bond Sale.*—On Dec. 17, 1895, this county sold $150,000 of bridge bonds to W. O. Spaulding & Co., of Cleveland, Ohio, for a premium of $13,000. The securities bear interest at the rate of 5 p. c. and run 20 years.

Staunton, Va.—*Bond Call.*—Notice has been given that $37,500 of Staunton bonds have been called for payment and will be redeemed on presentation at the office of the City Treasurer, or at the office of the Mercantile Trust & Deposit Company of Baltimore on Jan. 1, 1896, at which time interest will cease. The securities are described as follows:

Six 8 per cent coupon bonds, $1,000 each, series "E," numbered 85, 86, 87, 89, 90, 91, dated January 1, 1876, and payable July 1, 1905, or after the expiration of 20 years from date.

Six 8 per cent coupon bonds, $500 each, series "E," numbered from 60 to 65, inclusive, dated January 1, 1876, and payable July 1, 1905, or after the expiration of 20 years from date.

Twenty-two 6 per cent coupon bonds, $500 each, series "H," numbered from 126 to 147, inclusive, dated January 1, 1891, and payable January 1, 1908, or after the expiration of 15 years from date.

Twenty-eight 6 per cent coupon bonds, $500 each, series "S. F.," numbered 148 to 175, inclusive, dated January 1, 1881, and payable July 1, 1910, or after the expiration of 15 years from date.

One 6 per cent manuscript bond, $3,600, dated January 1, 1890, and payable on demand.

Toledo, Ohio—*Bond Sale.*—It is reported that $120,000 of 5 per cent 2 to 5 year water-works bonds of Toledo have been sold to Messrs. Spitzer & Co., of that city, for $120,137.

Ukiah, Calif.—*Bond Offering.*—Proposals will be received until Jan. 2, 1896, for the purchase of $25,000 of sewerage bonds. The securities will bear interest at the rate of 5 per cent, payable annually on Jan. 2, and will mature at the rate of $1,250 yearly from Jan. 2, 1897, to Jan. 2, 1916. Principal and interest will be payable in gold at the Anglo-California Bank, San Francisco.

The city has at present no debt of any kind, and its assessed valuation for 1895, which is about two-thirds of actual value, of real estate is $726,410; personal property, $198,735; total, $925,175; total tax rate (per $1,000) $22 40. The population at present is about 2,000.

Vermont, Ill.—*Bonds Defeated.*—J. W. Van Sickel, City Treasurer, reports to the CHRONICLE that a proposition to issue $15,000 of water-works bonds, recently voted on, was defeated.

Wauwautosa, Wis.—*Bond Offering.*—Bids will be received until January 3, 1896, for the purchase of water-works bonds to the amount of $40,000.

Wilkinsburg, Pa.—*Bonds Authorized.*—P. J. Pierce, Borough Treasurer, reports to the CHRONICLE, in reference to $265,000 of street improvement bonds recently voted, that the details of the loan have not yet been decided upon and will not be for some time. When the bonds are issued the borough debt will have reached the legal limit, but the conditions are such that within three years $100,000 more can be issued if necessary. The money will be used to pay one-third of the proposed improvements. The benefitted property pays the remaining two-thirds.

Winthrop, Mass.—*Notes Authorized.*—This town will issue one-year notes to the amount of $15,000.

INDEX TO STATE AND CITY DEPARTMENT.

In the following index references are given by volume (v.) and page (p.) to every item regarding State, city, town or county finances which has been published in the CHRONICLE since the issuance of the last STATE AND CITY SUPPLEMENT, APRIL 13, 1895

Items in the current number are not noted in the index.

Full-face types refer to latest reports of total debt, assessed valuation &c.

This index will be published in the STATE AND CITY DEPARTMENT of the CHRONICLE on the last Saturday of each month.

NEW LOANS.

$2,000,000

STATE of NEW YORK

CANAL BONDS.

COMPTROLLER'S OFFICE,
BUREAU OF CANAL AFFAIRS,
ALBANY, December 17th, 1895.

Pursuant to the provisions of Chapter 79 of the Laws of 1895, proposals will be received at this office until Thursday, the 9th day of January, 1896, at 12 o'clock noon of that day for a loan of

TWO MILLION DOLLARS

for which transferable certificates of stock, registered,

Principal and Interest payable in Gold,

will be issued in the name of the People of the State of New York, on the credit of the Sinking Fund established by said act, bearing *interest at the rate of three per cent per annum*, payable semi-annually on the first days of January and July, and the principal reimbursable on the first day of January, 1906.

Proposals may be for the whole or any part of the loan not less than $1,000.

Payments for the loan will be required to be made on the acceptance of the proposal by deposit in the Bank of the Manhattan Co. in the City of New York to the credit of "Treasurer of the State of New York, on account of Canal Fund" of the amount of the award, together with premium and accrued interest from January 1, 1896.

The Comptroller reserves the right to reject all bids which are not in his opinion advantageous to the interests of the State.

Interest on the loan will commence on the first day of January next, and will be payable at the Bank of the Manhattan Co., in the City of New York.

All proposals must be sealed and endorsed "Loan for Canal Improvements," and directed to the Comptroller of the State of New York, Albany, N. Y.

JAMES A. ROBERTS, Comptroller.

GEORGIA MORTGAGE LOANS.

SOUTHERN LOAN AND TRUST COMPANY OF MACON, GA.

J. S. SCHOFIELD, Pres. H. M. SMITH, Sec.
F. O. SCHOFIELD, Treasurer.

This company makes a specialty of handling a limited amount of the best five-year mortgage loans offered by this community. Doing only a small business in this line we can select the best. Loans secured by business property net the investor six per cent, residence, seven per cent. Principal and interest payable at the Merchants' Exchange National Bank, New York. Correspondence solicited.

NEW LOANS.

City of Portland, Ore.,

5 P. C. GOLD BONDS.

Dated July 1, 1892; due July 1, 1922. Denomination $1,000. Principal and Interest payable in Gold.

PRESENT FINANCIAL CONDITION.

Real valuation	$125,000,000
Assessed valuation	47,089,025
Total debt	84,831,500
Less water debt	3,150,000
Net debt	$1,681,500

Population, estimated, at present, 90,000.

Portland is the natural commercial and distributing centre of the Northwestern States, and has long had the reputation of being one of the most substantial and conservative of the extreme western cities, and it is next to San Francisco in importance.

The total clearings of the banks of Portland for the week ending Nov. 16, 189 , were $1,436,433, as compared with $1,369,705 for the corresponding week of 189 , showing an increase of 4·9%. This is indicative of the business prosperity which is prevailing in this section.

Subject to prior sale and advance in price, we offer these bonds at 114 25 and accrued interest, yielding 4%.

MISCELLANEOUS.

1850. 1895.
The United States Life Insurance Co.
IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

OFFICERS
GEORGE H. BURFORD.....President
